Case No. 800-2016-022657

DECISION

The attached Stipulated Settlement and Disciplinary Order is hereby adopted as the Decision and Order of the Medical Board of California, Department of Consumer Affairs, State of California.

This Decision shall become effective at 5:00 p.m. on November 22, 2019.

IT IS SO ORDERED October 24, 2019.

MEDICAL BOARD OF CALIFORNIA

**Kristina D. Lawson, J.D., Chair
Panel B**

1 XAVIER BECERRA
Attorney General of California

12
13 In the Matter of the Accusation Against:
14 ISAAC M. MINEHART, M.D.
15 P.O. BOX 834
SIERRA MADRE, CA 91024
16 Physician's and Surgeon's Certificate No. A
17 44356,
18 Respondent.

Case No. 800-2016-022657

OAH No. 2019010078

**STIPULATED SETTLEMENT AND
DISCIPLINARY ORDER**

19
20 IT IS HEREBY STIPULATED AND AGREED by and between the parties to the above-
21 entitled proceedings that the following matters are true:

22 **PARTIES**

23 1. Kimberly Kirchmeyer (Complainant) is the Executive Director of the Medical Board
24 of California (Board). She brought this action solely in her official capacity and is represented in
25 this matter by Xavier Becerra, Attorney General of the State of California, by Christina Sein
26 Goot, Deputy Attorney General.

27 ///

28 ///

1 CULPABILITY

2 9. For the purpose of resolving the Accusation without the expense and uncertainty of
3 further proceedings, Respondent agrees that, at a hearing, Complainant could establish a *prima*
4 *facie* case with respect to the charges and allegations contained in Accusation No. 800-2016-
5 022657.

6 10. Respondent agrees that if he ever petitions for modification of these terms, or if a
7 subsequent Accusation is ever filed against him before the Board, all of the charges and
8 allegations contained in Accusation No. 800-2016-022657 shall be deemed true, correct and fully
9 admitted by Respondent for purposes of any such proceeding or any other licensing proceeding
10 involving Respondent in the State of California.

11 11. Respondent agrees that his Physician's and Surgeon's Certificate is subject to
12 discipline and he agrees to be bound by the Board's imposition of discipline as set forth in the
13 Disciplinary Order below.

14 CONTINGENCY

15 12. This stipulation shall be subject to approval by the Medical Board of California.
16 Respondent understands and agrees that counsel for Complainant and the staff of the Medical
17 Board of California may communicate directly with the Board regarding this stipulation and
18 settlement, without notice to or participation by Respondent or his counsel. By signing the
19 stipulation, Respondent understands and agrees that he may not withdraw his agreement or seek
20 to rescind the stipulation prior to the time the Board considers and acts upon it. If the Board fails
21 to adopt this stipulation as its Decision and Order, the Stipulated Settlement and Disciplinary
22 Order shall be of no force or effect, except for this paragraph, it shall be inadmissible in any legal
23 action between the parties, and the Board shall not be disqualified from further action by having
24 considered this matter.

25 13. The parties understand and agree that Portable Document Format (PDF) and facsimile
26 copies of this Stipulated Settlement and Disciplinary Order, including PDF and facsimile
27 signatures thereto, shall have the same force and effect as the originals.

28 ///

1 14. In consideration of the foregoing understandings and stipulations, the parties agree
2 that the Board may, without further notice or formal proceeding, issue and enter the following
3 Disciplinary Order:

4 **DISCIPLINARY ORDER**

5 **A. PUBLIC REPRIMAND**

6 **IT IS HEREBY ORDERED THAT** Physician's and Surgeon's Certificate No. A 44356
7 issued to Isaac M. Minehart, M.D., shall be and is hereby publicly reprimanded pursuant to
8 California Business and Professions Code section 2227, subdivision (a)(4). This Public
9 Reprimand, which is issued in connection with Accusation No. 800-2016-022657, is as follows:

10 "You managed the chronic pain of Patient 1 from April 2014 through April 2016, Patient 2
11 from November 2015 through October 2016, and Patient 3 from January 2000 through September
12 2016. During these time periods, you failed to perform urine drug testing on Patients 1, 2, and 3.
13 With respect to Patient 2, you also failed to document your rationale for continuing the patient's
14 prescription for opioids in conjunction with other sedating drugs."

15 **B. PRESCRIBING PRACTICES COURSE. IT IS FURTHER ORDERED THAT**

16 within 60 calendar days of the effective date of this Decision, Respondent shall enroll in a course
17 in prescribing practices approved in advance by the Board or its designee. Respondent shall
18 provide the approved course provider with any information and documents that the approved
19 course provider may deem pertinent. Respondent shall participate in and successfully complete
20 the classroom component of the course not later than six (6) months after Respondent's initial
21 enrollment. Respondent shall successfully complete any other component of the course within
22 one (1) year of enrollment. The prescribing practices course shall be at Respondent's expense
23 and shall be in addition to the Continuing Medical Education (CME) requirements for renewal of
24 licensure.

25 A prescribing practices course taken after the acts that gave rise to the charges in the
26 Accusation, but prior to the effective date of the Decision may, in the sole discretion of the Board
27 or its designee, be accepted towards the fulfillment of this condition if the course would have
28 been approved by the Board or its designee had the course been taken after the effective date of

1 this Decision.

2 Respondent shall submit a certification of successful completion to the Board or its
3 designee not later than 15 calendar days after successfully completing the course, or not later than
4 15 calendar days after the effective date of the Decision, whichever is later.

5 **C. MEDICAL RECORD KEEPING COURSE. IT IS FURTHER ORDERED**
6 **THAT** within 60 calendar days of the effective date of this Decision, Respondent shall enroll in a
7 course in medical record keeping approved in advance by the Board or its designee. Respondent
8 shall provide the approved course provider with any information and documents that the approved
9 course provider may deem pertinent. Respondent shall participate in and successfully complete
10 the classroom component of the course not later than six (6) months after Respondent's initial
11 enrollment. Respondent shall successfully complete any other component of the course within
12 one (1) year of enrollment. The medical record keeping course shall be at Respondent's expense
13 and shall be in addition to the Continuing Medical Education (CME) requirements for renewal of
14 licensure.

15 A medical record keeping course taken after the acts that gave rise to the charges in the
16 Accusation, but prior to the effective date of the Decision may, in the sole discretion of the Board
17 or its designee, be accepted towards the fulfillment of this condition if the course would have
18 been approved by the Board or its designee had the course been taken after the effective date of
19 this Decision.

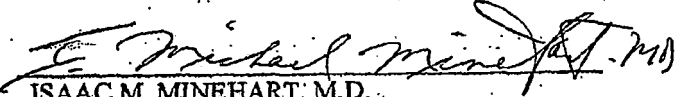

20 Respondent shall submit a certification of successful completion to the Board or its
21 designee not later than 15 calendar days after successfully completing the course, or not later than
22 15 calendar days after the effective date of the Decision, whichever is later.

23 **D. FAILURE TO COMPLY.** Failure to comply with any of the terms of this
24 Disciplinary Order shall constitute general unprofessional conduct and may serve as grounds for
25 further disciplinary action.

11 In the Matter of the Accusation Against:

Case No. 800-2016-022657

12 Isaac M. Minehart, M.D.
13 P.O. Box 834
Sierra Madre, California
14 91024

ACCUSATION

15 Physician's and Surgeon's Certificate
No. A 44356,

16 Respondent.

17
18 Complainant alleges:

19 **PARTIES**

20 1. Kimberly Kirchmeyer (Complainant) brings this Accusation solely in her official
21 capacity as the Executive Director of the Medical Board of California, Department of Consumer
22 Affairs (Board).

23 2. On or about January 4, 1988, the Medical Board issued Physician's and Surgeon's
24 Certificate Number A 44356 to Isaac M. Minehart, M.D. (Respondent). That Physician's and
25 Surgeon's Certificate was in full force and effect at all times relevant to the charges brought
26 herein and will expire on July 31, 2019, unless renewed.

27 ///

28 ///

1 **JURISDICTION**

2 3. This Accusation is brought before the Board, under the authority of the following
3 laws. All section references are to the Business and Professions Code unless otherwise indicated.

4 4. Section 2227 of the Code states:

5 “(a) A licensee whose matter has been heard by an administrative law judge of the Medical
6 Quality Hearing Panel as designated in Section 11371 of the Government Code, or whose default
7 has been entered, and who is found guilty, or who has entered into a stipulation for disciplinary
8 action with the board, may, in accordance with the provisions of this chapter:

9 “(1) Have his or her license revoked upon order of the board.

10 “(2) Have his or her right to practice suspended for a period not to exceed one year upon
11 order of the board.

12 “(3) Be placed on probation and be required to pay the costs of probation monitoring upon
13 order of the board.

14 “(4) Be publicly reprimanded by the board. The public reprimand may include a
15 requirement that the licensee complete relevant educational courses approved by the board.

16 “(5) Have any other action taken in relation to discipline as part of an order of probation, as
17 the board or an administrative law judge may deem proper.

18 “(b) Any matter heard pursuant to subdivision (a), except for warning letters, medical
19 review or advisory conferences, professional competency examinations, continuing education
20 activities, and cost reimbursement associated therewith that are agreed to with the board and
21 successfully completed by the licensee, or other matters made confidential or privileged by
22 existing law, is deemed public, and shall be made available to the public by the board pursuant to
23 Section 803.1.”

24 5. Section 2234 of the Code, states:

25 “The board shall take action against any licensee who is charged with unprofessional
26 conduct. In addition to other provisions of this article, unprofessional conduct includes, but is not
27 limited to, the following:

28 “(a) Violating or attempting to violate, directly or indirectly, assisting in or abetting the

1 violation of, or conspiring to violate any provision of this chapter.

2 “(b) Gross negligence.

3 “(c) Repeated negligent acts. To be repeated, there must be two or more negligent acts or
4 omissions. An initial negligent act or omission followed by a separate and distinct departure from
5 the applicable standard of care shall constitute repeated negligent acts.

6 “(1) An initial negligent diagnosis followed by an act or omission medically appropriate
7 for that negligent diagnosis of the patient shall constitute a single negligent act.

8 “(2) When the standard of care requires a change in the diagnosis, act, or omission that
9 constitutes the negligent act described in paragraph (1), including, but not limited to, a
10 reevaluation of the diagnosis or a change in treatment, and the licensee's conduct departs from the
11 applicable standard of care, each departure constitutes a separate and distinct breach of the
12 standard of care.

13 “(d) Incompetence.

14 “(e) The commission of any act involving dishonesty or corruption which is substantially
15 related to the qualifications, functions, or duties of a physician and surgeon.

16 “(f) Any action or conduct which would have warranted the denial of a certificate.

17 “(g) The practice of medicine from this state into another state or country without meeting
18 the legal requirements of that state or country for the practice of medicine. Section 2314 shall not
19 apply to this subdivision. This subdivision shall become operative upon the implementation of
20 the proposed registration program described in Section 2052.5.

21 “(h) The repeated failure by a certificate holder, in the absence of good cause, to attend and
22 participate in an interview by the board. This subdivision shall only apply to a certificate holder
23 who is the subject of an investigation by the board.”

24 FACTS

25 **Patient 1:**¹

26 6. Respondent first saw Patient 1 on April 16, 2014, for complaints of left heel pain and
27 low back pain. The patient reported fracturing his heel in 2007. The initial examination showed

28 ¹ Patients are identified by number to protect their privacy.

1 pain over the Achilles. The diagnosis was an occult fracture of the left heel with sympathetically
2 maintained pain. Respondent's treatment plan was for a diagnostic sympathetic injection on the
3 left heel plus a caudal epidural, along with maintenance of his methadone² prescription from a
4 prior treatment provider.

5 7. Respondent next saw Patient 1 on May 8, 2014, when consideration of a bone scan is
6 noted, although the records do not reflect that the scan was ordered. Respondent took over
7 Patient 1's prescriptions for methadone, #360 from Dr. H., adding Dilaudid,³ 4 mg #30, on the
8 same date. Patient 1 continued to follow up with Respondent on monthly basis and on July 31,
9 2014, it was noted that he could function on his Dilaudid/methadone combination.

10 8. Patient 1 was involved in a motor vehicle accident on September 29, 2014, which he
11 reported to Respondent had increased his back pain. He was diagnosed as having an annular tear
12 in the lumbar disc, along with lumbar facet arthropathy. A lumbar MRI and discogram were
13 considered, although no records that the MRI or the sympathetic injection were ever done.

14 9. Respondent's medical records for October 29, 2014, indicate that Patient 1 was taking
15 Xanax,⁴ although there is no information as to the origin of the prescription. The CURES report
16 reflects that Patient 1 was also taking doxepin⁵ for attention deficit disorder.

17 10. Respondent's notes for March 17, 2015, indicate that Patient 1's Dilaudid frequency
18 was not effective in reducing his pain and the Dilaudid was increased to #60 to increase the
19 frequency of the dose.

20 11. Respondent's diagnosis on June 30, 2015, changed from sympathetically maintained
21 pain to complex regional pain syndrome. The plan continued to be a sympathetic block. The

22 ² Methadone, sold under the brand name Dolophine, among others, is an opioid used to
23 treat pain and as maintenance therapy or to help with tapering in people with opioid dependence.

24 ³ Dilaudid is a narcotic analgesic used to treat moderate to severe pain.

25 ⁴ Xanax is an antianxiety agent of the benzodiazepine class, which are any of several
26 similar lipophilic amines used as tranquilizers or sedatives or hypnotics or muscle relaxants;
27 chronic use can lead to dependency.

28 ⁵ Doxepin is used to treat depression, anxiety disorders, itchiness, trouble sleeping, and as
a second-line treatment of chronic idiopathic urticaria (hives). Its oral formulations are FDA-
approved for the treatment of depression, anxiety, and insomnia and its topical formulations are
FDA-approved the short-term management (up to 8 days) of atopic dermatitis and lichen simplex
chronicus. Whereas in Australia and the UK, the only licensed indication(s) is/are in the
treatment of major depression and pruritus in eczema, respectively.

1 notes indicate that no bone scan had been performed as of November 17, 2015, because Patient 1
2 could not afford the one-thousand-dollar deductible.

3 12. Respondent's notes of March 8, 2016, indicate that Patient 1 wanted to get off opioids
4 and Respondent recommended transbuccal buprenorphine.⁶ However, notes for April 5, 2016,
5 indicate that Patient 1 needed prior authorization to change the medication regimen so his
6 medications continued to be refilled.

7 13. Respondent's care of Patient 1 ended after April 5, 2016, when Patient 1 transferred
8 to another physician.

9 14. Respondent's records do not reflect risk stratification or urine drug screens for Patient
10 1.

11 **Patient 2:**

12 15. Patient 2 was first seen by Respondent on November 3, 2015, on a referral by Dr. R.,
13 who retired. A comprehensive examination and patient history indicated a history of
14 hypothyroidism⁷ and a previous cesarean section. Patient 2 reported back pain stemming from a
15 car accident in 1988. Respondent adjusted Patient 2's medications and recommended "a whole
16 body SPECT CT fusion of the neck." Respondent's first prescriptions for Patient 2 for this date
17 were for oxymorphone⁸ 10 mg #360, Soma⁹ 350 mg #120 and morphine¹⁰ 100 mg #90. A second

18 ⁶ Buprenorphine is a synthetic opioid agonist-antagonist derived from Thebaine, used in
19 the form of a hydrochloride salt as an analgesic for moderate to severe pain and as an anesthesia
20 adjunct. It is usually administered sublingually or by intramuscular or intravenous injection.
21 Transbuccal means via the cheeks or the mouth cavity.

22 ⁷ Hypothyroidism, also called underactive thyroid or low thyroid, is a common disorder of
23 the endocrine system in which the thyroid gland does not produce enough thyroid hormone. It
24 can cause a number of symptoms, such as poor ability to tolerate cold, a feeling of tiredness,
25 constipation, depression, and weight gain. Occasionally there may be swelling of the front part of
26 the neck due to goiter. Untreated hypothyroidism during pregnancy can lead to delays in growth
27 and intellectual development in the baby, which is called cretinism.

28 ⁸ Oxymorphone (brand names Opana, Numorphan, Numorphone), also known as 14-
hydroxydihydromorphinone, is a powerful semi-synthetic opioid analgesic (painkiller) first
developed in Germany in 1914, patented in the USA by Endo Pharmaceuticals in 1955 and
introduced to the United States market in January 1959.

⁹ Soma, also known as carisoprodol, is an analgesic and skeletal muscle relaxant used to
relieve symptoms of acute painful skeletomuscular disorders, administered orally.

¹⁰ Morphine is the principal and most active opium alkaloid, an opioid analgesic and
respiratory depressant, usually used as a sulfate salt and administered orally, parenterally, or
rectally. It is used as an analgesic for relief of severe pain, antitussive, adjunct to anesthesia, and
adjunct to treatment of pulmonary edema caused by left ventricular failure. Its use carries with it

1 physician, Dr. G. continued to provide lorazepam.¹¹ Respondent stopped the transbuccal fentanyl
2 prescription previously provided by Dr. R.

3 16. In March 2016, Respondent changed Patient 2's diagnosis to sympathetically
4 maintained pain in the low back and buttocks, indicating that this was the primary diagnosis for
5 Patient 2. However, no examination of the low back or buttocks is reflected in the records and no
6 rationale is provided for that that diagnosis.

7 17. Respondent continued to see Patient 2 monthly until October 4, 2016, prescribing
8 controlled substances on an ongoing basis. However, Respondent's notes do not reflect the
9 rationale for the maintenance of high dose opioids in conjunction with other sedating drugs. On
10 the final visit with Respondent, Patient 2's prescriptions were for Lyrica,¹² Kadian,¹³
11 oxycodone,¹⁴ gabapentin,¹⁵ Nucynta,¹⁶ Lamictal,¹⁷ Movantik¹⁸ and Synthroid.¹⁹ Respondent's
12 final notes for Patient 2 indicate a diagnoses of cervical and lumbar degenerative disc disease,
13 sympathetically mediated back and buttock pain, opioid induced constipation and history of
14 hypothyroidism.

15 18. According to the records Respondent did not perform urine drug testing for Patient 2
16 at any time.

17 19. Respondent's notes do not clearly identify the legitimate medical purposes for the
18 various medications that were prescribed.

19 the dangers of addiction, as well as drug tolerance. Since morphine is a powerful respiratory
20 depressant, it should be withheld and the patient carefully assessed if the patient's respirations are
less than 12 per minute.

21 ¹¹ Lorazepam is a benzodiazepine derivative used as an antianxiety agent, sedative-
hypnotic, pre-anesthetic medication, and anticonvulsant, and as an antiemetic in cancer
22 chemotherapy; administered orally, intravenously, or intramuscularly.

23 ¹² Lyrica is an anticonvulsant used to relieve fibromyalgia and neuropathic pain.

24 ¹³ Kadian is extended release morphine sulfate.

25 ¹⁴ Oxycodone is an opioid analgesic derived from morphine; used in the form of the
hydrochloride and terephthalate salts, administered orally or rectally.

26 ¹⁵ Gabapentin is an anticonvulsant chemically related to γ -aminobutyric acid, used in
treatment of partial seizures; administered orally.

27 ¹⁶ Nucynta is a trade name for tapentadol. It is an opioid analgesic.

28 ¹⁷ Lamictal is an anticonvulsant used to treat epilepsy and bipolar disorder.

¹⁸ Movantik is used as a treatment for opioid-caused constipation (OIC) in patients
receiving chronic opioids for chronic non-cancer pain when traditional laxatives have failed. It
acts peripherally as a mu receptor antagonist, blocking opioid receptors in the GI tract.

¹⁹ Synthroid is a trademark for a preparation of levothyroxine sodium, a thyroid hormone.

1 **Patient 3:**

2 20. Respondent first saw Patient 3 on January 10, 2000, where he reported a history that
3 included a motor vehicle accident at age 17, and complaints of chronic headaches. Respondent's
4 notes include a well-documented, comprehensive examination and note that Patient 3 was
5 currently being prescribed OxyContin²⁰ at 320 mg per day. Patient 3 was also taking Klonopin²¹
6 2 mg, at night. The initial exam details previous treatments and evaluations. The primary
7 diagnosis was cervical sprain injury with secondary headaches. Multiple tests were ordered at the
8 initial visit including a chemistry panel, a bone scan, a cervical MRI, a sleep study, glucose
9 testing and allergy testing.

10 21. Respondent saw Patient 3 approximately every month intermittently for the next
11 several years, during which time Respondent adjusted Patient 3's pain medications in response to
12 changing complaints by Patient 3.

13 22. On about July 08, 2010, Patient 3 was assaulted by his son-in-law and struck in the
14 face. The notes document pain and difficulty concentrating and difficulty working since this
15 incident. He was seen by neurologist following the assault and Respondent's notes indicate a
16 diagnosis of posttraumatic temporal headaches. Patient 3's complaints related to the assault
17 continue to be mentioned in subsequent notes.

18 23. On June 25, 2012, Respondent performed a T1-2 interlaminar epidural steroid
19 injection at Arcadia Surgical Medical Center. Respondent's records from July 2, 2012, indicate
20 that Patient 3 reported fifty per-cent pain relief and the procedure was repeated on July 2, 2012.
21 Subsequent notes indicated that his upper extremity radiculopathy was resolved.

22 24. On May 6, 2014, Patient 3 was given trigger point injections to the right trapezius.

23 25. On September 23, 2014, a cervical MRI was done revealing Patient 3's spondylosis
24 and stenosis were worse at C5-6.

25 ///

26 ²⁰ OxyContin is an opioid agonist and Schedule II controlled substance, with abuse
27 potential similar to morphine.

28 ²¹ Klonopin is a trademark for a preparation of clonazepam, an anticonvulsant and anti-
panic agent.

1 26. Respondent's notes from December 15, 2015, indicate that Respondent intended to
2 "eventually . . . try to switch to Butrans patch. He is doing quite well and functioning with 200
3 mg and MS Contin²² every 8 hours with clonazepam." However, the note does not indicate why
4 transitioning to Butrans was being considered. Respondent's notes also refer to Respondent's
5 intent to refer Patient 3 to Dr. E.F., a neurologist, because of Patient 3's difficulty finding words
6 raising the possibility of a partial complex seizure disorder.

7 27. An April 5, 2016, note suggests switching Patient 3 to transbuccal buprenorphine.
8 However, no rationale is provided for this change, although the note does mention that Patient 3
9 has high tolerance and is taking high doses of opioids to control his pain. Respondent's plan, as
10 reflected in his notes, was to eventually convince Patient 3 to switch to buprenorphine and taper
11 off his medications.

12 28. Respondent's notes of May 31, 2016, indicate a plan was to stop Ambien²³ and switch
13 to Seroquel.²⁴

14 29. On June 28, 2016, Patient 3 again had back and thigh pain after a 15-hour airplane
15 flight.

16 30. On August 23, 2016, Patient 3 reported too many side effects from Seroquel and
17 asked to go back to Ambien. Instead, Respondent provided Belsomra.²⁵

18 31. On Patient 3's last visit with Respondent on September 20, 2016, Respondent's notes
19 again mention tapering Patient 3 off opioids.

20 **FIRST CAUSE FOR DISCIPLINE**

21 **(Unprofessional Conduct - repeated negligent acts)**

22 32. Respondent is subject to disciplinary action under section 2234, subdivision (c) in
23 that he engaged in repeated negligent acts. The circumstances are as follows:

24
25 ²² MS Contin is a morphine sulfate (MS), used for formulation of tablets as well as
26 solutions for parenteral, epidural, or intrathecal injection to relieve pain.

27 ²³ Ambien is a sedative.

28 ²⁴ Quetiapine, marketed as Seroquel among others, is an atypical antipsychotic used for
the treatment of schizophrenia, bipolar disorder, and major depressive disorder.

²⁵ Belsomra is a trade name for suvorexant, a sedative used for the treatment of insomnia
associated with difficulty in sleep onset and/or maintenance.

1 33. Paragraphs 6 through 31 are incorporated herein by reference as though fully set
2 forth.

3 34. Respondent failed to perform risk stratification for Patient 1, Patient 2 and Patient 3,
4 which constitutes repeated negligent acts.

5 35. Respondent prescribed several medications for Patient 2 without documenting a
6 legitimate medical purpose, which constitutes a negligent act.

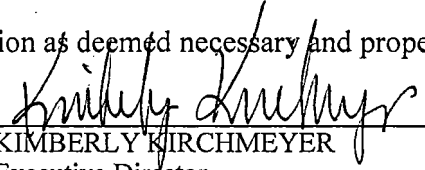

7 36. Respondent failed to perform urine testing for Patient 1, Patient 2 and Patient 3,
8 which constitutes repeated negligent acts.

9 **PRAYER**

10 WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged,
11 and that following the hearing, the Medical Board of California issue a decision:

- 12 1. Revoking or suspending Physician's and Surgeon's Certificate Number A 44356,
- 13 issued to Isaac M. Minehart, M.D.;
- 14 2. Revoking, suspending or denying approval of Isaac M. Minehart, M.D.'s authority to
- 15 supervise physician assistants and advanced practice nurses;
- 16 3. Ordering Isaac M. Minehart, M.D., if placed on probation, to pay the Board the costs
- 17 of probation monitoring; and
- 18 4. Taking such other and further action as deemed necessary and proper.

19 DATED: June 28, 2018

 KIMBERLY KIRCHMEYER
 Executive Director
 Medical Board of California
 Department of Consumer Affairs
 State of California
Complainant
