**BEFORE THE
MEDICAL BOARD OF CALIFORNIA
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA**

In the Matter of the Accusation against:

ARON LOUIS ROTMAN, Respondent

Agency Case No. 800-2018-046882

OAH No. 2019030985

PROPOSED DECISION

Matthew Goldsby, Administrative Law Judge, Office of Administrative Hearings (OAH), State of California, heard this matter on September 23, 2019, in Los Angeles, California.

Rebecca D. Wagner, Deputy Attorney General, appeared and represented complainant Kimberly Kirchmeyer, Executive Director of the Medical Board of California (Board), Department of Consumer Affairs.

Henry R. Fenton, Attorney at Law, appeared and represented respondent Aron Louis Rotman, M.D., who was present throughout the hearing.

Oral and documentary evidence was received. The record was closed and the matter was submitted for decision on September 23, 2019.

FACTUAL FINDINGS

Jurisdictional Matters

1. Complainant brought the Accusation in her official capacity. Respondent timely submitted a Notice of Defense.

2. On April 28, 1992, the Board issued Physician's and Surgeon's Certificate Number G 73976 to respondent. The certificate is renewed and current with an expiration date of November 30, 2019.

Conviction

3. On April 29, 2016, respondent entered a plea of nolo contendere and was convicted of three counts of failing to make, keep, or furnish a record of information in violation of Florida Statute 893.13(7)(a)(2), a misdemeanor. (*People v. Rotman* (Cir. Ct., 9th Jud. Cir., Orange County, 2016, No. 2012-CF-1444-0).) Pursuant to the plea agreement, the court dismissed all remaining counts against respondent, including charges of conspiracy to commit racketeering and the unlawful delivery of oxycodone. (Exhibit 5, page 033.)

4. The court withheld adjudication, sentenced respondent to jail for a period of 19 days with credit for 19 days served, and placed respondent on probation for a period of one year, subject to standard conditions and additional orders to testify truthfully when requested by the state, and to appear or testify upon request.

5. Complainant referred to allegations made in the criminal complaint to demonstrate the facts and circumstances of the conviction. However, the allegations set forth in the counts that were dismissed are given no weight because there was no

adjudication of those allegations and complainant presented no evidence to independently establish those facts.

6. In his plea agreement, respondent agreed to plead nolo contendere to Count 14, which alleged that "on or about April 1, 2011, ... as part of a related transaction occurring in or in connection with an organized criminal conspiracy affecting two or more judicial districts of Florida ... [respondent] did unlawfully and knowingly refuse, or failed to make, keep, or furnish any record, notification, order form, statement, invoice, or information in violation of sections 893.13(7)(a)2 Florida statutes." (Exhibit 5, page 062.)

7. Respondent also agreed to plead nolo contendere to Counts 15 and 16, which made the same factual charges against respondent as in Factual Finding 6, except that the incidences occurred on April 14, 2011, and March 18, 2011, respectively.

8. At paragraph 18 of the plea agreement, respondent stipulated and agreed, "The state can present a factual basis for the charges to which I am entering my plea, and that the Affidavits, Police Reports or other documents filed in the Court file with a factual recitation made by the State constitutes a factual basis for the Court to accept my plea." (Exhibit 5, page 027.)

9. Respondent testified that the charges related to individuals he treated during his employment at a Florida clinic, but that he had no recall of any specific instance of failing to make or keep a medical record. On the contrary, respondent testified that the charges were not based on any evidence of wrongdoing, that he would never leave the office until a patient's record was completed, that he was not involved in the maintenance of a patient record at the clinic after he completed it, and

that he never engaged in unlawful conduct. Respondent denied any wrongdoing and testified that he accepted the plea agreement only to avoid the cost of defense. In support of his testimony, respondent presented a letter written by his defense attorney to the Florida Board of Medicine in which he wrote, "These were charges that were crafted, not based on actual evidence, but for the specific purpose of coming up with a resolution that would save face for the prosecution and avoid a criminal conviction for Dr. Rotman." (Exhibit D.)

10. Regardless of the various motives to enter a plea of nolo contendere, a conviction based on such a plea stands as conclusive evidence in disciplinary actions of a respondent's guilt. "To hold otherwise would impose upon administrative boards extensive, time-consuming hearings aimed at relitigating criminal charges which had culminated in final judgments of conviction." (*Arneson v. Fox* (1980) 28 Cal.3d 440, 449.) The licensee may introduce evidence of extenuating circumstances to establish mitigation, explanation, or rehabilitation. (*Brandt v. Fox* (1979) 90 Cal.App.3d 737.) However, an inquiry into the circumstances surrounding the offense "should not form the basis of impeaching a prior conviction." (*Matanky v. Board of Medical Examiners* (1978) 79 Cal.App.3d 293, 302.)

11. Accordingly, the 2016 conviction described at Factual Finding 3 is conclusive evidence that, on three separate instances in March and April 2011, respondent willfully and unlawfully failed to keep medical records as part of a related transaction occurring in or in connection with an organized criminal conspiracy affecting two or more judicial districts of Florida.

Out-of-State Discipline

12. Respondent is a licensed physician in the state of Florida having been issued license number ME 103367.

13. The Department of Health for the State of Florida filed an Administrative Complaint alleging the 2016 conviction described at Factual Finding 3 violated Florida law and regulations.

14. On August 9, 2018, the Florida Board of Medicine issued a reprimand against respondent's Florida license and imposed an administrative fine in the sum of \$4,000. Respondent was ordered to complete board-approved courses in "laws and rules" and medical records within one year of the date of the final order, or a California-equivalent course in each subject. (Exhibit 6, page 010.)

Mitigation and Rehabilitation.

15. Respondent completed all terms and conditions of probation ordered by the criminal court. (Exhibit A.)

16. Respondent paid all administrative fines imposed by the Florida Board of Medicine and timely satisfied the educational course requirements at the University of California, Irvine School of Medicine. (Exhibit C.)

17. Respondent has no prior record of discipline in California. There is no evidence that respondent has failed to maintain an adequate medical record since April 14, 2011, the most recent date for which there is evidence of his failure to keep adequate medical records.

18. Respondent presented a character reference letter written by a licensed physician who wrote that he has known and worked with respondent for two years and has observed him to provide "medical care in the highest standards of medical practice." (Exhibit E.)

19. Respondent is raising his son as a single parent and also supports his ex-wife.

LEGAL CONCLUSIONS

Standard of Proof

1. The standard of proof in an administrative action seeking to suspend or revoke a professional license is clear and convincing proof to a reasonable certainty. (*Ettinger v. Board of Medical Quality Assurance* (1982) 135 Cal.App.3d 853, 856.)

2. Clear and convincing evidence requires a finding of high probability. The evidence must be so clear as to leave no substantial doubt. It must be sufficiently strong to command the unhesitating assent of every reasonable mind. (*Christian Research Institute v. Alnor* (2007) 148 Cal.App.4th 71, 84.)

Governing Law

3. The Board shall take action against any licensee who is charged with unprofessional conduct. (Bus. & Prof. Code, § 2234.)

4. The conviction of any offense substantially related to the qualifications, functions, or duties of a physician and surgeon constitutes unprofessional conduct. (Bus. & Prof. Code, § 2236, subd. (a).) A crime is considered to be substantially related

to the qualifications, functions or duties of a person holding a physician's and surgeon's certificate if to a substantial degree it evidences present or potential unfitness of the certificate holder to perform the functions authorized by the certificate in a manner consistent with the public health, safety, or welfare. (Cal. Code Regs, tit. 16, § 1360.)

5. Discipline imposed by another state upon a license or certificate to practice medicine issued by that state, that would have been grounds for discipline in California of a licensee, is grounds for disciplinary action for unprofessional conduct against the licensee in this state. (Bus. & Prof. Code, §§ 2305 and 141.) A certified copy of the record of the disciplinary action taken against the licensee by another state is conclusive evidence of the events related therein. (Bus. & Prof. Code, § 141.)

6. In this case, respondent was convicted of failing to maintain adequate medical records in relation to three patients. The unlawful conduct is substantially related to the qualifications, functions and duties of a person holding a physician's and surgeon's certificate because failing to maintain medical records is evidence, to a substantial degree, of a present or potential unfitness to perform the functions and duties of a licensed medical doctor in a manner consistent with the public health, safety, or welfare. Accordingly, cause exists to discipline respondent's license for unprofessional conduct under Business and Professions Code section 2236, subdivision (a).

7. The conviction was the basis for discipline imposed by the Board of Medicine for the State of Florida and is grounds for discipline in California. Accordingly, cause exists to discipline respondent's license for unprofessional conduct under Business and Professions Code sections 2305 and 141.

Level of Discipline

8. A licensee whose matter has been heard by an administrative law judge of the Medical Quality Hearing Panel, and who is found guilty may: (1) Have his or her license revoked upon order of the Board; (2) have his or her right to practice suspended for a period not to exceed one year upon order of the Board; (3) be placed on probation and be required to pay the costs of probation monitoring upon order of the board; (4) be publicly reprimanded by the Board, including a requirement that the licensee complete relevant educational courses approved by the Board; and (5) have any other action taken in relation to discipline as part of an order of probation, as the Board or an administrative law judge may deem proper. (Bus. & Prof. Code, § 2227, subd. (a).)

9. Protection of the public is the highest priority for the Board. (Bus. & Prof. Code, § 2229.) To the extent not inconsistent with public protection, disciplinary actions shall be calculated to aid in the rehabilitation of licensees.

10. In reaching a decision on a disciplinary action against a licensee, the Board is required to consider the orders and guidelines of the *Manual of Model Disciplinary Orders and Disciplinary Guidelines, 12th Edition, 2016* (Guidelines). (Cal. Code Regs., tit. 16, § 1361, subd. (a).)

11. For the conviction of a crime substantially related to the qualifications, functions or duties of a physician and surgeon and arising from or occurring during patient care, treatment, management or billing, the Guidelines recommend a minimum penalty of stayed revocation and probationary restrictions for seven years.

12. For a violation of Business and Profession Code sections 2305 and 141, the Guidelines recommend a minimum penalty commensurate with the discipline imposed by the other state.

Mitigating Factors and Rehabilitation

13. Deviating from the guidelines is appropriate where the facts of the particular case warrant such a deviation, such as the presence of mitigating factors, the age of the case, and evidentiary problems. (Cal. Code Regs., tit. 16, § 1361, subd. (a).) Rehabilitation requires a consideration of those offenses from which one has allegedly been rehabilitated. (*Pacheco v. State Bar* (1987) 43 Cal.3d 1041, 1048.)

14. Here, the nature of respondent's misconduct arose from or occurred during patient care management in that he failed to maintain proper medical records. The offense was severe enough to warrant a criminal conviction. At the hearing, respondent was defensive and refused to acknowledge wrongdoing, an essential step towards rehabilitation. (*Seide v. Committee of Bar Examiners* (1989) 49 Cal.3d 933.) While a candid admission of misconduct and full acknowledgment of wrongdoing may be a necessary step in the rehabilitation process, it is only a first step. A truer indication of rehabilitation is presented if an individual demonstrates by sustained conduct over an extended period of time that he is once again fit to practice. (*In re Trebilcock* (1981) 30 Cal.3d 312.)

15. Notwithstanding his denial of wrongdoing, respondent demonstrated cooperation by completing all terms and conditions of probation ordered by the criminal court and he paid all administrative fines and completed all coursework ordered by the Florida Medical Board. Also, respondent has been licensed for 27 years in California and the absence of a prior disciplinary record is a mitigating factor.

(*Chefsky v. State Bar* (1984) 36 Cal.3d 116, 132, fn. 10.) There is evidence of three instances of failing to keep an adequate medical record in March and April 2011, and nine years have passed without evidence of similar misconduct. Rehabilitation is indicated by sustained conduct over an extended period of time since the violation demonstrating fitness to practice. (*In re Trebilcock* (1981) 30 Cal.3d 312, 315-316.) Respondent has completed appropriate coursework in ethics and medical record keeping, and a licensed medical doctor has vouched for respondent's ability to meet the standard of care applicable to physicians.

16. A public reprimand is the most appropriate sanction under the facts and circumstances of this case. This level of discipline is consistent with the Guidelines and authorized by Business and Professions Code section 2227, subdivision (a)(4). Public protection does not require respondent be placed on probation or that any conditions be placed on the public reprimand.

ORDER

Physician's and Surgeon's Certificate number G 73976 issued to respondent Aron Louis Rotman, M.D., is hereby publicly reprimanded pursuant to Business and Professions Code section 2227, subdivision (a)(4).
