1 CULPABILITY

2 8. Respondent does not contest that, at an administrative hearing, Complainant could
3 establish a *prima facie* case with respect to the charges and allegations contained in Accusation
4 No. 800-2017-035808, a copy of which is attached hereto as Exhibit A, and that he has thereby
5 subjected his Physician's and Surgeon's Certificate No. A 112663 to disciplinary action.

6 9. Respondent agrees that if an accusation is ever filed against him before the Medical
7 Board of California, all of the charges and allegations contained in Accusation No. 800-2017-
8 035808 shall be deemed true, correct and fully admitted by Respondent for purposes of that
9 proceeding or any other licensing proceeding involving Respondent in the State of California.

10 10. Respondent agrees that his Physician's and Surgeon's Certificate No. A 112663 is
11 subject to discipline and he agrees to be bound by the Board's imposition of discipline as set forth
12 in the Disciplinary Order below.

13 CONTINGENCY

14 11. This Stipulated Settlement and Disciplinary Order shall be subject to approval by the
15 Board. The parties agree that this Stipulated Settlement and Disciplinary Order shall be
16 submitted to the Board for its consideration in the above-entitled matter and, further, that the
17 Board shall have a reasonable period of time in which to consider and act on this Stipulated
18 Settlement and Disciplinary Order after receiving it. By signing this stipulation, Respondent fully
19 understands and agrees that he may not withdraw his agreement or seek to rescind this stipulation
20 prior to the time the Board considers and acts upon it.

21 12. The parties agree that this Stipulated Settlement and Disciplinary Order shall be null
22 and void and not binding upon the parties unless approved and adopted by the Board, except for
23 this paragraph, which shall remain in full force and effect. Respondent fully understands and
24 agrees that in deciding whether or not to approve and adopt this Stipulated Settlement and
25 Disciplinary Order, the Board may receive oral and written communications from its staff and/or
26 the Attorney General's Office. Communications pursuant to this paragraph shall not disqualify
27 the Board, any member thereof, and/or any other person from future participation in this or any
28 other matter affecting or involving Respondent. In the event that the Board does not, in its

1 discretion, approve and adopt this Stipulated Settlement and Disciplinary Order, with the
2 exception of this paragraph, it shall not become effective, shall be of no evidentiary value
3 whatsoever, and shall not be relied upon or introduced in any disciplinary action by either party
4 hereto. Respondent further agrees that should this Stipulated Settlement and Disciplinary Order
5 be rejected for any reason by the Board, Respondent will assert no claim that the Board, or any
6 member thereof, was prejudiced by its/his/her review, discussion and/or consideration of this
7 Stipulated Settlement and Disciplinary Order or of any matter or matters related hereto.

8 **ADDITIONAL PROVISIONS**

9 13. This Stipulated Settlement and Disciplinary Order is intended by the parties herein
10 to be an integrated writing representing the complete, final and exclusive embodiment of the
11 agreements of the parties in the above-entitled matter.

12 14. The parties understand and agree that Portable Document Format (PDF) and facsimile
13 copies of this Stipulated Settlement and Disciplinary Order, including PDF and facsimile
14 signatures thereto, shall have the same force and effect as the originals.

15 15. In consideration of the foregoing admissions and stipulations, the parties agree that
16 the Board may, without further notice to or opportunity to be heard by Respondent, issue and
17 enter the following Disciplinary Order:

1 **JURISDICTION**

2 3. This Accusation is brought before the Board, under the authority of the following
3 laws. All section references are to the Business and Professions Code (Code) unless otherwise

5 4. Section 2220 of the Code states:

6 “Except as otherwise provided by law, the board may take action against all
7 persons guilty of violating this chapter. . .”

8 5. Section 2227 of the Code states:

9 “(a) A licensee whose matter has been heard by an administrative law judge of
10 the Medical Quality Hearing Panel as designated in Section 11371 of the Government
11 Code, or whose default has been entered, and who is found guilty, or who has entered
12 into a stipulation for disciplinary action with the board, may, in accordance with the
13 provisions of this chapter:

17 7. Section 2266 of the Code states:

18 “The failure of a physician and surgeon to maintain adequate and accurate
19 records relating to the provision of services to their patients constitutes unprofessional

21 **FIRST CAUSE FOR DISCIPLINE**

22 **(Repeated Negligent Acts)**

23 8. Respondent has subjected his Physician’s and Surgeon’s Certificate No. A 112663 to
24 disciplinary action under sections 2227 and 2234, as defined by section 2234, subdivision (c), of
25 the Code, in that he committed repeated negligent acts in his care and treatment of Patient A, as
26 more particularly alleged hereinafter:¹

27 ///

28

 ¹ References to “Patient A” herein are used to protect patient privacy.

1 9. On or about April 20, 2011, Patient A commenced treatment with Respondent for his
2 primary care needs. Between on or about April 20, 2011, and March 12, 2012, Patient A
3 continued to be under the care and treatment of Respondent. On or about March 12, 2012, Patient
4 A's medication regimen included, *inter alia*, Norco (hydrocodone acetaminophen) 10mg/325mg
5 three times a day,² morphine extended release 30mg once a day at bedtime,³ and diazepam 10mg
6 three times a day.^{4,5}

7 10. On or about March 30, 2012, Respondent saw Patient A for a follow-up visit
8 regarding Patient A's diabetes. Patient A's medical history included chronic pain, anxiety,
9 depression, obstructive sleep apnea, and prostate cancer, among other conditions. Patient A's
10 medications included Norco 10mg/325mg three times a day, morphine extended release 30mg
11 once a day at bedtime, and diazepam 10mg three times a day. During this visit, Patient A
12 reported current acute pain, however, no additional information about the pain was noted.

13 11. On or about April 19, 2012, Respondent saw Patient A to follow up on Patient A's
14 chronic pain. During this visit, Patient A reported current acute pain, which was located at the
15 right side of his mouth. Patient A's medications included Percocet (oxycodone acetaminophen)
16 10mg/325mg three times a day,⁶ morphine extended release 30mg once a day at bedtime, and
17 diazepam 10mg three times a day. Respondent assessed Patient A's chronic use of opioid
18 medications utilizing a form entitled, "Controlled Medications Management Tool: Opioids."

19 _____
20 ² Hydrocodone is a Schedule II controlled substance pursuant to Health and Safety Code
21 section 11055, subdivision (b), and a dangerous drug pursuant to Business and Professions Code
22 section 4022.

23 ³ Morphine is a Schedule II controlled substance pursuant to Health and Safety Code
24 section 11055, subdivision (b), and a dangerous drug pursuant to Business and Professions Code
25 section 4022.

26 ⁴ Diazepam is a Schedule IV controlled substance pursuant to Health and Safety Code
27 section 11057, subdivision (d), and a dangerous drug pursuant to Business and Professions Code
28 section 4022.

⁵ Any medical care or treatment rendered by Respondent more than seven years prior to
the filing of the instant Accusation is described for informational purposes only and not pleaded
as a basis for disciplinary action.

⁶ Oxycodone is a Schedule II controlled substance pursuant to Health and Safety Code
section 11055, subdivision (b), and a dangerous drug pursuant to Business and Professions Code
section 4022.

1 According to the completed form, the purpose of the visit was to “address [Patient A’s] chronic
2 use of opioid medications (more than 3 months) for non-cancer pain.” (Emphasis in original.)
3 The reason for Patient A’s use of opioid medications was “[l]ow back pain” and the length of use
4 was “years.” Respondent listed morphine 30mg daily as Patient A’s maintenance medication and
5 Norco 10mg/325mg as his breakthrough medication. Among the “4 As” assessed by
6 Respondent,⁷ Respondent noted that Patient A’s current pain level was “9” and that he was not
7 working, but was able to maintain self-hygiene, dress himself, and had adequate sleep. He also
8 noted that Patient A exhibited aberrant behavior, specifically “[f]requent request for early refills”
9 due to dental problems and that he “took more medicine than directed.” Respondent adjusted
10 Patient A’s chronic pain medication regimen by changing Norco 10mg to Percocet 10mg “for
11 additional pain control.” Respondent also noted that Patient A could not take morphine during
12 the day “due to sedation.”

13 12. On or about May 14, 2012, Respondent saw Patient A for a follow-up visit. During
14 this visit, Patient A reported current acute pain, this time in his lower back. Patient A’s
15 medications included Percocet 10mg/325mg three times a day, morphine extended release 30mg
16 once a day at bedtime, and diazepam 10mg three times a day. Respondent performed another
17 assessment of Patient A’s chronic use of opioid medications utilizing the “Controlled Medications
18 Management Tool: Opioids” form. According to the completed form, the reason for Patient A’s
19 use of opioid medications was “[l]ow back pain” and Respondent identified morphine 30mg daily
20 as Patient A’s maintenance medication, Percocet 10mg/325mg three times a day as his
21 breakthrough medication, and Valium three times a day as an adjunctive pain medication.
22 Respondent noted that Patient A’s current pain level was “3” and that he could not work, but was
23 able to maintain self-hygiene, dress himself, and had adequate sleep. Respondent also noted that
24 Patient A experienced headache as an adverse effect of the pain medications.

25 ///

26 ///

27 _____
28 ⁷ The “4 As” referred to Analgesia, Activities of Daily Living, Adverse Effects, and
Aberrant Behavior.

1 13. On or about June 13, 2012, Respondent saw Patient A to follow up on Patient A's
2 chronic pain and diabetes. Patient A's medications included Percocet 10mg/325mg three times a
3 day, morphine extended release 30mg once a day at bedtime, and diazepam 10mg three times a
4 day.

5 14. On or about July 11, 2012, Patient A was scheduled to see Respondent, however,
6 Patient A called Respondent's office and cancelled the appointment due to significant pain that he
7 was experiencing. On or about July 20, 2012, Patient A reported to Respondent's office that he
8 quit taking his hypertension and anti-depression medications due to his financial situation.

9 15. On or about July 30 2012, Respondent saw Patient A for a follow-up visit to refill his
10 medications and discuss laboratory results. Patient A's medications included Percocet
11 10mg/325mg three times a day and diazepam 10mg three times a day. However, Respondent
12 changed his prescription for morphine extended release 30mg from once a day at bedtime to two
13 times a day. During the visit, Respondent assessed Patient A's chronic use of opioid medications.
14 Respondent noted that Patient A was experiencing pain from dental infections. Respondent also
15 noted that Patient A was unable to buy food and stopped taking his anti-depression medications
16 due to lack of money.

17 16. On or about September 28, 2012, Respondent saw Patient A to refill his medications
18 and follow up on Patient A's chronic pain and assess his chronic use of opioid medications.
19 Patient A's medications included Percocet 10mg/325mg three times a day and diazepam 10mg
20 three times a day. However, Respondent changed his prescription for morphine extended release
21 30mg once again from two times a day to three times a day. As part of his chronic opioid use
22 assessment, Respondent noted that Patient A's current pain level was "3" and that he could not
23 work, but was able to maintain self-hygiene, dress himself, and had adequate sleep.

24 17. On or about December 5, 2012, Respondent saw Patient A to refill his medications.
25 Patient A reported that he stopped taking his hypertension medications because he could not
26 afford them. Patient A's medications included Percocet 10mg/325mg three times a day,
27 morphine extended release 30mg three times a day, and diazepam 10mg three times a day.

28 ///

1 18. On or about January 4, 2013, Respondent saw Patient A for a follow-up visit
2 regarding Patient A's diabetes. Patient A's medications included Percocet 10mg/325mg three
3 times a day, morphine extended release 30mg three times a day, and diazepam 10mg three times a
4 day. Patient A reported to Respondent that he had stopped taking his diabetes medications and
5 began eating poorly due to his financial difficulties.

6 19. On or about February 8, 2013, Respondent saw Patient A for a follow-up visit to refill
7 his medications. Patient A reported that his depression was not improving due to his financial
8 situation. Patient A's medications included Percocet 10mg/325mg three times a day, morphine
9 extended release 30mg three times a day, and diazepam 10mg three times a day. During this
10 visit, Respondent referred Patient A for a sleep medicine consultation relating to his sleep apnea
11 due to continuing complaints of trouble sleeping.

12 20. On or about March 13, 2013, Respondent saw Patient A for the last time. The
13 purpose of the visit was to refill Patient A's medications. Patient A's medications included
14 Percocet 10mg/325mg three times a day, morphine extended release 30mg three times a day, and
15 diazepam 10mg three times a day.

16 21. On or about April 17, 2013, Patient A passed away. The reported cause of death was
17 acute morphine toxicity by suicide.

18 22. Between on or about March 30, 2012, and March 13, 2013, Respondent noted that the
19 reason for Patient A's chronic use of opioid medications was back pain, however, Respondent did
20 not adequately document a history of Patient A's back pain, including, *inter alia*, when the pain
21 began, what precipitated the pain, the location of the pain, the severity of the pain, the nature of
22 the pain, whether the pain radiated to other parts of the body, what made the pain better or worse,
23 previous evaluations such as imaging or laboratory studies, and previous treatments that had been
24 tried.

25 ///

26 ///

27 ///

28 ///

1 23. Between on or about March 30, 2012, and March 13, 2013, Respondent did not
2 document a musculoskeletal examination of Patient A in order to evaluate his chronic pain, to
3 justify the prescribing of opioid medications for the pain, including the escalation in morphine
4 doses, and to evaluate the possibility that Patient A's prostate cancer had spread and was the
5 cause of the chronic pain.

6 24. Between on or about March 30, 2012, and March 13, 2013, despite Patient A's
7 history of prostate cancer, Respondent did not order any x-rays or other imaging of Patient A's
8 back or any prostate specific antigen (PSA) testing to evaluate for possible underlying causes of
