13 **HO DZUNG ANH, M.D.**  
14 **22 Bannock Street, Apt A**  
**San Francisco, CA 94112**

15 Physician's and Surgeon's Certificate No. A 136301

16 Respondent.  
17

Case No. 800-2016-026858

OAH No. 2019120796

18 **STIPULATED SETTLEMENT AND**  
19 **DISCIPLINARY ORDER**

20 IT IS HEREBY STIPULATED AND AGREED by and between the parties to the above-  
entitled proceedings that the following matters are true:

21 **PARTIES**

22 1. Christine J. Lally (Complainant) is the Interim Executive Director of the Medical  
23 Board of California (Board). She brought this action solely in her official capacity and is  
24 represented in this matter by Xavier Becerra, Attorney General of the State of California, by  
25 Lawrence Mercer, Deputy Attorney General.

26 2. Respondent Ho Dzung Anh, M.D. (Respondent) is represented in this proceeding by  
27 attorneys Stephen M. Boreman and Adam G. Slote and Slote, Links & Boreman, One  
28 Embarcadero Center, Suite 400, San Francisco, CA 94111.

1 in connection with Respondent's actions, as set forth in the Accusation, is as follows:

2 On February 1, 2017 and February 28, 2017, using a telemedicine protocol, you  
3 diagnosed infections and prescribed antibiotic prescriptions to two undercover  
4 investigators for infections that they did not in fact have. Your care and treatment was  
5 provided without obtaining a reliable history, performing a physical examination or  
6 otherwise verifying that there was a medical indication for the prescriptions.

7 2. PRESCRIBING PRACTICES COURSE. Within 60 calendar days of the  
8 effective date of this Decision, Respondent shall enroll in a course in prescribing practices  
9 approved in advance by the Board or its designee. Respondent shall provide the approved course  
10 provider with any information and documents that the approved course provider may deem  
11 pertinent. Respondent shall participate in and successfully complete the classroom component of  
12 the course not later than six (6) months after Respondent's initial enrollment. Respondent shall  
13 successfully complete any other component of the course within one (1) year of enrollment. The  
14 prescribing practices course shall be at Respondent's expense and shall be in addition to the  
15 Continuing Medical Education (CME) requirements for renewal of licensure.

16 A prescribing practices course taken after the acts that gave rise to the charges in the  
17 Accusation, but prior to the effective date of the Decision may, in the sole discretion of the Board  
18 or its designee, be accepted towards the fulfillment of this condition if the course would have  
19 been approved by the Board or its designee had the course been taken after the effective date of  
20 this Decision.

21 Respondent shall submit a certification of successful completion to the Board or its  
22 designee not later than 15 calendar days after successfully completing the course, or not later than  
23 15 calendar days after the effective date of the Decision, whichever is later.

24 Respondent agrees that failure to enroll in and/or successfully complete the course shall  
25 constitute unprofessional conduct and grounds for further discipline.

ACCEPTANCE

I have carefully read the above Stipulated Settlement and Disciplinary Order and have fully discussed it with my attorney. I understand the stipulation and the effect it will have on my Physician's and Surgeon's Certificate. I enter into this Stipulated Settlement and Disciplinary Order voluntarily, knowingly, and intelligently, and agree to be bound by the Decision and Order of the Medical Board of California.

*Ho Anh*

DATED: 03 / 03 / 2020

HO DZUNG ANH, M.D.  
*Respondent*

I have read and fully discussed with Respondent Ho Dzung Anh, M.D. the terms and conditions and other matters contained in the above Stipulated Settlement and Disciplinary Order. I approve its form and content.

16 Respondent.

Case No. 800-2016-026858

**ACCUSATION**

17 Complainant alleges:

18 **PARTIES**

- 19 1. Kimberly Kirchmeyer (Complainant) brings this Accusation solely in her official  
20 capacity as the Executive Director of the Medical Board of California.  
21 2. On or about May 22, 2015, the Medical Board issued Physician's and Surgeon's  
22 Certificate Number A 136301 to Ho Dzung Anh, M.D. (Respondent). The Physician's and  
23 Surgeon's Certificate was in full force and effect at all times relevant to the charges brought herein  
24 and will expire on March 31, 2019, unless renewed.

26 ///

27 ///

**JURISDICTION**

1  
2       3.     This Accusation is brought before the Board under the authority of the following  
3 laws. All section references are to the Business and Professions Code unless otherwise indicated.

4       4.     Section 2004 of the Code states:

5           “The board shall have the responsibility for the following:

6           “(a) The enforcement of the disciplinary and criminal provisions of the Medical Practice  
7 Act.

8           “(b) The administration and hearing of disciplinary actions.

9           “(c) Carrying out disciplinary actions appropriate to findings made by a panel or an  
10 administrative law judge.

11           “(d) Suspending, revoking, or otherwise limiting certificates after the conclusion of  
12 disciplinary actions.

13           “(e) Reviewing the quality of medical practice carried out by physician and surgeon  
14 certificate holders under the jurisdiction of the board.

15           “(f) Approving undergraduate and graduate medical education programs.

16           “(g) Approving clinical clerkship and special programs and hospitals for the programs in  
17 subdivision (f).  
18

19           “(h) Issuing licenses and certificates under the board's jurisdiction.

20           “(i) Administering the board's continuing medical education program.”  
21

22       5.     Section 2227 of the Code provides that a licensee who is found guilty under the  
23 Medical Practice Act may have his or her license revoked, suspended for a period not to exceed  
24 one year, placed on probation and required to pay the costs of probation monitoring, or such other  
25 action taken in relation to discipline as the Board deems proper.

26       //

27       //  
28

1           6.     Section 2234 of the Code, states:

2           “The board shall take action against any licensee who is charged with unprofessional  
3 conduct. In addition to other provisions of this article, unprofessional conduct includes, but is not  
4 limited to, the following:

5           “(a) Violating or attempting to violate, directly or indirectly, assisting in or abetting the  
6 violation of, or conspiring to violate any provision of this chapter.

7           “(b) Gross negligence.

8           “(c) Repeated negligent acts. To be repeated, there must be two or more negligent acts or  
9 omissions. An initial negligent act or omission followed by a separate and distinct departure from  
10 the applicable standard of care shall constitute repeated negligent acts.

11           “(1) An initial negligent diagnosis followed by an act or omission medically appropriate  
12 for that negligent diagnosis of the patient shall constitute a single negligent act.

13           “(2) When the standard of care requires a change in the diagnosis, act, or omission that  
14 constitutes the negligent act described in paragraph (1), including, but not limited to, a  
15 reevaluation of the diagnosis or a change in treatment, and the licensee's conduct departs from the  
16 applicable standard of care, each departure constitutes a separate and distinct breach of the  
17 standard of care. . .”

18           7.     Section 2242 of the Code states, in pertinent part:

19           “Prescribing, dispensing, or furnishing dangerous drugs as defined by section 4022 without  
20 an appropriate prior examination and medical indication, constitutes unprofessional conduct.”

21           //

22           //

23           //

24           //

1 8. Section 2290.5 of the Code states:

2 A(a) For purposes of this division, the following definitions shall apply:

3 “(1) “Asynchronous store and forward” means the transmission of a patient’s medical  
4 information from an originating site to the health care provider at a distant site without the  
5 presence of the patient.

6 “(2) “Distant site” means a site where a health care provider who provides health care  
7 services is located while providing these services via a telecommunications system.

8 “(3) “Health care provider” means a person who is licensed under this division.

9 “(4) “Originating site” means a site where a patient is located at the time health care  
10 services are provided via a telecommunications system or where the asynchronous store and  
11 forward service originates.

12 “(5) “Synchronous interaction” means a real-time interaction between a patient and a health  
13 care provider located at a distant site.

14 “(6) “Telehealth” means the mode of delivering health care services and public health via  
15 information and communication technologies to facilitate the diagnosis, consultation, treatment,  
16 education, care management, and self-management of a patient’s health care while the patient is at  
17 the originating site and the health care provider is at a distant site. Telehealth facilitates patient  
18 self-management and caregiver support for patients and includes synchronous interactions and  
19 asynchronous store and forward transfers.

20 “(b) Prior to the delivery of health care via telehealth, the health care provider initiating the  
21 use of telehealth shall inform the patient about the use of telehealth and obtain verbal or written  
22 consent from the patient for the use of telehealth as an acceptable mode of delivering health care  
23 services and public health. The consent shall be documented.

1           “(c) Nothing in this section shall preclude a patient from receiving in-person health care  
2 delivery services during a specified course of health care and treatment after agreeing to receive  
3 services via telehealth.

4           “(d) The failure of a health care provider to comply with this section shall constitute  
5 unprofessional conduct. Section 2314 shall not apply to this section.

6           “(e) This section shall not be construed to alter the scope of practice of any health care  
7 provider or authorize the delivery of health care services in a setting, or in a manner, not  
8 otherwise authorized by law.

9           “(f) All laws regarding the confidentiality of health care information and a patient’s rights to  
10 his or her medical information shall apply to telehealth interactions.

11           “(g) This section shall not apply to a patient under the jurisdiction of the Department of  
12 Corrections and Rehabilitation or any other correctional facility.

13           “(h) (1) Notwithstanding any other provision of law and for purposes of this section, the  
14 governing body of the hospital whose patients are receiving the telehealth services may grant  
15 privileges to, and verify and approve credentials for, providers of telehealth services based on its  
16 medical staff recommendations that rely on information provided by the distant-site hospital or  
17 telehealth entity, as described in Sections 482.12, 482.22, and 485.616 of Title 42 of the Code of  
18 Federal Regulations.  
19  
20

21           “(2) By enacting this subdivision, it is the intent of the Legislature to authorize a hospital to  
22 grant privileges to, and verify and approve credentials for, providers of telehealth services as  
23 described in paragraph (1).  
24

25           “(3) For the purposes of this subdivision, “telehealth” shall include “telemedicine” as the  
26 term is referenced in Sections 482.12, 482.22, and 485.616 of Title 42 of the Code of Federal  
27 Regulations.”  
28

1 9. Section 2266 of the Code states:

2 “The failure of a physician and surgeon to maintain adequate and accurate records relating  
3 to the provision of services to their patients constitutes unprofessional conduct.”

4 10. Since the enactment of Section 2290.5 of the Code, the Board has issued informal  
5 guidelines to assist physicians in providing telehealth services that comply with the standard of  
6 care:

7 A. “[Section 2290.5(e)] [s]tates that this section shall not be construed to alter the scope  
8 of practice of any healthcare provider.” ([www.mbc.ca.gov/Licensees/Telehealth.aspx](http://www.mbc.ca.gov/Licensees/Telehealth.aspx))

9 B. “By law, with very limited exceptions, prescription drugs must be prescribed by a  
10 physician after a good faith examination has been performed and a medical indication for the  
11 prescription has been determined.” ([www.mbc.ca.gov/Consumers/Internet\\_Prescribing.aspx](http://www.mbc.ca.gov/Consumers/Internet_Prescribing.aspx))

12 C. “Telehealth is not a telephone conversation, email/instant messaging conversation, or  
13 fax; it typically involves the application of videoconferencing or store and forward technology to  
14 provide or support health care delivery.”

15 “The **standard of care** is the same whether the patient is seen in-person, through  
16 telehealth or other methods of electronically enabled health care.” [emphasis in original]  
17 ([www.mbc.ca.gov/Licensees/Telehealth.aspx](http://www.mbc.ca.gov/Licensees/Telehealth.aspx))

18 D. “Under California law, a physician cannot prescribe medications (or recommend  
19 marijuana for medical purposes) without an appropriate prior examination and indications  
20 justifying the patient’s use of the drug. The Board has stated that this examination need not be in  
21 person, if the technology is sufficient to provide the same information to the physician as would  
22 be obtained if the examination had been performed face-to-face. A simple questionnaire without  
23 an appropriate prior evaluation may be a California practice violation.” (Medical Board of  
24 California Newsletter (Fall 2015), pp. 9-10)  
25  
26  
27  
28

**FIRST CAUSE FOR DISCIPLINE**

**(Gross Negligence, Repeated Negligent Acts)**

**(“Mary Peters”)**

1  
2  
3  
4 11. Respondent Ho Dzung Anh, M.D. is subject to disciplinary action under section 2234  
5 and/or 2234(b) and/or 2234(c) and/or 2242 and/or 2290.5 in that respondent diagnosed, treated  
6 and prescribed for a patient without a prior examination and/or medical indication. The  
7 circumstances are as follows:

8  
9 12. At all relevant times, respondent was a physician providing medical care and advice  
10 to California consumers via the website Lemonaidhealth.com.

11 13. In 2016, the Board received information that patients might be obtaining prescriptions  
12 from a company operating under the name Lemonaidhealth.com. On October 10, 2016, the  
13 website for Lemonaidhealth.com advertised a “refreshingly simple” method to obtain a doctor’s  
14 prescription for multiple medical conditions, including urinary tract infections and sinusitis.  
15

16 14. On February 1, 2017, an investigator for the Health Quality Investigation Unit created  
17 an online account with Lemonaidhealth.com using the alias “Mary Peters” and a fictitious street  
18 address. She reviewed an information sheet, including a list of 11 conditions, which the site  
19 advised would render it in the patient’s “best interest” to see a physician in person rather than use  
20 the site. The investigator then filled out a 7-page questionnaire online. The questionnaire  
21 outlined the conditions the patient must endorse to qualify for an antibiotic prescription, as well as  
22 those the patient would have to deny in order to qualify for an antibiotic prescription. The  
23 investigator endorsed and denied the conditions necessary to obtain an antibiotic prescription. In  
24 fact, the investigator did not have a urinary tract infection or symptoms indicative of a urinary  
25 tract infection. After completing the questionnaire, the investigator then submitted the online  
26  
27  
28

1 questionnaire with a headshot of herself and designated a pharmacy where the prescription should  
2 be filled.

3 15. In providing information regarding her condition, the investigator was not asked to  
4 provide vital signs and there was no technology available on the website to test and record vital  
5 signs. Neither a synchronous nor an asynchronous physical examination was performed and no  
6 alternative technology to obtain the same information was utilized. Medical records from the  
7 investigator's other healthcare providers were neither requested nor reviewed. Diagnostic tests  
8 were not ordered. As a consequence, the veracity, accuracy and reliability of information  
9 provided by the investigator could not be objectively verified by respondent and he had  
10 insufficient information to diagnose the patient or recommend treatment.  
11

12 16. Within a half hour after the investigator submitted her information, respondent sent  
13 her an email response stating that he had reviewed all of the information provided and determined  
14 that she likely had a simple urinary tract infection that could be treated with an antibiotic. He  
15 stated that he had sent a prescription to the pharmacy she had designated and he appended a  
16 treatment plan for treatment of her urinary tract infection with an antibiotic. The treatment  
17 prescribed was Macrobid, 100 mg, BID for seven days. Three days later, on February 4,  
18 respondent sent an email asking whether the patient had been able to pick up the medication and  
19 if "everything is okay." She was also asked to contact him if she had been taking the medication  
20 for at least three days but had not improved.  
21

22 17. Respondent's records for "Mary Peters" were obtained from respondent by the  
23 Medical Board. The records consist of eight pages, including the patient's questionnaire  
24 responses. Under "history" the record states only that respondent or his staff reviewed the  
25 patient's questionnaire. Under "exam" the record states "I have reviewed the photo or video  
26  
27  
28

1 submitted.” Respondent’s assessment is that “there is sufficient clinical suspicion of an  
2 uncomplicated urinary tract infection” to warrant treatment.

3 18. Respondent is guilty of unprofessional conduct and respondent’s certificate is subject  
4 to discipline pursuant to sections 2234 and/or 2234(b) and/or 2234(c) and/or 2242 and/or  
5 2290.5(d) in that respondent undertook to provide medical care and advice and also prescribed  
6 drugs without obtaining a reliable history, performing a physical examination and/or determining  
7 a medical indication for prescription antibiotics.  
8

9 **SECOND CAUSE FOR DISCIPLINE**

10 **(Gross Negligence, Repeated Negligent Acts)**

11 **(“Mark Peters”)**

12 19. Respondent Ho Dzung Anh, M.D. is subject to disciplinary action under section 2234  
13 and/or 2234(b) and/or 2234(c) and/or 2242 and/or 2290.5 in that respondent diagnosed, treated  
14 and prescribed for a patient without a prior examination and/or medical indication. The  
15 circumstances are as follows:  
16

17 20. Complainant incorporates Paragraphs 12 and 13, above, as though fully set out herein.

18 21. On February 28, 2017, an investigator for the Health Quality Investigation Unit  
19 created an online account with Lemonaidhealth.com using the alias “Mark Peters” and a street  
20 address that belonged to a UPS store in Sacramento. The investigator accessed information  
21 relating to sinusitis and completed a questionnaire. The investigator was provided with a choice of  
22 five possible scenarios and advised that, if he qualified for treatment of a bacterial sinus infection,  
23 at least one would apply. The investigator selected one. The investigator was also provided with a  
24 list of 15 conditions that would be best managed by a physician at an in-person evaluation and he  
25 denied that he had any of them. In fact, the investigator did not suffer from sinusitis. After  
26  
27  
28

1 completing the questionnaire, the investigator submitted it online with a headshot of himself and  
2 designation of a pharmacy to fill the prescription.

3 22. No vital signs were requested or obtained for "Mark Peters." Prior medical records  
4 were not requested or reviewed and no history beyond that provided in response to the online  
5 questionnaire was recorded. Neither a synchronous nor an asynchronous physical examination  
6 was performed and no alternative technology to obtain the same information was utilized. No  
7 laboratory tests were ordered. In sum, there was insufficient verified and reliable information for  
8 respondent to make a medical determination that "Mark Peters" suffered from sinusitis or would  
9 benefit from treatment with an antibiotic.  
10

11 23. Shortly after "Mark Peters" submitted his questionnaire, he received an electronic  
12 message from respondent. Respondent advised that "you likely have a bacterial sinus infection  
13 that is appropriate to treat with an antibiotic." Respondent advised that the prescription had been  
14 sent to the selected pharmacy and he appended a "treatment plan" with directions for the patient's  
15 10-day course of Amoxicillin. Respondent advised that if the patient had not improved in three  
16 days, he should return to the "app" for another medication or seek an in-person consultation with  
17 another physician.  
18

19 24. The Board obtained respondent's records for "Mark Peters." The 8 pages of records  
20 include a "history" that is limited to review of the investigator's questionnaire responses. The  
21 "exam" references only a review of the "photo or video submitted." Despite the scant, unverified  
22 information provided, the "assessment" states that sufficient clinical suspicion of an  
23 uncomplicated bacterial sinus infection existed to justify treatment with an antibiotic and that  
24 respondent had sent a prescription for Amoxicillin, 500 mg, #30, TID, to the pharmacy designated  
25 by the patient.

**THIRD CAUSE FOR DISCIPLINE**

**(Inadequate and Inaccurate Records)**

**(All Patients)**

25. Respondent Ho Dzung Anh, M.D. is subject to disciplinary action under section 2266, in that respondent failed to keep adequate and accurate records of his medical treatment.

26. Respondent's medical records, as described above, lacked confirmation of patient identity, vital signs, history, physical examination and a diagnosis supported by objective findings.

**PRAYER**

WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged, and that following the hearing, the Board issue a decision:

1. Revoking or suspending Physician's and Surgeon's Certificate Number A 136301, issued to Ho Dzung Anh, M.D.;
2. Revoking, suspending or denying approval of Ho Dzung Anh, M.D.'s authority to supervise physician assistants and advanced practice nurses;
3. Ordering Ho Dzung Anh, M.D., if placed on probation, to pay Board the costs of probation monitoring; and
4. Taking such other and further action as deemed necessary and proper.

DATED: April 11, 2018

  
KIMBERLY KIRCHMEYER  
Executive Director
