MEDICAL BOARD OF CALIFORNIA
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA

In the Matter of the First Amended
Accusation Against

Walter David Bramson, M.D.

Physician's and Surgeons
License No. G40647

Respondent.

Case No. 800-2015-015628

DECISION

The attached Stipulated Settlement and Disciplinary Order is hereby adopted as the Decision and Order of the Medical Board of California, Department of Consumer Affairs, State of California.

This Decision shall become effective at 5:00 p.m. on July 16, 2020.

IT IS SO ORDERED: June 16, 2020.

MEDICAL BOARD OF CALIFORNIA

Ronald H. Lewis, M.D., Chair
Panel A

14 In the Matter of the First Amended Accusation
Against:

15 **WALTER DAVID BRAMSON, M.D.**
16 **P.O. Box 3816**
580 Forest Shade Road
17 **Crestline, CA 92325-3816**

18 **Physician's and Surgeon's Certificate**
19 **No. G 40647**

20 Respondent.

Case No. 8002015015628

OAH No. 2018090301

**STIPULATED SETTLEMENT AND
DISCIPLINARY ORDER**

21 IT IS HEREBY STIPULATED AND AGREED by and between the parties to the above-
22 entitled proceedings that the following matters are true:

23 **PARTIES**

24 1. Christine J. Lally (Complainant) is the Interim Executive Director of the Medical
25 Board of California (Board). She brought this action solely in her official capacity and is
26 represented in this matter by Xavier Becerra, Attorney General of the State of California, by
27 Tessa L. Heunis, Deputy Attorney General.

28 ////

1 reconsideration and court review of an adverse decision; and all other rights accorded by the
2 California Administrative Procedure Act and other applicable laws.

3 8. Respondent voluntarily, knowingly, and intelligently waives and gives up each and
4 every right set forth above.

5 **CULPABILITY**

6 9. Respondent does not contest that, at an administrative hearing, Complainant could
7 establish a *prima facie* case with respect to the charges and allegations contained in Accusation
8 No. 8002015015628 and that his Physician's and Surgeon's Certificate No. G 40647 is therefore
9 subject to discipline. Respondent further agrees that if he ever petitions for early termination or
10 modification of probation, or if an Accusation is filed against him before the Board, all of the
11 charges and allegations contained in First Amended Accusation No. 8002015015628 shall be
12 deemed true, correct and fully admitted by respondent for purposes of any such proceeding or any
13 other licensing proceeding involving respondent in the State of California or elsewhere.

14 10. Respondent agrees that his Physician's and Surgeon's Certificate No. G 40647 is
15 subject to discipline and he agrees to be bound by the Board's imposition of discipline as set forth
16 in the Disciplinary Order below.

17 **CONTINGENCY**

18 11. This Stipulated Settlement and Disciplinary Order shall be subject to approval of the
19 Board. The parties agree that this Stipulated Settlement and Disciplinary Order shall be
20 submitted to the Board for its consideration in the above-entitled matter and, further, that the
21 Board shall have a reasonable period of time in which to consider and act on this Stipulated
22 Settlement and Disciplinary Order after receiving it. By signing this stipulation, Respondent fully
23 understands and agrees that he may not withdraw his agreement or seek to rescind this stipulation
24 prior to the time the Board considers and acts upon it.

25 12. The parties agree that this Stipulated Settlement and Disciplinary Order shall be null
26 and void and not binding upon the parties unless approved and adopted by the Board, except for
27 this paragraph, which shall remain in full force and effect. Respondent fully understands and
28 agrees that in deciding whether or not to approve and adopt this Stipulated Settlement and

1 Disciplinary Order, the Board may receive oral and written communications from its staff and/or
2 the Attorney General's Office. Communications pursuant to this paragraph shall not disqualify
3 the Board, any member thereof, and/or any other person from future participation in this or any
4 other matter affecting or involving Respondent. In the event that the Board does not, in its
5 discretion, approve and adopt this Stipulated Settlement and Disciplinary Order, with the
6 exception of this paragraph, it shall not become effective, shall be of no evidentiary value
7 whatsoever, and shall not be relied upon or introduced in any disciplinary action by either party
8 hereto. Respondent further agrees that should this Stipulated Settlement and Disciplinary Order
9 be rejected for any reason by the Board, Respondent will assert no claim that the Board, or any
10 member thereof, was prejudiced by its/his/her review, discussion and/or consideration of this
11 Stipulated Settlement and Disciplinary Order or of any matter or matters related hereto.

12 **ADDITIONAL PROVISIONS**

13 13. The parties understand and agree that Portable Document Format (PDF) and facsimile
14 copies of this Stipulated Settlement and Disciplinary Order, including PDF and facsimile
15 signatures thereto, shall have the same force and effect.

16 14. This Stipulated Settlement and Disciplinary Order is intended by the parties herein to
17 be an integrated writing representing the complete, final and exclusive embodiment of the
18 agreements of the parties in the above-entitled matter.

19 15. In consideration of the foregoing admissions and stipulations, the parties agree the
20 Board may, without further notice to or opportunity to be heard by Respondent, issue and enter
21 the following Disciplinary Order:

22 **DISCIPLINARY ORDER**

23 IT IS HEREBY ORDERED that Physician's and Surgeon's Certificate No. G 40647 issued
24 to Respondent Walter David Bramson, M.D., is revoked. However, the revocation is stayed and
25 Respondent is placed on probation for thirty-five (35) months from the effective date of the
26 Decision on the following terms and conditions:

27 1. **PRESCRIBING PRACTICES COURSE**. Within 60 calendar days of the effective
28 date of this Decision, Respondent shall enroll in a course in prescribing practices approved in

1 advance by the Board or its designee. Respondent shall provide the approved course provider
2 with any information and documents that the approved course provider may deem pertinent.
3 Respondent shall participate in and successfully complete the classroom component of the course
4 not later than six (6) months after Respondent's initial enrollment. Respondent shall successfully
5 complete any other component of the course within one (1) year of enrollment. The prescribing
6 practices course shall be at Respondent's expense and shall be in addition to the Continuing
7 Medical Education (CME) requirements for renewal of licensure.

8 A prescribing practices course taken after the acts that gave rise to the charges in the
9 Accusation, but prior to the effective date of the Decision may, in the sole discretion of the Board
10 or its designee, be accepted towards the fulfillment of this condition if the course would have
11 been approved by the Board or its designee had the course been taken after the effective date of
12 this Decision.

13 Respondent shall submit a certification of successful completion to the Board or its
14 designee not later than 15 calendar days after successfully completing the course, or not later than
15 15 calendar days after the effective date of the Decision, whichever is later.

16 2. MEDICAL RECORD KEEPING COURSE. Within 60 calendar days of the effective
17 date of this Decision, Respondent shall enroll in a course in medical record keeping approved in
18 advance by the Board or its designee. Respondent shall provide the approved course provider
19 with any information and documents that the approved course provider may deem pertinent.
20 Respondent shall participate in and successfully complete the classroom component of the course
21 not later than six (6) months after Respondent's initial enrollment. Respondent shall successfully
22 complete any other component of the course within one (1) year of enrollment. The medical
23 record keeping course shall be at Respondent's expense and shall be in addition to the Continuing
24 Medical Education (CME) requirements for renewal of licensure.

25 A medical record keeping course taken after the acts that gave rise to the charges in the
26 First Amended Accusation, but prior to the effective date of the Decision may, in the sole
27 discretion of the Board or its designee, be accepted towards the fulfillment of this condition if the
28 course would have been approved by the Board or its designee had the course been taken after the

1 effective date of this Decision.

2 Respondent shall submit a certification of successful completion to the Board or its
3 designee not later than 15 calendar days after successfully completing the course, or not later than
4 15 calendar days after the effective date of the Decision, whichever is later.

5 3. NOTIFICATION. Within seven (7) days of the effective date of this Decision, the
6 Respondent shall provide a true copy of this Decision and First Amended Accusation to the Chief
7 of Staff or the Chief Executive Officer at every hospital where privileges or membership are
8 extended to Respondent, at any other facility where Respondent engages in the practice of
9 medicine, including all physician and locum tenens registries or other similar agencies, and to the
10 Chief Executive Officer at every insurance carrier which extends malpractice insurance coverage
11 to Respondent. Respondent shall submit proof of compliance to the Board or its designee within
12 15 calendar days.

13 This condition shall apply to any change(s) in hospitals, other facilities or insurance carrier.

14 4. SUPERVISION OF PHYSICIAN ASSISTANTS AND ADVANCED PRACTICE
15 NURSES. During probation, Respondent is prohibited from supervising physician assistants and
16 advanced practice nurses.

17 5. OBEY ALL LAWS. Respondent shall obey all federal, state and local laws, all rules
18 governing the practice of medicine in California and remain in full compliance with any court
19 ordered criminal probation, payments, and other orders.

20 6. QUARTERLY DECLARATIONS. Respondent shall submit quarterly declarations
21 under penalty of perjury on forms provided by the Board, stating whether there has been
22 compliance with all the conditions of probation.

23 Respondent shall submit quarterly declarations not later than 10 calendar days after the end
24 of the preceding quarter.

25 7. GENERAL PROBATION REQUIREMENTS.

26 Compliance with Probation Unit

27 Respondent shall comply with the Board's probation unit.

Address Changes

Respondent shall, at all times, keep the Board informed of Respondent’s business and residence addresses, email address (if available), and telephone number. Changes of such addresses shall be immediately communicated in writing to the Board or its designee. Under no circumstances shall a post office box serve as an address of record, except as allowed by Business and Professions Code section 2021, subdivision (b).

Place of Practice

Respondent shall not engage in the practice of medicine in Respondent’s or patient’s place of residence, unless the patient resides in a skilled nursing facility or other similar licensed facility.

License Renewal

Respondent shall maintain a current and renewed California physician’s and surgeon’s license.

Travel or Residence Outside California

Respondent shall immediately inform the Board or its designee, in writing, of travel to any areas outside the jurisdiction of California which lasts, or is contemplated to last, more than thirty (30) calendar days.

In the event Respondent should leave the State of California to reside or to practice ,Respondent shall notify the Board or its designee in writing 30 calendar days prior to the dates of departure and return.

8. INTERVIEW WITH THE BOARD OR ITS DESIGNEE. Respondent shall be available in person upon request for interviews either at Respondent’s place of business or at the probation unit office, with or without prior notice throughout the term of probation.

9. NON-PRACTICE WHILE ON PROBATION. Respondent shall notify the Board or its designee in writing within 15 calendar days of any periods of non-practice lasting more than 30 calendar days and within 15 calendar days of Respondent’s return to practice. Non-practice is defined as any period of time Respondent is not practicing medicine as defined in Business and Professions Code sections 2051 and 2052 for at least 40 hours in a calendar month in direct

1 patient care, clinical activity or teaching, or other activity as approved by the Board. If
2 Respondent resides in California and is considered to be in non-practice, Respondent shall
3 comply with all terms and conditions of probation. All time spent in an intensive training
4 program which has been approved by the Board or its designee shall not be considered non-
5 practice and does not relieve Respondent from complying with all the terms and conditions of
6 probation. Practicing medicine in another state of the United States or Federal jurisdiction while
7 on probation with the medical licensing authority of that state or jurisdiction shall not be
8 considered non-practice. A Board-ordered suspension of practice shall not be considered as a
9 period of non-practice.

10 In the event Respondent's period of non-practice while on probation exceeds 18 calendar
11 months, Respondent shall successfully complete the Federation of State Medical Boards's Special
12 Purpose Examination, or, at the Board's discretion, a clinical competence assessment program
13 that meets the criteria of Condition 18 of the current version of the Board's "Manual of Model
14 Disciplinary Orders and Disciplinary Guidelines" prior to resuming the practice of medicine.

15 Respondent's period of non-practice while on probation shall not exceed two (2) years.

16 Periods of non-practice will not apply to the reduction of the probationary term.

17 Periods of non-practice for a Respondent residing outside of California will relieve
18 Respondent of the responsibility to comply with the probationary terms and conditions with the
19 exception of this condition and the following terms and conditions of probation: Obey All Laws;
20 General Probation Requirements; Quarterly Declarations; Abstain from the Use of Alcohol and/or
21 Controlled Substances; and Biological Fluid Testing..

22 10. COMPLETION OF PROBATION. Respondent shall comply with all financial
23 obligations (e.g., restitution, probation costs) not later than 120 calendar days prior to the
24 completion of probation. Upon successful completion of probation, Respondent's certificate shall
25 be fully restored.

26 11. VIOLATION OF PROBATION. Failure to fully comply with any term or condition
27 of probation is a violation of probation. If Respondent violates probation in any respect, the
28 Board, after giving Respondent notice and the opportunity to be heard, may revoke probation and

1 carry out the disciplinary order that was stayed. If an Accusation, or Petition to Revoke
2 Probation, or an Interim Suspension Order is filed against Respondent during probation, the
3 Board shall have continuing jurisdiction until the matter is final, and the period of probation shall
4 be extended until the matter is final.

5 12. LICENSE SURRENDER. Following the effective date of this Decision, if
6 Respondent ceases practicing due to retirement or health reasons or is otherwise unable to satisfy
7 the terms and conditions of probation, Respondent may request to surrender his or her license.
8 The Board reserves the right to evaluate Respondent's request and to exercise its discretion in
9 determining whether or not to grant the request, or to take any other action deemed appropriate
10 and reasonable under the circumstances. Upon formal acceptance of the surrender, Respondent
11 shall within 15 calendar days deliver Respondent's wallet and wall certificate to the Board or its
12 designee and Respondent shall no longer practice medicine. Respondent will no longer be subject
13 to the terms and conditions of probation. If Respondent re-applies for a medical license, the
14 application shall be treated as a petition for reinstatement of a revoked certificate.

15 13. PROBATION MONITORING COSTS. Respondent shall pay the costs associated
16 with probation monitoring each and every year of probation, as designated by the Board, which
17 may be adjusted on an annual basis. Such costs shall be payable to the Medical Board of
18 California and delivered to the Board or its designee no later than January 31 of each calendar
19 year.

20 14. FUTURE ADMISSIONS CLAUSE. If Respondent should ever apply or reapply for
21 a new license or certification, or petition for reinstatement of a license, by any other health care
22 licensing action agency in the State of California, all of the charges and allegations contained in
23 First Amended Accusation No. 8002015015628 shall be deemed to be true, correct, and admitted
24 by Respondent for the purpose of any Statement of Issues or any other proceeding seeking to
25 deny or restrict license.

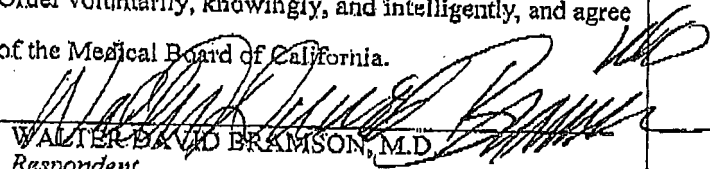

26 ACCEPTANCE

27 I have carefully read the above Stipulated Settlement and Disciplinary Order and have fully
28 discussed it with my attorney, Raymond J. McMahon. I fully understand the stipulation and the

MEDICAL BOARD OF CALIFORNIA
SACRAMENTO AUGUST 8 2019
BY ANSACERON ANALYST

10 **BEFORE THE**
MEDICAL BOARD OF CALIFORNIA
11 **DEPARTMENT OF CONSUMER AFFAIRS**
12 **STATE OF CALIFORNIA**

13 In the Matter of the First Amended Accusation
14 Against:

Case No. 800-2015-015628

15 **WALTER DAVID BRAMSON, M.D.**
16 **P.O. Box 3816**
580 Forest Shade Road
Crestline, CA 92325-3816

FIRST AMENDED ACCUSATION

17 **Physician's and Surgeon's Certificate**
18 **No. G40647;**

19 Respondent.

20
21 Complainant alleges:

22 **PARTIES**

23 1. Kimberly Kirchmeyer (Complainant) brings this First Amended Accusation solely in
24 her official capacity as the Executive Director of the Medical Board of California.

25 2. On or about August 21, 1979, the Medical Board issued Physician's and Surgeon's
26 Certificate No. G40647 to Walter David Bramson, M.D. (Respondent). Physician's and
27 Surgeon's Certificate No. G40647 was in full force and effect at all times relevant to the charges
28 brought herein and will expire on May 31, 2021, unless renewed.

1 JURISDICTION

2 3. This First Amended Accusation, which supersedes the Accusation filed on July 26,
3 2018, is brought before the Board, under the authority of the following laws. All section
4 references are to the Business and Professions Code (Code) unless otherwise indicated.

5 4. Section 2227 of the Code states, in pertinent part:

6 “(a) A licensee whose matter has been heard by an administrative law judge of
7 the Medical Quality Hearing Panel as designated in Section 11371 of the Government
8 Code, or whose default has been entered, and who is found guilty, or who has entered
9 into a stipulation for disciplinary action with the board, may, in accordance with the
10 provisions of this chapter:

11 “(1) Have his or her license revoked upon order of the board.

12 “(2) Have his or her right to practice suspended for a period not to exceed one
13 year upon order of the board.

14 “(3) Be placed on probation and be required to pay the costs of probation
15 monitoring upon order of the board.

16 “(4) Be publicly reprimanded by the board. The public reprimand may include a
17 requirement that the licensee complete relevant educational courses approved by the
18 board.

19 “(5) Have any other action taken in relation to discipline as part of an order of
20 probation, as the board or an administrative law judge may deem proper.

21 “...”

22 5. Section 2234 of the Code states, in pertinent part:

23 “The board shall take action against any licensee who is charged with
24 unprofessional conduct. In addition to other provisions of this article, unprofessional
25 conduct includes, but is not limited to, the following:

26 “...”

27 (b) “Gross negligence.

28 ///

1 “(c) Repeated negligent acts. To be repeated, there must be two or more
2 negligent acts or omissions. An initial negligent act or omission followed by a separate
3 and distinct departure from the applicable standard of care shall constitute repeated
4 negligent acts.

5 “(1) An initial negligent diagnosis followed by an act or omission medically
6 appropriate for that negligent diagnosis of the patient shall constitute a single negligent
7 act.

8 “(2) When the standard of care requires a change in the diagnosis, act, or
9 omission that constitutes the negligent act described in paragraph (1), including, but
10 not limited to, a reevaluation of the diagnosis or a change in treatment, and the
11 licensee’s conduct departs from the applicable standard of care, each departure
12 constitutes a separate and distinct breach of the standard of care.

13 “...”

14 6. Section 2228.1 of the Code states:

15 “(a) On and after July 1, 2019, except as otherwise provided in subdivision (c),
16 the board shall require a licensee to provide a separate disclosure that includes the
17 licensee’s probation status, the length of the probation, the probation end date, all
18 practice restrictions placed on the licensee by the board, the board’s telephone number,
19 and an explanation of how the patient can find further information on the licensee’s
20 probation on the licensee’s profile page on the board’s online license information
21 Internet Web site, to a patient or the patient’s guardian or health care surrogate before
22 the patient’s first visit following the probationary order while the licensee is on
23 probation pursuant to a probationary order made on and after July 1, 2019, in any of
24 the following circumstances:

25 “(1) A final adjudication by the board following an administrative hearing or
26 admitted findings or prima facie showing in a stipulated settlement establishing any of
27 the following:

“(D) Inappropriate prescribing resulting in harm to patients and a probationary period of five years or more.

“(2) An accusation or statement of issues alleged that the licensee committed any of the acts described in subparagraphs (A) to (D), inclusive, of paragraph (1), and a stipulated settlement based upon a *nolo contendere* or other similar compromise that does not include any *prima facie* showing or admission of guilt or fact but does include an express acknowledgment that the disclosure requirements of this section would serve to protect the public interest.

“(b) A licensee required to provide a disclosure pursuant to subdivision (a) shall obtain from the patient, or the patient’s guardian or health care surrogate, a separate, signed copy of that disclosure.

“... ”

7. Unprofessional conduct under Business and Professions Code section 2234 is conduct which breaches the rules or ethical code of the medical profession, or conduct which is unbecoming of a member of good standing of the medical profession, and which demonstrates an unfitness to practice medicine. (*Shea v. Board of Medical Examiners* (1978) 81 Cal.App.3d 564, 575.)

FIRST CAUSE FOR DISCIPLINE
(Gross Negligence)

8. Respondent has subjected his Physician’s and Surgeon’s Certificate No. G 40647 to disciplinary action under sections 2227 and 2234, as defined by section 2234, subdivision (b), of the Code, in that he committed gross negligence in his care and treatment of Patient A,¹ as more particularly alleged hereafter:

////

////

¹ The names have been omitted for all patients referenced in this pleading. Respondent is aware of the patients’ identities.

Patient A

9. Records received from Respondent indicate that Patient A, then a twenty-five-year-old male, saw Respondent for an office visit on or about October 17, 2013. Patient A had been Respondent's patient since in or around July 2011.² Respondent's records included a December 2012 neurology report recommending that Patient A's Crohn's disease be objectively substantiated. As of October 17, 2013, Patient A was looking for a pain management specialist, and had recently had an abdominal CT scan. Respondent noted that Patient A was on Celebrex³ and Dilaudid.⁴ Respondent assessed Patient A with chronic abdominal pain and vomiting, chronic pain syndrome, and Crohn's disease. Respondent's plan included following Patient A's gastroenterologist's instructions, finding a pain management specialist, and re-doing the CT scan. Respondent gave Patient A a prescription for Dilaudid, 4 mg, quantity 84. Records from California's Controlled Substances Utilization and Evaluation System (CURES) show that Patient A filled this prescription on or about the same day.

10. Five days later, on or about October 22, 2013, Patient A requested a Dilaudid refill. On or about October 24, 2013, Patient A filled another prescription for Dilaudid, 4 mg, quantity 84.

11. Less than a week later, on or about October 30, 2013, Patient A requested another Dilaudid refill, which Respondent approved. On or about October 31, 2013, Patient A filled another prescription for Dilaudid, this time for 8 mg, quantity 180. Respondent's records do not document why the Dilaudid dose was increased.

////

² Descriptions of conduct occurring more than seven years from the filing date of the First Amended Accusation for the treatment and care of Patients A, C, and E are for informational purposes only and are not alleged as bases for disciplinary action. Conduct associated with the treatment and care of Patients B and D was previously alleged in the Accusation filed on July 26, 2018.

³ References to the names of prescription medications are consistent with Respondent's records, in which both brand and generic names were used. Celebrex, brand name for celecoxib, is a nonsteroidal anti-inflammatory drug.

⁴ Dilaudid, brand name for hydromorphone, is an opiate and a Schedule II controlled substance pursuant to Business and Professions Code section 11055, subdivision (b).

1 12. On or about November 2, 2013, Patient A received refills for the following
2 medications, prescribed by Respondent: (1) clonazepam,⁵ 0.5 mg, quantity 60; (2) diazepam,⁶
3 10 mg, quantity 30; and (3) lorazepam,⁷ 2 mg, quantity 60.

4 13. On or about November 26, 2013, Patient A returned for an office visit to receive
5 medication refills. Patient A was experiencing migraines and dental issues, and reported that he
6 had tried to go to a pain management clinic but it was closed. Respondent assessed Patient A
7 with a history of seizures and chronic anxiety disorder. His documented plan was to refill
8 Patient A's medications.

9 14. On or about November 28, 2013, Patient A filled a Dilaudid prescription written by
10 Respondent for 8 mg, quantity 180.

11 15. On or about December 2, 2013, Patient A requested a refill of his benzodiazepine
12 prescriptions. On or about December 2, 2013 and December 4, 2013, Patient A received refills of
13 his clonazepam, diazepam, and lorazepam prescriptions.

14 16. On or about December 18, 2013, Patient A requested a Dilaudid refill for a tooth
15 extraction, which Respondent approved. On or about the same day, Patient A filled a Dilaudid
16 prescription written by Respondent for 4 mg, quantity 24.

17 17. On or about December 26, 2013, Patient A returned for an office visit for medication
18 refills. Patient A needed a Dilaudid refill and was recovering from an infection following a tooth
19 extraction. Patient A reported that he had gone to a pain management clinic but was asked to
20 leave after testing positive for marijuana. Respondent wrote Patient A a prescription for Xanax,⁸
21 2 mg, one tablet to be taken twice daily, quantity 60. Respondent did not document why he was

23 ⁵ Clonazepam, brand name Klonopin, is a benzodiazepine and a Schedule IV controlled substance
24 pursuant to Business and Professions Code section 11057, subdivision (d).

25 ⁶ Diazepam, brand name Valium, is a benzodiazepine and a Schedule IV controlled substance
pursuant to Business and Professions Code section 11057, subdivision (d).

26 ⁷ Lorazepam, brand name Ativan, is a benzodiazepine and a Schedule IV controlled substance
27 pursuant to Business and Professions Code section 11057, subdivision (d).

28 ⁸ Xanax, brand name for alprazolam, is a benzodiazepine and a Schedule IV controlled substance
pursuant to Business and Professions Code section 11057, subdivision (d).

1 adding Xanax to Patient A's medication regimen. Patient A filled a prescription for Dilaudid,
2 8 mg, quantity 180, on or about the same day.

3 18. On or about December 30, 2013, Patient A requested refills for diazepam and
4 clonazepam. On or about the same day, Patient A filled prescriptions for clonazepam, diazepam,
5 and alprazolam.

6 19. On or about January 15, 2014, Patient A filled a prescription for Dilaudid, 4 mg,
7 quantity 12, issued by Respondent. Respondent's records do not document this prescription.

8 20. Two days later, on or about January 17, 2014, Patient A requested a Dilaudid refill,
9 which Respondent approved. On or about the same day, Patient A filled a prescription for
10 Dilaudid, 2 mg, quantity 48.

11 21. On or about January 22, 2014, Patient A returned to the office for medication refills.
12 Patient A told Respondent that when he would vomit, he would also throw up his medications,
13 including undigested Dilaudid. Respondent noted that Patient A finished his medications early,
14 but still gave him another Dilaudid prescription. Respondent's plan was unchanged, and Patient
15 A was to find a pain management specialist and get a CT scan. On or about the same day, Patient
16 A filled a prescription for Dilaudid, 4 mg, quantity 84.

17 22. On or about January 27, 2014, Patient A requested refills for his benzodiazepine
18 prescriptions.

19 23. On or about January 28, 2014, Patient A requested a refill for Dilaudid, which
20 Respondent approved. On or about the same day, Patient A filled prescriptions for alprazolam,
21 clonazepam, and diazepam.

22 24. On or about January 28, 2014, Patient A submitted to a drug screen. The drug screen
23 was positive for marijuana, morphine, and Dilaudid. It was negative for benzodiazepines, despite
24 the fact that Patient A had prescriptions for clonazepam, diazepam, and alprazolam. The results
25 were reported on or about January 31, 2014.

26 25. On or about January 29, 2014, Patient A filled a prescription for Dilaudid, 4 mg,
27 quantity 48.

28 ////

1 26. Two days later, on or about January 31, 2014, Patient A filled another prescription for
2 Dilaudid, 4 mg, quantity 36.

3 27. On or about February 5, 2014, Patient A filled a prescription for Dilaudid, 4 mg,
4 quantity 84.

5 28. On or about February 10, 2014, Respondent wrote a note that Patient A was only to
6 be given refills up to February 14 or 18, then he needed to come in for an appointment.

7 29. On or about February 12, 2014, Patient A filled a prescription for Dilaudid, 4 mg,
8 quantity 180. Respondent's records do not document this prescription.

9 30. On or about February 24, 2014, Patient A requested a Dilaudid refill, which was
10 approved. On or about the same day, Patient A filled prescriptions for alprazolam, clonazepam,
11 and diazepam.

12 31. On or about February 25, 2014, Patient A returned to the office for medication refills.
13 Patient A was reportedly still looking for a pain management specialist. On or about the same
14 day, Patient A filled a prescription for Dilaudid, 4 mg, quantity 360, which would equate to 48
15 mg of Dilaudid per day. Respondent's records do not document why Patient A was given a larger
16 quantity of Dilaudid.

17 32. On or about March 24, 2014, Patient A returned to the office for medication refills.
18 Patient A reported that he was trying to find either an addictive psychiatrist who would wean him
19 off his medications or an inpatient program. Respondent documented that Patient A's "tentative
20 diagnosis remains Crohn's disease." Respondent's plan was to continue Patient A's prescriptions
21 until Patient A found a psychiatrist who would take over his medication management. On or
22 about the same day, Patient A filled a prescription for Dilaudid, 8 mg, quantity 180, and
23 prescriptions for alprazolam, clonazepam, and diazepam.

24 33. On or about April 22, 2014, Patient A requested refills for his benzodiazepines, which
25 Respondent approved. On or about the same day, Patient A filled a prescription for Dilaudid,
26 8 mg, quantity 180, and the prescriptions for alprazolam, clonazepam, and diazepam.

27 34. On or about May 12, 2014, Respondent ordered a CT scan of Patient A's abdomen.

28 35. In a report dated May 16, 2014, Patient A's CT scan results were unremarkable.

1 36. On or about May 19, 2014, Patient A returned to the office for medications refills.
2 Patient A was stressed and was still looking for an inpatient program. He was vomiting
3 frequently and had lost weight. Respondent documented that the CT results were pending, and
4 that he gave Patient A prescriptions for clonazepam, Dilaudid, and Xanax. On or about the same
5 day, Patient A filled a prescription for Dilaudid, 8 mg, quantity 180.

6 37. On or about May 20, 2014, Patient A filled prescriptions for alprazolam, clonazepam,
7 and diazepam.

8 38. On or about June 3, 2014, Patient A was admitted to the hospital because he was
9 vomiting blood. A drug screen taken that day was positive for opiates, amphetamines, and
10 benzodiazepines. Patient A left the hospital the same day he was admitted, against medical
11 advice. Respondent received the records documenting this hospital visit, including the aberrant
12 drug screen.

13 39. On or about June 13, 2014, Patient A requested a Dilaudid refill, which Respondent
14 approved. Patient A received a prescription for Dilaudid, 8 mg, quantity 6, for one day's supply.

15 40. On or about June 16, 2014, Patient A returned to the office. Respondent documented
16 that Patient A had gone to the hospital for a urinary tract infection. His records do not document
17 any discussion about the aberrant drug screen results. Noting the "issue of determining whether
18 [Patient A] has Crohn's," Respondent's plan was to get further workup of Patient A's Crohn's
19 disease. On or about the same day, Patient A filled a prescription for Dilaudid, 8 mg, quantity
20 180, and prescriptions for alprazolam, clonazepam, and diazepam.

21 41. On or about July 8, 2014, Patient A submitted to a drug screen, which was positive
22 for benzodiazepines, opiates, marijuana, morphine, codeine, and Dilaudid. On or about the same
23 day, Patient A requested methadone,⁹ which Respondent approved. On or about the same day,
24 Patient A filled a prescription for methadone, 10 mg, quantity 11. Respondent did not document
25 his reasons for prescribing Patient A methadone.

26 // //

27 ⁹ Methadone is an opiate used to treat moderate to severe pain or narcotic addiction. It is a
28 Schedule II controlled substance pursuant to Business and Professions Code section 11055, subdivision
(b).

1 42. On or about July 9, 2014, Respondent documented a phone call from Patient A's
2 grandmother. She told Respondent that she was trying to get Patient A to go to rehab and that he
3 was "shooting up Dilaudid." She also told him that Patient A was on his way to Respondent's
4 office. Respondent noted that he would give Patient A a urine drug screen and three-day
5 prescriptions for methadone. Patient A was warned of the dangers of shooting up narcotics.
6 Respondent's records do not include any lab results for a drug screen that day.

7 43. On or about July 11, 2014, a note in Patient A's chart stated that Dilaudid was
8 discontinued because of abuse. On or about the same day, Patient A filled a prescription for
9 methadone, 10 mg, quantity 11.

10 44. On or about July 14, 2014, a note in Patient A's chart stated that Patient A was to go
11 to a detox center in Iowa on July 25, 2014, and also that refills for methadone, Xanax,
12 clonazepam, and diazepam were given. On or about the same day, Patient A filled prescriptions
13 for methadone, 10 mg, quantity 11, and alprazolam, clonazepam, and diazepam.

14 45. On or about July 18, 2014, Patient A requested a methadone refill, which Respondent
15 approved. On or about the same date, Patient A filled a prescription for methadone, 10 mg,
16 quantity 14.

17 46. On or about July 23, 2014, Patient A's grandmother called Respondent again, and
18 told him that Patient A had tried to commit suicide.

19 47. On or about July 24, 2014, a note in Patient A's chart stated that Patient A was in the
20 hospital, and that his rehab admission was delayed by one week.

21 48. On or about July 30, 2014, Patient A requested a methadone refill before going to
22 rehab. On or about the same day, Patient A filled a prescription for methadone, 10 mg,
23 quantity 9.

24 49. Patient A's next recorded office visit occurred on or about April 13, 2015.
25 Respondent documented that Patient A finished rehab on September 27, 2014, came home, and
26 started working and going to school. Patient A had then lost his job(s), become homeless, and
27 started using black tar heroin approximately two months prior. Patient A said that his Crohn's
28 disease symptoms had improved. Respondent gave Patient A a prescription for methadone,

1 10 mg, quantity 21, one tablet to be taken three times daily, to help with pain and withdrawal
2 symptoms from black tar heroin. On or about the same day, Patient A filled the methadone
3 prescription.

4 50. On or about April 20, 2015, and April 27, 2015, Patient A filled prescriptions for
5 methadone, 10 mg, quantity 21, which was a one-week supply. On or about May 4, 2015,
6 Patient A filled a prescription for methadone, 10 mg, quantity 33, for an 11-day supply.

7 51. On or about May 15, 2015, Patient A returned to the office. Patient A had been off
8 black tar heroin for one month and one day. He reported that the methadone was controlling his
9 pain from Crohn's disease. Respondent gave Patient A another prescription for methadone,
10 10 mg, quantity 90, which Patient A filled on or about the same day.

11 52. On or about June 12, 2015, Patient A returned to the office for medication refills.
12 Patient A had been off heroin and on methadone for approximately two months. On or about the
13 same day, Patient A filled a prescription for methadone, 10 mg, quantity 96.

14 53. On or about July 14, 2015, Patient A returned for an office visit and for medication
15 refills. Patient A had been clean for three and a half months. Respondent gave Patient A a
16 prescription for methadone, 10 mg, quantity 90, which was filled on or about the same day.

17 54. On or about August 4, 2015, Patient A's mother called Respondent and said that
18 Patient A had lost his methadone tablets. Respondent prescribed Ultracet¹⁰ to Patient A. On or
19 about the same day, Patient A filled the prescription for Ultracet.

20 55. On or about August 13, 2015, Patient A returned for an office visit. Patient A needed
21 a methadone refill, and told Respondent that his medication was stolen. Respondent gave
22 Patient A a methadone prescription.

23 56. On or about August 13, 2015 and September 11, 2015, Patient A filled prescriptions
24 for methadone, 10 mg, quantity 90.

25 ////

26 ////

27 ¹⁰ Ultracet is the brand name for acetaminophen and tramadol. Tramadol, brand name Ultram, is
28 an opiate analgesic-like drug, and is a Schedule IV controlled substance pursuant to the federal Controlled
Substances Act.

1 57. Respondent committed gross negligence in his care and treatment of Patient A which
2 included, but was not limited to, the following:

- 3 a. Continuing to prescribe opiates and benzodiazepines to a patient with
4 addiction issues, as evidence by his abuse of Dilaudid and heroin; and
- 5 b. Concurrently prescribing three benzodiazepines to Patient A.

6 **SECOND CAUSE FOR DISCIPLINE**
7 **(Repeated Negligent Acts)**

8 58. Respondent has further subjected his Physician's and Surgeon's Certificate No.
9 G 40647 to disciplinary action under sections 2227 and 2234, as defined by section 2234,
10 subdivision (c), of the Code, in that he committed repeated negligent acts in his care and
11 treatment of Patients A, B, C, D, and E. The circumstances are as follows:

12 Patient A

13 59. Respondent committed repeated negligent acts in his care and treatment of Patient A
14 which included, but were not limited to, the following:

- 15 a. Paragraphs 9 through 57, above, are hereby incorporated by reference and re-
16 alleged as if fully set forth herein;
- 17 b. Continuing to prescribe high doses of opiates in combination with high doses
18 of multiple benzodiazepines without specialty input or consultation despite
19 concerns regarding Patient A's Crohn's disease diagnosis;
- 20 c. Continuing to prescribe large doses of opiates and benzodiazepines to Patient
21 A without implanting a pain contract early on;
- 22 d. Prescribing opiates for Crohn's disease for a long period of time without any
23 objective evidence of disease;
- 24 e. Failing to check or address urine drug screens for evidence of other
25 controlled agents and/or diversion;
- 26 f. Prescribing methadone in a primary care setting for pain management to an
27 admitted heroin user; and/or

28 ////

1 g. Prescribing multiple benzodiazepines and opiates to Patient A at the same
2 time.

3 Patient B

4 60. Records received from Respondent indicate that Patient B, then a twenty-two-year-
5 old male, saw Respondent for an office visit on or about February 10, 2012. Patient B was
6 requesting refills for a pre-existing Adderall¹¹ prescription. The note for this date indicates that
7 Patient B had adult ADD (Attention Deficit Disorder), and Respondent prescribed Adderall, 20
8 mg, one tablet twice daily, quantity 60.

9 61. Respondent refilled Patient B's Adderall prescription on or about March 9, 2012 and
10 May 24, 2012.

11 62. On or about October 3, 2012, Patient B returned for an office visit. His current
12 medications were listed in this visit and included, but were not limited to, the following: (1)
13 Suboxone;¹² (2) amphetamine salts, 10 mg tablets; (3) dextroamphetamine, 10 mg; (4)
14 alprazolam; and (5) amphetamine salts, 20 mg.

15 63. On or about October 9, 2012, Patient B returned to the office for a medication refill.
16 The note for this visit indicates that Patient B had been trying different medications for ADD, that
17 the alprazolam was effective, and that Patient B had stopped taking Suboxone two months prior.
18 Respondent assessed Patient B with ADD and anxiety-induced insomnia, and refilled Patient B's
19 alprazolam and Adderall prescriptions.

20 64. On or about February 6, 2013, Respondent's medical records indicate Patient B called
21 requesting a refill on his alprazolam prescription, but that Patient B had also received alprazolam
22 from another treatment provider on or about January 15, 2013.

23 65. On or about May 13, 2013, Patient B returned for an office visit. Records indicate
24 that Patient B was asked about the refill from the other treatment provider, and that refills for this

25

26 ¹¹ Adderall, brand name for dextroamphetamine and amphetamine, is a Schedule II controlled
27 substance pursuant to Health and Safety Code section 11055, subdivision (d), and a dangerous drug
pursuant to Business and Professions Code section 4022.

28 ¹² Suboxone, brand name for buprenorphine and naloxone, is a Schedule III controlled substance
pursuant to Health and Safety Code section 11056, subdivision (e).

1 patient would be checked to verify that Patient B was receiving medications from no one else.
2 Records also indicate that Patient B's medications were refilled.

3 66. On or about September 17, 2013, Patient B returned for an office visit. The note for
4 this visit documents Patient B's history of ADD and chronic anxiety disorder. Records also
5 indicate that Patient B's medications were refilled.

6 67. On or about January 29, 2014, a note documents that Respondent told Patient B that
7 he could not refill his medications without an office visit, and that Patient B either needed to find
8 insurance within 30 days, pay cash to see Respondent, or find a different treatment provider.

9 68. On or about March 12, 2014, Patient B returned to the office for a medication refill.
10 Respondent refilled Patient B's prescriptions.

11 69. On or about July 1, 2014, records from CURES indicate that Patient B filled a
12 prescription for alprazolam, 2 mg, quantity 30, prescribed by Respondent.

13 70. On or about July 11, 2014, Patient B returned for an office visit. The records note
14 that Patient B's chief complaint was "medication check-up & illegal drug conversation." The
15 records note that Patient B had suffered from a fractured rib four months prior, and was given
16 Norco¹³ in the emergency room. Patient B had since taken combinations of Oxycontin¹⁴ (20 mg,
17 5 times daily), Norco (up to 40 mg daily), morphine, and Dilaudid. Patient B told Respondent
18 that he wanted to stop taking the opiates, and Respondent noted that Patient B could not go to a
19 detox unit because of his social and occupational situation. Respondent assessed Patient B with
20 polydrug addiction (opiates), and started Patient B on methadone, 10 mg. The starting dose was
21 10 mg daily to be increased to 30 mg daily.

22 71. On or about July 11, 2014, CURES records indicate that Patient B filled a
23 prescription for Adderall, 20 mg, quantity 60, and methadone, 10 mg, quantity 21, prescribed by
24 Respondent.

25 ////

26 ¹³ Norco is the brand name for hydrocodone and acetaminophen. Hydrocodone is an opiate and a
27 Schedule II controlled substance pursuant to Health and Safety Code section 11055, subdivision (b).

28 ¹⁴ Oxycontin, brand name for oxycodone, is an opiate and a Schedule II controlled substance
pursuant to Health and Safety Code section 11055, subdivision (b).

1 72. On or about July 21, 2014, Patient B returned to the office. Patient B reported he was
2 taking methadone, 30 mg daily, and that he was off all of the other opiates. On the same day,
3 Respondent ordered a drug screen. The results of this drug screen, which were reported on or
4 about July 24, 2014, were positive for marijuana, methadone, hydrocodone, and ethyl alcohol.
5 The drug screen was negative for amphetamines and benzodiazepines, despite Patient B's
6 recently filled prescriptions for Adderall and alprazolam.

7 73. On or about July 22, 2014, Patient B asked Respondent for an anti-depressant.
8 Respondent prescribed Paxil.

9 74. On or about September 9, 2014, Patient B returned to the office for a medication
10 refill. Respondent's records fail to note any discussion with Patient B about the abnormal
11 positive results for marijuana, hydrocodone, and ethyl alcohol, and the negative results for
12 amphetamines and benzodiazepines from the prior drug screen. The note from this visit
13 documents that Patient B had previously used Oxycontin, morphine, and Dilaudid. Respondent's
14 records indicate that he refilled Patient B's methadone prescription. On or about the same day,
15 CURES records indicate Patient B also filled prescriptions for alprazolam and amphetamine salts,
16 prescribed by Respondent.

17 75. On or about September 25, 2014, CURES records indicate Patient B filled a
18 prescription for Adderall, 20 mg, quantity 60, from another treatment provider. On or about
19 September 26, 2014, CURES records indicate Patient B filled a prescription for tramadol, 50 mg,
20 quantity 90, from that same treatment provider.

21 76. On or about October 7, 2014, Patient B returned to the office for a medication refill.
22 Respondent noted that Patient B was completely drug-free other than methadone, and that Patient
23 B was "looking great." On or about the same day, Respondent ordered a drug screen, which was
24 positive for marijuana, methadone, and ethyl alcohol, and was negative for amphetamines and
25 benzodiazepines. The results were reported by the lab on or about October 9, 2014.

26 77. On or about October 10, 2014, a memo in Patient B's records states, "See 10/7 lab
27 before rx."

28 ////

1 78. On or about November 5, 2014, Patient B returned for alprazolam and methadone
2 refills. Respondent documented that he and Patient B spoke about the positive results for
3 marijuana and alcohol on the last drug screen. No discussion was documented about Patient B's
4 negative results for amphetamines and benzodiazepines, although Respondent noted, "[Patient B]
5 really does look good and seems to be doing very well on this combination of methadone Xanax
6 and amphetamine." Respondent's plan included increasing the frequency of drug testing to every
7 two weeks.

8 79. On or about November 5, 2014, CURES records indicate Patient B refilled his
9 alprazolam and methadone prescriptions that were prescribed by Respondent.

10 80. Approximately one month later, on or about December 4, 2014, Patient B returned for
11 Adderall, alprazolam, and methadone refills. Respondent noted that Patient B "looked
12 wonderful," and that Patient B reported that he had not had any alcohol since the last drug test.
13 On or about the same day, Respondent ordered a drug screen, which was positive for marijuana,
14 methadone, and morphine, and was negative for amphetamines and benzodiazepines. The results
15 were reported by the lab on or about December 10, 2014.

16 81. On or about December 4, 2014, CURES records indicate Patient B refilled his
17 alprazolam, Adderall, and methadone prescriptions from Respondent.

18 82. On or about December 30, 2014, Patient B submitted to another drug screen, which
19 was positive for marijuana and methadone, and negative for amphetamines and benzodiazepines.

20 83. On or about January 29, 2015, Patient B returned to the office for a medication check
21 and drug screen. Patient B reported that he had stopped using marijuana, and that he was doing
22 well. Respondent documented that he refilled Patient B's prescriptions for Adderall, methadone,
23 and alprazolam. On or about the same day, Respondent ordered a drug screen, which came back
24 positive for marijuana and ethyl alcohol, and was negative for amphetamines, benzodiazepines,
25 and methadone.

26 84. On or about February 21, 2015, CURES records indicate that Patient B filled
27 prescriptions for alprazolam and Adderall from another treatment provider.

28 ////

1 85. On or about February 26, 2015, Patient B returned to the office with his partner, who
2 was an emergency medical technician (EMT) and had experience with drug abuse. Respondent
3 noted that Patient B's girlfriend saw Patient B every day and knew what to look for in terms of
4 marijuana and alcohol use. Respondent also noted that Patient B promised not to take any drugs
5 without Respondent's knowledge other than methadone, which Respondent refilled.

6 86. On or about March 9, 2015, Respondent noted a phone call he received from another
7 treatment provider, who reported that Patient B had been receiving Suboxone from him/her and
8 had also been receiving prescriptions for methadone, Xanax, and Adderall from two other
9 treatment providers.

10 87. Respondent committed repeated negligent acts in his care and treatment of Patient B,
11 which included, but were not limited to, the following:

- 12 a. Prescribing methadone for the purpose of managing Patient B's opioid
13 dependence;
- 14 b. Failing to appropriately follow up with Patient B's drug tests that showed no
15 use of Adderall, despite Respondent's regular prescriptions; and
- 16 c. Prescribing Adderall and alprazolam to Patient B without drug screening or
17 ongoing assessment of addiction risk or misuse.

18 Patient C

19 88. Records received from Respondent indicate that Patient C had started seeing
20 Respondent sometime in 2009. By May 17, 2012, Respondent was prescribing Patient C, then a
21 forty-six year old male, the following on a monthly basis: (1) Norco, 325-10 mg, quantity 240;
22 and (2) lorazepam, 1 mg, quantity 180.

23 89. On or about June 7, 2012 and June 27, 2012, Patient C filled prescriptions for Norco,
24 325-10 mg, quantity 240, written by Respondent. On or about June 14, 2012, Patient C filled a
25 prescription for lorazepam, 1 mg, quantity 180, written by Respondent.

26 90. On or about July 17, 2012, Patient C requested refills for Norco and lorazepam.
27 Respondent approved his requests, but noted that Patient C had to come in for an appointment.
28 On or about the same day, Patient C filled prescriptions for Norco and lorazepam.

1 91. On or about August 7, 2012, Patient C requested a Norco refill. Respondent's records
2 note that Patient C always asked for his refills ten days early. Nevertheless, Respondent approved
3 the refill request. On or about August 8, 2012, Patient C filled a prescription for Norco, 325-10
4 mg, quantity 240.

5 92. On or about August 15, 2012, Patient C requested a lorazepam refill, which
6 Respondent approved. On or about the same day, Patient C filled a prescription for lorazepam,
7 1 mg, quantity 180.

8 93. On or about August 28, 2012, Patient C filled a prescription for Norco, 325-10 mg,
9 quantity 56, for a two-week supply.

10 94. Approximately one week later, on or about September 5, 2012, Patient C filled
11 another prescription for Norco, 325-10 mg, quantity 240.

12 95. On or about September 17, 2012, Patient C requested another lorazepam refill, which
13 Respondent approved. Patient C was told he needed to make an appointment. On or about the
14 same day, Patient C filled a prescription for lorazepam, 1 mg, quantity 180.

15 96. On or about September 25, 2012, Patient C requested another Norco refill, which
16 Respondent approved. Patient C was again told he needed to make an appointment. On or about
17 the same day, Patient C filled a prescription for Norco, 325-10 mg, quantity 240.

18 97. On or about October 15, 2012, Patient C requested another Norco refill, which
19 Respondent approved. On or about the same day, Patient C filled a prescription for Norco, 325-
20 10 mg, quantity 240. From June to October 2012, Patient C was not seen in Respondent's office.

21 98. On or about November 5, 2012, Patient C came in for his annual physical exam.
22 Respondent noted that Patient C had cervical degenerative disc disease, and that he was in
23 constant pain when he was not taking Norco. Respondent's records do not address that Patient C
24 was requesting and receiving early refills for Norco. On or about the same day, Patient C filled a
25 prescription for Norco, 325-10 mg, quantity 240.

26 99. On or about November 20, 2012, Patient C requested a lorazepam refill, which
27 Respondent approved. On or about the same day, Patient C filled a prescription for lorazepam,
28 1 mg, quantity 180.

1 100. On or about November 26, 2012, Patient C requested a Norco refill, which
2 Respondent approved. On or about November 27, 2012, Patient C filled a prescription for Norco,
3 325-10 mg, quantity 240.

4 101. On or about December 19, 2012, Patient C requested a lorazepam refill, which
5 Respondent approved. On or about the same day, Patient C filled a prescription for lorazepam,
6 1 mg, quantity 180.

7 102. On or about December 20, 2012, Patient C requested a Norco refill. On or about the
8 same day, Patient C filled a prescription for Norco, 325-10 mg, quantity 240.

9 103. On or about December 21, 2012, Respondent's office received a notification that the
10 pharmacy refused to fill Patient C's Norco prescription until December 27, 2012, and that
11 Patient C was taking 10 tablets of Norco per day, even though he had been instructed not to
12 exceed eight tablets.

13 104. On or about December 21, 2012, Patient C received 60 tablets of Norco from the
14 pharmacy.

15 105. On or about December 26, 2012, Patient C received 240 tablets of Norco from the
16 pharmacy.

17 106. On or about January 16, 2013, Patient C requested a Norco refill, which Respondent
18 approved. On or about January 17, 2013, Patient C filled a prescription for Norco, 325-10 mg,
19 quantity 300. Respondent's records do not document why the number of tablets were increased.

20 107. On or about January 25, 2013, Patient C filled a prescription for lorazepam, 1 mg,
21 quantity 180.

22 108. On or about February 15, 2013, Patient C requested a Norco refill, which Respondent
23 approved. On or about the same day, Patient C filled a prescription for Norco, 325-10 mg,
24 quantity 300, for an average of ten tablets per day.

25 109. On or about February 25, 2013, Patient C filled a prescription for lorazepam, 1 mg,
26 quantity 180.

27 ////

28 ////

1 110. On or about March 13, 2013, Patient C requested a Norco refill, which Respondent
2 approved. On or about March 15, 2013, Patient C filled a prescription for Norco, 325-10 mg,
3 quantity 300.

4 111. On or about March 24, 2013, Patient C filled a prescription for lorazepam, 1 mg,
5 quantity 180.

6 112. On or about April 8, 2013, Patient C filled a prescription for Norco, 325-10 mg,
7 quantity 240. Respondent's records do not document this prescription.

8 113. On or about April 19, 2013, Patient C filled a prescription for lorazepam, 1 mg,
9 quantity 180.

10 114. On or about April 22, 2013, Patient C filled a prescription for Norco, 325-10 mg,
11 quantity 300. Respondent's records do not document this prescription or the reason why the
12 number of tablets were increased.

13 115. On or about May 7, 2013, Patient C requested a Norco refill. On or about the same
14 day, Patient C filled a prescription for Norco, 325-10 mg, quantity 240. Respondent's records fail
15 to indicate why the number of tablets decreased.

16 116. On or about May 14, 2013, Patient C requested a lorazepam refill, which Respondent
17 approved. On or about May 15, 2013, Patient C filled a prescription for lorazepam, 1 mg,
18 quantity 180.

19 117. On or about May 24, 2013, Patient C requested a Norco refill, which Respondent
20 approved. Respondent's records note that Patient C needed to make an appointment. On or about
21 the same day, Patient C filled a prescription for Norco, 325-10 mg, quantity 300. Respondent's
22 records fail to indicate why the number of tablets increased.

23 118. On or about May 28, 2013, CURES records indicate that Patient C filled another
24 prescription for Norco, 325-10 mg, quantity 300, written by Respondent. Respondent's records
25 do not document this prescription.

26 119. On or about June 12, 2013, Patient C requested a lorazepam refill, which Respondent
27 approved. Respondent's records again note that Patient C needed to make an appointment. On or
28 about the same day, Patient C filled a prescription for lorazepam, 1 mg, quantity 180.

1 120. On or about June 26, 2013, Patient C returned to the office. Patient C told
2 Respondent that he was currently taking six Norco tablets per day. Respondent noted Patient C's
3 cervical degenerative disc disease and findings of tender nodules over the upper borders of
4 Patient C's trapezius. His assessment included ruling out cervical radiculopathy and lumbosacral
5 strain. Respondent did not document any discussion with Patient C about receiving early Norco
6 refills.

7 121. On or about July 16, 2013, Patient C requested refills for Norco and lorazepam,
8 which Respondent approved. On or about July 17, 2013, Patient C filled a prescription for
9 lorazepam, 1 mg, quantity 180. On or about July 19, 2013, Patient C filled a prescription for
10 Norco, 325-10 mg, quantity 180.

11 122. On or about August 12, 2013, Patient C requested a Norco refill, which was
12 approved. On or about August 13, 2013, Patient C filled a prescription for Norco, 325-10 mg,
13 quantity 180.

14 123. On or about August 13, 2013, Patient C requested a lorazepam refill, which was
15 approved. On or about August 14, 2013, Patient C filled a prescription for lorazepam, 1 mg,
16 quantity 180.

17 124. On or about August 30, 2013, Patient C came in for an injury to his umbilical hernia.
18 On or about the same day, Patient C filled a prescription for Norco, 325-10 mg, quantity 84,
19 written by Respondent. Respondent's records do not document this prescription.

20 125. On or about September 6, 2013, Patient C told Respondent that he had been trying to
21 reduce his use of Norco, but that he was unsuccessful and had been taking eight tablets per day.
22 Patient C admitted he only had two more days of medication left and that he needed a refill.
23 Respondent gave him a refill, and told Patient C that he needed monthly appointments. On or
24 about the same day, Patient C filled a prescription for Norco, 325-10 mg, quantity 136.

25 126. On or about September 12, 2013, Patient C requested a refill for lorazepam, which
26 Respondent approved. On or about September 13, 2013, Patient C filled a prescription for
27 lorazepam, 1 mg, quantity 180.

28 ////

1 127. On or about September 17, 2013, Patient C told Respondent that he was out of Norco
2 and that he did not realize he had taken so many. On or about the same day, Patient C filled a
3 prescription for a seven-day supply of Norco, 325-10 mg, quantity 64, written by Respondent.

4 128. On or about September 25, 2013, Patient C returned to the office and saw
5 Respondent. He was complaining about his umbilical hernia. On or about the same day, Patient
6 C filled a prescription for Norco, 325-10 mg, quantity 64, written by Respondent.

7 129. On or about September 30, 2013, Patient C returned to the office at Respondent's
8 request. Respondent noted that in the past, Patient C had been taking ten tablets of Norco daily,
9 had gotten it down to six, then went up again to eight. At that point, Patient C was taking 11
10 tablets of Norco daily. Respondent documented that he had a long talk with Patient C, and that he
11 told him he would only give him prescriptions for one week at a time. Respondent was to
12 prescribe Patient C enough Norco to take a maximum of eight tablets daily, and that if Patient C
13 finished the medication early, he would not be given an early refill. Respondent gave Patient C
14 prescriptions for meloxicam¹⁵ and Norco, 325-10 mg, quantity 56. On or about the same day,
15 Patient C filled this Norco prescription.

16 130. On or about October 7, 2013, Patient C filled another prescription for Norco,
17 325-10 mg, quantity 56.

18 131. On or about October 8, 2013, Patient C filled a prescription for lorazepam, 1 mg,
19 quantity 180. Respondent's records do not document this prescription.

20 132. On or about October 14, 2013, Patient C requested a refill of meloxicam, which
21 Respondent approved.

22 133. Patient C filled prescriptions for Norco, 325-10 mg, quantity 56, on or about
23 October 14, 2013, October 19, 2013, and October 25, 2013.

24 134. On or about October 28, 2013, a note in Patient C's file stated that Patient C had been
25 getting Norco refills that were not documented in the medical records.

26 135. On or about November 1, 2013, Patient C returned to the office and saw Respondent.
27 Respondent documented that he had a 45-minute discussion with Patient C about his Norco use,

28 ¹⁵ Meloxicam is a non-steroidal anti-inflammatory drug used to treat pain.

1 and said that Patient C needed to be kept on closer observation until he could decrease his use. .
2 On or about the same day, Patient C filled prescriptions for Norco, 325-10 mg, quantity 112, and
3 lorazepam, 1 mg, quantity 180.

4 136. On or about November 13, 2013, Patient C requested refills for meloxicam and
5 Norco. Respondent's records note that Patient C's Norco refill was not due until November 15,
6 2013. On or about November 15, 2013, Patient C filled a prescription for Norco, 325-10 mg,
7 quantity 112.

8 137. On or about November 27, 2013, Patient C returned to the office and saw Respondent.
9 Respondent documented another conversation he had with Patient C about his Norco use.
10 Patient C was currently taking "about 8 daily" tablets of Norco. Respondent recommended that
11 Patient C decrease his use slowly. Respondent noted that Patient C should not exceed taking
12 more than six tablets of lorazepam daily. Respondent gave Patient C a two-week prescription for
13 Norco for 112 tablets and a monthly prescription for lorazepam, which Patient C filled on or
14 about the same day.

15 138. From on or about December 12, 2013 to October 1, 2014, Respondent gave Patient C
16 prescriptions approximately every two weeks for Norco, 325-10 mg, quantity 112, which Patient
17 C filled.

18 139. From on or about December 12, 2013 through April 15, 2014, Respondent also gave
19 Patient C prescriptions approximately every 30 days for lorazepam, 1 mg, quantity 180, which
20 Patient C filled.

21 140. On or about December 23, 2013, Patient C returned to the office with his wife.
22 Respondent noted that Patient C had difficulty functioning without taking Norco, and that he was
23 working hard to decrease his dose. Patient C was to follow up in one month, and was told that if
24 he could decrease his use to six tablets daily, his appointments could be scheduled every three
25 months.

26 141. On or about January 24, 2014, Patient C returned to the office and saw Respondent.
27 Respondent documented that he had a conversation with Patient C about limiting his use of

28 ////

1 narcotics, and that the goal was to lower Patient C's Norco dose to a maximum of six tablets
2 daily.

3 142. On or about February 21, 2014, Patient C returned to the office and saw Respondent.
4 Patient C was having symptoms and said he needed the medication to function. Respondent
5 noted that when Patient C went to pick up an Ativan prescription, the pharmacist challenged him
6 and called Respondent's office, asking when Patient C was last drug tested. Respondent wrote
7 that it was not common in his practice to do drug screenings, and that he did not suspect that
8 Patient C was a heroin addict.

9 143. On or about February 24, 2014, Patient C requested a refill for lorazepam, which
10 Respondent did not approve. Patient C filled a prescription for lorazepam three days prior on or
11 about February 21, 2014.

12 144. On or about March 19, 2014, Patient C requested a new prescription for alprazolam,
13 which Respondent approved.

14 145. On or about March 28, 2014, Patient C returned to the office and saw Respondent.
15 He was continuing to experience the same symptoms and pain. Respondent recommended that
16 Patient C go to a pain management specialist.

17 146. On or about April 14, 2014, Respondent documented that Patient C needed an early
18 refill for lorazepam because he had taken more medication than prescribed.

19 147. On or about April 30, 2014, Patient C requested refills for Norco and lorazepam.
20 Patient C recognized that his request for lorazepam was early, but that he had a bad week and had
21 taken more than prescribed.

22 148. On or about May 1, 2014, Patient C returned to the office and saw Respondent.
23 Patient C had questions about Ativan dosing. Respondent told him that he was not to take more
24 than 8 mg daily.

25 149. On or about May 6, 2014, Patient C requested a lorazepam refill. On or about May 8,
26 2014, Patient C filled a prescription for lorazepam, 2 mg, quantity 120. Respondent failed to
27 document why he increased Patient C's lorazepam daily dose from 6 mg to 8 mg.

28 ////

1 150. On or about May 30, 2014, Patient C returned to the office and saw Respondent.
2 Respondent noted that they talked about reducing Patient C's medications.

3 151. From on or about June 6, 2014 through November 5, 2014, Respondent gave Patient
4 C prescriptions approximately every 30 days for lorazepam, 2 mg, quantity 120, which Patient C
5 filled.

6 152. On or about June 30, 2014, Patient C returned to the office and saw Respondent.
7 Respondent noted that Patient C had a history of insomnia and that he would continue to refill his
8 medications.

9 153. On or about July 30, 2014, Patient C returned to the office and saw Respondent.
10 Respondent noted that Patient C still had chronic pain syndrome and that he would continue to
11 refill his medications.

12 154. On or about September 22, 2014, Patient C returned to the office and saw
13 Respondent. Respondent noted that Patient C's chronic pain syndrome was triggered by his
14 work, and that he refilled his medications.

15 155. On or about October 8, 2014, Patient C filled prescriptions for Norco, 325-10 mg,
16 quantity 112. Patient C's last refill was one week prior on October 1, 2014 for 112 tablets.
17 Respondent's records do not document why Patient C was given an early refill.

18 156. On or about October 15, 2014, Respondent's records indicate that Patient C had been
19 given a partial refill for Norco. On or about the same day, Patient C filled a prescription for
20 Norco, 325-10 mg, quantity 64, for an eight-day supply.

21 157. On or about October 22, 2014, Patient C returned to the office and saw Respondent.
22 Respondent documented that Patient C was doing well, and gave him a Norco refill with the
23 instructions not to exceed eight tablets per day.

24 158. From on or about October 22, 2014 through February 1, 2016, Respondent gave
25 Patient C prescriptions approximately every 14 or 15 days for Norco, 325-10 mg, quantity 120, or
26 Norco, 325-7.5 mg, quantity 160, which Patient C filled.

27 ////

28 ////

1 159. On or about November 5, 2014, Respondent noted that Patient C wanted to try
2 tramadol for sleep issues. Respondent advised Patient C that tramadol would only be prescribed
3 if he decreased his Norco use.

4 160. From on or about November 5, 2014 through March 31, 2015, Respondent gave
5 Patient C prescriptions approximately every month for lorazepam, 2 mg, quantity 120, which
6 Patient C filled.

7 161. On or about November 6, 2014, Respondent documented that Patient C had almost
8 run out of Norco, despite getting 120 tablets on October 29.

9 162. On or about November 10, 2014 and November 14, 2014, Patient C filled
10 prescriptions for Ultracet, quantity 42, written by Respondent. Respondent's records do not
11 document these prescriptions.

12 163. On or about December 2, 2014, Patient C returned to the office and saw Respondent.
13 Respondent noted that Patient C was having difficulty finding 325-10 mg tablets of Norco, and he
14 switched his prescription to 325-7.5 mg tablets.

15 164. On or about December 30, 2014, Patient C returned to the office and saw Respondent.
16 Respondent noted that he wanted Patient C to decrease his Norco use to six tablets per day.

17 165. On or about February 10, 2015 and February 24, 2015, Patient C returned to the
18 office and saw Respondent for medication refills.

19 166. On or about March 24, 2015, Patient C returned to the office and saw Respondent.
20 Respondent switched Patient C back to 325-10 mg Norco and prescribed 120 tablets, with the
21 instructions that he was not to exceed eight tablets per day.

22 167. On or about April 20, 2015, Patient C returned to the office and saw Respondent.
23 Patient C reported that he woke up with severe pain in his lower abdomen that went away after a
24 few hours. Patient C refused an echocardiogram or cardiology consult. Respondent refilled his
25 medications. Patient C filled prescriptions for Norco and lorazepam, 2 mg, quantity 150, on or
26 about the same day. Respondent failed to document why he increased Patient C's lorazepam
27 prescription from 8 mg to 10 mg per day.

28 ////

1 168. On or about May 4, 2015, Patient C returned to the office. A note written by a
2 medical assistant documented Patient C's prescriptions and that he was "not receiving restricted
3 drugs from other doctors."

4 169. On or about May 18, 2015, Patient C returned to the office and saw Respondent.
5 Patient C reported having the usual pains. Respondent refilled his medications, and Patient C
6 filled a prescription for Norco, 325-10 mg, quantity 150. Respondent failed to document why he
7 increased the amount of Norco tablets Patient C was receiving.

8 170. From on or about May 18, 2015 through June 30, 2016, Respondent gave Patient C
9 prescriptions approximately every month for lorazepam, 2 mg, quantity 150, which Patient C
10 filled.

11 171. From on or about June 1, 2015 through August 1, 2017, Respondent regularly gave
12 Patient C prescriptions for Norco, 325-10 mg, for approximately eight tablets per day, which
13 Patient C filled.

14 172. On or about June 15, 2015, Patient C returned to the office and saw Respondent.
15 Patient C reported no changes. Respondent encouraged Patient C to cut down on his medication,
16 and gave him refills for lorazepam and Norco.

17 173. On or about August 3, 2015, Patient C returned to the office and saw Respondent.
18 Patient C complained of insomnia. Respondent prescribed Restoril,¹⁶ 30 mg, quantity 17, and
19 refilled Patient C's other medications. Patient C filled prescriptions for Restoril, Norco, and
20 lorazepam on or about the same day.

21 174. From on or about August 31, 2015 through June 30, 2016, Respondent gave Patient C
22 prescriptions approximately every month for Restoril, 30 mg, quantity 30, which Patient C filled.

23 175. On or about August 31, 2015 and September 29, 2015, Patient C returned to the office
24 and saw Respondent for medication refills.

25 ////

26 ////

27

28 ¹⁶ Restoril, brand name for temazepam, is a benzodiazepine and a Schedule IV controlled
substance pursuant to Business and Professions Code section 11057, subdivision (d).

1 176. On or about October 26, 2015, Patient C returned to the office for his annual physical
2 exam. There were no abnormal findings, and prescriptions were given for temazepam and
3 lorazepam with the instructions that Patient C was not to exceed five tablets of lorazepam per day.

4 177. On or about November 23, 2015 and December 22, 2015, Patient C returned to the
5 office for medication refills. On or about December 22, 2015, Patient C reported having a new
6 area of pain. Respondent's plan was for Patient C to continue taking his medications.

7 178. On or about January 19, 2016, Respondent documented that Patient C could only get
8 three-week supplies of written prescriptions on January 4, 2016.

9 179. On or about February 5, 2016 and March 7, 2016, Patient C returned to the office and
10 saw Respondent. Respondent's plan was for Patient C to continue taking his medications.

11 180. On or about April 4, 2016, Patient C returned to the office and saw Respondent for a
12 Norco refill. Respondent documented that "cautions on dosing [had been] discussed."

13 181. On or about May 2, 2016, Patient C returned to the office and saw Respondent.
14 Patient C complained of back pain after exertion. Respondent documented that he refilled
15 Patient C's lorazepam and Restoril prescriptions.

16 182. On or about June 2, 2016 and July 15, 2016, Patient C returned to the office for a
17 Norco refill.

18 183. On or about July 22, 2016, Patient C requested to switch from taking Ativan to
19 Xanax. Respondent gave him a prescription for Xanax, 2 mg, to be taken five times daily. On or
20 about the same day, Patient C filled a prescription for Xanax, 2 mg, quantity 150.

21 184. On or about August 17, 2016, Patient C returned to the office and saw Respondent.
22 Respondent's plan was for Patient C to continue taking his medications.

23 185. On or about August 22, 2016, Patient C filled a prescription for Xanax, 2 mg,
24 quantity 25. On or about August 23, 2016, Patient C filled a prescription for Xanax, 2 mg,
25 quantity 120.

26 186. From on or about September 21, 2016 through June 16, 2017, Respondent gave
27 Patient C approximately monthly prescriptions of Xanax, 2 mg, quantity 150, which Patient C
28 filled.

1 187. On or about October 3, 2016, Patient C returned to the office and saw Respondent for
2 medication refills. Respondent's plan was for Patient C to continue taking his medications,
3 although he also documented that Patient C would tell him when he was ready to decrease his
4 medications.

5 188. On or about November 22, 2016, Patient C returned to the office for his annual
6 physical exam. Respondent ordered a spine x-ray.

7 189. On or about January 9, 2017, Patient C returned to the office and saw Respondent for
8 a Norco refill. Respondent's plan was to continue with Patient C's medications and possible
9 further work up.

10 190. On or about March 13, 2017, Patient C returned to the office and saw Respondent for
11 medication refills. Respondent's plan was for Patient C to continue taking his medications.

12 191. On or about June 22, 2017, Patient C saw a pain management specialist. The pain
13 management specialist assessed Patient C with cervicalgia and low back pain. He also noted that
14 Patient C had a history of severe anxiety, and that he was currently taking four to five tablets of
15 2 mg Xanax and four tablets of Norco, 325-10 mg daily. In his report, the pain management
16 specialist expressed concern over Patient C's concomitant use of opiates and benzodiazepines.
17 The specialist told Patient C that he would have to discontinue Xanax completely, if he was to
18 continue being prescribed opiates at the clinic. The specialist prescribed Norco, 325-10 mg,
19 quantity 120, which Patient C filled on or about the same day. Respondent received a copy of the
20 pain management specialist's report.

21 192. On or about July 14, 2017, Respondent documented that Patient C had been
22 hospitalized after having a seizure and hitting his head.

23 193. On or about July 18, 2017, Patient C filled a prescription for Xanax, 1 mg, quantity
24 60, issued by Respondent. Respondent's records do not document this prescription.

25 194. On or about July 25, 2017, Respondent's record indicates that Patient C requested to
26 have staples removed in the office. The staples were from Patient C's fall and hospital stay.

27 195. On or about July 27, 2017, Patient C called Respondent's office requesting an
28 appointment to discuss weaning off Xanax.

1 196. On or about August 11, 2017, Patient C requested a Xanax refill, which Respondent
2 approved. On or about the same day, Patient C filled a prescription for Xanax, 2 mg, quantity
3 150.

4 197. On or about September 11, 2017, Patient C requested another Xanax refill. Patient C
5 told Respondent that he had stopped taking Norco one month prior, and that he did not want to go
6 back to the pain management specialist. Patient C wanted to try tramadol. Respondent gave
7 Patient C a prescription for Ultracet. On or about September 12, 2013, Patient C filled
8 prescriptions for Xanax, 2 mg, quantity 150, and Ultracet, quantity 20.

9 198. On or about September 13, 2017, Patient C filled another prescription for Ultracet,
10 quantity 100.

11 199. On or about October 10, 2017, Patient C told Respondent he wanted to switch from
12 Ultracet to Ultram, and that he had finished his medication early. Patient C said he had tried his
13 mother's Ultram, and wanted a prescription for five pills per day. Respondent told Patient C not
14 to take other people's medications, and gave him a prescription for Ultram. On or about
15 October 11, 2017, Patient C filled a prescription for Ultram, 50 mg, quantity 150.

16 200. On or about October 23, 2017, Patient C returned to the office and saw Respondent for
17 medication refills. Respondent documented that the pain management specialist had taken
18 Patient C off his narcotics and Xanax simultaneously, and Patient C had a withdrawal seizure.
19 Respondent's plan was to avoid Norco in the future. Respondent prescribed Xanax, 2 mg,
20 quantity 150, which Patient C filled on or about the same day. Patient C received refills of 150
21 tablets of Xanax on or about November 28, 2017 and January 3, 2018.

22 201. On or about November 8, 2017, Patient C requested an Ultram refill, which
23 Respondent approved. On or about November 9, 2017, Patient C filled a prescription for Ultram,
24 50 mg, quantity 150.

25 202. On or about December 4, 2017, Patient C asked Respondent if he could increase his
26 Ultram dose from five to six pills per day. On or about December 8, 2017, Patient C filled a
27 prescription for Ultram, 50 mg, quantity 180.

28 ////

1 203. On or about January 3, 2018, Patient C requested refills for Xanax and Ultram, which
2 Respondent approved. On or about January 6, 2018, Patient C filled a prescription for Ultram, 50
3 mg, quantity 180.

4 204. On or about January 23, 2018, Patient C returned to the office and saw Respondent.
5 Respondent's plan was for Patient C to reduce his Xanax use from five to four and a half tablets
6 per day.

7 205. From on or about February 5, 2018 through June 29, 2018, Respondent gave Patient
8 C approximately monthly prescriptions for Ultram, 50 mg, quantity 180, which Patient C filled.

9 206. On or about February 15, 2018 and March 16, 2018, Respondent gave Patient C
10 prescriptions for Xanax, 2 mg, quantity 135, which Patient C filled.

11 207. On or about April 20, 2018 and May 29, 2018, Respondent gave Patient C
12 prescriptions for Xanax, 2 mg, quantity 120, which Patient C filled.

13 208. On or about June 20, 2018, Patient C returned to the office and saw Respondent for a
14 medication refill.

15 209. Respondent committed repeated negligent acts in his care and treatment of Patient C
16 which included, but was not limited to, the following:

- 17 a. Prescribing moderately high doses of opiates and high doses of
- 18 benzodiazepines to Patient C without specialty input or consultation;
- 19 b. Failing to implement a pain contract early in his treatment of Patient C;
- 20 c. Failing to check urine drug screens for evidence of other controlled agents
- 21 and/or diversion;
- 22 d. Re-prescribing benzodiazepines and tramadol to Patient C after he had a
- 23 benzodiazepine withdrawal seizure;
- 24 e. Continuing to prescribe high daily doses of benzodiazepines to Patient C for
- 25 years; and/or
- 26 f. Prescribing multiple benzodiazepines contemporaneously to Patient C.

27 ////

28 ////

1 Patient D

2 210. On or about November 4, 2014, Patient D, a then sixty-year-old male, presented to
3 Respondent for his drug use. Patient D had peripheral vascular disease in his right lower
4 extremity, which initially led to the amputation of a toe. Due to sepsis, Patient D eventually
5 underwent an above-the-knee amputation. Patient D reported illicit drug use, specifically black
6 tar heroin, and was also taking oxycodone, 30 mg, four times daily, for the pain in his right lower
7 extremity. Respondent assessed Patient D with addiction to opiates/black tar heroin, above-the-
8 knee amputation, peripheral vascular disease, hypertension and discoid lupus. Patient D told
9 Respondent that he had previously taken methadone at 10 mg, 6 tablets daily. When he could no
10 longer obtain methadone, Patient D turned to black tar heroin. Respondent's plan was to continue
11 Patient D's medications for hypertension and lupus, obtain a rheumatology consultation, start
12 methadone, and discontinue black tar heroin. Respondent's plan also included discontinuing
13 oxycodone with the introduction of methadone.

14 211. On or about November 4, 2014, Respondent ordered a drug screen for Patient D. The
15 drug screen was positive for morphine.

16 212. On or about November 25, 2014, Patient D returned to Respondent's office.
17 Patient D reported that he had a difficult time trying to find a pain management doctor, and
18 eventually turned to heroin. Respondent diagnosed Patient D with chronic pain syndrome, above-
19 the-knee amputation status, and opioid abuse. He recommended that Patient D see a vascular
20 surgeon to check his right lower extremity.

21 213. On or about January 5, 2015, Patient D returned to the office for a medication refill.
22 Respondent documented that "[Patient D] is now off heroin and very appropriately taking
23 medically prescribed methadone." Respondent refilled Patient D's prescription for methadone.

24 214. On or about February 3, 2015, Patient D returned to the office for a medication refill.
25 Respondent once again noted that Patient D was on methadone and off heroin, and refilled
26 Patient D's methadone prescription.

27 215. On or about March 3, 2015, Patient D returned to the office for a medication refill.
28 Respondent noted that Patient D "[had] no signs or evidence of choosing illegal drugs over

1 prescribed drugs.” Respondent refilled Patient D’s prescription for methadone and ordered drug
2 testing.

3 216. On or about March 30, 2015, Patient D submitted to a drug screen, which was
4 positive for methadone. The lab reported the results on or about April 1, 2015.

5 217. On or about April 7, 2015, Patient D returned to the office for a medication refill.
6 Respondent noted that Patient D was doing extremely well, and that he was seeing the vascular
7 surgeon that Respondent recommended. Respondent refilled Patient D’s methadone prescription,
8 and ordered another drug screen. Respondent’s records do not include the results of any drug
9 screen ordered at this visit.

10 218. On or about May 6, 2015 and June 5, 2015, Patient D returned for a medication refill.
11 Respondent noted that Patient D was following his methadone treatment program, and refilled
12 Patient D’s prescription.

13 219. On or about July 1, 2015, and July 31, 2015, Patient D returned for a medication
14 refill. Respondent refilled Patient D’s methadone prescription. Respondent noted Patient D’s use
15 of methadone was working “phenomenally well.”

16 220. On or about August 28, 2015, Patient D returned for a medication refill. Patient D
17 reported worsening pain in his left foot. Respondent refilled Patient D’s methadone prescription.

18 221. Respondent’s records include a CURES report printed on or about August 28, 2015,
19 for Patient D from February 27, 2015 through August 25, 2015. The CURES report showed that
20 Patient D had been regularly filling oxycodone prescriptions from another treatment provider
21 while he was seeing Respondent, which had continued to on or about July 25, 2015. The CURES
22 report also showed that Patient D had been filling alprazolam prescriptions from the other
23 treatment provider since in or around March 2015. Respondent’s records for Patient D make no
24 reference to these other prescriptions, nor do they document that Patient D was seeing this other
25 treatment provider. A handwritten note on this CURES report states, in part, that the other
26 treatment provider should be notified, a pain management specialist referral was needed, and that
27 Patient D was to receive a four-day supply of his medication.

28 ////

1 222. Respondent committed repeated negligent acts in his care and treatment of Patient D
2 for prescribing methadone to Patient D without a full assessment of possible psychiatric or
3 addiction comorbidities.

4 Patient E

5 223. Respondent started treating Patient E in or around July 2012. On or about February
6 29, 2016, Patient E, then a twenty-eight-year old male, returned to the office and saw Respondent.
7 Respondent noted that Patient E had a history of lacerations on his right leg and secondary
8 neuropraxia¹⁷ with chronic pain syndrome. In his interview with Board investigators, Respondent
9 explained that Patient E had an accident in 2012 which caused the lacerations, and that he thought
10 Patient E severed or injured some nerves. At the time, Respondent was prescribing Patient E with
11 oxycodone for headaches and neuropraxia. According to his records, Respondent was also
12 prescribing Tegretol¹⁸ for neuropraxia, nortriptyline,¹⁹ and ibuprofen. At this visit, Respondent
13 gave Patient E a monthly prescription for oxycodone, 30 mg, quantity 180, with the instruction
14 that Patient E should not exceed six tablets, or 180 mg, per day.

15 224. On or about February 29, 2016, Patient E filled a prescription for oxycodone, 30 mg,
16 quantity 90, and Ambien,²⁰ 10 mg, quantity 30.

17 225. On or about March 7, 2016, Patient E filled a prescription for oxycodone, 30 mg,
18 quantity 90.

19 226. On or about March 9, 2016, Respondent received a letter from the Department of
20 Health Services noting concerns regarding Patient E's high opiate dosing and concomitant use of
21 tramadol, nortriptyline, and Ambien.

22 ////

23 ¹⁷ Neuropraxia is a condition in which there is a temporary loss of motor and sensory function. It
24 is possible Respondent used the term synonymously with neuropathy, which is disease or dysfunction in
one or more of the peripheral nerves.

25 ¹⁸ Tegretol, brand name for carbamazepine, is an anticonvulsant sometimes used to treat peripheral
26 neuropathy.

27 ¹⁹ Nortriptyline is a nerve pain medication and antidepressant.

28 ²⁰ Ambien, brand name for zolpidem tartrate, is a sedative hypnotic and a Schedule IV controlled
substance pursuant to Business and Professions Code section 11057, subdivision (d).

1 227. On or about March 28, 2016, Patient E returned to the office and saw Respondent.
2 Respondent noted that Patient E had the same symptoms but was functioning well on the
3 medications. Respondent gave Patient E prescriptions for Ambien and oxycodone. On or about
4 the same day, Patient E filled a prescription for oxycodone, 30 mg, quantity 90, and Ambien,
5 10 mg, quantity 30.

6 228. On or about April 5, 2016, Patient E filled a prescription for oxycodone, 30 mg,
7 quantity 90.

8 229. On or about April 28, 2016, May 3, 2016, May 25, 2016, and June 8, 2016, Patient E
9 filled prescriptions for oxycodone, 30 mg, quantity 90.

10 230. On or about June 23, 2016, Patient E filled a prescription for Ambien, 10 mg,
11 quantity 30.

12 231. On or about June 24, 2016, Patient E returned to the office and saw Respondent.
13 Respondent's plan was for Patient E to continue taking his medications. On or about the same
14 day, Patient E filled a prescription for oxycodone, 30 mg, quantity 90.

15 232. On or about July 8, 2016, Patient E filled a prescription for oxycodone, 30 mg,
16 quantity 90.

17 233. On or about July 22, 2016, Patient E filled prescriptions for oxycodone, 30 mg,
18 quantity 90, and Ambien, 10 mg, quantity 30.

19 234. On or about August 3, 2016, Patient E filled a prescription for oxycodone, 30 mg,
20 quantity 90.

21 235. On or about August 9, 2016, Patient E returned to the office and saw Respondent.
22 Respondent's assessment and plan did not change, and he continued to prescribe Patient E's
23 medications.

24 236. On or about August 19, 2016, Patient E signed a pain contract with Respondent. On
25 or about the same day, Patient E filled a prescription for oxycodone, 30 mg, quantity 90.

26 237. One week later, on or about August 26, 2016, Patient E filled prescriptions for
27 oxycodone, 30 mg, quantity 90, and Ambien, 10 mg, quantity 30.

28 ////

1 238. On or about September 16, 2016, Patient E filled a prescription for oxycodone,
2 30 mg, quantity 90.

3 239. Six days later, on or about September 22, 2016, Patient E filled prescriptions for
4 oxycodone, 30 mg, quantity 90, and Ambien, 10 mg, quantity 30.

5 240. On or about October 13, 2016, Patient E filled a prescription for oxycodone, 30 mg,
6 quantity 90.

7 241. Nine days later, on or about October 22, 2016, Patient E filled prescriptions for
8 oxycodone, 30 mg, quantity 90, and Ambien, 10 mg, quantity 30.

9 242. On or about November 15, 2016, Patient E returned to the office and saw
10 Respondent. Respondent noted that Patient E had the same pain. Respondent gave Patient E
11 prescriptions for oxycodone and ibuprofen. On or about the same day, Patient E filled a
12 prescription for oxycodone, 30 mg, quantity 90.

13 243. On or about November 19, 2016, Patient E filled a prescription for Ambien, 10 mg,
14 quantity 30.

15 244. On or about November 22, 2016 and December 12, 2016, Patient E filled
16 prescriptions for oxycodone, 30 mg, quantity 90.

17 245. On or about December 16, 2016, Patient E filled a prescription for Ambien, 10 mg,
18 quantity 30.

19 246. On or about December 22, 2016, Patient E filled a prescription for oxycodone, 30 mg,
20 quantity 90.

21 247. On or about January 16, 2017, Patient E returned to the office and saw Respondent.
22 Respondent's plan was to continue prescribing his medications. On or about the same day,
23 Patient E filled a prescription for oxycodone, 30 mg, quantity 90, and Ambien, 10 mg, quantity
24 30.

25 248. On or about January 25, 2017, Patient E filled a prescription for oxycodone, 30 mg,
26 quantity 90.

27 249. On or about February 13, 2017, Patient E filled prescriptions for oxycodone, 30 mg,
28 quantity 90, and Ambien, 10 mg, quantity 30.

1 250. On or about February 22, 2017, Patient E returned to the office for medication refills.
2 Patient E reported that he had diarrhea as a side effect of taking Tegretol. Respondent prescribed
3 Lomotil²¹ to treat Patient E's diarrhea. Respondent did not document any consideration or
4 discussion with Patient E about the drug interactions between oxycodone, Lomotil, and
5 nortriptyline.

6 251. On or about February 22, 2017, March 13, 2017, March 20, 2017, April 11, 2017, and
7 April 17, 2017, Patient E filled prescriptions for oxycodone, 30 mg, quantity 90.

8 252. On or about April 24, 2017, Patient E filled a prescription for Ambien, 10 mg,
9 quantity 30.

10 253. CURES records indicate that on or about May 10, 2017, Patient E filled two
11 prescriptions, each for oxycodone, 30 mg, quantity 90, at two separate pharmacies. Both
12 prescriptions were written by Respondent.

13 254. On or about May 24, 2017, Patient E filled a prescription for Ambien, 10 mg,
14 quantity 30.

15 255. On or about June 9, 2017 and June 19, 2017, Patient E filled prescriptions for
16 oxycodone, 30 mg, quantity 90.

17 256. On or about June 21, 2017, Patient E filled a prescription for Ambien, 10 mg,
18 quantity 30.

19 257. On or about September 20, 2017, Patient E requested a refill for Tegretol.
20 Respondent's records show that Patient E's current medications included a reduced dose of
21 oxycodone to a maximum of 60 mg per day. On or about the same day, Patient E filled a
22 prescription for oxycodone, 20 mg, quantity 45, and Ambien, 10 mg, quantity 30.

23 258. From on or about October 3, 2017 through January 12, 2018, Respondent continued
24 to prescribe oxycodone to Patient E in smaller doses. Respondent's records do not document that
25 Patient E had any office visits or saw Respondent during this time, although there is a note in
26 which Respondent appears to document a tapering schedule for Patient E's opiate use.
