1 3. On or about June 8, 1994, the Board issued Physician's and Surgeon's Certificate No.

3 Certificate was in full force and effect at all times relevant to the charges brought in Accusation
4 No. 800-2017-032287, and will expire on December 31, 2021, unless renewed.

5 **JURISDICTION**

6 4. Accusation No. 800-2017-032287 was filed before the Board, and is currently
7 pending against Respondent. The Accusation and all other statutorily required documents were
8 properly served on Respondent on December 11, 2018. Respondent timely filed her Notice of
9 Defense contesting the Accusation.

10 5. A copy of Accusation No. 800-2017-032287 is attached as Exhibit A and
11 incorporated herein by reference.

19 the witnesses against her; the right to present evidence and to testify on her own behalf; the right
20 to the issuance of subpoenas to compel the attendance of witnesses and the production of
21 documents; the right to reconsideration and court review of an adverse decision; and all other
22 rights accorded by the California Administrative Procedure Act and other applicable laws.

23 8. Respondent voluntarily, knowingly, and intelligently waives and gives up each and
24 every right set forth above.

25 **CULPABILITY**

26 9. Respondent understands and agrees that the charges and allegations in Accusation
27 No. 800-2017-032287, if proven at a hearing, constitute cause for imposing discipline upon her
28 Physician's and Surgeon's Certificate.

1 connection with the allegations relating to Respondent's care and treatment of Patient A, as set
2 forth in Accusation No. 800-2017-032287.

3 **B. EDUCATION COURSE**

4 Within 120 calendar days of the effective date of this Decision, Respondent shall enroll in
5 18 hours of education course(s) in fetal heart tracing, approved in advance by the Board or its
6 designee. Respondent shall provide the approved course provider with any information and
7 documents that the approved course provider may deem pertinent. Respondent shall participate
8 in and successfully complete the classroom component of the course not later than nine (9)
9 months after Respondent's initial enrollment. Respondent shall successfully complete any other
10 component of the course within one (1) year of enrollment. The fetal heart tracing course shall be

13 A fetal heart tracing course taken after the acts that gave rise to the charges in the
14 Accusation, but prior to the effective date of the Decision may, in the sole discretion of the Board
15 or its designee, be accepted towards the fulfillment of this condition if the course would have
16 been approved by the Board or its designee had the course been taken after the effective date of
17 this Decision.

18 Respondent shall submit a certification of successful completion to the Board or its
19 designee not later than 15 calendar days after successfully completing the 18 hours of fetal heart
20 tracing course(s), or not later than 15 calendar days after the effective date of the Decision,
21 whichever is later.

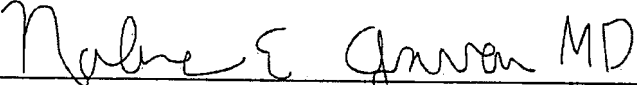

22 Respondent understands that failure to submit and/or complete the 18 hours of fetal heart
23 tracing course(s), as set forth above, would constitute unprofessional conduct and grounds for
24 further disciplinary action. If Respondent fails to enroll, participate in, or successfully complete
25 the fetal heart tracing course(s) within the designated time period, Respondent shall receive a
26 notification from the Board or its designee to cease the practice of medicine within three (3)

1 FACTS

2 7. At all times relevant to this matter, Respondent was a licensed physician practicing in
3 Campbell, California.

4 8. Patient A,¹ a 29-year old female, with an expected due date of February 10, 2015, was
5 under the prenatal care of Respondent, an obstetrician/gynecologist. On February 11, 2015, at
6 approximately 9:00 a.m., Patient A presented to Labor & Delivery at El Camino Hospital, with
7 complaints of frequent contractions and possible spontaneous rupture of membranes earlier in the
8 morning.

9 9. Fetal heart rate monitoring was initiated. Between 9:15 a.m. and 10:15 a.m., there
10 were various decelerations² noted and decelerations with bradycardia.³ Patient A received an
11 epidural⁴ at approximately 11:00 a.m. Between 11:00 a.m. and 12:30 p.m., late decelerations and
12 bradycardias continued intermittently. The fetal heart tracing during this time period included
13 Category III⁵ on the fetal monitor strip.⁶

14 10. Respondent arrived at the hospital shortly after 12:30 p.m. to undertake the care of
15 Patient A. Respondent ordered amnioinfusion⁷ in an effort to improve the fetal heart rate.
16 Between 1:00 p.m. and 1:30 p.m., there were more bradycardias with late decelerations,
17

18 ¹ The patient is designated in this document as Patient A to protect the patient's privacy.
19 Respondent knows the name of the patient and can confirm the patient's identity through discovery.

20 ² Decelerations are temporary drops in the fetal heart rate.

21 ³ Fetal bradycardia refers to an abnormally low fetal heart rate.

22 ⁴ Epidural is a type of anesthetic injected in the lower back region to produce loss of sensation
23 given to women during labor for pain relief.

24 ⁵ Three-tier fetal heart rate interpretation system: Category I (normal), Category II
(indeterminate), and Category III (abnormal).

25 ⁶ Electronic fetal monitoring continuously record the unborn baby's heart rate and graphs it on a
26 piece of paper (fetal monitor strip).

27 ⁷ Amnioinfusion is a method in which isotonic fluid is instilled into the amniotic cavity in order to
28 correct fetal heart rate changes thought to be caused by compression of the umbilical cord (variable
decelerations).

1 indicative of Category III. Respondent ordered Nitroglycerin⁸ to help improve the fetal heart rate.
2 Between 2:10 p.m. and 2:20 p.m., there were late decelerations with more bradycardias,
3 indicative of Category III strips. A fetal scalp electrode⁹ was placed at this time. More
4 decelerations and long bradycardias continued between 2:30 p.m. and 3:00 p.m.

5 11. There was a large terminal bradycardia recorded on the fetal monitoring strip at 3:00
6 p.m. Respondent made the decision to transfer Patient A to the operating room for emergency
7 cesarean section at 3:10 p.m. In the operating room, the fetal heart rate monitor showed a
8 terminal bradycardia at 3:14 p.m. Respondent delivered a 9 lb. 7 oz. baby¹⁰ at 3:21 p.m. The
9 baby was very depressed with low Apgar scores¹¹ of 1, 0, 2 and 3.

10 FIRST CAUSE FOR DISCIPLINE

11 **(Unprofessional Conduct: Gross Negligence and/or Repeated Negligent Acts)**

12 12. Respondent is subject to disciplinary action under section 2234(b) and/or 2234(c) of
13 the Code in that Respondent's overall conduct, acts, and omissions, with regard to Patient A
14 constitute gross negligence and/or repeated negligent acts, as described above including, but not
15 limited to, the following:

- 16 A. Respondent failed to recognize the fetus was in severe distress requiring emergency
17 intervention shortly after Respondent's arrival at the hospital.
- 18 B. Respondent failed to deliver the baby in a timely fashion after she arrived at the hospital
19 to undertake the care of Patient A.
- 20 C. Respondent failed to identify the fetus as large for gestational age.

21
22
23
24 ⁸ Nitroglycerin is administered intravenously to relax the uterus.

25 ⁹ Fetal scalp electrode is a spiral wire placed directly on the fetal scalp to check the fetal heart rate.

26 ¹⁰ The term "fetal macrosomia" is used to describe a newborn with a birth weight of more than 8
lbs, 13 ounces (4,000 grams). Fetal macrosomia may complicate vaginal delivery.

27 ¹¹ Apgar score is a measure of the physical condition of a newborn infant obtained by adding
28 points (2, 1, or 0) for heart rate, respiratory effort, muscle tone, response to stimulation, and skin
coloration. A score of ten represents the best possible condition.
