1 CULPABILITY

2 9. Respondent understands and agrees that the charges and allegations in Accusation  
3 No. 800-2016-020938, if proven at a hearing, constitute cause for imposing discipline upon his  
4 Physician's and Surgeon's Certificate.

5 2. For the purpose of resolving the Accusation without the expense and uncertainty of  
6 further proceedings, Respondent agrees that, at a hearing, Complainant could establish a factual  
7 basis for the charges in the Accusation, and that Respondent hereby gives up his right to contest  
8 those charges.

9 3. Respondent agrees that his Physician's and Surgeon's Certificate is subject to  
10 discipline and he agrees to be bound by the Board's imposition of discipline as set forth in the

13 10. This stipulation shall be subject to approval by the Medical Board of California.  
14 Respondent understands and agrees that counsel for Complainant and the staff of the Medical  
15 Board of California may communicate directly with the Board regarding this stipulation and  
16 settlement, without notice to or participation by Respondent or his counsel. By signing the  
17 stipulation, Respondent understands and agrees that he may not withdraw his agreement or seek  
18 to rescind the stipulation prior to the time the Board considers and acts upon it. If the Board fails  
19 to adopt this stipulation as its Decision and Order, the Stipulated Settlement and Disciplinary  
20 Order shall be of no force or effect, except for this paragraph, it shall be inadmissible in any legal  
21 action between the parties, and the Board shall not be disqualified from further action by having  
22 considered this matter.

23 11. The parties understand and agree that Portable Document Format (PDF) and facsimile  
24 copies of this Stipulated Settlement and Disciplinary Order, including PDF and facsimile  
25 signatures thereto, shall have the same force and effect as the originals.

26 12. In consideration of the foregoing admissions and stipulations, the parties agree that  
27 the Board may, without further notice or opportunity to be heard by the Respondent, issue and  
28 enter the following Disciplinary Order:

1 **DISCIPLINARY ORDER**

2 3. This Accusation is brought before the Board, under the authority of the following

5. Section 2234 of the Code, states, in pertinent part:

“The board shall take action against any licensee who is charged with unprofessional conduct. In addition to other provisions of this article, unprofessional conduct includes, but is not limited to, the following:

“(a) Violating or attempting to violate, directly or indirectly, assisting in or abetting the violation of, or conspiring to violate any provision of this chapter.

“...”

6. Section 2305 of the Code states:

“The revocation, suspension, or other discipline, restriction or limitation imposed by another state upon a license or certificate to practice medicine issued by that state, or the revocation, suspension, or restriction of the authority to practice medicine by any agency of the federal government, that would have been grounds for discipline in California of a licensee under this chapter shall constitute grounds for disciplinary action for unprofessional conduct against the licensee in this state.”

///

1           7.    Section 141 of the Code states:

2                   “(a) For any licensee holding a license issued by a board under the jurisdiction  
3 of the department, a disciplinary action taken by another state, by any agency of the  
4 federal government, or by another country for any act substantially related to the  
5 practice regulated by the California license, may be a ground for disciplinary action  
6 by the respective state licensing board. A certified copy of the record of the  
7 disciplinary action taken against the licensee by another state, an agency of the  
8 federal government, or another country shall be conclusive evidence of the events  
9 related therein.

10                   “(b) Nothing in this section shall preclude a board from applying a specific

17                                   **FIRST CAUSE FOR DISCIPLINE**

18                                   **(Discipline, Restriction, or Limitation Imposed by Another State)**

19           9.    On August 28, 2017, the Missouri State Board of Registration for the Healing Arts  
20 (Missouri Board) issued a Settlement Agreement Between the Missouri State Board of  
21 Registration for the Healing Arts and Christopher P. Creighton, M.D. (Settlement Agreement)

C. Respondent's failure to maintain a separate log for controlled substance dispensing is cause to discipline Respondent's license issued by the Missouri Board; and

D. Respondent's failure to store sample bottles of controlled substances in a securely-locked cabinet or safe is cause to discipline Respondent's license issued by the Missouri Board.

10. Pursuant to the Settlement Agreement, Respondent's license to practice medicine in the State of Missouri was publicly reprimanded.

11. A true and correct copy of the Settlement Agreement issued by the Missouri Board is attached as Exhibit A.

**SECOND CAUSE FOR DISCIPLINE**

**(Gross Negligence)**

13. Respondent Christopher P. Creighton, M.D., has further subjected his Physician's and Surgeon's Certificate No. G 140165 to disciplinary action under section 2227, as defined by 2234, subdivision (b), of the Code, in that he committed gross negligence in his care and treatment of Patient A,<sup>1</sup> as more particularly alleged herein after:

14. From 2013 through 2016, Patient A was treated by another physician for, among other things, ankle pain and lower back pain. Patient A was prescribed several controlled

1 substances, including, but not limited to: fentanyl transdermal patches,<sup>2</sup> Dilaudid,<sup>3</sup> morphine<sup>4</sup> and  
2 methadone.<sup>5</sup>

3 15. In or around January 2016, Patient A was receiving high dose opioid therapy, which  
4 included, methadone (35 mg per day) and Dilaudid (12 mg per day), equating to a morphine  
5 equivalent dose<sup>6</sup> (MED) of 560 mg per day.

6 16. On or about February 1, 2016, Respondent joined the practice where Patient A was  
7 receiving care.

8 17. In or around March 2016, Respondent took over the care and treatment of Patient A.

9 18. On March 15, 2016, Patient A presented with complaints of continued ankle pain and  
10 was seen by Respondent for the first time. Respondent issued prescriptions to Patient A, refilling  
11 her methadone (5 mg) seven times per day and Dilaudid (4 mg) three times per day for a total  
12 MED of 560 mg per day. Records for this visit are sparse and do not indicate Respondent  
13 performed an adequate reassessment of Patient A. Specifically, records for this visit show no

14 <sup>2</sup> Fentanyl, brand name Duragesic, is a Schedule II controlled substance pursuant to Health and  
15 Safety Code section 11055, subdivision (c), and a dangerous drug pursuant to Business and Professions  
16 Code section 4022. Fentanyl is a potent opioid. In general, 1 mcg per hour of fentanyl is approximately  
equivalent to 2.4 morphine milligram equivalent in a 24-hour period.

17 <sup>3</sup> Dilaudid is a brand name for hydromorphone, a Schedule II controlled substance pursuant to  
18 Health and Safety Code section 11055, subdivision (b), and a dangerous drug pursuant to Business and  
Professions Code section 4022. Dilaudid is an opioid commonly used to treat severe pain.

19 <sup>4</sup> Morphine, brand name, MS Contin, is a Schedule II controlled substance pursuant to Health and  
20 Safety Code section 11055, subdivision (b), and a dangerous drug pursuant to Business and Professions  
Code section 4022. Morphine is an opioid commonly used to treat long term severe pain.

21 <sup>5</sup> Methadone is a Schedule II controlled substance pursuant to Health and Safety Code section  
22 11055, subdivision (c), and a dangerous drug pursuant to Business and Professions Code section 4022.  
Methadone is a potent long-acting synthetic opioid, indicated for use only in opiate tolerant patients.  
23 Methadone is rapidly orally absorbed, therefore having an analgesic effect within 30 minutes of oral  
administration. However, its peak opiate effect is often not attained for 3 to 5 days. Therefore,  
24 Methadone is never to be prescribed with a variable or flexible dose regimen, and is only to be prescribed  
with a fixed dosing schedule, under close supervision, and only after careful patient instruction regarding  
the potentially lethal consequences of self-adjustment of dosage.

25 <sup>6</sup> Morphine Equivalent Dose (MED), also commonly referred to as Morphine Milligram  
26 Equivalent (MME), is used to equate different opioids into one standard value, based on morphine and its  
potency, referred to as MED or MME. MED/MME calculations permit all opioids to be converted to an  
27 equivalent of one medication, for ease of comparison and risk evaluations. In general, the standard of  
practice is to limit a patient's opioid dose to less than 50 mg MED/MME in most patients receiving opioid  
28 treatment for chronic pain, and to exceed 90 mg MED/MME in only the most unusual circumstances.

1 indication of an evaluation of pain scores, functional metrics, risks and benefits of opioid therapy,  
2 or an overall treatment plan. Additionally, records for this visit do not indicate any discussion  
3 regarding a tapering plan from the opioid medications or any discussion regarding the efficacy of  
4 the opioid therapy Patient A was receiving.

5 19. On or about April 13, 2016, Patient A presented for follow up. During this visit,  
6 Respondent performed a sacroiliac joint injection (SIJI) and refilled Patient A's prescriptions for  
7 methadone (5 mg) seven times per day and Dilaudid (4 mg) three times per day for a total MED  
8 of 560 mg per day. The medical record contains no report of the injection procedure, and only  
9 minimal documentation that the procedure occurred.

10 20. On or about April 13, 2016, Patient A provided a urine sample for drug and alcohol  
11 screening. The sample tested positive for the presence of alcohol.

12 21. On or about April 25, 2016, the lab result from the April 13, 2016 urine sample was  
13 reviewed and signed by Respondent.

14 22. On or about April 29, 2016, Patient A presented for follow up. During this visit,  
15 Respondent spoke with Patient A regarding her positive alcohol result, noted by Respondent as a  
16 "high" level. According to notes for this visit, Patient A informed Respondent she typically  
17 consumed less than one glass of wine at night. Respondent sent Patient A to have a second urine  
18 drug and alcohol screen. Respondent's record of the visit contains little documentation of the  
19 discussion with Patient A regarding her alcohol consumption.

20 23. On or about April 29, 2016, Patient A provided a urine sample for drug and alcohol  
21 screening. The sample tested positive for the presence of alcohol.

22 24. On or about May 9, 2016, the lab result from the April 29, 2016 urine sample was  
23 reviewed and signed by Respondent. No response to the positive test was documented.

24 25. On or about May 13, 2016, Patient A provided a urine sample for drug and alcohol  
25 screening. The sample tested positive for the presence of alcohol.

26 26. On or about May 23, 2016, the lab result from the May 13, 2016 urine drug screen  
27 was reviewed and signed by a nurse practitioner at the same clinic.

28

1 27. From on or about May 2016, through on or about August 2016, Patient A was seen by  
2 a nurse practitioner at the same clinic as Respondent.

3 28. On or about August 8, 2016, Patient A presented with increased lower back pain.  
4 Records for this visit indicate Patient A was seen by Respondent, who refilled Patient A's  
5 prescriptions for methadone (5 mg) seven times per day, and Dilaudid (4 mg) three times per day  
6 for a total MED of 560 mg per day. Respondent's medical record contains little information  
7 regarding the patient's treatment plan or response to treatment.

8 29. Respondent committed gross negligence in his care and treatment of Patient A, which  
9 included, but is not limited to:

- 10 A. Respondent failed to obtain an electrocardiogram (EKG) of Patient A prior to  
11 prescribing methadone, after dose escalations, or during sustained treatment; and  
12 B. Respondent failed to respond appropriately to Patient A's multiple episodes of  
13 positive urine drug and alcohol screens showing the presence of alcohol in the  
14 setting of chronic opioid therapy, and in particular while the patient was taking  
15 methadone.
