1 **CULPABILITY**

2 9. Respondent understands and agrees that the charges and allegations in Accusation
3 No. 800-2017-034149, if proven at a hearing, constitute cause for imposing discipline upon her
4 Physician's and Surgeon's Certificate.

5 10. Respondent agrees that, at a hearing, Complainant could establish a prima facie case
6 or factual basis for the charges in the Accusation, and that Respondent hereby gives up her right
7 to contest those charges.

8 11. Respondent does not contest that, at an administrative hearing, Complainant could
9 establish a prima facie case with respect to the charges and allegations in Accusation No. 800-
10 2017-034149, a true and correct copy of which is attached hereto as Exhibit A, and that she has
11 thereby subjected her Physician's and Surgeon's Certificate No. A 114479 to disciplinary action.

12 12. Respondent agrees that her Physician's and Surgeon's Certificate is subject to
13 discipline and she agrees to be bound by the Board's probationary terms as set forth in the
14 Disciplinary Order below.

15 **CONTINGENCY**

16 13. This stipulation shall be subject to approval by the Medical Board of California.
17 Respondent understands and agrees that counsel for Complainant and the staff of the Medical
18 Board of California may communicate directly with the Board regarding this stipulation and
19 settlement, without notice to or participation by Respondent or her counsel. By signing the
20 stipulation, Respondent understands and agrees that she may not withdraw her agreement or seek
21 to rescind the stipulation prior to the time the Board considers and acts upon it. If the Board fails
22 to adopt this stipulation as its Decision and Order, the Stipulated Settlement and Disciplinary
23 Order shall be of no force or effect, except for this paragraph, it shall be inadmissible in any legal
24 action between the parties, and the Board shall not be disqualified from further action by having
25 considered this matter.

26 14. Respondent agrees that if she ever petitions for early termination or modification of
27 probation, or if an accusation and/or petition to revoke probation is filed against her before the
28 Board, all of the charges and allegations contained in Accusation No. 800-2017-034149 shall be

1 deemed true, correct and fully admitted by respondent for purposes of any such proceeding or any
2 other licensing proceeding involving Respondent in the State of California.

3 15. The parties understand and agree that Portable Document Format (“PDF”) and
4 facsimile copies of this Stipulated Settlement and Disciplinary Order, including PDF and
5 facsimile signatures thereto, shall have the same force and effect as the originals.

6 16. In consideration of the foregoing admissions and stipulations, the parties agree that
7 the Board may, without further notice or opportunity to be heard by Respondent, issue and enter
8 the following Disciplinary Order:

9 **DISCIPLINARY ORDER**

10 IT IS HEREBY ORDERED that Physician's and Surgeon's Certificate No. A 114479 issued
11 to Respondent Ambreen Hasan, M.D. is revoked. However, the revocation is stayed and
12 Respondent is placed on probation for three (3) years on the following terms and conditions:

13 1. **EDUCATION COURSE.** Within sixty (60) calendar days of the effective date of this
14 Decision, and on an annual basis thereafter, Respondent shall submit to the Board or its designee
15 for its prior approval educational program(s) or course(s) which shall not be less than forty (40)
16 hours per year, for each year of probation. The educational program(s) or course(s) shall be
17 aimed at correcting any areas of deficient practice or knowledge and shall be Category I certified.
18 The educational program(s) or course(s) shall be at Respondent’s expense and shall be in addition
19 to the Continuing Medical Education (“CME”) requirements for renewal of licensure. Following
20 the completion of each course, the Board or its designee may administer an examination to test
21 Respondent’s knowledge of the course. Respondent shall provide proof of attendance for sixty-
22 five (65) hours of CME of which forty (40) hours were in satisfaction of this condition.

23 2. **MEDICAL RECORD KEEPING COURSE.** Within sixty (60) calendar days of the
24 effective date of this Decision, Respondent shall enroll in a course in medical record keeping
25 approved in advance by the Board or its designee. Respondent shall provide the approved course
26 provider with any information and documents that the approved course provider may deem
27 pertinent. Respondent shall participate in and successfully complete the classroom component of
28 the course not later than six (6) months after Respondent’s initial enrollment. Respondent shall

1 successfully complete any other component of the course within one (1) year of enrollment. The
2 medical record keeping course shall be at Respondent's expense and shall be in addition to the
3 Continuing Medical Education ("CME") requirements for renewal of licensure.

4 A medical record keeping course taken after the acts that gave rise to the charges in the
5 Accusation, but prior to the effective date of the Decision may, in the sole discretion of the Board
6 or its designee, be accepted towards the fulfillment of this condition if the course would have
7 been approved by the Board or its designee had the course been taken after the effective date of
8 this Decision.

9 Respondent shall submit a certification of successful completion to the Board or its
10 designee not later than fifteen (15) calendar days after successfully completing the course, or not
11 later than fifteen (15) calendar days after the effective date of the Decision, whichever is later.

12 3. SOLO PRACTICE PROHIBITION. Respondent is prohibited from engaging in the
13 solo practice of medicine. Prohibited solo practice includes, but is not limited to, a practice
14 where: 1) Respondent merely shares office space with another physician but is not affiliated for
15 purposes of providing patient care, or 2) Respondent is the sole physician practitioner at that
16 location.

17 If Respondent fails to establish a practice with another physician or secure employment in
18 an appropriate practice setting within sixty (60) calendar days of the effective date of this
19 Decision, Respondent shall receive a notification from the Board or its designee to cease the
20 practice of medicine within three (3) calendar days after being so notified. Respondent shall not
21 resume practice until an appropriate practice setting is established.

22 If, during the course of the probation, Respondent's practice setting changes and
23 Respondent is no longer practicing in a setting in compliance with this Decision, Respondent
24 shall notify the Board or its designee within five (5) calendar days of the practice setting change.
25 If Respondent fails to establish a practice with another physician or secure employment in an
26 appropriate practice setting within sixty (60) calendar days of the practice setting change,
27 Respondent shall receive a notification from the Board or its designee to cease the practice of
28 medicine within three (3) calendar days after being so notified. Respondent shall not resume

1 practice until an appropriate practice setting is established.

2 4. NOTIFICATION. Within seven (7) days of the effective date of this Decision,
3 Respondent shall provide a true copy of this Decision and Accusation to the Chief of Staff or the
4 Chief Executive Officer at every hospital where privileges or membership are extended to
5 Respondent, at any other facility where Respondent engages in the practice of medicine,
6 including all physician and locum tenens registries or other similar agencies, and to the Chief
7 Executive Officer at every insurance carrier which extends malpractice insurance coverage to
8 Respondent. Respondent shall submit proof of compliance to the Board or its designee within
9 fifteen (15) calendar days.

10 This condition shall apply to any change(s) in hospitals, other facilities or insurance carrier.

11 5. SUPERVISION OF PHYSICIAN ASSISTANTS AND ADVANCED PRACTICE
12 NURSES. During probation, Respondent is prohibited from supervising physician assistants and
13 advanced practice nurses.

14 6. OBEY ALL LAWS. Respondent shall obey all federal, state and local laws, all rules
15 governing the practice of medicine in California and remain in full compliance with any court
16 ordered criminal probation, payments, and other orders.

17 7. QUARTERLY DECLARATIONS. Respondent shall submit quarterly declarations
18 under penalty of perjury on forms provided by the Board, stating whether there has been
19 compliance with all the conditions of probation.

20 Respondent shall submit quarterly declarations not later than ten (10) calendar days after
21 the end of the preceding quarter.

22 8. GENERAL PROBATION REQUIREMENTS.

23 Compliance with Probation Unit

24 Respondent shall comply with the Board's probation unit.

25 Address Changes

26 Respondent shall, at all times, keep the Board informed of Respondent's business and
27 residence addresses, email address (if available), and telephone number. Changes of such
28 addresses shall be immediately communicated in writing to the Board or its designee. Under no

1 circumstances shall a post office box serve as an address of record, except as allowed by Business
2 and Professions Code section 2021, subdivision (b).

3 Place of Practice

4 Respondent shall not engage in the practice of medicine in Respondent's or patient's place
5 of residence, unless the patient resides in a skilled nursing facility or other similar licensed
6 facility.

7 License Renewal

8 Respondent shall maintain a current and renewed California physician's and surgeon's
9 license.

10 Travel or Residence Outside California

11 Respondent shall immediately inform the Board or its designee, in writing, of travel to any
12 areas outside the jurisdiction of California which lasts, or is contemplated to last, more than thirty
13 (30) calendar days.

14 In the event Respondent should leave the State of California to reside or to practice
15 ,Respondent shall notify the Board or its designee in writing thirty (30) calendar days prior to the
16 dates of departure and return.

17 9. INTERVIEW WITH THE BOARD OR ITS DESIGNEE. Respondent shall be
18 available in person upon request for interviews either at Respondent's place of business or at the
19 probation unit office, with or without prior notice throughout the term of probation.

20 10. NON-PRACTICE WHILE ON PROBATION. Respondent shall notify the Board or
21 its designee in writing within fifteen (15) calendar days of any periods of non-practice lasting
22 more than 30 calendar days and within fifteen (15) calendar days of Respondent's return to
23 practice. Non-practice is defined as any period of time Respondent is not practicing medicine as
24 defined in Business and Professions Code sections 2051 and 2052 for at least forty (40) hours in a
25 calendar month in direct patient care, clinical activity or teaching, or other activity as approved by
26 the Board. If Respondent resides in California and is considered to be in non-practice,
27 Respondent shall comply with all terms and conditions of probation. All time spent in an
28 intensive training program which has been approved by the Board or its designee shall not be

1 considered non-practice and does not relieve Respondent from complying with all the terms and
2 conditions of probation. Practicing medicine in another state of the United States or Federal
3 jurisdiction while on probation with the medical licensing authority of that state or jurisdiction
4 shall not be considered non-practice. A Board-ordered suspension of practice shall not be
5 considered as a period of non-practice.

6 In the event Respondent's period of non-practice while on probation exceeds 18 calendar
7 months, Respondent shall successfully complete the Federation of State Medical Boards's Special
8 Purpose Examination, or, at the Board's discretion, a clinical competence assessment program
9 that meets the criteria of Condition 18 of the current version of the Board's "Manual of Model
10 Disciplinary Orders and Disciplinary Guidelines" prior to resuming the practice of medicine.

11 Respondent's period of non-practice while on probation shall not exceed two (2) years.

12 Periods of non-practice will not apply to the reduction of the probationary term.

13 Periods of non-practice for a Respondent residing outside of California will relieve
14 Respondent of the responsibility to comply with the probationary terms and conditions with the
15 exception of this condition and the following terms and conditions of probation: Obey All Laws;
16 General Probation Requirements; Quarterly Declarations; Abstain from the Use of Alcohol and/or
17 Controlled Substances; and Biological Fluid Testing.

18 11. COMPLETION OF PROBATION. Respondent shall comply with all financial
19 obligations (e.g., restitution, probation costs) not later than one hundred twenty (120) calendar
20 days prior to the completion of probation. Upon successful completion of probation,
21 Respondent's certificate shall be fully restored.

22 12. VIOLATION OF PROBATION. Failure to fully comply with any term or condition
23 of probation is a violation of probation. If Respondent violates probation in any respect, the
24 Board, after giving Respondent notice and the opportunity to be heard, may revoke probation and
25 carry out the disciplinary order that was stayed. If an Accusation, or Petition to Revoke
26 Probation, or an Interim Suspension Order is filed against Respondent during probation, the
27 Board shall have continuing jurisdiction until the matter is final, and the period of probation shall
28 be extended until the matter is final.

1 13. LICENSE SURRENDER. Following the effective date of this Decision, if
2 Respondent ceases practicing due to retirement or health reasons or is otherwise unable to satisfy
3 the terms and conditions of probation, Respondent may request to surrender his or her license.
4 The Board reserves the right to evaluate Respondent's request and to exercise its discretion in
5 determining whether or not to grant the request, or to take any other action deemed appropriate
6 and reasonable under the circumstances. Upon formal acceptance of the surrender, Respondent
7 shall within fifteen (15) calendar days deliver Respondent's wallet and wall certificate to the
8 Board or its designee and Respondent shall no longer practice medicine. Respondent will no
9 longer be subject to the terms and conditions of probation. If Respondent re-applies for a medical
10 license, the application shall be treated as a petition for reinstatement of a revoked certificate.

11 14. PROBATION MONITORING COSTS. Respondent shall pay the costs associated
12 with probation monitoring each and every year of probation, as designated by the Board, which
13 may be adjusted on an annual basis. Such costs shall be payable to the Medical Board of
14 California and delivered to the Board or its designee no later than January 31 of each calendar
15 year.

16 15. FUTURE ADMISSIONS CLAUSE. If Respondent should ever apply or reapply for
17 a new license or certification, or petition for reinstatement of a license, by any other health care
18 licensing action agency in the State of California, all of the charges and allegations contained in
19 Accusation No. 800-2017-034149 shall be deemed to be true, correct, and admitted by
20 Respondent for the purpose of any Statement of Issues or any other proceeding seeking to deny or
21 restrict license.

4 **FACTUAL ALLEGATIONS**

5 8. Patient 1, a then 26-year-old female patient, presented to Kaiser Permanente Urgent
6 Care Clinic (“urgent care”) on March 1, 2015 with a complaint of right foot pain after injuring her
7 foot six days earlier.¹ The patient reported a fever and chills for one week, a headache for two
8 days as well as coughing, phlegm, nausea and vomiting. She was seen by Dr. R.Y. Upon
9 examination of the patient’s right foot, Dr. R.Y. noted plantar midfoot tenderness with distal
10 sensation intact. He further noted no swelling, erythema or ecchymosis and that the patient’s gait
11 was antalgic. Dr. R.Y.’s assessment was plantar fasciitis and foot pain. He ordered crutches and
12 an x-ray of the lower extremity for the right foot pain as well as Zofran and a pregnancy test for
13 the nausea and vomiting. The patient was advised to return or contact a physician if her
14 symptoms persisted or worsened.

15 9. On March 6, 2015, Patient 1 presented to Respondent, an internist at the Kaiser
16 Permanente Medical Offices in Fontana, with a complaint of continued right foot pain. Patient
17 1’s electronic medical record reflects that at 8:42 a.m. on March 6, 2015, before being seen by
18 Respondent, Respondent ordered routine laboratory tests given the patient’s status as a new
19 Kaiser Permanente member.

20 10. Patient 1’s electronic medical record reflects that she was initially seen by
21 Respondent on March 6, 2015 at 10:29 a.m. At that time, Respondent documented that the
22 patient presented with a right ankle/foot injury that she had for 5 days. Respondent noted that the
23 patient was recently evaluated in urgent care at which time x-rays were ordered but not done and
24 that there was no open wound or laceration. Respondent noted that the patient complained of
25 having fever, chills, body aches, sore throat, cough and chest congestion for about one week and
26 it was getting better. Respondent also noted at the time of the visit, the patient only had fever and

27 ¹ For privacy purposes, the patient in this Accusation is referred to as Patient 1.
28

1 cough but that the patient reported she was feeling better. Respondent documented a blood
2 pressure of 138/84, pulse of 140, temperature of 101.6 degrees Fahrenheit and respirations of 18.

3 11. With respect to her review of the patient's systems, Respondent noted fever, chills,
4 congestion, sore throat, cough, sputum production and joint pain. With respect to the patient's
5 physical examination, Respondent noted a normal cardiovascular, pulmonary and chest
6 examination. With respect to the patient's right ankle, Respondent noted that the patient
7 exhibited decreased range of motion and swelling. Respondent noted that the patient exhibited no
8 ecchymosis, no deformity, no laceration and a normal pulse. The patient had tenderness at the
9 medial malleolus as well as pain and swelling over the right medial malleolus and proximal
10 dorsum of the foot. With mild tenderness noted over the right heel, Respondent documented that
11 there was no erythema, no warmth, no crepitus, no fluctuance and no skin break. Respondent's
12 assessment was right foot pain, and subsequent right foot sprain. She also noted that the patient
13 declined an influenza vaccination. No reference is made as to whether the patient was informed
14 of the "routine" laboratory studies ordered earlier that morning.

15 12. Respondent ordered x-rays of the right foot and ankle at 10:40 a.m. The x-rays were
16 completed at 11:09 a.m. Respondent noted that she discussed the x-ray findings with radiologist
17 Dr. J.K. Specifically, Respondent set forth in her progress note that no acute fracture was seen
18 and that there was hyperlucency over proximal plantar aspect of right foot suggestive of soft
19 tissue infection.² Respondent further noted that the radiological findings were not well correlated
20 with her examination and that there was no laceration or skin break. Respondent noted that her
21 plan was to start the patient on clindamycin (an antibiotic) in view of the fever, mild tenderness
22 and x-ray results. She advised the patient to return "if not better." She also notes that she
23 reviewed "warning signs" with the patient and her husband. Respondent also noted that she
24 paged on call podiatry three times with no response. In addition to the x-rays and antibiotics,

25 ² Dr. J.K. prepared an x-ray report, signed on March 6, 2015 at 12:17 p.m. setting forth that there
26 was a linear area of radiolucency suggestive of gas adjacent to the fifth metacarpal with adjacent soft
27 tissue swelling worrisome for soft tissue infection. The radiologist noted concern for soft tissue
28 infection/abscess in light of Respondent's report of no history of penetrating trauma or laceration or skin
defect. The radiologist suggested clinical correlation and further evaluation with MRI as warranted
clinically. The radiologist further noted that she discussed the results with Respondent at approximately
12:00 p.m. that same day.

1 Respondent ordered the use of a camboot (for foot/ankle stabilization) and a "routine" referral to
2 podiatry. The progress note sets forth no order for urgent or priority laboratory testing. No
3 follow up visit was ordered.

4 13. On March 8, 2015, Patient 1 presented to Kaiser San Diego Medical Center with
5 worsening right lower extremity pain, progressing to the calf. She had a fever, a critically
6 elevated white blood cell count and an increase in gas in the soft tissue of the right foot when x-
7 rays were compared to March 6, 2015 x-rays. The patient was found to have sepsis syndrome and
8 necrotizing fasciitis. She required emergent surgery and had a prolonged and complicated
9 hospital course significant for septic shock, respiratory failure, renal failure, diabetic ketoacidosis
10 and right popliteal vein deep venous thrombosis. Ultimately, Patient 1 required a right below the
11 knee amputation on June 29, 2015.

12 STANDARD OF CARE

13 14. The standard of care requires that a physician formulate diagnoses based upon an
14 evaluation of the patient's history, vital signs, physical examination, laboratory values, and
15 imaging studies. The standard of care requires that a physician managing skin and soft tissue
16 infection evaluate and assess the severity and location of the infection as well as the patient co-
17 morbidities. Management of infections on an outpatient basis versus inpatient basis requires
18 evaluation and assessment of the patient's systemic signs and symptoms, including laboratory and
19 diagnostic testing. While simple infections confined to the skin with localized clinical findings
20 may be managed in the outpatient setting, complicated infections with deep tissue involvement
21 may require inpatient care, including intravenous antibiotics for moderate and severe infections.

8 evaluate the abnormalities seen on x-ray;

9 c. Respondent failed to order an emergency department or in-patient admission
10 for intravenous antibiotics; and
