JURISDICTION

1
2 3. This Accusation is brought before the Board under the authority of the following
3 laws. All section references are to the Business and Professions Code unless otherwise indicated.

4 4. Section 2227 of the Code provides that a licensee who is found guilty under the
5 Medical Practice Act may have his or her license revoked, suspended for a period not to exceed
6 one year, placed on probation and required to pay the costs of probation monitoring, or such other
7 action taken in relation to discipline as the Board deems proper.

8 5. Section 2234 of the Code, states:

9 “The board shall take action against any licensee who is charged with unprofessional
10 conduct. In addition to other provisions of this article, unprofessional conduct includes, but is not
11 limited to, the following:

12 “(c) Repeated negligent acts. To be repeated, there must be two or more negligent acts or
13 omissions. An initial negligent act or omission followed by a separate and distinct departure from
14 the applicable standard of care shall constitute repeated negligent acts.

15 “(1) An initial negligent diagnosis followed by an act or omission medically appropriate
16 for that negligent diagnosis of the patient shall constitute a single negligent act.

17 “(2) When the standard of care requires a change in the diagnosis, act, or omission that
18 constitutes the negligent act described in paragraph (1), including, but not limited to, a
19 reevaluation of the diagnosis or a change in treatment, and the licensee's conduct departs from the
20 applicable standard of care, each departure constitutes a separate and distinct breach of the
21 standard of care.”

22 6. Section 2266 of the Code states: “The failure of a physician and surgeon to maintain
23 adequate and accurate records relating to the provision of services to their patients constitutes

1 CAUSE FOR DISCIPLINE

2 (Unprofessional Conduct: Repeated Negligent Acts/Failure to Maintain Adequate and
3 Accurate Records)

4 7. Respondent Kenneth J. Gjeltema, M.D. is subject to disciplinary action under sections
5 2234, 2234, subdivision (c), and 2266 of the Code in that Respondent engaged in unprofessional
6 conduct and was repeatedly negligent, and failed to keep adequate and accurate records in his care
7 and treatment of Patient.¹ The circumstances are as follows:

8 8. On or about January 8, 2015, Patient presented to his family physician, Respondent,
9 during an office visit with a complaint of chest pains that persisted for up to 20 minutes.
10 Respondent conducted a brief history and physical examination of Patient. Respondent diagnosed
11 Patient's chest pain as non-cardiac in origin and indicated it was likely due to pleurisy² or
12 gastrointestinal issues, and that further testing was unnecessary. Respondent recommended heat
13 and Advil to treat Patient's symptoms. Respondent noted in Patient's chart that Patient was a 68-
14 year-old male who presented with chest pain that felt like a pinched nerve lasting for 20 minutes
15 and assessed "786.52 Chest wall pain...Heat and Advil." Respondent later admitted that "...my
16 documentation was sparse in this case, I asked questions, I just didn't write them down."

17 9. Subsequently, Patient was seen by another physician the first week of February 2015
18 and was diagnosed with a cardiac irregularity and given nitroglycerine, as well as scheduled for an
19 urgent stress test. Patient was advised to go immediately to the ER should his chest pain worsen.
20 Patient was admitted to the ER on or about February 9, 2015, where Patient's heart activity was
21 measured by an EKG test that signified he had an unstable angina³. He was transferred for an
22 emergent cardiac catheterization, which found that Patient had a 90% stenosis of the left anterior
23 descending coronary artery. Patient underwent angioplasty⁴ and successful stent placement.

24
25 ¹ The patient is identified only as "Patient" to protect his right to privacy. The patient's
26 identity will be revealed to Respondent in discovery.

27 ² Pleurisy is an inflammation of the tissues that line the lungs and chest wall.

28 ³ Angina is a type of chest pain caused by reduced blood flow to the heart.

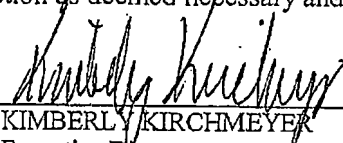

⁴ Angioplasty is a procedure to open narrowed or blocked blood vessels that supply blood
to the heart.
