No. A 56197,

Respondent.

Case No. 800-2016-021031

A C C U S A T I O N

Complainant alleges:

PARTIES

1. Kimberly Kirchmeyer (Complainant) brings this Accusation solely in her official capacity as the Executive Director of the Medical Board of California, Department of Consumer Affairs (Board).

1 “(a) A licensee whose matter has been heard by an administrative law judge of the Medical
2 Quality Hearing Panel as designated in Section 11371 of the Government Code, or whose default
3 has been entered, and who is found guilty, or who has entered into a stipulation for disciplinary
4 action with the board, may, in accordance with the provisions of this chapter:

5 “(1) Have his or her license revoked upon order of the board.

6 “(2) Have his or her right to practice suspended for a period not to exceed one year upon
7 order of the board.

8 “(3) Be placed on probation and be required to pay the costs of probation monitoring upon

10 “(4) Be publicly reprimanded by the board. The public reprimand may include a
11 requirement that the licensee complete relevant educational courses approved by the board.

12 “(5) Have any other action taken in relation to discipline as part of an order of probation, as
13 the board or an administrative law judge may deem proper.

14 “(b) Any matter heard pursuant to subdivision (a), except for warning letters, medical
15 review or advisory conferences, professional competency examinations, continuing education
16 activities, and cost reimbursement associated therewith that are agreed to with the board and
17 successfully completed by the licensee, or other matters made confidential or privileged by
18 existing law, is deemed public, and shall be made available to the public by the board pursuant to
19 Section 803.1.”

20 6. Section 2266 of the Code, states:

21 “The failure of a physician and surgeon to maintain adequate and accurate records relating
22 to the provision of services to their patients constitutes unprofessional conduct.”

23 **CAUSE FOR DISCIPLINE**

24 **(Gross Negligence and/or Repeated Negligent Acts and/or Incompetence and**
25 **Inadequate and Inaccurate Medical Recordkeeping)**

26 7. Respondent Bala Annadurai, M.D. is subject to disciplinary action for unprofessional
27 conduct under Code section 2234, including subsections (b) and/or (c), and/or (d) and section
28 2266 in that Respondent was grossly negligent, and/or repeatedly negligent and/or incompetent in

1 her care and treatment of patient R.V., and failed to maintain adequate and accurate medical
2 records.¹ The circumstances are as follows:

3 8. On January 25, 2008, Patient R.V. first saw Respondent for evaluation of a rash and
4 fever. Respondent ordered lab work, including a CBC (Complete Blood Count), TSH (Thyroid
5 Stimulating Hormone), CMP (Comprehensive Metabolic Panel), BMP (Basic Metabolic Panel), a
6 lipid profile, and a urinalysis. At the time of this initial visit, Patient R.V. was twenty-eight years
7 old.

8 9. On or about February 16, 2008, Patient R.V.'s lab results were reported by a
9 laboratory and made available to Respondent. Patient R.V.'s urinalysis showed the presence of
10 blood and protein, and his bloodwork showed a creatinine value of 1.16.²

11 10. On or about February 23, 2008, Patient R.V. returned to see Respondent for a
12 complete physical examination. Respondent did not document anything in the medical records
13 about the abnormal presence of blood and protein in the patient's urine as evidenced by the
14 February 16, 2008 lab results. Respondent also did not document anything in the medical records
15 about whether she had a discussion with the patient about his abnormal test results. The "Visit
16 Assessment" section of the medical records listed "Routine Medical Exam" and the "Visit Plan"
17 section was blank.

18 11. On or about March 14, 2009, Patient R.V. saw Respondent for an annual physical
19 exam. Respondent ordered the same lab work she ordered in 2008. For unknown reasons, the lab
20 work was not completed.

21 12. On or about April 3, 2010, Patient R.V. saw Respondent for an annual physical exam.
22 At this visit, the patient also complained of heartburn and related gastrointestinal complaints.
23 Respondent ordered the same lab work that she had previously ordered in 2008 and 2009.

24 13. On or about April 18, 2010, Patient R.V.'s lab results were finalized by a laboratory
25 and made available to Respondent. Again, Patient R.V.'s urinalysis showed the presence of

26 ¹The patient is identified herein by initials to preserve confidentiality. Respondent knows
27 the identity of Patient R.V.

28 ² The presence of blood and protein in a patient's urine is an abnormal finding. A blood
serum creatinine level of 1.36 or higher can signify an impaired kidney function or disease.

1 blood and protein in his urine, and his bloodwork showed a creatinine level of 1.22. Respondent
2 did not document anything in the medical record regarding Patient R.V.'s abnormal urinalysis
3 results.

4 14. On or about May 14, 2011, Patient R.V. saw Respondent for an annual physical exam
5 and Respondent ordered the same laboratory tests that she had previously ordered in 2008, 2009,
6 and 2010.

7 15. On or about, May 25, 2011, Patient R.V.'s lab results were completed and made
8 available to Respondent. Patient R.V.'s urinalysis showed not only the presence of blood and
9 protein in his urine but an increase in the levels as compared to his 2008 and 2010 results. The
10 lab results did not report a creatinine level, although Respondent had ordered that test.
11 Respondent did not document anything in Patient R.V.'s medical records regarding the abnormal
12 urinalysis results or whether she discussed the results with the patient. There is no indication in
13 the medical records that Respondent noticed that the lab results did not document a creatinine
14 level.

15 16. On or about July 21, 2011, Patient R.V. saw Respondent for a complaint of eye
16 redness. Respondent ordered lab tests but in the plan section of the medical records, Respondent
17 documented that she ordered lab tests that were completely unrelated to the patient's eye
18 complaints.

19 17. On or about July 26, 2012, Respondent ordered lab work for Patient R.V. On or
20 about, July 30, 2012, the lab work was completed and the results were made available to
21 Respondent. Patient R.V.'s urinalysis showed the presence of blood and protein in his urine and
22 his bloodwork showed that his creatinine level had increased to 2.02, which is considered to be an
23 abnormal and elevated level.

24 18. On or about August 4, 2012, Patient R.V. saw Respondent for an annual physical
25 exam. Respondent diagnosed Patient R.V. as having an "abnormal kidney function study."
26 However, Respondent did not document a basis for her diagnosis nor did she document anything
27 in the medical records about Patient R.V.'s abnormal July 2012 urinalysis results or prior
28

1 abnormal urinalysis results. Nevertheless, Respondent referred Patient R.V. to a nephrologist and
2 additional renal studies were obtained by the nephrologist.

3 19. On or about September 19, 2012, Patient R.V. saw Respondent for a complaint of a
4 cold and dry cough. Respondent ordered that Patient R.V. begin a breathing treatment via a
5 nebulizer and that he take antibiotics for his cold and dry cough. Respondent did not document a
6 rationale for either the breathing treatment or antibiotics.

7 20. In 2012, Patient R.V. was subsequently diagnosed with advanced IgA Nephropathy
8 by a nephrologist.³ Patient R.V.'s renal function has deteriorated to the point where he requires
9 dialysis and will necessitate a kidney transplant in the next few years.

10 21. Respondent's overall conduct, acts, and/or omissions, with regard to Patient R.V.,
11 constitutes unprofessional conduct through gross negligence and/or repeated acts of negligence
12 and/or incompetence, and inadequate and inaccurate medical recordkeeping. More specifically,
13 Respondent is guilty of unprofessional conduct as follows:

14 a. Respondent failed to conduct a full workup of Patient R.V.'s history of abnormal
15 urinalysis test results by ordering more detailed laboratory testing and imaging, conducting more
16 focused history and physical exams, closely monitoring the patient, obtaining and evaluating
17 creatinine levels in 2011, and by referring the patient to a specialist.

18 b. Respondent failed to timely diagnose and treat Patient R.V.'s urinary abnormalities
19 that persisted and worsened over the course of several years.

20 c. Respondent failed to consider, evaluate, and appreciate and/or document anything in
21 the medical records about the fact that in 2008, 2010, and 2011, Patient R.V. had abnormal
22 urinalysis results, including her thought process, diagnoses, plan of care, and whether she
23 discussed the abnormal and concerning lab results with Patient R.V.

24
25 ³ IgA Nephropathy is a kidney disease that occurs when an antibody called
26 immunoglobulin A (IgA) builds up in the kidneys and causes inflammation that damages kidney
27 tissues. The buildup of IgA can cause the kidneys to leak blood and protein into the urine. When
28 the disease is in the inflammation stage, it can be treated with medication. However, a delay in
diagnosis and treatment of IgA can lead to further loss of kidney functioning, including end-stage
kidney disease. When a person's kidneys fail, he or she may need blood-filtering treatment called
dialysis and/or a kidney transplant.

1 d. Respondent did not adequately formulate and/or document a plan of care regarding
2 the eye complaints that Patient R.V. reported in 2011 and Respondent also failed to appreciate the
3 wrong lab tests that she ordered in response to the patient's eye complaint.

4 e. Respondent failed to formulate and/or document the rationale for recommending that
5 Patient R.V. begin breathing treatments and take antibiotics for the cold and cough that Patient
6 R.V. reported in 2012.

7 **PRAYER**

8 WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged,
9 and that following the hearing, the Medical Board of California issue a decision:

11 issued to Bala Annadurai, M.D.;

13 supervise physician assistants and advanced practice nurses;
- 14 3. Ordering Bala Annadurai, M.D., if placed on probation, to pay the Board the costs of
15 probation monitoring; and
- 16 4. Taking such other and further action as deemed necessary and proper.
