

BEFORE THE
MEDICAL BOARD OF CALIFORNIA
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA

In the Matter of the Petition for
Reinstatement of:

Lenton Joby Morrow, M.D.

Physician's and Surgeon's
Certificate No. A 97241

Respondent.

Case No. 800-2020-067984

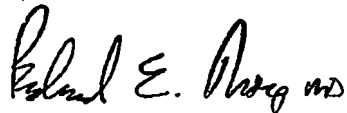

DECISION

The attached Proposed Decision is hereby adopted as the
Decision and Order of the Medical Board of California, Department of
Consumer Affairs, State of California.

This Decision shall become effective at 5:00 p.m. on July 9, 2021.

IT IS SO ORDERED June 11, 2021.

MEDICAL BOARD OF CALIFORNIA

Richard E. Thorp, M.D. , Chair
Panel B

**BEFORE THE
MEDICAL BOARD OF CALIFORNIA
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA**

In the Matter of the Petition for Reinstatement of:

LENTON JOBY MORROW, Petitioner,

Case No. 800-2020-067984

OAH No. 2021020080

PROPOSED DECISION

Administrative Law Judge Ruth S. Astle, State of California, Office of Administrative Hearings, heard this matter on April 6, 2021, as a virtual hearing.

Brenda P. Reyes, Deputy Attorney General, represented the Office of the Attorney General, Department of Justice.

Ann Larson, Attorney at Law, represented the petitioner, who was present.

The record closed on April 6, 2021, and the matter was submitted for decision on that date.

FACTUAL FINDINGS

Jurisdictional Matters

1. On September 8, 2006, the Medical Board of California (Board) issued Physician's and Surgeon's Certificate No. A 97241 to Lenton Joby Morrow, M.D. (petitioner). The certificate is surrendered.

2. On October 21, 2016, the Board filed a first amended accusation against petitioner based on findings that petitioner engaged in sexual abuse, misconduct and relations with his patient; repeated negligent acts including prescribing benzodiazepines to his patient who abused alcohol; general unprofessional conduct; and gross negligence and over prescribing involving four additional patients. On November 21, 2017, the Board adopted as its decision, a stipulated license surrender, effective November 28, 2017.

3. On April 30, 2020, petitioner signed his petition for reinstatement of his surrendered certificate, and this hearing followed.

Petitioner's Evidence

4. Petitioner admits his sexual encounter with a patient. He recognizes his behavior was egregious. He is remorseful and recognizes the emotional upheaval he caused to his patient. Petitioner began attending Sex and Love Addicts Anonymous (SLAA) in November 2012. He continues to attend the 12-step program; acts as a sponsor and has a sponsor. He has learned health habits and has a relapse prevention program in place. Petitioner also attended weekly/bi-weekly individual psychotherapy appointments until 2018 and group therapy meetings from December 6, 2011 to the present. Petitioner's psychologist, Dr. Mitchel Adler wrote a letter dated January 21,

2020 and testified at the hearing that petitioner has been an active participant in his recovery and is a dedicated participant in group therapy.

5. Petitioner did a variety of jobs after he surrendered his license. He became a medical content writer. He began as a freelance writer and editor in late 2017. He has written about 250 articles including articles on opiate addiction and covid-19 issues. He is also in discussion about using animals to help treat addiction. Rolan Tripp, DVM, initially hired petitioner to help write a grant. Dr. Tripp has asked petitioner to work with him to bring animals to help people with emotional problems. Petitioner disclosed his license revocation to Dr. Tripp. Dr. Tripp supports petitioner in his efforts.

6. Petitioner has participated in 131.75 hours of CME in 2020. He also successfully completed the Professional Boundaries and Ethics Course given by the University of California Irvine School of Medicine, April 12 – 14, 2013 and the Maintenance and Accountability seminars, August 29, 2013.

7. Petitioner presented seven letters of recommendation attesting to his good character and supporting his petition for reinstatement. David Manske, M.D., testified at the hearing and provided a letter dated April 27, 2020, attesting to petitioner's progress in SLAA and that petitioner has been dedicated to recovery. Dr. Manske knows about petitioner's sexual misconduct and has witnessed petitioner's transformation. He supports petitioner's reinstatement. There are four additional letters from physicians, one from an attorney and one from Sherrie L. Reed, Ph.D. All the authors know petitioner and know about the circumstances of his revocation/surrender. They all support his reinstatement.

8. Petitioner received his medical degree from the University of California, Davis in June 2005, with honors. He practiced in the departments of psychiatry and family & community medicine at the U.C. Davis Health System in Sacramento from July 2005 to June 2010. He worked from July 2010 to June 2013, at Heritage Oaks Hospital, Sacramento as the program director. Then from January 2014 to January 2015, petitioner worked at Bay Mark Health as the medical director. Petitioner was in private practice of psychiatry in Sacramento from July 2010 to November 2017. Petitioner has no prior disciplinary action against his license.

9. Petitioner has demonstrated significant rehabilitation. It would not be against the public interest to allow petitioner to be reinstated upon terms and conditions including a clinical competency assessment program, controlled substance restriction, professionalism program, psychiatric evaluation, psychotherapy, practice monitoring, solo practice prohibition and having a chaperone when treating female patients. The Deputy Attorney General does not oppose reinstatement.

10. Petitioner testified that he hopes to work in the area of addiction medicine so that he can help others with addiction issues.

LEGAL CONCLUSIONS

1. Pursuant to Business and Professions Code section 2307, subdivision (b)(1), reinstatement petitions may be filed two years after an individual certificate was revoked/surrendered for good cause if stated in the revocation order. The revocation decision states in paragraph 10 that respondent may apply for reinstatement at any time that is at least two years from the effective date of the surrender. In the instant case, petitioner's petition is timely in that it was filed over two years after his certificate was revoked/surrendered.

2. In a proceeding for the restoration of a license, the burden rests on the petitioner to establish that he has rehabilitated himself and that he is entitled to have his license restored. (*Flanzer v. Board of Dental Examiners* (1990) 220 Cal.App.3d 1392, 1398.) The standard of proof is clear and convincing evidence. (*Housman v. Board of Medical Examiners* (1948) 84 Cal.App.2d 308, 315-316.)

3. The primary purpose of this proceeding is to protect the public, not to punish the licensee. (*Camacho v. Youde* (1979) 95 Cal.App.3d 161, 164.) This view is consistent with the Medical Practice Act, which provides that in exercising its disciplinary authority, the Board's highest priority is the protection of the public. (Bus. & Prof. Code, § 2229, subd. (a).)

4. Business and Professions Code section 2307, subdivision (e), provides that relevant factors to consider concerning a petition for reinstatement of a revoked license include "all activities of the petitioner since the disciplinary action was taken, the offense for which the petitioner was disciplined, the petitioner's activities during the time the certificate was in good standing, and the petitioner's rehabilitative efforts, general reputation for truth, and professional ability."

In addition, the Board has set forth the following factors to be considered in California Code of Regulations, title 16, section 1360.2:

When considering a petition for reinstatement of a license, certificate or permit holder pursuant to the provisions of Section 11522 of the Government Code, the division or panel shall evaluate evidence of rehabilitation submitted by the petitioner considering the following criteria:

(a) The nature and severity of the act(s) or crime(s) under consideration as grounds for denial.

(b) Evidence of any act(s) or crime(s) committed subsequent to the act(s) or crime(s) under consideration as grounds for denial which also could be considered as grounds for denial under Section 480.

(c) The time that has elapsed since commission of the act(s) or crime(s) referred to in subsections (a) or (b).

(d) In the case of a suspension or revocation based upon the conviction of a crime, the criteria set forth in Section 1360.1, subsections (b), (d) and (e).

(e) Evidence, if any, of rehabilitation submitted by the applicant.

5. Petitioner has successfully demonstrated sufficient rehabilitation to be reinstated on probation. He has accepted responsibility for his misconduct, he has demonstrated an understanding about how he got himself into this situation and sought help to overcome his addictive behavior. Petitioner has kept current on his continuing education, including taking a professional boundaries and ethics course through the University of California Irvine School of Medicine.

Good cause exists to reinstate petitioner's revoked certificate on probation pursuant to Business and Professions Code section 2307.

ORDER

The Petition for Reinstatement of Lenton Joby Morrow, M.D., for reinstatement of his surrendered license is granted. Physician's and Surgeon's Certificate No. A 97241 is reinstated. The certificate is immediately revoked and petitioner is placed on probation for three years on the following terms and conditions.

1. Clinical Competence Assessment Program

Within 60 calendar days of the effective date of this Decision, petitioner shall enroll in a clinical competence assessment program approved in advance by the Board or its designee. Petitioner shall successfully complete the program not later than six months after petitioner's initial enrollment unless the Board or its designee agrees in writing to an extension of that time.

The program shall consist of a comprehensive assessment of petitioner's physical and mental health and the six general domains of clinical competence as defined by the Accreditation Council on Graduate Medical Education and American Board of Medical Specialties pertaining to petitioner's current or intended area of practice. The program shall take into account data obtained from the pre-assessment, self-report forms and interview, and the Decision(s), Accusation(s), and any other information that the Board or its designee deems relevant. The program shall require petitioner's on-site participation for a minimum of three and no more than five days as determined by the program for the assessment and clinical education evaluation. Petitioner shall pay all expenses associated with the clinical competence assessment program.

At the end of the evaluation, the program will submit a report to the Board or its designee which unequivocally states whether the petitioner has demonstrated the

ability to practice safely and independently. Based on petitioner's performance on the clinical competence assessment, the program will advise the Board or its designee of its recommendation(s) for the scope and length of any additional educational or clinical training, evaluation or treatment for any medical condition or psychological condition, or anything else affecting petitioner's practice of medicine. Petitioner shall comply with the program's recommendations.

Determination as to whether petitioner successfully completed the clinical competence assessment program is solely within the program's jurisdiction.

Petitioner shall not practice medicine until petitioner has successfully completed the program and has been so notified by the Board or its designee in writing.

2. Controlled Substances – Total Restriction

Petitioner shall not order, prescribe, dispense, administer, furnish, or possess any controlled substances as defined in the California Uniform Controlled Substances Act.

Petitioner shall not issue an oral or written recommendation or approval to a patient or a patient's primary caregiver for the possession or cultivation of marijuana for the personal medical purposes of the patient within the meaning of Health and Safety Code section 11362.5. If petitioner forms the medical opinion, after an appropriate prior examination and a medical indication, that a patient's medical condition may benefit from the use of marijuana, petitioner shall so inform the patient and shall refer the patient to another physician who, following an appropriate prior examination and a medical indication, may independently issue a medically appropriate recommendation or approval for the possession or cultivation of marijuana for the personal medical purposes of the patient within the meaning of

Health and Safety Code section 11362.5. In addition, petitioner shall inform the patient or the patient's primary caregiver that petitioner is prohibited from issuing a recommendation or approval for the possession or cultivation of marijuana for the personal medical purposes of the patient and that the patient or the patient's primary caregiver may not rely on petitioner's statements to legally possess or cultivate marijuana for the personal medical purposes of the patient. Petitioner shall fully document in the patient's chart that the patient or the patient's primary caregiver was so informed. Nothing in this condition prohibits petitioner from providing the patient or the patient's primary caregiver information about the possible medical benefits resulting from the use of marijuana.

3. Professionalism Program (Ethics Course)

Within 60 calendar days of the effective date of this Decision, petitioner shall enroll in a professionalism program, that meets the requirements of Title 16, California Code of Regulations (CCR) section 1358.1. Petitioner shall participate in and successfully complete that program. Petitioner shall provide any information and documents that the program may deem pertinent. Petitioner shall successfully complete the classroom component of the program not later than six months after petitioner's initial enrollment, and the longitudinal component of the program not later than the time specified by the program, but no later than one year after attending the classroom component. The professionalism program shall be at petitioner's expense and shall be in addition to the Continuing Medical Education (CME) requirements for renewal of licensure.

A professionalism program taken after the acts that gave rise to the charges in the Accusation, but prior to the effective date of the Decision may, in the sole discretion of the Board or its designee, be accepted towards the fulfillment of this

condition if the program would have been approved by the Board or its designee had the program been taken after the effective date of this Decision.

Petitioner shall submit a certification of successful completion to the Board or its designee not later than 15 calendar days after successfully completing the program or not later than 15 calendar days after the effective date of the Decision, whichever is later.

4. Psychiatric Evaluation

Within 30 calendar days of the effective date of this Decision, and on whatever periodic basis thereafter may be required by the Board or its designee, petitioner shall undergo and complete a psychiatric evaluation (and psychological testing, if deemed necessary) by a Board-appointed board certified psychiatrist, who shall consider any information provided by the Board or designee and any other information the psychiatrist deems relevant, and shall furnish a written evaluation report to the Board or its designee. Psychiatric evaluations conducted prior to the effective date of the Decision shall not be accepted towards the fulfillment of this requirement. Petitioner shall pay the cost of all psychiatric evaluations and psychological testing.

Petitioner shall comply with all restrictions or conditions recommended by the evaluating psychiatrist within 15 calendar days after being notified by the Board or its designee.

5. Psychotherapy

Within 60 calendar days of the effective date of this Decision, petitioner shall submit to the Board or its designee for prior approval the name and qualifications of a California-licensed board-certified psychiatrist or a licensed psychologist who has a

doctoral degree in psychology and at least five years of postgraduate experience in the diagnosis and treatment of emotional and mental disorders. Upon approval, petitioner shall undergo and continue psychotherapy treatment, including any modifications to the frequency of psychotherapy, until the Board or its designee deems that no further psychotherapy is necessary.

The psychotherapist shall consider any information provided by the Board or its designee and any other information the psychotherapist deems relevant and shall furnish a written evaluation report to the Board or its designee. Petitioner shall cooperate in providing the psychotherapist any information and documents that the psychotherapist may deem pertinent.

Petitioner shall have the treating psychotherapist submit quarterly status reports to the Board or its designee. The Board or its designee may require petitioner to undergo psychiatric evaluations by a Board-appointed board-certified psychiatrist. If, prior to the completion of probation, petitioner is found to be mentally unfit to resume the practice of medicine without restrictions, the Board shall retain continuing jurisdiction over petitioner's license and the period of probation shall be extended until the Board determines that petitioner is mentally fit to resume the practice of medicine without restrictions.

Petitioner shall pay the cost of all psychotherapy and psychiatric evaluations.

6. Monitoring - Practice

Within 30 calendar days of the effective date of this Decision, petitioner shall submit to the Board or its designee for prior approval as a practice monitor, the name and qualifications of one or more licensed physicians and surgeons whose licenses are valid and in good standing, and who are preferably American Board of Medical

Specialties (ABMS) certified. A monitor shall have no prior or current business or personal relationship with petitioner, or other relationship that could reasonably be expected to compromise the ability of the monitor to render fair and unbiased reports to the Board, including but not limited to any form of bartering, shall be in petitioner's field of practice, and must agree to serve as petitioner's monitor. Petitioner shall pay all monitoring costs.

The Board or its designee shall provide the approved monitor with copies of the Decision(s) and Accusation(s), and a proposed monitoring plan. Within 15 calendar days of receipt of the Decision(s), Accusation(s), and proposed monitoring plan, the monitor shall submit a signed statement that the monitor has read the Decision(s) and Accusation(s), fully understands the role of a monitor, and agrees or disagrees with the proposed monitoring plan. If the monitor disagrees with the proposed monitoring plan, the monitor shall submit a revised monitoring plan with the signed statement for approval by the Board or its designee.

Within 60 calendar days of the effective date of this Decision, and continuing throughout probation, petitioner's practice shall be monitored by the approved monitor. Petitioner shall make all records available for immediate inspection and copying on the premises by the monitor at all times during business hours and shall retain the records for the entire term of probation.

If petitioner fails to obtain approval of a monitor within 60 calendar days of the effective date of this Decision, petitioner shall receive a notification from the Board or its designee to cease the practice of medicine within three (3) calendar days after being so notified. Petitioner shall cease the practice of medicine until a monitor is approved to provide monitoring responsibility.

The monitor(s) shall submit a quarterly written report to the Board or its designee which includes an evaluation of petitioner's performance, indicating whether petitioner's practices are within the standards of practice of medicine, and whether petitioner is practicing medicine safely, billing appropriately or both. It shall be the sole responsibility of petitioner to ensure that the monitor submits the quarterly written reports to the Board or its designee within 10 calendar days after the end of the preceding quarter.

If the monitor resigns or is no longer available, petitioner shall, within 5 calendar days of such resignation or unavailability, submit to the Board or its designee, for prior approval, the name and qualifications of a replacement monitor who will be assuming that responsibility within 15 calendar days. If petitioner fails to obtain approval of a replacement monitor within 60 calendar days of the resignation or unavailability of the monitor, petitioner shall receive a notification from the Board or its designee to cease the practice of medicine within three calendar days after being so notified. Petitioner shall cease the practice of medicine until a replacement monitor is approved and assumes monitoring responsibility.

In lieu of a monitor, petitioner may participate in a professional enhancement program approved in advance by the Board or its designee, that includes, at minimum, quarterly chart review, semi-annual practice assessment, and semi-annual review of professional growth and education. Petitioner shall participate in the professional enhancement program at petitioner's expense during the term of probation.

7. Solo Practice Prohibition

Petitioner is prohibited from engaging in the solo practice of medicine. Prohibited solo practice includes, but is not limited to, a practice where: 1) petitioner

merely shares office space with another physician but is not affiliated for purposes of providing patient care, or 2) petitioner is the sole physician practitioner at that location.

If petitioner fails to establish a practice with another physician or secure employment in an appropriate practice setting within 60 calendar days of the effective date of this Decision, petitioner shall receive a notification from the Board or its designee to cease the practice of medicine within three calendar days after being so notified. The petitioner shall not resume practice until an appropriate practice setting is established.

If, during the course of the probation, the petitioner's practice setting changes and the petitioner is no longer practicing in a setting in compliance with this Decision, the petitioner shall notify the Board or its designee within 5 calendar days of the practice setting change. If petitioner fails to establish a practice with another physician or secure employment in an appropriate practice setting within 60 calendar days of the practice setting change, petitioner shall receive a notification from the Board or its designee to cease the practice of medicine within three calendar days after being so notified. The petitioner shall not resume practice until an appropriate practice setting is established.

8. Third Party Chaperone

During probation, respondent shall have a third party chaperone present while consulting, examining or treating female patients. Respondent shall, within 30 calendar days of the effective date of the Decision, submit to the Board or its designee for prior approval name(s) of persons who will act as the third party chaperone.

If respondent fails to obtain approval of a third party chaperone within 60 calendar days of the effective date of this Decision, respondent shall receive a notification from the Board or its designee to cease the practice of medicine within three calendar days after being so notified. Respondent shall cease the practice of medicine until a chaperone is approved to provide monitoring responsibility.

Each third party chaperone shall sign (in ink or electronically) and date each patient medical record at the time the chaperone's services are provided. Each third party chaperone shall read the Decision(s) and the Accusation(s), and fully understand the role of the third party chaperone.

Respondent shall maintain a log of all patients seen for whom a third party chaperone is required. The log shall contain the: 1) patient initials, address and telephone number; 2) medical record number; and 3) date of service. Respondent shall keep this log in a separate file or ledger, in chronological order, shall make the log available for immediate inspection and copying on the premises at all times during business hours by the Board or its designee, and shall retain the log for the entire term of probation.

Respondent is prohibited from terminating employment of a Board-approved third party chaperone solely because that person provided information as required to the Board or its designee.

If the third party chaperone resigns or is no longer available, respondent shall, within five calendar days of such resignation or unavailability, submit to the Board or its designee, for prior approval, the name of the person(s) who will act as the third party chaperone. If respondent fails to obtain approval of a replacement chaperone within 30 calendar days of the resignation or unavailability of the chaperone,

respondent shall receive a notification from the Board or its designee to cease the practice of medicine within three calendar days after being so notified. Respondent shall cease the practice of medicine until a replacement chaperone is approved and assumes monitoring responsibility.

Respondent shall provide written notification to respondent's patients that a third party chaperone shall be present during all consultations, examination, or treatment with female patients. Respondent shall maintain in the patient's file a copy of the written notification, shall make the notification available for immediate inspection and copying on the premises at all times during business hours by the Board or its designee, and shall retain the notification for the entire term of probation.

9. Notification

Within seven days of the effective date of this Decision, the petitioner shall provide a true copy of this Decision and Accusation to the Chief of Staff or the Chief Executive Officer at every hospital where privileges or membership are extended to petitioner, at any other facility where petitioner engages in the practice of medicine, including all physician and locum tenens registries or other similar agencies, and to the Chief Executive Officer at every insurance carrier which extends malpractice insurance coverage to petitioner. Petitioner shall submit proof of compliance to the Board or its designee within 15 calendar days.

This condition shall apply to any change(s) in hospitals, other facilities or insurance carrier.

10. Supervision of Physician Assistants and Advanced Practice Nurses

During probation, petitioner is prohibited from supervising physician assistants and advanced practice nurses.

11. Obey All Laws

Petitioner shall obey all federal, state and local laws, all rules governing the practice of medicine in California and remain in full compliance with any court ordered criminal probation, payments and other orders.

12. Quarterly Declarations

Petitioner shall submit quarterly declarations under penalty of perjury on forms provided by the Board, stating whether there has been compliance with all conditions of probation.

Petitioner shall submit quarterly declarations not later than 10 calendar days after the end of the preceding quarter.

13. General Probation Requirements

Compliance with Probation Unit

Petitioner shall comply with the Board's probation unit.

Address Changes

Petitioner shall, at all times, keep the Board informed of petitioner's business and residence addresses, email address (if available), and telephone number. Changes of such addresses shall be immediately communicated in writing to the Board or its designee. Under no circumstances shall a post office box serve as an address of

record, except as allowed by Business and Professions Code section 2021, subdivision (b).

Place of Practice

Petitioner shall not engage in the practice of medicine in petitioner's or patient's place of residence, unless the patient resides in a skilled nursing facility or other similar licensed facility.

License Renewal

Petitioner shall maintain a current and renewed California physician's and surgeon's license.

Travel or Residence Outside California

Petitioner shall immediately inform the Board or its designee, in writing, of travel to any areas outside the jurisdiction of California which lasts, or is contemplated to last, more than 30 calendar days.

In the event petitioner should leave the State of California to reside or to practice petitioner shall notify the Board or its designee in writing 30 calendar days prior to the dates of departure and return.

14. Interview with the Board or its Designee

Petitioner shall be available in person upon request for interviews either at petitioner's place of business or at the probation unit office, with or without prior notice throughout the term of probation.

15. Non-Practice While on Probation

Petitioner shall notify the Board or its designee in writing within 15 calendar days of any periods of non-practice lasting more than 30 calendar days and within 15 calendar days of petitioner's return to practice. Non-practice is defined as any period of time petitioner is not practicing medicine as defined in Business and Professions Code sections 2051 and 2052 for at least 40 hours in a calendar month in direct patient care, clinical activity or teaching, or other activity as approved by the Board. If petitioner resides in California and is considered to be in non-practice, petitioner shall comply with all terms and conditions of probation. All time spent in an intensive training program which has been approved by the Board or its designee shall not be considered non-practice and does not relieve petitioner from complying with all the terms and conditions of probation. Practicing medicine in another state of the United States or Federal jurisdiction while on probation with the medical licensing authority of that state or jurisdiction shall not be considered non-practice. A Board-ordered suspension of practice shall not be considered as a period of non-practice.

In the event petitioner's period of non-practice while on probation exceeds 18 calendar months, petitioner shall successfully complete the Federation of State Medical Board's Special Purpose Examination, or, at the Board's discretion, a clinical competence assessment program that meets the criteria of Condition 18 of the current version of the Board's "Manual of Model Disciplinary Orders and Disciplinary Guidelines" prior to resuming the practice of medicine.

Petitioner's period of non-practice while on probation shall not exceed two (2) years.

Periods of non-practice will not apply to the reduction of the probationary term.

Periods of non-practice for a petitioner residing outside of California, will relieve petitioner of the responsibility to comply with the probationary terms and conditions with the exception of this condition and the following terms and conditions of probation: Obey All Laws; General Probation Requirements; and Quarterly Declarations.

16. Completion of Probation

Petitioner shall comply with all financial obligations (e.g., restitution, probation costs) not later than 120 days prior to the completion of probation. Upon successful completion of probation, petitioner's certificate shall be fully restored.

17. Violation of Probation

Failure to fully comply with any term or condition of probation is a violation of probation. If petitioner violates probation in any respect, the Board, after giving petitioner notice and the opportunity to be heard, may revoke probation and carry out the disciplinary order that was stayed. If an Accusation, or Petition to Revoke Probation, or an Interim Suspension Order is filed against petitioner during probation, the Board shall have continuing jurisdiction until the matter is final, and the period of probation shall be extended until the matter is final.

18. License Surrender

Following the effective date of this Decision, if petitioner ceases practicing due to retirement or health reasons or is otherwise unable to satisfy the terms and conditions of probation, petitioner may request to surrender his or her license. The Board reserves the right to evaluate petitioner's request and to exercise its discretion in determining whether or not to grant the request, or to take any other action

deemed appropriate and reasonable under the circumstances. Upon formal acceptance of the surrender, petitioner shall within 15 calendar days deliver petitioner's wallet and wall certificate to the Board or its designee and petitioner shall no longer practice medicine. Petitioner will no longer be subject to the terms and conditions of probation. If petitioner re-applies for a medical license, the application shall be treated as a petition for reinstatement of a revoked certificate.

19. Probation Monitoring Costs

Petitioner shall pay the costs associated with probation monitoring each and every year of probation, as designated by the Board, which may be adjusted on an annual basis. Such costs shall be payable to the Medical Board of California and delivered to the Board or its designee no later than January 31 of each calendar year.
