ADVISEMENT AND WAIVERS

8. Respondent has carefully read, and fully understands the charges and allegations in the Accusation and Petition to Revoke Probation No. 800-2021-077205. Respondent has also carefully read, and fully understands the effects of this Stipulated Surrender of License and Disciplinary Order.

9. Respondent is fully aware of his legal rights in this matter, including the right to a hearing on the charges and allegations in the Accusation and Petition to Revoke Probation; the right to be represented by counsel at his own expense; the right to confront and cross-examine the witnesses against him; the right to present evidence and to testify on his own behalf; the right to the issuance of subpoenas to compel the attendance of witnesses and the production of documents; the right to reconsideration and court review of an adverse decision; and all other rights accorded by the California Administrative Procedure Act and other applicable laws.

10. Respondent voluntarily, knowingly, and intelligently waives and gives up each and every right set forth above.

CULPABILITY

11. Respondent does not contest that, at an administrative hearing, Complainant could establish a *prima facie* case with respect to each and every charge and allegation contained in the Accusation and Petition to Revoke Probation No. 800-2021-077205, and agrees that he has thereby subjected his Physician's and Surgeon's Certificate No. A 60845 to disciplinary action, and hereby surrenders his Physician's and Surgeon's Certificate No. A 60845 for the board's formal acceptance.

12. Respondent agrees that if he files a petition for reinstatement or relicensure, or an accusation and/or petition to revoke probation is filed against him before the Medical Board of California, all of the charges and allegations contained in the Accusation and Petition to Revoke Probation No. 800-2021-077205 shall be deemed true, correct, and fully admitted by Respondent

for purposes of any such proceeding or any other licensing proceeding involving Respondent in the State of California

13. Respondent understands that by signing this stipulation he enables the Board to issue an order accepting the surrender of his Physician's and Surgeon's Certificate No. A 60845 without notice to, or opportunity to be heard by, Respondent.

14. With Respondent's early acknowledgment that cause exists for the Board's action, Complainant finds good cause under Business and Professions Code section 2307, subdivision (b)(1), and thereby agrees that Respondent may file a petition for reinstatement two years after the effective date of the Board's Decision.

CONTINGENCY

15. Business and Professions Code section 2224, subdivision (b), provides, in pertinent part, that the Medical Board "shall delegate to its executive director the authority to adopt a ... stipulation for surrender of a license."

16. Respondent understands that, by signing this stipulation, he enables the Executive Director of the Board to issue an order, on behalf of the Board, accepting the surrender of his Physician's and Surgeon's Certificate No. A 60845 without further notice to, or opportunity to be heard by, Respondent.

17. This Stipulated Surrender of License and Disciplinary Order shall be subject to the approval of the Executive Director on behalf of the Board. The parties agree that this Stipulated Surrender of License and Disciplinary Order shall be submitted to the Executive Director for his consideration in the above-entitled matter and, further, that the Executive Director shall have a reasonable period of time in which to consider and act on this Stipulated Surrender of License and Disciplinary Order after receiving it. By signing this stipulation, Respondent fully understands and agrees that he may not withdraw his agreement or seek to rescind this stipulation prior to the time the Executive Director, on behalf of the Medical Board, considers and acts upon it.

18. The parties agree that this Stipulated Surrender of License and Disciplinary Order shall be null and void and not binding upon the parties unless approved and adopted by the Executive Director on behalf of the Board, except for this paragraph, which shall remain in full

force and effect. Respondent fully understands and agrees that in deciding whether or not to approve and adopt this Stipulated Surrender of License and Disciplinary Order, the Executive Director and/or the Board may receive oral and written communications from its staff and/or the Attorney General's Office. Communications pursuant to this paragraph shall not disqualify the Executive Director, the Board, any member thereof, and/or any other person from future participation in this or any other matter affecting or involving Respondent. In the event that the Executive Director on behalf of the Board does not, in his discretion, approve and adopt this Stipulated Surrender of License and Disciplinary Order, with the exception of this paragraph, it shall not become effective, shall be of no evidentiary value whatsoever, and shall not be relied upon or introduced in any disciplinary action by either party hereto. Respondent further agrees that should this Stipulated Surrender of License and Disciplinary Order be rejected for any reason by the Executive Director on behalf of the Board, Respondent will assert no claim that the Executive Director, the Board, or any member thereof, was prejudiced by its/his/her review, discussion and/or consideration of this Stipulated Surrender of License and Disciplinary Order or of any matter or matters related hereto.

ADDITIONAL PROVISIONS

19. This Stipulated Surrender of License and Disciplinary Order is intended by the parties herein to be an integrated writing representing the complete, final and exclusive embodiment of the agreements of the parties in the above-entitled matter.

20. The parties agree that copies of this Stipulated Surrender of License and Disciplinary Order, including copies of the signatures of the parties, may be used in lieu of original documents and signatures and, further, that such copies shall have the same force and effect as originals.

21. In consideration of the foregoing admissions and stipulations, the parties agree the Executive Director of the Board may, without further notice to or opportunity to be heard by Respondent, issue and enter the following Disciplinary Order on behalf of the Board:

Respondent shall maintain a current and renewed California physician's and surgeon's license.

Travel or Residence Outside California

Respondent shall immediately inform the Board or its designee, in writing, of travel to any areas outside the jurisdiction of California which lasts, or is contemplated to last, more than thirty (30) calendar days.

In the event Respondent should leave the State of California to reside or to practice Respondent shall notify the Board or its designee in writing 30 calendar days prior to the dates of departure and return.

Respondent shall notify the Board or its designee in writing within 15 calendar days of any periods of non-practice lasting more than 30 calendar days and within 15 calendar days of Respondent's return to practice. Non-practice is defined as any period of time Respondent is not practicing medicine in California as defined in Business and Professions Code sections 2051 and 2052 for at least 40 hours in a calendar month in direct patient care, clinical activity or teaching, or other activity as approved by the Board. All time spent in an intensive training program which has been approved by the Board or its designee shall not be considered non-practice. Practicing medicine in another state of the United States or Federal jurisdiction while on probation with the medical licensing authority of that state or jurisdiction shall not be considered non-practice. A Board-ordered suspension of practice shall not be considered as a period of non-practice.

In the event Respondent's period of non-practice while on probation exceeds 18 calendar months, Respondent shall successfully complete a clinical training program that meets the criteria of Condition 18 of the current version of the Board's "Manual of Model Disciplinary Orders and Disciplinary Guidelines" prior to resuming the practice of medicine.

Respondent's period of non-practice while on probation shall not exceed two (2) years. Periods of non-practice will not apply to the reduction of the probationary term. 12. COMPLETION OF PROBATION. Respondent shall comply with all financial obligations (e.g., restitution, probation costs) not later than 120 calendar days prior to the completion of probation. Upon successful completion of probation, Respondent's certificate shall be fully restored.

13. VIOLATION OF PROBATION. Failure to fully comply with any term or condition of probation is a violation of probation. If Respondent violates probation in any respect, the Board, after giving Respondent notice and the opportunity to be heard, may revoke probation and carry out the disciplinary order that was stayed. If an Accusation, or Petition to Revoke Probation, or an Interim Suspension Order is filed against Respondent during probation, the Board shall have continuing jurisdiction until the matter is final, and the period of probation shall be extended until the matter is final.

14. LICENSE SURRENDER. Following the effective date of this Decision, if Respondent ceases practicing due to retirement or health reasons or is otherwise unable to satisfy the terms and conditions of probation, Respondent may request to surrender his or her license. The Board reserves the right to evaluate Respondent's request and to exercise its discretion in determining whether or not to grant the request, or to take any other action deemed appropriate and reasonable under the circumstances. Upon formal acceptance of the surrender, Respondent shall within 15 calendar days deliver Respondent's wallet and wall certificate to the Board or its designee and Respondent shall no longer practice medicine. Respondent will no longer be subject to the terms and conditions of probation. If Respondent re-applies for a medical license, the application shall be treated as a petition for reinstatement of a revoked certificate.

15. PROBATION MONITORING COSTS. Respondent shall pay the costs associated with probation monitoring each and every year of probation, as designated by the Board, which

may be adjusted on an annual basis. Such costs shall be payable to the Medical Board of California and delivered to the Board or its designee no later than January 31 of each calendar year.

Section 2227 of the Code provides that a licensee who is found guilty under the Medical Practice Act may have his or her license revoked, suspended for a period not to exceed one year, placed on probation and required to pay the costs of probation monitoring, or such other action taken in relation to discipline as the Board deems proper.

5. Section 2234 of the Code, states:

"The board shall take action against any licensee who is charged with unprofessional conduct. In addition to other provisions of this article, unprofessional conduct includes, but is not limited to, the following:

"(a) Violating or attempting to violate, directly or indirectly, assisting in or abetting the violation of, or conspiring to violate any provision of this chapter.

6. Section 2266 of the Code states: "The failure of a physician and surgeon to maintain adequate and accurate records relating to the provision of services to their patients constitutes unprofessional conduct."

FIRST CAUSE FOR DISCIPLINE

(Gross Negligence)

7. Respondent Walton Montegut, M.D., is subject to disciplinary action under section 2234, subdivision (b), in that he was grossly negligent in the care and treatment of four patients. The circumstances are as follows:

Factual Allegations:

A. Patient M.B. was a 63-year-old female when she went to first see Respondent in July 2008. She had no history of any chronic pain syndrome or treatments. M.B. saw Respondent for fat transfer procedures.

B. M.B. had the following procedures performed by Respondent: On September 15, 2008, fat transfer to the face and upper and lower extremities; on August 20, 2009, a local procedure to the face; on October 27, 2009, breast augmentation and revision abdominoplasty; August 30, 2010, revision of buttocks; and, June 5, 2011, breast capsulectomy.

C. The medical records have 52 pages of consents but no history or physicals. There are no pre-operative or post-operative photographs. The progress notes are not dated and not in the proper format.

D. Controlled Substance Utilization Review and Evaluation System ("CURES") and the prescription records show that from August 16, 2009, to July 11, 2014, a total of about 60

months, M.B. had 55 prescriptions for controlled substances, such as hydrocodone (also known as Vicodin, a pain killer for moderate to severe pain); zolpidem (also known as Ambien, helps with sleep); and lorazepam (also known as Ativan, used for the management of anxiety disorder). This was approximately 60-100 pills per month for five years.

E. The second patient, C.C., was a 59-year-old female who started seeing Respondent in August 2007. She had a history of narcolepsy and daily use of phentermine (appetite suppressant). C.C. saw Respondent from August 2007 to August 2011. She received botox treatments and refills for phentermine, 500 tablets at a time. CURES showed she received 200 pills bi-monthly until January 7, 2014. Respondent's medical records are not sufficiently documented and do not show dosage or amounts of pills. C.C. received refills from Respondent three years beyond the last entry in the medical record.

F. The third patient, M.H., was a 42-year-old female who first visited Respondent in October 2007. In the summer of 2008, she underwent a fat transfer procedure to her face. There was no history, physical or photographs in Respondent's medical records for her.

G. Prescription records show that M.H. received 25 prescriptions for Ambien and alprazolam (also known as Xanax, used to treat anxiety caused by depression) 25 times from October 2009 to February 2013, which is 40 months. There are eight entries in Respondent's progress notes but they are incomplete. There is no documentation to justify the need for almost daily, long-term use of zolpidem or alprazolam.

H. The fourth patient, R.H., was a 58-year old male and married to patient M.H. He first presented to Respondent in April 2008. On July 7, 2008, he had a face and neck lift, and fat injections. The records do not show a physical or history. He had minor skin excisions in July 2008, and March 2011. On April 29, 2009, Respondent performed a liposuction, blepharoplasty, (a procedure to repair eyelids), rhinoplasty (reconstructing the nose) and scar revision. There is no physical or history or photos in Respondent's medical records for R.H.

I. Prescription records show that R.H. received 49 prescriptions for zolpidem and 49 times he received alprazolam, from August 2008 to April 2014. There are only three entries in the medical records for a prescription for zolpidem. There is no indication as to the need for the

chronic, long term use of these drugs.

Allegations of Gross Negligence:

J. In a standard plastic surgery setting, a doctor should only prescribe narcotics as it is reasonably related to the type of procedure performed. With each of these patients, Respondent wrongfully overprescribed.

K. Patient M.B.: The drugs that were prescribed were over and beyond what was indicated given the procedures performed.

L. Patient C.C.: The dosage of 5-8 pills of phentermine daily was far larger than the accepted dosage of one pill twice daily. Phentermine is not indicated for long term use.

M. Patients M.H. and R.H. received prescriptions for zolpidem and alprazolam in excess of any medical indication; these drugs are for short term use only.

SECOND CAUSE FOR DISCIPLINE

(Inadequate Medical Records)

8. Respondent Walton Montegut, M.D. is subject to disciplinary action under section 2266 for failure to maintain adequate records. The circumstances are as follows:

A. Complainant realleges the allegations in paragraphs 7, A-I, as though fully set forth herein.

B. There were no photos contained in the records. The progress notes were not dated. History and physicals, and operative reports are missing. Most of the controlled substance prescriptions are missing or not sufficiently documented.

PRAYER

WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged, and that following the hearing, the Medical Board of California issue a decision:

1. Revoking or suspending Physician's and Surgeon's Certificate Number A 60845, issued to Walton Montegut, M.D.;

2. Revoking, suspending or denying approval of Walton Montegut, M.D.'s authority to supervise physician assistants, pursuant to section 3527 of the Code;

3. Ordering Walton Montegut, M.D., if placed on probation, to pay the Board the costs

of probation monitoring; and

4. Taking such other and further action as deemed necessary and proper.
