JURISDICTION

3. This Accusation is brought before the Board under the authority of the following laws. All section references are to the Business and Professions Code (Code) unless otherwise indicated.

4. Section 2227 of the Code provides that a licensee who is found guilty under the Medical Practice Act may have his or her license revoked, suspended for a period not to exceed one year, placed on probation and required to pay the costs of probation monitoring, or such other action taken in relation to discipline as the Board deems proper.

5. Section 2234 of the Code, states:

The board shall take action against any licensee who is charged with unprofessional conduct. In addition to other provisions of this article, unprofessional conduct includes, but is not limited to, the following:

(a) Violating or attempting to violate, directly or indirectly, assisting in or abetting the violation of, or conspiring to violate any provision of this chapter.

(b) Gross negligence.

(c) Repeated negligent acts. To be repeated, there must be two or more negligent acts or omissions. An initial negligent act or omission followed by a separate and distinct departure from the applicable standard of care shall constitute repeated negligent acts.

(1) An initial negligent diagnosis followed by an act or omission medically appropriate for that negligent diagnosis of the patient shall constitute a single negligent act.

(2) When the standard of care requires a change in the diagnosis, act, or omission that constitutes the negligent act described in paragraph (1), including, but not limited to, a reevaluation of the diagnosis or a change in treatment, and the licensee's conduct departs from the applicable standard of care, each departure constitutes a separate and distinct breach of the standard of care.

(d) Incompetence.

(e) The commission of any act involving dishonesty or corruption that is substantially related to the qualifications, functions, or duties of a physician and surgeon.

(f) Any action or conduct that would have warranted the denial of a certificate.

(g) The failure by a certificate holder, in the absence of good cause, to attend and participate in an interview by the board. This subdivision shall only apply to a certificate holder who is the subject of an investigation by the board.

//

1 CAUSE FOR DISCIPLINE

2 (Repeated Negligent Acts)

3 6. Respondent's license is subject to disciplinary action under section 2234, subdivision
4 (c), of the Code in that he committed repeated negligent acts in his care and treatment of Patient

5 1.¹ The circumstances are as follows:

6 7. At the time of their initial encounter, Patient 1 was a 47-year-old male with history of
7 an angioplasty and placement of a bare metal stent in December 2014. On February 13, 2015,
8 Patient 1 presented for a scheduled surgery of a renal mass. Respondent, the anesthesiologist,
9 performed a pre-operative evaluation and deemed Patient 1 suitable for surgery.

10 8. Anesthetic induction was performed in a typical fashion with typical agents, however,
11 Patient 1 manifested substantial hypotension between induction and the start of surgery.
12 Additional intravenous fluid was administered and anesthetic agents were turned down (but not
13 off); however, no vasopressors were given. Patient 1's mean blood pressure remained in the
14 vicinity of 50 mm Hg for 25 minutes from 7:25 a.m. to 7:50 a.m.

15 9. Surgery commenced shortly thereafter, with a rise in Patient 1's blood pressure to
16 more acceptable levels. Shortly after 9:30 a.m., Patient 1 sustained a brief run of non-sustained
17 ventricular tachycardia (VT) that terminated spontaneously. A few minutes later, a second brief
18 run of VT was noted, followed by sustained VT that devolved into ventricular fibrillation.
19 Despite concluding the surgery and instituting resuscitative measures, the physicians caring for
20 Patient 1 were unable to restore spontaneous circulation.

21 10. The standard of care for an anesthesiologist is to respond promptly to hypotension
22 manifested by the patient, recognizing that such response may not be effective in all
23 circumstances.

24 11. Respondent erred in allowing hypotension of this degree to persist for so long in
25 Patient 1. Respondent's failure to be more aggressive in correcting Patient 1's post-inductive
26 hypotension was a simple departure from the standard of care.

27 //

28 ¹ The patient is referred to by number to protect his privacy.

12. The standard of care for an anesthesiologist is to assign preoperatively the correct American Society of Anesthesiologists (ASA) physical status.

13. Respondent assigned Patient 1 an ASA of II, which corresponds to an underlying health condition of a moderate nature (e.g., controlled hypertension). Patient 1's coronary artery disease was of sufficient severity that it required percutaneous intervention less than two months prior to the renal surgery, at which time he suffered a sustained non-ST segment elevation myocardial infarction. An ASA rating of III (or even IV, in light of the recent myocardial infarction) would have been appropriate. Respondent's erroneous ASA rating was a simple departure from the standard of care.

14. The standard of care for an anesthesiologist is that an arterial line should be placed for continuous blood pressure monitoring in patients who, because of underlying cardiac disease or the nature of the proposed procedure, may be reasonably expected to be at significant risk of intraoperative hemodynamic instability.

15. Respondent's failure to place an arterial line in Patient 1 for intraoperative continuous blood pressure monitoring was a simple departure from the standard of care.

PRAYER

WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged, and that following the hearing, the Medical Board of California issue a decision:

1. Revoking or suspending Physician's and Surgeon's Certificate Number A 99698,
issued to Steve Richard Ciancio, M.D.;

2. Revoking, suspending or denying approval of Steve Richard Ciancio, M.D.'s authority to supervise physician assistants and advanced practice nurses;

3. If placed on probation, ordering Steve Richard Ciancio, M.D. to pay the Board the costs of probation monitoring; and
