1 CULPABILITY

2 9. Respondent understands and agrees that the charges and allegations in Accusation  
3 No. 800-2018-043842, if proven at a hearing, constitute cause for imposing discipline upon his  
4 Physician's and Surgeon's Certificate.

5 10. Respondent agrees that, at a hearing, Complainant could establish a *prima facie* case  
6 or factual basis for the charges in the Accusation, and that Respondent hereby gives up his right  
7 to contest those charges.

8 11. Respondent does not contest that, at an administrative hearing, complainant could  
9 establish a *prima facie* case with respect to the charges and allegations in Accusation No. 800-  
10 2018-043842, a true and correct copy of which is attached hereto as Exhibit A, and that he has  
11 thereby subjected his Physician's and Surgeon's Certificate, No. G 68885 to disciplinary action.

12 12. Respondent agrees that his Physician's and Surgeon's Certificate is subject to  
13 discipline and he agrees to be bound by the Board's imposition of discipline as set forth in the  
14 Disciplinary Order below.

15 CONTINGENCY

16 13. This stipulation shall be subject to approval by the Medical Board of California.  
17 Respondent understands and agrees that counsel for Complainant and the staff of the Medical  
18 Board of California may communicate directly with the Board regarding this stipulation and  
19 settlement, without notice to or participation by Respondent or his counsel. By signing the  
20 stipulation, Respondent understands and agrees that he may not withdraw his agreement or seek  
21 to rescind the stipulation prior to the time the Board considers and acts upon it. If the Board fails  
22 to adopt this stipulation as its Decision and Order, the Stipulated Settlement and Disciplinary  
23 Order shall be of no force or effect, except for this paragraph, it shall be inadmissible in any legal  
24 action between the parties, and the Board shall not be disqualified from further action by having  
25 considered this matter.

26 14. Respondent agrees that if he ever petitions for early termination or modification of  
27 probation, or if an accusation and/or petition to revoke probation is filed against him before the  
28 Board, all of the charges and allegations contained in Accusation No. 800-2018-043842 shall be

1 deemed true, correct and fully admitted by respondent for purposes of any such proceeding or any  
2 other licensing proceeding involving Respondent in the State of California.

3 15. The parties understand and agree that Portable Document Format (PDF) and facsimile  
4 copies of this Stipulated Settlement and Disciplinary Order, including PDF and facsimile  
5 signatures thereto, shall have the same force and effect as the originals.

6 16. This Stipulated Settlement and Disciplinary Order is intended by the parties herein to  
7 be an integrated writing representing the complete, final, and exclusive embodiment of the  
8 agreements of the parties in the above-entitled matter.

9 17. The parties agree that copies of this Stipulated Settlement and Disciplinary Order,  
10 including copies of the signatures of the parties, may be used in lieu of original documents and  
11 signatures and, further, that such copies shall have the same force and effect as originals.

12 18. In consideration of the foregoing admissions and stipulations, the parties agree that  
13 the Board may, without further notice or opportunity to be heard by the Respondent, issue and  
14 enter the following Disciplinary Order:

15 **DISCIPLINARY ORDER**

16 IT IS HEREBY ORDERED that Physician's and Surgeon's Certificate No. G 68885 issued

11 Medical Education (CME) requirements for renewal of licensure.

12 A prescribing practices course taken after the acts that gave rise to the charges in the  
13 Accusation, but prior to the effective date of the Decision may, in the sole discretion of the Board

6 Executive Officer at every insurance carrier which extends malpractice insurance coverage to  
7 Respondent. Respondent shall submit proof of compliance to the Board or its designee within 15  
8 calendar days.

9           This condition shall apply to any change(s) in hospitals, other facilities or insurance carrier.

11 governing the practice of medicine in California and remain in full compliance with any court  
12 ordered criminal probation, payments, and other orders.

13          8.    QUARTERLY DECLARATIONS. Respondent shall submit quarterly declarations  
14 under penalty of perjury on forms provided by the Board, stating whether there has been  
15 compliance with all the conditions of probation.

16          Respondent shall submit quarterly declarations not later than 10 calendar days after the end  
17 of the preceding quarter.

18          9.    GENERAL PROBATION REQUIREMENTS.

19               Compliance with Probation Unit

20               Respondent shall comply with the Board's probation unit.

21               Address Changes

22               Respondent shall, at all times, keep the Board informed of Respondent's business and  
23 residence addresses, email address (if available), and telephone number. Changes of such  
24 addresses shall be immediately communicated in writing to the Board or its designee. Under no  
25 circumstances shall a post office box serve as an address of record, except as allowed by Business  
26 and Professions Code section 2021, subdivision (b).

27               Place of Practice

28               Respondent shall not engage in the practice of medicine in Respondent's or patient's place

1 of residence, unless the patient resides in a skilled nursing facility or other similar licensed  
2 facility.

3 License Renewal

4 Respondent shall maintain a current and renewed California physician's and surgeon's  
5 license.

6 Travel or Residence Outside California

7 Respondent shall immediately inform the Board or its designee, in writing, of travel to any  
8 areas outside the jurisdiction of California which lasts, or is contemplated to last, more than thirty  
9 (30) calendar days.

10 In the event Respondent should leave the State of California to reside or to practice,  
11 Respondent shall notify the Board or its designee in writing 30 calendar days prior to the dates of  
12 departure and return.

13 10. INTERVIEW WITH THE BOARD OR ITS DESIGNEE. Respondent shall be  
14 available in person upon request for interviews either at Respondent's place of business or at the  
15 probation unit office, with or without prior notice throughout the term of probation.

16 11. NON-PRACTICE WHILE ON PROBATION. Respondent shall notify the Board or  
17 its designee in writing within 15 calendar days of any periods of non-practice lasting more than  
18 30 calendar days and within 15 calendar days of Respondent's return to practice. Non-practice is  
19 defined as any period of time Respondent is not practicing medicine as defined in Business and  
20 Professions Code sections 2051 and 2052 for at least 40 hours in a calendar month in direct  
21 patient care, clinical activity or teaching, or other activity as approved by the Board. If  
22 Respondent resides in California and is considered to be in non-practice, Respondent shall  
23 comply with all terms and conditions of probation. All time spent in an intensive training  
24 program which has been approved by the Board or its designee shall not be considered non-  
25 practice and does not relieve Respondent from complying with all the terms and conditions of  
26 probation. Practicing medicine in another state of the United States or Federal jurisdiction while  
27 on probation with the medical licensing authority of that state or jurisdiction shall not be  
28 considered non-practice. A Board-ordered suspension of practice shall not be considered as a

1 period of non-practice.

2 In the event Respondent's period of non-practice while on probation exceeds 18 calendar  
3 months, Respondent shall successfully complete the Federation of State Medical Board's Special  
4 Purpose Examination, or, at the Board's discretion, a clinical competence assessment program  
5 that meets the criteria of Condition 18 of the current version of the Board's "Manual of Model  
6 Disciplinary Orders and Disciplinary Guidelines" prior to resuming the practice of medicine.

7 Respondent's period of non-practice while on probation shall not exceed two (2) years.

8 Periods of non-practice will not apply to the reduction of the probationary term.

9 Periods of non-practice for a Respondent residing outside of California will relieve  
10 Respondent of the responsibility to comply with the probationary terms and conditions with the  
11 exception of this condition and the following terms and conditions of probation: Obey All Laws;  
12 General Probation Requirements; Quarterly Declarations; Abstain from the Use of Alcohol and/or  
13 Controlled Substances; and Biological Fluid Testing..

14 12. COMPLETION OF PROBATION. Respondent shall comply with all financial  
15 obligations (e.g., restitution, probation costs) not later than 120 calendar days prior to the  
16 completion of probation. Upon successful completion of probation, Respondent's certificate shall  
17 be fully restored.

18 13. VIOLATION OF PROBATION. Failure to fully comply with any term or condition  
19 of probation is a violation of probation. If Respondent violates probation in any respect, the  
20 Board, after giving Respondent notice and the opportunity to be heard, may revoke probation and  
21 carry out the disciplinary order that was stayed. If an Accusation, or Petition to Revoke Probation,  
22 or an Interim Suspension Order is filed against Respondent during probation, the Board shall have  
23 continuing jurisdiction until the matter is final, and the period of probation shall be extended until  
24 the matter is final.

25 14. LICENSE SURRENDER. Following the effective date of this Decision, if  
26 Respondent ceases practicing due to retirement or health reasons or is otherwise unable to satisfy  
27 the terms and conditions of probation, Respondent may request to surrender his or her license.  
28 The Board reserves the right to evaluate Respondent's request and to exercise its discretion in

1 determining whether or not to grant the request, or to take any other action deemed appropriate  
2 and reasonable under the circumstances. Upon formal acceptance of the surrender, Respondent  
3 shall within 15 calendar days deliver Respondent's wallet and wall certificate to the Board or its  
4 designee and Respondent shall no longer practice medicine. Respondent will no longer be subject  
5 to the terms and conditions of probation. If Respondent re-applies for a medical license, the  
6 application shall be treated as a petition for reinstatement of a revoked certificate.

7 15. PROBATION MONITORING COSTS. Respondent shall pay the costs associated  
8 with probation monitoring each and every year of probation, as designated by the Board, which  
9 may be adjusted on an annual basis. Such costs shall be payable to the Medical Board of  
10 California and delivered to the Board or its designee no later than January 31 of each calendar  
11 year.

12 16. FUTURE ADMISSIONS CLAUSE. If Respondent should ever apply or reapply for  
13 a new license or certification, or petition for reinstatement of a license, by any other health care  
14 licensing action agency in the State of California, all of the charges and allegations contained in  
15 Accusation No. 800-2018-043842 shall be deemed to be true, correct, and admitted by  
16 Respondent for the purpose of any Statement of Issues or any other proceeding seeking to deny or  
17 restrict license.

14 of moderate to severe pain. Morphine Sulfate is a dangerous drug pursuant to California Business  
15 and Professions Code section 4022, and is a Schedule II controlled substance pursuant to  
16 California Health and Safety Code section 11055 subdivision (b).

17 15. **Oxycodone hydrochloride with acetaminophen** (generic name for Percocet) is a  
18 semisynthetic narcotic analgesic with multiple actions qualitatively similar to those of morphine.  
19 It can produce drug dependence of the morphine type and therefore, has the potential for being  
20 abused. Repeated administration of Percocet may result in psychic and physical dependence.  
21 Oxycodone is a Schedule II controlled substance pursuant to Code of Federal Regulations Title  
22 21 section 1308.12. Oxycodone is a dangerous drug pursuant to California Business and  
23 Professions Code section 4022, and is a Schedule II controlled substance pursuant to California  
24 Health and Safety Code section 11055 subdivision (b).

25 16. **Phendimetrazine** is a sympathomimetic amine, which is similar to an amphetamine.  
26 Phendimetrazine stimulates the central nervous system, which increases your heart rate and blood  
27 pressure and decreases your appetite. It is used together with diet and exercise to treat obesity.

1 17. Phentermine hydrochloride (generic for Fastin and Ionamin) is a sympathomimetic  
2 amine with pharmacologic activity similar to amphetamines. It is a Schedule IV controlled

8 Schedule IV controlled substance pursuant to Health and Safety Code section 11057, subdivision  
9 (d), and a dangerous drug pursuant to Business and Professions Code section 4022.

10 **FACTUAL ALLEGATIONS**

11 **Patient A:**<sup>1</sup>

12 19. Patient A is an older female with a history of discitis on multiple levels of the lumbar  
13 spine, low back pain, major depressive disorder, anxiety disorder, migraine headaches, diabetes  
14 mellitus type II, Von Willebrand's disease and a laminectomy.

15 20. Patient A had been a patient in Respondent's practice since at least 2012 when the  
16 patient was 65-years old. When Patient A started seeing Respondent, Patient A was taking several  
17 prescriptions. As of 2015, Respondent prescribed oxycontin, oxycodone, and carisoprodil.

18 21. In 2016, Respondent saw Patient A almost on a monthly basis.

19 22. On or about March 2016, there was a notation that Patient A would be referred to a  
20 pain management specialist.

21 23. On or about July 28, 2016, Patient A went to see Respondent for pain to her right  
22 ankle. The progress notes indicate Patient's A's x-rays were negative for fracture. There is no  
23 specific diagnosis but Patient A was prescribed Norco, 10 mg/325 mg, alprazolam 1 mg and  
24 carisoprodol 350 mg.

25 24. On or about November 22, 2016, Patient A sought out treatment from Respondent for  
26 right arm numbness. Patient A continued to complain of substantial difficulty with low back pain  
27 and sciatica and requested an increase in pain medications. There was a minimal physical

28 <sup>1</sup> Patient names are redacted to protect privacy.

1 examination for a musculoskeletal exam noting, "Severe chronic pain in the low back." Patient A  
2 submitted to a Urine Toxicology Screen. The results of that test demonstrated positive for results  
3 for opiates, methamphetamine, barbiturates, benzodiazepines and oxycodone.

4 25. On or about January 2, 2017, Patient A was admitted into the hospital due to  
5 confusion and slurred speech. The provider noted that Patient A was on several medications  
6 potentially causing sedation. The provider diagnosed Patient A with altered consciousness, likely  
7 accidental overdose.

8 26. On or about January 13, 2017, Patient A went for a follow-up with Respondent  
9 following hospitalization. Respondent advised he would work on decreasing dependence on  
10 opioids. Respondent prescribed Lunesta and refilled prescriptions for oxycodone and oxycodone-  
11 acetaminophen for a total Morphine Equivalent of 105 mg/day.

12 27. On or about February 28, 2017, Patient A was taken to the hospital via ambulance  
13 due to an altered mental state, confusion, and agitation. Patient A was diagnosed with acute  
14 agitation, cause unknown, and chronic back pain. The provider noted Patient A had been taking  
15 almost 30 different medications at home. Except for Norco, all of Patient A's medications were  
16 placed on hold. Patient A's condition improved. She was discharged on Percocet, diethylpropion  
17 and oxycodone.

18 28. On or about March 6, 2017, despite the prior hospitalizations, Respondent wrote a  
19 progress note reflecting Patient A's "pain management agreement is up to date. Cures activity is  
20 consistent." There was a minimal examination conducted at this appointment with a repeated note  
21 stating, "Chronic neck and back pain." Respondent prescribed diethylpropion, oxycodone,  
22 oxycodone-acetaminophen and Lunesta, amongst other prescriptions.

23 29. On or about April 14, 2017, Patient A sought treatment from Respondent due to  
24 complaints of stuttering and altered mental state. Respondent again wrote, "There is no sign of  
25 diversion or abuse and refills were given. Pain agreement is up to date. Cures activity is  
26 consistent." Patient A requested for a small increase in pain medication. Patient A was referred to  
27 a pain management specialist. Respondent prescribed oxycodone and Percocet.

28

1           30. On or about May 25, 2017, and November 16, 2017, Respondent treated Patient A.  
2 On these encounters he again repeated, "There is no sign of diversion or abuse and refills were  
3 given. Pain agreement is up to date. Cures activity is consistent." There are minimal  
4 musculoskeletal examinations performed.

5           31. Respondent continued to treat Patient A on or about July 16, 2018. Respondent  
6 conducted a limited musculoskeletal exam noting "Extremities; no edema."

7           32. During multiple times Respondent treated Patient A, he used a template to document  
8 the patient's care. Respondent frequently documented, "No signs of diversion. Cures is  
9 consistent" without verifying the accuracy of those notes.

10          33. During each visit with Patient A, Respondent documented performing a physical  
11 examination. The progress notes documenting the musculoskeletal exam only confirmed a back  
12 exam that was essentially identical and limited. The notes repeated the same pattern chronicling,  
13 "Severe chronic pain in the low back" with no documentation of a thorough back examination.

14 **Patient B:**

15          34. Patient B is a 66-year-old female with a history of hyperlipidemia, depression,  
16 anxiety disorder, opioid dependence, high blood pressure, posttraumatic stress disorder, sleep  
17 apnea, and degenerative joint disease involving multiple joints. Patient B used opioids to treat her  
18 neck, back and knee pain.

19          35. Beginning on or about January 2018, through on or about August 2018, Patient B  
20 sought treatment from Respondent on a monthly basis. During this timeframe, Patient B was also  
21 seen by psychiatry, pain management and orthopedic providers.

22          36. During each visit with Patient B, Respondent used a template to document the  
23 patient's care. On or about May 29, 2018, June 26, 2018, and July 24, 2018, Respondent wrote,  
24 "There is no sign of diversion or abuse and refills were given. Pain management is up to date.  
25 Cures activity is consistent" on the progress notes. Respondent was unable to verify the accuracy  
26 of those notes in light of a urine toxicology screening from May 29, 2018, which was positive for  
27 morphine and alcohol and negative for benzodiazepines. There is no reference to these results in  
28 any subsequent progress notes.

1 37. During each visit with Patient B, Respondent documented performing a physical  
2 examination. Despite prescriptions to address Patient B's issues with neck, back, and knee pain,  
3 the progress notes show a limited musculoskeletal examination. On or about January 8, 2018,  
4 February 9, 2018, March 2, 2018, April 9, 2018, May 29, 2018, July 24, 2018 and August 7,  
5 2018, the same entries, "Extremities: no edema" were documented in the progress notes.

6 38. During each visit with Patient B, Respondent documented Patient B's heart rate. A  
7 resting heart rate over 100 is elevated and not considered a "regular rate". Yet during  
8 appointments in January, February, March, May, June, July and August, 2018, Patient B's heart  
9 rate was over 100 and Respondent wrote that these rates were "RRR" (regular rate and rhythm).

10 **Patient C:**

11 39. Patient C is a 69-year-old female with a history of low back pain, osteoporosis, pure  
12 hyperglyceridemia, hypothyroidism, hyperlipidemia, and high blood pressure.

13 40. Respondent treated Patient C as far back as 2007. Medical imaging demonstrated  
14 issues with chronic neck and pack pain.

15 41. Progress notes beginning on or about May 2017, through October 2019, demonstrate  
16 Respondent used a template to document the patient's care. On or about May 2, 2017, June 2,  
17 2017, June 29, 2017, July 28, 2017, September 25, 2017, October 23, 2017, October 31, 2017,  
18 December 12, 2017, January 19, 2018, February 16, 2018, April 19, 2018, May 18, 2018, June  
19 15, 2018, July 16, 2018, August 14, 2018, September 11, 2018, October 9, 2018, November 9,  
20 2018, December 7, 2018, January 4, 2019, February 4, 2019, March 26, 2019, April 26, 2019,  
21 May 24, 2019, June 21, 2019, July 19, 2019, August 12, 2019, September 10, 2019 and October  
22 12, 2019, Respondent wrote, "There is no sign of diversion or abuse and refills were given. Pain  
23 agreement is up to date. Cures activity is consistent" on the progress notes. Respondent was  
24 unable to verify the accuracy of those notes.

25 42. During each visit with Patient C, Respondent documented performing a physical  
26 examination. The progress notes documenting the musculoskeletal exam only confirmed a back  
27 exam that was essentially identical and limited. For example, all of the progress notes for the  
28 musculoskeletal exams repeatedly noted, "Extremities: No edema". The progress notes for the

1 back often stated "mild, soft tissue tenderness in the paraspinous soft tissues lumbosacral region."  
2 Beginning April 19, 2018, Respondent changed the language on the back examination to read,  
3 "Soft Tissue tenderness low back". Respondent was unable to verify the accuracy of these notes  
4 despite continued prescriptions for pain management.
