21 **PARTIES**

22 1. William Prasifka (Complainant) brings this Accusation solely in his official capacity  
23 as the Executive Director of the Medical Board of California, Department of Consumer Affairs  
24 (Board).

25 2. On or about November 19, 1999, the Medical Board issued Physician's and Surgeon's  
26 Certificate Number A 70310 to Nizar Isa Ibrahim, M.D. (Respondent). The Physician's and  
27 Surgeon's Certificate was in full force and effect at all times relevant to the charges brought  
28 herein and will expire on January 31, 2021, unless renewed.

JURISDICTION

1  
2       3.     This Accusation is brought before the Board, under the authority of the following  
3 laws. All section references are to the Business and Professions Code (Code) unless otherwise  
4 indicated.

5       4.     Section 726 of the Code states:

6       “(a) The commission of any act of sexual abuse, misconduct, or relations with a patient,  
7 client, or customer constitutes unprofessional conduct and grounds for disciplinary action for any  
8 person licensed under this division, under any initiative act referred to in this division.

9       “(b) This section shall not apply to consensual sexual contact between a licensee and his or  
10 her spouse or person in an equivalent domestic relationship when that licensee provides medical  
11 treatment, other than psychotherapeutic treatment, to his or her spouse or person in an equivalent  
12 domestic relationship.”

13       5.     Section 2234 of the Code, states in part:

14       “The board shall take action against any licensee who is charged with unprofessional  
15 conduct. In addition to other provisions of this article, unprofessional conduct includes, but is not  
16 limited to, the following:

17       “...”

18       “(b) Gross negligence.

19       “(c) Repeated negligent acts. To be repeated, there must be two or more negligent acts or  
20 omissions. An initial negligent act or omission followed by a separate and distinct departure from  
21 the applicable standard of care shall constitute repeated negligent acts.

22       “(1) An initial negligent diagnosis followed by an act or omission medically appropriate for  
23 that negligent diagnosis of the patient shall constitute a single negligent act.

24       “(2) When the standard of care requires a change in the diagnosis, act, or omission that  
25 constitutes the negligent act described in paragraph (1), including, but not limited to, a  
26 reevaluation of the diagnosis or a change in treatment, and the licensee’s conduct departs from the  
27 applicable standard of care, each departure constitutes a separate and distinct breach of the  
28 standard of care.

1 met with Patient A in a patient examination room. In response to Patient A's request for a Ritalin  
2 refill, Respondent interrupted her to explain that most adults diagnosed with ADD actually suffer  
3 from bipolar disorder. Respondent then began asking the patient a series of inquiries related to  
4 her sex life, including suggesting that she and her boyfriend should attend swinger parties to  
5 "spice things up." Respondent then recommended that Patient A sample a particular strain of  
6 marijuana for her bipolar disorder.<sup>3</sup> Respondent told Patient A that he was going to prescribe her  
7 medication to treat bipolar disorder, to which she responded that she was not bi-polar.  
8 Respondent asked Patient A where she lived and proposed that she should move to the area of  
9 Moreno Valley which is closer to where he lives because it is safer, and he even drew a map  
10 showing Patient A where he lived.

11 10. Respondent asked Patient A about her bra size and whether her breasts were heavy.  
12 Patient A responded that her breasts were not heavy. He directed Patient A to stand up, where he  
13 proceeded to move behind her, then reached around her and grabbed her breasts with both hands  
14 while squeezing softly. Respondent remarked that her breasts were not heavy as he laughed and  
15 abruptly walked out of the room. Respondent did not examine any other part of her body, nor did  
16 he warn Patient A that he was about to perform a breast examination. Patient A had not discussed  
17 any issues or concerns with her breasts that may have prompted a breast examination. A  
18 chaperone was not present in the examination room. Patient A learned that Respondent's office  
19 called in a prescription for paroxetine and trazodone to treat bipolar disorder, and failed to refill  
20 Ritalin and Valtrex as requested. Patient A called the office back requesting both medications,  
21 but only received a prescription for Valtrex.

22 11. In an interview on or about October 6, 2017, Respondent indicated that he diagnosed  
23 Patient A with bipolar disorder by asking "one simple question: have you ever been depressed in  
24 the past?" Respondent explained that an individual's childhood ADD evolves into bipolar  
25 disorder if that individual was previously depressed, but now is no longer depressed. Respondent  
26 stated that his inquiry into Patient A's sex life was part of her history to determine bipolar  
27 disorder. Respondent indicated that Patient A complained of upper back pain during a review of

28 <sup>3</sup> Patient A had never previously been diagnosed with bipolar disorder.

1 symptoms, so he had her stand up to perform a breast examination. Respondent explained that he  
2 asked the patient if her breasts were heavy prior to conducting the breast examination, and she  
3 responded they were not. However, Respondent did not document any complaint of back pain in  
4 Patient A's medical notes. In fact, back pain was specifically noted as being absent in the review  
5 of systems section. Moreover, there was no mention in the notes that Respondent examined  
6 Patient A's breasts.

7 12. Respondent admitted that he failed to document the discussion about Patient A's  
8 complaint of back pain, as well as conducting a breast examination, as he was more focused on  
9 the bipolar disorder diagnosis and probably exhausted when he entered the notes. Additionally,  
10 there was no documentation for the detailed discussion regarding the patient's sex life.  
11 Respondent documented an extensive physical examination, including examining Patient A's  
12 ears, heart, lungs, range of motion, and reflex, despite not actually performing any such  
13 examination.

14 13. Respondent Nizar Isa Ibrahim, M.D., committed unprofessional conduct and is  
15 subject to disciplinary action under section 2234, subdivision (b), of the Code in that  
16 Respondent was grossly negligent in regards to Patient A, including but not limited to the  
17 following:

- 18 a) Respondent performed an unnecessary breast examination;
- 19 b) Respondent failed to have a chaperone present during the breast examination;
- 20 c) Respondent failed to document significant portions of the patient examination,  
21 including a discussion regarding sex life, complaint of back pain, and  
22 conducting a breast examination; and
- 23 d) Respondent documented a comprehensive physical examination that did not  
24 occur.
