10 **JURISDICTION**

this

11 4. First Amended Accusation No. 800-2017-037476 was filed before the Board, and is
12 currently pending against Respondent. The original Accusation and all other statutorily required

16 stipulation shall serve as Respondent's Notice of Defense pursuant to Government Code section
17 11506, subdivision (a)(4).

8 Accusation No. 800-2017-037476, if proven at a hearing, constitute cause for imposing discipline
9 upon his Physician's and Surgeon's Certificate.

10 10. Respondent agrees that, at an administrative hearing, Complainant could establish a
11 *prima facie* case or factual basis with respect to the charges and allegations in First Amended
12 Accusation, that he has thereby subjected his Physician's and Surgeon's Certificate, No. A 81356
13 to disciplinary action, and Respondent hereby gives up his right to contest those charges.

16 Disciplinary Order below.

17 RESERVATION

25 settlement, without notice to or participation by Respondent or his counsel. By signing the

 17 any Statement of Issues or any other proceeding seeking to deny or restrict license.

18 **F. ENFORCEMENT**

3. This First Amended Accusation is brought before the Board, under the authority of the following laws. All section references are to the Business and Professions Code (Code) unless otherwise indicated.

4. Section 2227 of the Code states:

(a) A licensee whose matter has been heard by an administrative law judge of the Medical Quality Hearing Panel as designated in Section 11371 of the Government Code, or whose default has been entered, and who is found guilty, or who has entered into a stipulation for disciplinary action with the board, may, in accordance with the provisions of this chapter:

- (5) Have any other action taken in relation to discipline as part of an order of probation, as the board or an administrative law judge may deem proper.

STATUTORY PROVISIONS

5. Section 2234 of the Code, states:

The board shall take action against any licensee who is charged with unprofessional conduct. In addition to other provisions of this article, unprofessional conduct includes, but is not limited to, the following:

- (a) Violating or attempting to violate, directly or indirectly, assisting in or abetting the violation of, or conspiring to violate any provision of this chapter.
- (b) Gross negligence.
- (c) Repeated negligent acts. To be repeated, there must be two or more

1 negligent acts or omissions. An initial negligent act or omission followed by
2 a separate and distinct departure from the applicable standard of care shall
3 constitute repeated negligent acts.

4 (1) An initial negligent diagnosis followed by an act or omission
5 medically appropriate for that negligent diagnosis of the patient shall
6 constitute a single negligent act.

7 (2) When the standard of care requires a change in the diagnosis, act,
8 or omission that constitutes the negligent act described in paragraph
9 (1), including, but not limited to, a reevaluation of the diagnosis or a
10 change in treatment, and the licensee's conduct departs from the
11 applicable standard of care, each departure constitutes a separate and
12 distinct breach of the standard of care.

13 (d) Incompetence.

14 (e) The commission of any act involving dishonesty or corruption which is
15 substantially related to the qualifications, functions, or duties of a physician and
16 surgeon.

17 (f) Any action or conduct which would have warranted the denial of a
18 certificate.

19 (g) The failure by a certificate holder, in the absence of good cause, to attend
20 and participate in an interview by the board. This subdivision shall only apply
21 to a certificate holder who is the subject of an investigation by the board.

22 6. Section 2266 of the Code states: "The failure of a physician and surgeon to maintain
23 adequate and accurate records relating to the provision of services to their patients constitutes
24 unprofessional conduct."

25 7. Section 725 of the Code states:

26 (a) Repeated acts of clearly excessive prescribing, furnishing, dispensing, or
27 administering of drugs or treatment, repeated acts of clearly excessive use of
28 diagnostic procedures, or repeated acts of clearly excessive use of diagnostic or
treatment facilities as determined by the standard of the community of licensees
is unprofessional conduct for a physician and surgeon, dentist, podiatrist,
psychologist, physical therapist, chiropractor, optometrist, speech-language
pathologist, or audiologist.

(b) Any person who engages in repeated acts of clearly excessive prescribing
or administering of drugs or treatment is guilty of a misdemeanor and shall be
punished by a fine of not less than one hundred dollars (\$100) nor more than
six hundred dollars (\$600), or by imprisonment for a term of not less than 60
days nor more than 180 days, or by both that fine and imprisonment.

(c) A practitioner who has a medical basis for prescribing, furnishing,
dispensing, or administering dangerous drugs or prescription controlled
substances shall not be subject to disciplinary action or prosecution under this
section.

///

1 (d) No physician and surgeon shall be subject to disciplinary action pursuant to
2 this section for treating intractable pain in compliance with Section 2241.5.

3 **DEFINITIONS**

4 8. Controlled Substance Utilization Review and Evaluation System 2.0 (CURES) is a
5 database of Schedule II, III, and IV controlled substance prescriptions dispensed in California
6 serving the public health, regulatory and oversight agencies, and law enforcement. CURES 2.0 is
7 committed to the reduction of prescription drug abuse and diversion without affecting legitimate
8 medical practice or patient care.

9 9. Morphine equivalent dose (MED) or Morphine milligram equivalents (MME) are
10 abbreviations used to evaluate the levels of opioids prescribed to a patient. The Centers for
11 Disease Control recommends avoiding or carefully justifying any dosage greater than 90
12 MED/day or MME/day.

13 10. Morphine sulfate, an opioid analgesic, is a Schedule II controlled substance pursuant
14 to Health and Safety Code section 11055, subdivision (e), and a dangerous drug pursuant to
15 Business and Professions Code section 4022. When properly prescribed and indicated, it is used
16 for the management of pain that is severe enough to require daily, around-the-clock, long-term
17 opioid treatment and for which alternative treatment options are inadequate. The Drug
18 Enforcement Administration (DEA) has identified morphine sulfate, as a drug of abuse. (Drugs
19 of Abuse, A DEA Resource Guide (2011 Edition), at p. 39.) The Federal Drug Administration
20 (FDA) has issued a black box warning for morphine sulfate which warns about, among other
21 things, addiction, abuse and misuse, and the possibility of life-threatening respiratory distress.
22 The warning also cautions about the risks associated with concomitant use of morphine sulfate
23 with benzodiazepines or other central nervous system (CNS) depressants.

24 11. Norco® is a combination of two medicines (acetaminophen and hydrocodone
25 bitartrate) used to treat moderate to severe pain. Hydrocodone is an opioid pain medication,
26 commonly referred to as a narcotic. Acetaminophen is a less potent pain reliever that increases
27 the effects of hydrocodone. Hydrocodone has a high potential for abuse. Hydrocodone is a
28 Schedule II controlled substance and narcotic as defined by section 11055, subdivision (b)(1) of

1 the Health and Safety Code, and a Schedule II controlled substance as defined by Section 1308.12
2 (b)(1) of Title 21 of the code of Federal Regulations and a dangerous drug as defined in Business
3 and Professions Code section 4022.

4 12. Seen on a prescription, b.i.d. means twice (two times) a day. It is an abbreviation for
5 "bis in die" which, in Latin, means twice a day. The abbreviation b.i.d. is sometimes written
6 without a period either in lower-case letters as "bid" or in capital letters as "BID."

7 FACTUAL ALLEGATIONS

8 13. Respondent was the primary care provider (PCP) for the patient¹ on or about 2007
9 through on or about July of 2017.² Respondent initially saw and treated the patient at Family
10 Health Care. In or about July of 2009, Respondent started seeing the patient in his private
11 practice in Porterville, California, where he provided care for her medical problems and chronic
12 pain. The patient was seen by Respondent in his office 49 times from on or about January 23,
13 2014 to on or about June 7, 2017, generally at monthly intervals, although occasionally as often
14 as thrice monthly.

15 Low Back Pain

16 14. Respondent treated the patient's complaint of lower back pain for a number of years,^{for}
17 predominantly with analgesics.

18 15. On or about July 20, 2009, Respondent performed a physical examination of and
19 began treating the patient's lower back. On or about August 22, 2013, the patient filled a
20 prescription from Respondent for Morphine Sulphate Extended Release (MS ER) 30 mg BID,
21 receiving 60 capsules for a 30-day supply. As of on or about January 23, 2014, Respondent was
22 still prescribing MS ER, at the same dose for the patient, as well as 30 Norco 7.5 mg/325 tablets
23 for her to take every 8-12 hours. Respondent continued prescribing these two analgesics, at these
24 doses, for the patient until on or about October 5, 2015.

25 16. On or about October 5, 2015, Respondent doubled the patient's daily dose of MS ER
26 from 30 mg BID to 60 mg BID. When the doubled MS ER prescription is combined with the

27 ¹ The patient's name is not utilized herein to protect her privacy.

28 ² Additional dates are included herein for background purposes. However, only the events
occurring from 2013, to and through 2017, are stated as support for the causes for discipline.

1 above Norco prescription it equates to an average of 127.5 MED/MME per day that Respondent
 2 was prescribing to the patient.

3 17. The only appreciable difference in the patient's pain history on or about October 5,
 4 2015, when compared to the previous 13 visits, was that the patient's back felt worse after rain
 5 the day before. Aside from that note, there is no indication of any other change in the patient's
 6 condition or exam findings. Respondent continued to prescribe MS ER, at the doubled dose,
 7 along with the above Norco prescription for the patient through on or about July 10, 2017.

8 18. Respondent failed to document the increase in daily dosage he ordered of MS ER
 9 from 30 mg BID to 60 mg BID he ordered for the patient, on or about October 5, 2015. Further,
 10 though the patient filled a prescription for 30 mg capsules of MS ER written by Respondent, on^{08/15}
 11 or about June 20, 2014, Respondent failed to document prescribing it for the patient on that date.
 12 However, Respondent documented MS ER at 30 mg to be taken BID as one of the patient's
 13 current medications in the visits both immediately before and after that date.

14 19. From on or about January 23, 2014, through on or about May 22, 2017, Respondent
 15 documented the patient's pain history in mostly identically worded descriptions from visit to visit,
 16 including impossibly and unvaryingly that "pain started 14 years ago."

17 20. The standard of care for medical record documentation is to document the history and
 18 exam findings that were elicited or demonstrated on the date of service. The standard of care is to
 19 keep accurate records of medications prescribed. Respondent's copying of prior history that
 20 could not have been accurately elicited from the patient into subsequent evaluations, manifest by
 21 the impossible unchanging duration of symptoms of several years' visits, accordingly constitutes
 22 negligence. Respondent's failure to document the MS ER prescription he wrote for the patient on^{08/15}
 23 or about June 20, 2014, accordingly constitutes negligence. Respondent's failure to record the^{08/15}
 24 increase in dosage of MS ER for the patient from 30 mg BID to 60 mg BID on or about October
 25 5, 2015, accordingly constitutes negligence.

1 **Controlled Substance Prescriptions**

2 21. As noted previously, on or about October 5, 2015, Respondent doubled the patient's
3 prescription MS ER from 30 mg BID to 60 mg BID, without indication for the increase other than
4 that the patient's back felt worse after rain the day before.

5 22. The standard of care for prescribing controlled substances for chronic pain is to
6 gradually increase the dose until the patient's functional goals are achieved, and to titrate off
7 these medications if their use does not show progress toward functional goals. It includes an
8 awareness of MED/MME levels at which toxicity and adverse effects of abuse, dependency, and
9 addiction rise, at which time pain management specialist consultation is prudent. At higher
10 MED/MME levels, the standard also includes limiting dose escalation or decreases to avoid
11 respiratory depression and death. Respondent's increasing the patient's daily dose of MS ER
12 merely based on the indication that the rain the day before made her pain worse accordingly
13 constitutes negligence. Respondent's doubling the patient's daily dose of MS ER from 30 mg
14 BID to 60 mg BID, rather than a lesser incremental increase, accordingly constitutes negligence.

15 **Abdominal Pain**

16 23. On or about May 9, 2017, the patient presented to Respondent with documented chief
17 complaints that included abdominal pain. Respondent entered approximately five lines of
18 pertinent related history of the character of the patient's abdominal pain. However, the only vital
19 sign obtained was the patient's blood pressure and no abdominal exam was performed.
20 Respondent had no differential diagnosis and merely diagnosed the patient with "Generalized
21 abdominal pain." Respondent failed to order any imaging or testing. Respondent's plan was
22 "Referral initiated to a general surgeon (Dr. []; for evaluation of severe Abdominal RUQ pain due
23 to Gallbladder sludge; to perform Laparoscopic Cholecystectomy)." This plan is identical to the
24 plan that Respondent entered in the patient's chart when he saw her on or about October 16, 2014,
25 subsequent to which the patient previously had a cholecystectomy performed (on or about
26 October 19, 2014).

27 24. The standard of care in evaluating abdominal pain is to take a history, perform a
28 physical exam, and order any adjunctive testing to arrive at the most probable cause from which

1 to determine treatment. Sufficient information must be gathered at the initial visit to assess if a
2 cause at risk of acute progression to disability or death might be present warranting emergent
3 testing in a hospital, rather than what can be accomplished in a timely manner as an outpatient.
4 Examination should include a temperature for infectious causes, a pulse and respiratory rate for
5 hemorrhagic and acid-base disorder causes, and an abdominal exam for significant tenderness,
6 guarding, or rebound that may indicate emergent surgical diseases like bowel obstruction,
7 perforated viscus, or ruptured aneurysm. A careful differential diagnosis should be formulated
8 and a determination made as to whether transfer to a higher level of care or more leisurely
9 outpatient workup is appropriate.

10 25. Respondent failed to: (1) obtain the patient's temperature, pulse, and respiratory
11 assessment; (2) conduct an abdominal exam; (3) order pertinent ancillary testing; (4) formulate a
12 specific diagnosis and differential diagnosis; and (4) formulate a plan according to the patient's
13 actual, physical condition. Respondent failed to adequately assess the patient to assure serious
14 cause risking death or disability was absent. These failures by Respondent accordingly constitute
15 negligence. Further, Respondent's failure to update the patient's past surgical history to reflect
16 the cholecystectomy that was performed years prior accordingly constitutes negligence.

17 **FIRST CAUSE FOR DISCIPLINE**

18 **(Repeated Negligent Acts)**

19 26. Respondent has subjected his Physician's and Surgeon's Certificate License No. A
20 81356 under section 2234, subdivision (c) of the Code, in that he committed repeated acts of
21 negligence. The factual circumstances set forth above relating to the patient in paragraphs 13
22 through 25 are hereby incorporated by reference as if set forth fully herein.

23 **SECOND CAUSE FOR DISCIPLINE**

24 **(Failure to Maintain Adequate and Accurate Medical Records)**

25 27. Respondent has subjected his Physician's and Surgeon's Certificate License No. A
26 81356 to disciplinary action under section 2266 of the Code, in that he failed to maintain adequate
27 and accurate records in connection with his care and treatment of the patient as more particularly

2 forth herein.
