

BEFORE THE
MEDICAL BOARD OF CALIFORNIA
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA

In the Matter of the Second Amended
Accusation Against:

Johnnie Alan Ham, M.D.

Physician's and Surgeon's
Certificate No. A 90443

Respondent.

Case No. 800-2019-056235

DECISION

The attached Stipulated Surrender of License and Order is hereby adopted as the Decision and Order of the Medical Board of California, Department of Consumer Affairs, State of California.

This Decision shall become effective at 5:00 p.m. on OCT 31 2023.

IT IS SO ORDERED SEP 28 2023.

Accusation Against:

18 **JOHNNIE ALAN HAM, M.D.**
19 **300 James Way Ste. 120**
Pismo Beach, CA 93449
20

21 **Physician's and Surgeon's Certificate**
No. A 90443
22

Respondent.

Case No. 800-2019-056235

OAH No. 2022090097

**STIPULATED SURRENDER OF
LICENSE AND ORDER**

23
24 IT IS HEREBY STIPULATED AND AGREED by and between the parties to the above-
25 entitled proceedings that the following matters are true:

26 **PARTIES**

27 1. Reji Varghese (Complainant) is the Executive Director of the Medical Board of
28 California (Board). He brought this action solely in his official capacity and is represented in this

1 matter by Rob Bonta, Attorney General of the State of California, by Giovanni Mejia and
2 Jonathan Nguyen, Deputy Attorneys General.

3 2. JOHNNIE ALAN HAM, M.D. (Respondent) is representing himself in this
4 proceeding and has chosen not to exercise his right to be represented by counsel.

5 3. On or about March 11, 2005, the Board issued Physician's and Surgeon's Certificate
6 No. A 90443 to JOHNNIE ALAN HAM, M.D. (Respondent). The Physician's and Surgeon's
7 Certificate was in full force and effect at all times relevant to the charges brought in Second
8 Amended Accusation No. 800-2019-056235 and will expire on August 31, 2024, unless renewed.

9 **JURISDICTION**

10 4. The Second Amended Accusation supersedes the Accusation filed on May 25, 2022
11 and the First Amended Accusation filed on July 8, 2022, in the above-entitled matter. The Second
12 Amended Accusation and all other statutorily required documents were properly served on
13 Respondent on March 2, 2023. Respondent filed a Notice of Defense contesting the Accusation.
14 A copy of Second Amended Accusation No. 800-2019-056235 is attached as Exhibit A and
15 incorporated by reference.

16 **ADVISEMENT AND WAIVERS**

17 5. Respondent has carefully read, and understands the charges and allegations in Second
18 Amended Accusation No. 800-2019-056235. Respondent also has carefully read, and understands
19 the effects of this Stipulated Surrender of License and Order.

20 6. Respondent is fully aware of his legal rights in this matter, including the right to a
21 hearing on the charges and allegations in the Second Amended Accusation; the right to be
22 represented by counsel, at his own expense; the right to confront and cross-examine the witnesses
23 against him; the right to present evidence and to testify on his own behalf; the right to the
24 issuance of subpoenas to compel the attendance of witnesses and the production of documents;
25 the right to reconsideration and court review of an adverse decision; and all other rights accorded
26 by the California Administrative Procedure Act and other applicable laws.

27 7. Respondent voluntarily, knowingly, and intelligently waives and gives up each and
28 every right set forth above.

1 **CULPABILITY**

2 8. Respondent admits the truth of each and every charge and allegation in Second
3 Amended Accusation No. 800-2019-056235, except for paragraphs 99 through 108, and 115
4 through 124, and the reference to "Patient D" in paragraph 110. As to paragraphs 99 through 108,
5 and 115 through 124, and the reference to "Patient D" in paragraph 110, of Second Amended
6 Accusation No. 800-2019-056235, Respondent does not contest that at an administrative hearing
7 Complainant could establish a prima facie case with respect to the charges and allegations
8 contained therein.

9 9. Respondent agrees that his Physician's and Surgeon's Certificate No. A 90443 is
10 subject to discipline and he hereby surrenders his Physician's and Surgeon's Certificate
11 No. A 90443 for the Board's formal acceptance.

12 10. Respondent further agrees that if he ever petitions for reinstatement of his Physician's
13 and Surgeon's Certificate No. A 90443, or if an accusation or petition to revoke probation is ever
14 filed against him before the Medical Board of California, all of the charges and allegations
15 contained in Second Amended Accusation No. 800-2019-056235 shall be deemed true, correct
16 and fully admitted by Respondent for purposes of any such proceeding, or any other licensing
17 proceeding involving Respondent in the State of California.

18 11. Respondent understands that by signing this stipulation he enables the Board to issue
19 an order accepting the surrender of his Physician's and Surgeon's Certificate without further
20 process.

21 **CONTINGENCY**

22 12. Business and Professions Code section 2224, subdivision (b), provides, in pertinent
23 part, that the Medical Board "shall delegate to its executive director the authority to adopt a . . .
24 stipulation for surrender of a license."

25 13. This Stipulated Surrender of License and Disciplinary Order shall be subject to
26 approval of the Executive Director on behalf of the Medical Board. The parties agree that this
27 Stipulated Surrender of License and Disciplinary Order shall be submitted to the Executive Director
28 for his consideration in the above-entitled matter and, further, that the Executive Director shall have

1 a reasonable period of time in which to consider and act on this Stipulated Surrender of License
2 and Disciplinary Order after receiving it. By signing this stipulation, Respondent fully understands
3 and agrees that he may not withdraw his agreement or seek to rescind this stipulation prior to the
4 time the Executive Director, on behalf of the Medical Board, considers and acts upon it.

5 14. The parties agree that this Stipulated Surrender of License and Disciplinary Order shall
6 be null and void and not binding upon the parties unless approved and adopted by the Executive
7 Director on behalf of the Board, except for this paragraph, which shall remain in full force and
8 effect. Respondent fully understands and agrees that in deciding whether or not to approve and
9 adopt this Stipulated Surrender of License and Disciplinary Order, the Executive Director and/or
10 the Board may receive oral and written communications from its staff and/or the Attorney General's
11 Office. Communications pursuant to this paragraph shall not disqualify the Executive Director, the
12 Board, any member thereof, and/or any other person from future participation in this or any other
13 matter affecting or involving Respondent. In the event that the Executive Director on behalf of the
14 Board does not, in his discretion, approve and adopt this Stipulated Surrender of License and
15 Disciplinary Order, with the exception of this paragraph, it shall not become effective, shall be of
16 no evidentiary value whatsoever, and shall not be relied upon or introduced in any disciplinary
17 action by either party hereto. Respondent further agrees that should this Stipulated Surrender of
18 License and Disciplinary Order be rejected for any reason by the Executive Director on behalf of
19 the Board, Respondent will assert no claim that the Executive Director, the Board, or any member
20 thereof, was prejudiced by its/his/her review, discussion and/or consideration of this Stipulated
21 Surrender of License and Disciplinary Order or of any matter or matters related hereto.

22 **ADDITIONAL PROVISIONS**

23 15. This Stipulated Surrender of License and Order is intended by the parties herein to be
24 an integrated writing representing the complete, final and exclusive embodiment of the
25 agreements of the parties in the above-entitled matter.

26 16. The parties understand and agree that Portable Document Format (PDF) and facsimile
27 copies of this Stipulated Surrender of License and Order, including PDF and facsimile signatures
28 thereto, shall have the same force and effect as the originals.

1 17. In consideration of the foregoing admissions and stipulations, the parties agree that
2 the Board may, without further notice or formal proceeding, issue and enter the following Order:

3 **ORDER**

4 IT IS HEREBY ORDERED that Physician's and Surgeon's Certificate No. A 90443, issued
5 to Respondent JOHNNIE ALAN HAM, M.D., is surrendered and accepted by the Board effective
6 October 31, 2023, or as soon thereafter as the Board shall order.

7 1. The surrender of Respondent's Physician's and Surgeon's Certificate and the
8 acceptance of the surrendered license by the Board shall constitute the imposition of discipline
9 against Respondent. This stipulation constitutes a record of the discipline and shall become a part
10 of Respondent's license history with the Board.

11 2. Respondent shall lose all rights and privileges as a Physician and Surgeon in
12 California as of the effective date of the Board's Decision and Order.

13 3. Respondent shall cause to be delivered to the Board his pocket license and, if one was
14 issued, his wall certificate on or before the effective date of the Decision and Order.

15 4. If Respondent ever files an application for licensure or a petition for reinstatement in
16 the State of California, the Board shall treat it as a petition for reinstatement. Respondent must
17 comply with all the laws, regulations and procedures for reinstatement of a revoked or
18 surrendered license in effect at the time the petition is filed, and all of the charges and allegations
19 contained in Second Amended Accusation No. 800-2019-056235 shall be deemed to be true,
20 correct and admitted by Respondent when the Board determines whether to grant or deny the
21 petition.

22 5. Respondent shall pay the agency its costs of investigation and enforcement in the
23 amount of \$106,249.75 prior to issuance of a new or reinstated license.

24 6. If Respondent should ever apply or reapply for a new license or certification, or
25 petition for reinstatement of a license, by any other health care licensing agency in the State of
26 California, all of the charges and allegations contained in Second Amended Accusation, No. 800-
27 2019-056235 shall be deemed to be true, correct, and admitted by Respondent for the purpose of
28 any proceeding seeking to deny or restrict licensure.

SECOND AMENDED ACCUSATION

23 **PARTIES**

24 1. Reji Varghese (Complainant) brings this Second Amended Accusation solely in his
25 official capacity as the Interim Executive Director of the Medical Board of California,
26 Department of Consumer Affairs (Board).

27 2. On or about March 11, 2005, the Medical Board issued Physician's and Surgeon's
28 Certificate No. A 90443 to Johnnie Alan Ham, M.D. (Respondent). The Physician's and

1 Surgeon's Certificate was in full force and effect at all times relevant to the charges brought
2 herein and will expire on August 31, 2024, unless renewed.

3 **JURISDICTION**

4 3. This Second Amended Accusation, which supersedes the First Amended Accusation
5 filed July 8, 2022 and the Accusation filed on May 25, 2022, is brought before the Board, under
6 the authority of the following laws. All section references are to the Business and Professions
7 Code (Code) unless otherwise indicated.

8 4. Section 2227, subdivision (a) of the Code states:

9 (a) A licensee whose matter has been heard by an administrative law judge of
10 the Medical Quality Hearing Panel as designated in Section 11371 of the Government
11 Code, or whose default has been entered, and who is found guilty, or who has entered
12 into a stipulation for disciplinary action with the board, may, in accordance with the
13 provisions of this chapter:

14 (1) Have his or her license revoked upon order of the board.

15 (2) Have his or her right to practice suspended for a period not to exceed one
16 year upon order of the board.

17 (3) Be placed on probation and be required to pay the costs of probation
18 monitoring upon order of the board.

19 (4) Be publicly reprimanded by the board. The public reprimand may include a
20 requirement that the licensee complete relevant educational courses approved by the
21 board.

22 (5) Have any other action taken in relation to discipline as part of an order of
23 probation, as the board or an administrative law judge may deem proper.

24 5. Section 2234 of the Code states, in pertinent part:

25 The board shall take action against any licensee who is charged with
26 unprofessional conduct. In addition to other provisions of this article, unprofessional
27 conduct includes, but is not limited to, the following:

28 ...

(b) Gross negligence.

(c) Repeated negligent acts. To be repeated, there must be two or more
negligent acts or omissions. An initial negligent act or omission followed by a
separate and distinct departure from the applicable standard of care shall constitute
repeated negligent acts.

///

///

1 (1) An initial negligent diagnosis followed by an act or omission medically
2 appropriate for that negligent diagnosis of the patient shall constitute a single
negligent act.

3 (2) When the standard of care requires a change in the diagnosis, act, or
4 omission that constitutes the negligent act described in paragraph (1), including, but
5 not limited to, a reevaluation of the diagnosis or a change in treatment, and the
licensee's conduct departs from the applicable standard of care, each departure
constitutes a separate and distinct breach of the standard of care.

6

7
8 6. Section 2266 of the Code states: The failure of a physician and surgeon to maintain
9 adequate and accurate records relating to the provision of services to their patients constitutes
10 unprofessional conduct.

11 COST RECOVERY

12 7. Section 125.3 of the Code states:

13 (a) Except as otherwise provided by law, in any order issued in resolution of a
14 disciplinary proceeding before any board within the department or before the
Osteopathic Medical Board, upon request of the entity bringing the proceeding, the
15 administrative law judge may direct a licensee found to have committed a violation or
violations of the licensing act to pay a sum not to exceed the reasonable costs of the
16 investigation and enforcement of the case.

17 (b) In the case of a disciplined licensee that is a corporation or a partnership, the
order may be made against the licensed corporate entity or licensed partnership.

18 (c) A certified copy of the actual costs, or a good faith estimate of costs where
19 actual costs are not available, signed by the entity bringing the proceeding or its
designated representative shall be prima facie evidence of reasonable costs of
20 investigation and prosecution of the case. The costs shall include the amount of
investigative and enforcement costs up to the date of the hearing, including, but not
21 limited to, charges imposed by the Attorney General.

22 (d) The administrative law judge shall make a proposed finding of the amount
of reasonable costs of investigation and prosecution of the case when requested
23 pursuant to subdivision (a). The finding of the administrative law judge with regard to
costs shall not be reviewable by the board to increase the cost award. The board may
24 reduce or eliminate the cost award, or remand to the administrative law judge if the
proposed decision fails to make a finding on costs requested pursuant to
25 subdivision (a).

26 (e) If an order for recovery of costs is made and timely payment is not made as
27 directed in the board's decision, the board may enforce the order for repayment in any
appropriate court. This right of enforcement shall be in addition to any other rights
the board may have as to any licensee to pay costs.

28 ///

1 (f) In any action for recovery of costs, proof of the board's decision shall be
2 conclusive proof of the validity of the order of payment and the terms for payment.

3 (g) (1) Except as provided in paragraph (2), the board shall not renew or
4 reinstate the license of any licensee who has failed to pay all of the costs ordered
5 under this section.

6 (2) Notwithstanding paragraph (1), the board may, in its discretion,
7 conditionally renew or reinstate for a maximum of one year the license of any
8 licensee who demonstrates financial hardship and who enters into a formal agreement
9 with the board to reimburse the board within that one-year period for the unpaid
10 costs.

11 (h) All costs recovered under this section shall be considered a reimbursement
12 for costs incurred and shall be deposited in the fund of the board recovering the costs
13 to be available upon appropriation by the Legislature.

14 (i) Nothing in this section shall preclude a board from including the recovery of
15 the costs of investigation and enforcement of a case in any stipulated settlement.

16 (j) This section does not apply to any board if a specific statutory provision in
17 that board's licensing act provides for recovery of costs in an administrative
18 disciplinary proceeding.

19 FIRST CAUSE FOR DISCIPLINE

20 (Gross Negligence)

21 8. Respondent has subjected his Physician's and Surgeon's Certificate No. A 90443 to
22 disciplinary action under sections 2227 and 2234, subdivision (b) of the Code, in that he
23 committed gross negligence in the course of his care and treatment of one or more patients. The
24 circumstances are as follows:

25 Patient A¹

26 9. On or about August 7, 2019, Respondent issued a "Medical Exemption for
27 Vaccination Requirements" letter for Patient A, an approximately seven-year-old minor at the
28 time.

///

///

///

¹ A pseudonym is used for any patient referenced herein to preserve patient confidentiality. The true name and identity of any patient referenced herein is known to Respondent or will be provided to him following Complainant's request of a duly-issued request for discovery pursuant to Government Code section 11507.6.

1 10. Respondent's "Medical Exemption for Vaccination Requirements" letter for
2 Patient A stated, among other things:

3 [Patient A] has recently been asked to document his vaccination status. Based
4 on a thorough evaluation of the patient's personal and family history, I have
5 determined that the physical condition or medical circumstances are such that any
6 further immunization, as specified here is not recommended and the child is therefore
7 permanently exempted....

8 [Patient A] has a valid medical reason not to vaccinate. The many reasons are
9 documented in the medical chart....

10 [Patient A] has documented genetic mutations in his family history to include
11 the methyl-tetrahydrofolate reductase (MTHFR) genes C677T and A1298C. This
12 pathway is essential to clearing damaging toxins from the individual and limiting any
13 damage they may cause. Some of these adverse reactions are specific to a particular
14 vaccine, while others may not be. Some of these predispositions may be detectable
15 prior to the administration of vaccine; others, at least with current technology and
16 practice, are not. Moreover, the occurrence of the adverse event is often the first sign
17 of the underlying condition that confers susceptibility. In light of statements by the
18 US Institute of Medicine that vaccination may reveal a susceptibility for the first time,
19 **I am granting a medical exemption.** As such, [Patient A] does not need to receive
20 and is permanently exempted from the DTaP,^[2] Tdap,^[3] MMR,^[4] IPV,^[5] Varicella,
21 Influenza, Hepatitis A, Hib,^[6] PCV,^[7] HPV,^[8] and Hepatitis B, and any other vaccines
22 that may become mandatory.

23 (Bolding and underscoring in original.)

24 11. Respondent's medical chart for Patient A includes a progress note dated January 20,
25 2019.

26 12. In the progress note for Patient A dated January 20, 2019, Respondent documented
27 multiple purported bases for exempting Patient A from vaccination or immunization including,
28 but not limited to, the following:

(a) Patient A's mother accompanying him to the appointment stated that she had a
history of "common variable immunodeficiency or CVID";

(b) "Possible yeast hypersensitivity" and a "related sibling[']s...hypersensitivity to
yeast";

² DTaP is an abbreviation for diphtheria, tetanus and acellular pertussis vaccine.

³ Tdap is an abbreviation for tetanus, diphtheria and pertussis vaccine.

⁴ MMR is an abbreviation for measles, mumps, and rubella vaccine.

⁵ IPV is an abbreviation for inactivated polio vaccine.

⁶ Hib is an abbreviation for haemophilus influenzae type b vaccine.

⁷ PCV is an abbreviation for pneumococcal conjugate vaccine.

⁸ HPV is an abbreviation for human papillomavirus.

1 (c) A related sibling's history of, "prolonged seizures that cannot be attributed to
2 another identifiable cause, which would constitute at least a mild encephalopathy" within
3 seven days of receiving a first-dose DTaP immunization;

4 (d) A related sibling's history of "severe allergic reaction, requiring respiratory
5 support, demonstrating anaphylaxis..." after a "hepatitis B injection";

6 (e) "...most individuals who experience an adverse reaction to vaccines have a
7 preexisting susceptibility" and "the occurrence of the adverse event is often the first sign of
8 the underlying condition that confers susceptibility";

9 (f) "MSG acts as a stabilizer in vaccines" and "[g]iven the impact MSG has on the
10 brain and...that it can have a variety of side effects when eaten, it is hard to understand how
11 MSG can be deemed safe to inject..."; and

12 (g) "...vaccines injure and kill – they are neither medically safe nor healthy."

13 13. Medical records maintained by at least one other medical provider to Patient A in or
14 around 2015 to 2021 documented that Patient A resided with foster parents and was not in his
15 biological parents' custody.

16 14. In his medical chart for Patient A, Respondent failed to document an adequate basis
17 for a yeast hypersensitivity diagnosis for Patient A, or any sibling.

18 15. In or around 2019, yeast hypersensitivity did not constitute a valid medical basis for a
19 blanket permanent medical exemption to vaccination and immunization requirements.

20 16. Respondent's medical chart for Patient A failed to include documentation validating
21 any past adverse event after administration of a DTaP immunization to any sibling of Patient A.

22 17. In or around 2019, familial history of an adverse event after DTaP immunization was
23 not a contraindication to DTaP immunization.

24 18. Respondent's medical chart for Patient A failed to include documentation validating a
25 history of anaphylaxis after administration of a hepatitis B immunization to any sibling of
26 Patient A.

27 19. In or around 2019, a sibling's history of anaphylaxis following administration of a
28 hepatitis B immunization was not a contraindication to hepatitis B immunization.

1 practice, are not. Moreover, the occurrence of the adverse event is often the first sign
2 of the underlying condition that confers susceptibility. In light of statements by the
3 US Institute of Medicine that vaccination may reveal a susceptibility for the first time,
4 **I am granting a medical exemption.** As such, [Patient B] does not need to receive
and is permanently exempted from the DTaP, Tdap, MMR, IPV, Varicella, Influenza,
Hepatitis A, Hib, PCV, HPV, and Hepatitis B, and any other vaccines that may
become mandatory.

5 (Bolding and underscoring in original.)

6 27. Respondent's medical chart for Patient B includes a progress note dated January 20,
7 2019.

8 28. In the progress note for Patient B dated January 20, 2019, Respondent documented
9 multiple purported bases for exempting Patient B from vaccination or immunization including,
10 but not limited to, the following:

11 (a) Patient B's mother accompanying Patient B to the appointment stated that
12 she (the mother) had a history of "common variable immunodeficiency or CVID";

13 (b) "Possible yeast hypersensitivity" and a "related sibling[‘s]...hypersensitivity to
14 yeast";

15 (c) A related sibling's history of, "prolonged seizures that cannot be attributed to
16 another identifiable cause, which would constitute at least a mild encephalopathy" within
17 seven days of receiving a first-dose DTaP immunization;

18 (d) A related sibling's history of "severe allergic reaction, requiring respiratory
19 support, demonstrating anaphylaxis..." after a "hepatitis B injection";

20 (e) "...most individuals who experience an adverse reaction to vaccines have a
21 preexisting susceptibility" and "the occurrence of the adverse event is often the first sign of
22 the underlying condition that confers susceptibility";

23 (f) "MSG acts as a stabilizer in vaccines" and "[g]iven the impact MSG has on the
24 brain and...that it can have a variety of side effects when eaten, it is hard to understand how
25 MSG can be deemed safe to inject..."; and

26 (g) "...vaccines injure and kill – they are neither medically safe nor healthy."

27 ///

28 ///

1 29. Medical records maintained by at least one other medical provider to Patient B in or
2 around 2015 to 2021 documented that Patient B resided with foster parents and was not in her
3 biological parents' custody.

4 30. Medical records maintained by at least one other medical provider to Patient B in or
5 around 2010 to 2021 document that the patient had received multiple immunizations before or
6 after her appointment with Respondent including, but not limited to, the following:

7 (a) Hib immunizations on or about April 19, 2010, December 2, 2010, May 24,
8 2011, and November 29, 2011;

9 (b) DTaP immunizations on or about January 19, 2010, July 29, 2010, May 21,
10 2010, and May 24, 2011;

11 (c) IPV immunizations on or about January 19, 2010, May 24, 2011, and June 30,
12 2021;

13 (d) Pneumococcal immunizations on or about April 19, 2010, August 23, 2010,
14 December 2, 2010, and September 29, 2011;

15 (e) Hepatitis B immunizations on or about May 24, 2011, June 30, 2021, and
16 September 2, 2021;

17 (f) An MMR immunization on or about August 2, 2021;

18 (g) A Tdap immunization on or about April 9, 2021; and

19 (h) Varicella immunizations on or about May 27, 2021 and October 7, 2021.

20 31. In his medical chart for Patient B, Respondent failed to document an adequate basis
21 for a yeast hypersensitivity diagnosis for Patient B, or any sibling.

22 32. In or around 2019, yeast hypersensitivity did not constitute a valid medical basis for a
23 blanket permanent medical exemption to vaccination and immunization requirements.

24 33. Respondent's medical chart for Patient B failed to include documentation validating
25 any past adverse event after administration of a DTaP immunization to any sibling of Patient B.

26 34. In or around 2019, family history of an adverse event after DTaP immunization was
27 not a contraindication to DTaP immunization.

28 ///

1 35. Respondent's medical chart for Patient B failed to include documentation validating a
2 history of anaphylaxis after administration of a hepatitis B immunization to any sibling of
3 Patient B.

4 36. In or around 2019, a sibling's history of anaphylaxis following administration of a
5 hepatitis B immunization was not a contraindication to hepatitis B immunization.

6 37. In all, Respondent's medical chart for Patient B failed to establish a valid medical
7 basis for a permanent blanket exemption to vaccination and immunization requirements.

8 38. Although referenced in Respondent's "Medical Exemption for Vaccination
9 Requirements" letter for Patient B dated August 7, 2019, Respondent's medical chart for
10 Patient B failed to document any MTHFR gene mutation.

11 39. In or around 2019, a history of C6777T or A1298C variants of the MTHFR gene,
12 either personally or familial, did not constitute a contraindication to vaccination or immunization.

13 40. Respondent committed gross negligence in the course of his care and treatment of
14 Patient B by improperly issuing the patient a permanent blanket exemption to vaccination and
15 immunization requirements based, in whole or in part, on the rationales stated in Respondent's
16 medical chart for the patient.

17 41. Respondent committed gross negligence in the course of his care and treatment of
18 Patient B by issuing the patient an exemption to vaccination and immunization requirements
19 based, in whole or in part, on any purported C677T or A1298C variants of the MTHFR gene.

20 Patient C

21 42. On or about August 7, 2019, Respondent issued a "Medical Exemption for
22 Vaccination Requirements" letter for Patient C, a sibling of Patient A and Patient B, and an
23 approximately 12-year-old minor at the time.

24 43. Respondent's "Medical Exemption for Vaccination Requirements" letter for Patient C
25 stated, among other things:

26 [Patient C] has recently been asked to document his vaccination status. Based
27 on a thorough evaluation of the patient's personal and family history, I have
28 determined that the physical condition or medical circumstances are such that any
further immunization, as specified here, is not recommended and the child is therefore
permanently exempted....

1 [Patient C] has a valid medical reason not to vaccinate. The many reasons are
2 documented in the medical chart....

3 [Patient C] has documented genetic mutations in his family history to include
4 the methyl-tetrahydrofolate reductase (MTHFR) genes C677T and A 1298C. This
5 pathway is essential to clearing damaging toxins from the individual and limiting any
6 damage they may cause. Some of these adverse reactions are specific to a particular
7 vaccine, while others may not be. Some of these predispositions may be detectable
8 prior to the administration of vaccine; others, at least with current technology and
9 practice, are not. Moreover, the occurrence of the adverse event is often the first sign
10 of the underlying condition that confers susceptibility. In light of statements by the
11 US Institute of Medicine that vaccination may reveal a susceptibility for the first time,
12 **I am granting a medical exemption.** As such, [Patient C] does not need to receive
13 and is permanently exempted from the DTaP, Tdap, MMR, IPV, Varicella, Influenza,
14 Hepatitis A, Hib, PCV, HPV, and Hepatitis B, and any other vaccines that may
15 become mandatory.

16 (Bolding and underscoring in original.)

17 44. Respondent's medical chart for Patient C includes a progress note dated January 20,
18 2019.

19 45. In the progress note for Patient C dated January 20, 2019, Respondent documented
20 multiple purported bases for exempting Patient C from immunization including, but not limited
21 to, the following:

22 (a) Patient C's mother accompanying him to the appointment stated that she had a
23 history of "common variable immunodeficiency or CVID"

24 (b) "[T]he mother states the child has a hypersensitivity to yeast, by breaking out in
25 rashes with yeast containing products[]";

26 (c) "[A]fter receiving the first dose of the DTaP, the child developed within seven
27 days prolonged seizures that that cannot be attributed to another identifiable cause, which
28 would constitute at least a mild encephalopathy[]";

(d) "[T]he child was initially given hepatitis B injection and developed a severe
allergic reaction, requiring respiratory support, demonstrating anaphylaxis to one of the
components";

(e) "...most individuals who experience an adverse reaction to vaccines have a
preexisting susceptibility" and "the occurrence of the adverse event is often the first sign of
the underlying condition that confers susceptibility";

1 (f) "MSG acts as a stabilizer in vaccines" and "[g]iven the impact MSG has on the
2 brain and...that it can have a variety of side effects when eaten, it is hard to understand how
3 MSG can be deemed safe to inject..."; and

4 (g) "...vaccines injure and kill – they are neither medically safe nor healthy."

5 46. Medical records maintained by at least one other medical provider to Patient C in or
6 around 2015 to 2021 documented that Patient C resided with foster parents and was not in his
7 biological parents' custody.

8 47. In his medical chart for Patient C, Respondent failed to document an adequate basis
9 for a yeast hypersensitivity diagnosis for the patient.

10 48. In or around 2019, yeast hypersensitivity did not constitute a valid medical basis for a
11 blanket permanent medical exemption to vaccination and immunization requirements.

12 49. Respondent's medical chart for Patient C failed to include documentation validating
13 any past adverse event after administration of a DTaP immunization to Patient C.

14 50. Medical records maintained by at least one other medical provider to Patient C in or
15 around 2010 to 2021 document the administration of multiple DTaP immunizations to the patient
16 prior to the appointment with Respondent including, but not limited to, on or about December 7,
17 2006, February 23, 2007, May 4, 2007, and May 24, 2011.

18 51. In or around 2019, an adverse event after DTaP immunization did not constitute a
19 valid medical basis for a permanent blanket exemption to vaccination and immunization
20 requirements.

21 52. Respondent's medical chart for Patient C failed to include documentation validating a
22 history of anaphylaxis after administration of a hepatitis B immunization to Patient C.

23 53. Medical records maintained by at least one other medical provider to Patient C in or
24 around 2010 to 2021 document the administration of multiple hepatitis B immunizations prior to
25 the appointment with Respondent including, but not limited to, on or about October 31, 2006,
26 December 7, 2006, and May 4, 2007.

27 ///

28 ///

1 54. In or around 2019, a history of an adverse event following administration of a
2 hepatitis B immunization did not constitute a valid medical basis for a permanent blanket
3 exemption to vaccination and immunization requirements.

4 55. Medical records maintained by at least one other medical provider to Patient C in or
5 around 2010 to 2021 document that the patient had received multiple other immunizations, in
6 addition to DTaP and hepatitis B immunizations, before and after his appointment with
7 Respondent including, but not limited to:

- 8 (a) Hib immunizations on or about December 7, 2006, February 23, 2007, May 4,
9 2007, and February 20, 2008;
- 10 (b) IPV immunizations on or about December 7, 2006, February 23, 2007, May 4,
11 2007, and November 14, 2007;
- 12 (c) Pneumococcal immunizations on or about May 4, 2007 and February 20, 2008;
- 13 (d) MMR immunizations on or about November 14, 2007 and May 24, 2011;
- 14 (e) Varicella immunizations on or about November 14, 2007 and May 21, 2008;
- 15 (f) Hepatitis A immunizations on or about November 14, 2007 and May 21, 2008;
- 16 and
- 17 (g) A Tdap immunization on or about April 23, 2021.

18 56. In all, Respondent's medical chart for Patient C failed to establish a valid medical
19 basis for a permanent blanket exemption to vaccination and immunization requirements.

20 57. Although referenced in Respondent's "Medical Exemption for Vaccination
21 Requirements" letter for Patient C dated August 7, 2019, Respondent's medical chart for
22 Patient C failed to document any MTHFR gene mutation.

23 58. In or around 2019, a history of C6777T or A1298C variants of the MTHFR gene,
24 either personally or familial, did not constitute a contraindication to vaccination or immunization.

25 59. Respondent committed gross negligence in the course of his care and treatment of
26 Patient C by improperly issuing the patient a permanent blanket exemption to vaccination and
27 immunization requirements based, in whole or in part, on the rationales stated in Respondent's
28 medical chart for the patient.

1 (d) "...most individuals who experience an adverse reaction to vaccines have a
2 preexisting susceptibility" and "the occurrence of the adverse event is often the first sign of
3 the underlying condition that confers susceptibility[]";

4 (e) The purported existence or family history of at least one of the following:
5 "previous vaccine reaction, eczema, food and environmental allergies, asthma, gut issues
6 such as Crohn's and IBS, autoimmune disease such as diabetes, lupus, MS, rheumatoid
7 arthritis, ASIA, and others, chronic ear, sinus strep or other infections, Lyme disease,
8 PANDAS, POTS, learning disabilities, speech delay, ADD, ADHD, autism, seizures,
9 bipolar, schizophrenia, thrombocytopenia, genetic variance, impaired methylation,
10 detoxification impairment, and more[]";

11 (f) "...vaccination is a medical procedure that could reasonably be termed as
12 experimental each time it is performed on a healthy individual[]";

13 (g) "It is recognized that the ACIP/CDC contraindications represent the usual
14 national standard of care for exemptions from vaccines, and the associated precautions
15 which should be considered. However, as of 30Jun2015, when Senate Bill 277 was signed
16 into law, the authority of physicians was expanded to allow for family history and
17 judgement of the individual practitioner as to safety of vaccines, for each individual
18 child[]"; and

19 (h) "...vaccines injure and kill – they are neither medically safe nor healthy."

20 65. In his medical chart for Patient H, Respondent failed to document an adequate basis
21 for a yeast hypersensitivity diagnosis for the patient.

22 66. In or around 2017, yeast hypersensitivity did not constitute a valid medical basis for a
23 blanket permanent medical exemption to vaccination and immunization requirements.

24 67. In his medical chart for Patient H, Respondent failed to adequately document a true
25 diagnosed immunodeficiency in Patient H, or any family member of Patient H.

26 68. In or around 2017, a family history of altered immune competence, absent a medical
27 work up to determine whether the patient has a hereditary immune deficiency, did not constitute a

28 ///

1 valid medical basis for a blanket permanent medical exemption to vaccination and immunization
2 requirements.

3 69. In or around 2017, a family history of an adverse event after DTP or DTaP
4 immunization did not constitute a valid medical basis for exemption from either immunization.

5 70. In or around 2017, a family history of seizures did not constitute a valid medical basis
6 for a blanket permanent medical exemption to vaccination and immunization requirements.

7 71. In all, Respondent's medical chart for Patient H failed to establish a valid medical
8 basis for a permanent blanket exemption to vaccination and immunization requirements.

9 72. Respondent committed gross negligence in the course of his care and treatment of
10 Patient H by improperly issuing the patient a permanent blanket exemption to vaccination and
11 immunization requirements.

12 Patient J

13 73. On or about April 8, 2017, Respondent issued a "Medical Exemption for Vaccination
14 Requirements" letter for Patient J, an approximately 9-year-old minor at the time, and a sibling of
15 Patient H.

16 74. Respondent's "Medical Exemption for Vaccination Requirements" letter for Patient J
17 stated, among other things:

18 [Patient J] has recently been asked to document her vaccination status. The
19 parents have considered the risks and benefits of vaccination, and decided with
20 appropriate medical counseling that further vaccination of [Patient J] is to be
exempted.

21 [Patient J] has a medical reason not to vaccinate. In accordance with
22 HIPPA [sic], and patient privacy, this reason does not need to be revealed, but rather,
23 only a statement from his physician. As such, she does not need to receive and is
permanently exempted from the DTaP, MMR, IPV, Varicella, Influenza, Hepatitis A,
Hib, PCV, HPV, and Hepatitis B, and any other vaccines that may become
mandatory.

24 [Patient J's] mother and father... have received the appropriate counseling for
25 informed consent.

26 75. Respondent's medical chart for Patient J includes a progress note dated April 8, 2017.

27 ///

28 ///

1 76. In the progress note for Patient J dated April 8, 2017, Respondent documented
2 multiple purported bases for exempting Patient J from immunization including, but not limited to,
3 the following:

4 (a) “No past medical history to date, other than yeast hypersensitivity...At 2 years
5 of age she developed severe reactions to flea [sic] and spider bites including localized
6 swelling and hives requiring prednisone to be given for control[]”;

7 (b) A family history including, but not limited to, “[a]utoimmune disease” and a
8 “strong family history of vaccine reactions” in “1st and 2nd degree relatives...”;

9 (c) The patient’s mother, at “...5 years of age, after receiving polio and DPT
10 vaccines,...developed epilepsy which had to be medicated until about 12 years of age[];

11 (d) “The mother states that she suffers from common variable immunodeficiency
12 or CVID[]”;

13 (e) “...most individuals who experience an adverse reaction to vaccines have a
14 preexisting susceptibility” and “the occurrence of the adverse event is often the first sign of
15 the underlying condition that confers susceptibility[]”;

16 (f) The purported existence or family history of at least one of the following:
17 “previous vaccine reaction, eczema, food and environmental allergies, asthma, gut issues
18 such as Crohn’s and IBS, autoimmune disease such as diabetes, lupus, MS, rheumatoid
19 arthritis, ASIA, and others, chronic ear, sinus strep or other infections, Lyme disease,
20 PANDAS, POTS, learning disabilities, speech delay, ADD, ADHD, autism, seizures,
21 bipolar, schizophrenia, thrombocytopenia, genetic variance, impaired methylation,
22 detoxification impairment, and more[]”;

23 (g) “...vaccination is a medical procedure that could reasonably be termed as
24 experimental each time it is performed on a healthy individual[]”;

25 (h) “It is recognized that the ACIP/CDC contraindications represent the usual
26 national standard of care for exemptions from vaccines, and the associated precautions
27 which should be considered. However, as of 30Jun2015, when Senate Bill 277 was signed
28 into law, the authority of physicians was expanded to allow for family history and

1 judgement of the individual practitioner as to safety of vaccines, for each individual
2 child[]”; and

3 (i) “...vaccines injure and kill – they are neither medically safe nor healthy.”

4 77. In his medical chart for Patient J, Respondent failed to document an adequate basis
5 for a yeast hypersensitivity diagnosis for the patient.

6 78. In or around 2017, yeast hypersensitivity did not constitute a valid medical basis for a
7 blanket permanent medical exemption to vaccination and immunization requirements.

8 79. In his medical chart for Patient J, Respondent failed to adequately document a true
9 diagnosed immunodeficiency in Patient J, or any family member of Patient J.

10 80. In or around 2017, a family history of altered immune competence, absent a medical
11 work up to determine whether the patient has a hereditary immune deficiency, did not constitute a
12 valid medical basis for a blanket permanent medical exemption to vaccination and immunization
13 requirements.

14 81. In his medical chart for Patient J, the personal health history form for Patient J’s
15 mother fails to document any history of CVID.

16 82. In or around 2017, a family history of CVID in a patient’s mother did not constitute a
17 valid medical basis for a blanket permanent medical exemption to vaccination and immunization
18 requirements.

19 83. In or around 2017, a family history of an adverse event after DTP or DTaP
20 immunization did not constitute a valid medical basis for exemption from either immunization.

21 84. In or around 2017, a family history of seizures did not constitute a valid medical basis
22 for a blanket permanent medical exemption to vaccination and immunization requirements.

23 85. In all, Respondent’s medical chart for Patient J failed to establish a valid medical
24 basis for a permanent blanket exemption to vaccination and immunization requirements.

25 86. Respondent committed gross negligence in the course of his care and treatment of
26 Patient J by improperly issuing the patient a permanent blanket exemption to vaccination and
27 immunization requirements.

28 ///

1 **Patient K, Patient L, Patient M and Patient O**

2 87. On or about May 6, 2017, Respondent issued "Medical Exemption for Vaccination
3 Requirements" letters for four minor, sibling patients: Patient K, Patient L, Patient M and
4 Patient O. At the time, Patient K was approximately 7 years old, Patient L was approximately 5
5 years old, Patient M was approximately 3 years old, and Patient O was approximately ten months
6 old.

7 88. Aside from patient names and gendered pronouns, the "Medical Exemption for
8 Vaccination Requirements" letters for Patient K, Patient L, Patient M and Patient O were mostly,
9 or completely, identical and stated, among other things:

10 [The patient] has recently been asked to document [her/his] vaccination status.
11 The parents have considered the risks and benefits of vaccination, and decided with
12 appropriate medical counseling that further vaccination of [the patient] is to be
13 exempted.

14 [The patient] has a medical reason not to vaccinate. In accordance with
15 HIPPA [sic], and patient privacy, this reason does not need to be revealed, but rather,
16 only a statement from [her/his] physician. As such, [she/he] does not need to receive
17 and is permanently exempted from the DTaP, MMR, IPV, Varicella, Influenza,
18 Hepatitis A, Hib, PCV, HPV, and Hepatitis B, and any other vaccines that may
19 become mandatory.

20 [The patient's] mother...has received the appropriate counseling for informed
21 consent.

22 89. Respondent's medical charts for Patient K, Patient L, Patient M and Patient O each
23 include a progress note dated May 6, 2017.

24 90. In each of the progress notes for Patient K, Patient L, Patient M and Patient O dated
25 May 6, 2017, Respondent documented a purported adverse reaction to an MMR immunization
26 reported by the patients' mother:

27 Mother: received some vaccines. After her first MMR vaccine, within the first
28 48 hours she developed progressively worse symptoms, starting within a couple hours
and developing into a severe reaction, which left her partially paralyzed (then
paresis), and then took a couple years to resolve. After that nightmare episode, her
parents elected not to continue with further vaccinations, and the problem never
returned. This significant family history in a first-degree relative, the parent, has been
the cause of the parents' extreme concern over a possible genetic connection and thus
has not been worth the risk. Since there was no subsequent identifiable source of her
issue, and her symptoms were on the side she received the injection, and timing was
related coincidentally with the administration of the MMR vaccine, there exists a
strong possibility that her symptoms occurred due to the vaccine.

1 Though likely her children may not have a similar reaction, I cannot
2 completely exclude that possibility, and so together with the parents, weighed the
3 possible risks and benefits, and I was unable to assure the parents that a similar
4 reaction would not occur with her children. Hence, I have decided to err of [sic] the
5 side of caution and grant a medical exemption against all vaccines....

6 91. In each of the progress notes for Patient K, Patient L, Patient M and Patient O dated
7 May 6, 2017, Respondent documented multiple additional purported bases for exempting the
8 patients from immunization including, but not limited to:

9 (a) “In 1st and 2nd degree relatives there is a strong family history of food and
10 environmental allergies[]”;

11 (b) “...most individuals who experience an adverse reaction to vaccines have a
12 preexisting susceptibility” and “the occurrence of the adverse event is often the first sign of
13 the underlying condition that confers susceptibility”;

14 (c) “...vaccination is a medical procedure that could reasonably be termed as
15 experimental each time it is performed on a healthy individual[]”;

16 (d) “It is recognized that the ACIP/CDC contraindications represent the usual
17 national standard of care for exemptions from vaccines, and the associated precautions
18 which should be considered. However, as of 30Jun2015, when Senate Bill 277 was signed
19 into law, the authority of physicians was expanded to allow for family history and
20 judgement of the individual practitioner as to safety of vaccines, for each individual
21 child[]”; and

22 (e) “...vaccines injure and kill – they are neither medically safe nor healthy.”

23 92. In or around 2017, a family history of altered immune competence, absent a medical
24 work up to determine whether the patient has a hereditary immune deficiency, did not constitute a
25 valid medical basis for a blanket permanent medical exemption to vaccination and immunization
26 requirements.

27 93. In or around 2017, a history of non-specific allergies or a family history of allergies to
28 a vaccine component did not constitute a valid medical basis for a blanket permanent medical
29 exemption to vaccination and immunization requirements.

///

1 current medications as thyroxine 11 mcg,¹⁰ acetaminophen-hydrocodone 325 mg/10mg,¹¹
2 "Malid?" 75/50.5 daily, tramadol 50mg,¹² oxybutynin 19 mg,¹³ temazepam 30 mg,¹⁴ and Celexa
3 40 mg.¹⁵ Respondent ordered Patient D to continue use of all of her medications except Tramadol.

4 102. Patient D continued to see Respondent a few times a year every year until her death in
5 2020. Throughout Respondent's care and treatment of Patient D, Respondent continued to
6 prescribe acetaminophen-hydrocodone 325mg/10mg, temazepam 30 mg, and Celexa 40 mg.

7 103. Each of Respondent's notes for Patient D lists acetaminophen-
8 hydrocodone 325mg/10mg for lower back pain, but lacks any follow up notes as to the intensity
9 of the pain or whether the medication helped to alleviate the pain.

10 104. Respondent's notes fail to document any discussion with Patient D regarding the
11 potentially lethal consequences of taking temazepam, a benzodiazepine, and acetaminophen-
12 hydrocodone, an opioid, such as sedation or respiratory depression. During each of Respondent's
13 visits with Patient D, he failed to consider ongoing treatments plans for continued opioid use and
14 he failed to discuss risks of long term opioid use with Patient D.

15 105. In and around 2015, Respondent prescribed Bunavail¹⁶ buccal film to Patient D.
16 Respondent's notes lack any mention of an opioid addiction by Patient D.

17 ///

18
19 ¹⁰ Thyroxine, also known as T4, is a thyroid hormone.

20 ¹¹ Hydrocodone is a Schedule III controlled substance pursuant to Health and Safety Code
section 11056, subdivision (e), and a dangerous drug pursuant to Business and Professions Code
section 4022.

21 ¹² Tramadol is a Schedule IV controlled substance pursuant to the Code of Federal
Regulations, title 21, section 1308.14(b)(3), and a dangerous drug pursuant to Business and
22 Professions Code section 4022.

23 ¹³ Oxybutinin is a non-controlled-substance medication commonly used to treat overactive
bladder.

24 ¹⁴ Temazepam is a Schedule IV controlled substance pursuant to Health and Safety Code
section 11057, subdivision (d), and a dangerous drug pursuant to Business and Professions Code
section 4022.

25 ¹⁵ Celexa is a brand name for citalopram, a non-controlled-substance selective serotonin
reuptake inhibitor (SSRI) commonly used to treat depression.

26 ¹⁶ Bunavail is a combination of buprenorphine and naloxone. Buprenorphine is a Schedule
III controlled substance pursuant to Health and Safety Code section 11056, subdivision (d), and a
27 dangerous drug pursuant to Business and Professions Code section 4022. It is an opioid
medication, sometimes called a narcotic. Naloxone blocks the effects of opioid medication,
28 including pain relief or feelings of well-being that can lead to opioid abuse. Bunavail buccal films
are used to treat opioid addiction. Bunavail is not for use as a pain medication.

1 113. Respondent further committed one or more additional negligent acts in the course of
2 his care and treatment of Patient M including, but not limited to, medically exempting the patient
3 from the MMR vaccine.

4 114. Respondent further committed one or more additional negligent acts in the course of
5 his care and treatment of Patient O including, but not limited to, medically exempting the patient
6 from the MMR vaccine.

7 115. Respondent committed one or more additional negligent acts in the course of his care
8 and treatment of Patient D including, but not limited to, failing to exercise adequate consideration
9 for Patient D's treatment plans for continued opioid use, and failing to adequately discuss and
10 document the risks of long-term opioid use for Patient D.

11 **Patient E**

12 116. On multiple occasions in or around 2018 to March 2021, Respondent issued to
13 Patient E, an adult patient, a prescription for compounded estrogen or testosterone for the purpose
14 of hormone replacement therapy.

15 117. In or around 2018 to December 2020, Respondent failed to adequately document the
16 risks of estrogen and testosterone treatment to Patient E, and any discussion of such risks with
17 Patient E.

18 118. Respondent committed negligence in the course of his care and treatment of Patient E
19 by failing to adequately document the risks associated with estrogen and testosterone treatment to
20 Patient E.

21 **Patient F**

22 119. In or around 2018 to April 2021, Respondent rendered topical and injected
23 testosterone treatment to Patient F, an adult patient, including, but not limited to, the issuance of
24 testosterone prescriptions on multiple occasions.

25 120. Respondent failed to adequately document the risks of testosterone treatment to
26 Patient F, and any discussion of such risks with Patient F.

27 121. Respondent committed negligence in the course of his care and treatment of Patient F
28 by failing to adequately document the risks associated with testosterone treatment to Patient F.

1 **Patient G**

2 122. In or around February 2019, Respondent prescribed alprazolam¹⁷ to Patient G, an
3 adult patient.

4 123. In his medical records for Patient G, Respondent failed to document an exam,
5 diagnosis, or discussion regarding alprazolam use with Patient G.

6 124. Respondent committed negligence in the course of his care and treatment of Patient G
7 by failing to maintain adequate documentation for the alprazolam prescription Respondent issued
8 to Patient G.

9 **THIRD CAUSE FOR DISCIPLINE**

10 **(Failure to Maintain Adequate and Accurate Records)**

11 125. Respondent has further subjected his Physician's and Surgeon's Certificate
12 No. A 90443 to disciplinary action under sections 2227, 2234 and 2266 of the Code, in that he
13 failed to maintain adequate and accurate records relating to the provision of services to one or
14 more patients as more particularly alleged in paragraphs 99 through 106, and 115 through 124,
15 above, which are hereby incorporated by reference as if fully set forth herein.

16 **DISCIPLINARY CONSIDERATIONS**

17 126. To determine the degree of discipline, if any, to be imposed on Respondent,
18 Complainant alleges that in a prior disciplinary action entitled *In the Matter of the Accusation*
19 *Against Johnnie Alan Ham, M.D.* before the Medical Board of California,
20 case No. 09-2005-169895, effective May 30, 2008, Respondent's license was suspended for 60
21 days and placed on probation for ten (10) years for failure to report a felony conviction,
22 conviction of crimes substantially related to the qualifications, functions, or duties of a physician
23 and surgeon, and violating statutes regulating dangerous drugs or controlled substances.

24 ///

25 ///

26 ///

27 ¹⁷ Alprazolam, also known by the brand name Xanax, is a benzodiazepine Schedule IV
28 controlled substance pursuant to Health and Safety Code section 11057, subdivision (d), and a
dangerous drug pursuant to Business and Professions Code section 4022.

P R A Y E R

WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged, and that following the hearing, the Medical Board of California issue a decision:

1. Revoking or suspending Physician's and Surgeon's Certificate No. A 90443, issued to Respondent, Johnnie Alan Ham, M.D.;

2. Revoking, suspending or denying approval of Respondent, Johnnie Alan Ham, M.D.'s authority to supervise physician assistants and advanced practice nurses;

3. Ordering Respondent, Johnnie Alan Ham, M.D., to pay the Board the costs of the investigation and enforcement of this case, and if placed on probation, the costs of probation monitoring; and

4. Taking such other and further action as deemed necessary and proper.

DATED: MAR 02 2023

REJI VARGHESE
Interim Executive Director
Medical Board of California
Department of Consumer Affairs
State of California
Complainant
