- 3. This Accusation is brought before the Board, under the authority of the following laws. All section references are to the Business and Professions Code (Code) unless otherwise indicated.
- 4. Section 2227 of the Code provides that a licensee who is found guilty under the Medical Practice Act may have his or her license revoked, suspended for a period not to exceed one year, placed on probation and required to pay the costs of probation monitoring, or such other action taken in relation to discipline as the Board deems proper.
 - 5. Section 2234 of the Code, states:

The board shall take action against any licensee who is charged with unprofessional conduct. In addition to other provisions of this article, unprofessional conduct includes, but is not limited to, the following:

- (a) Violating or attempting to violate, directly or indirectly, assisting in or abetting the violation of, or conspiring to violate any provision of this chapter.
 - (b) Gross negligence.
- (c) Repeated negligent acts. To be repeated, there must be two or more negligent acts or omissions. An initial negligent act or omission followed by a separate and distinct departure from the applicable standard of care shall constitute repeated negligent acts.
- (1) An initial negligent diagnosis followed by an act or omission medically appropriate for that negligent diagnosis of the patient shall constitute a single negligent act.
- (2) When the standard of care requires a change in the diagnosis, act, or omission that constitutes the negligent act described in paragraph (1), including, but not limited to, a reevaluation of the diagnosis or a change in treatment, and the licensee's conduct departs from the applicable standard of care, each departure constitutes a separate and distinct breach of the standard of care.
 - (d) Incompetence.
- (e) The commission of any act involving dishonesty or corruption that is substantially related to the qualifications, functions, or duties of a physician and surgeon.
 - (f) Any action or conduct that would have warranted the denial of a certificate.
- (g) The failure by a certificate holder, in the absence of good cause, to attend and participate in an interview by the board. This subdivision shall only apply to a certificate holder who is the subject of an investigation by the board.
- 6. Section 2242 of the Code states:

- (a) Prescribing, dispensing, or furnishing dangerous drugs as defined in Section 4022 without an appropriate prior examination and a medical indication, constitutes unprofessional conduct. An appropriate prior examination does not require a synchronous interaction between the patient and the licensee and can be achieved through the use of telehealth, including, but not limited to, a self-screening tool or a questionnaire, provided that the licensee complies with the appropriate standard of care.
- 7. Section 2266 of the Code states: The failure of a physician and surgeon to maintain adequate and accurate records relating to the provision of services to their patients constitutes unprofessional conduct.

COST RECOVERY

8. Section 125.3 of the Code provides, in pertinent part, that the Board may request the administrative law judge to direct a licensee found to have committed a violation or violations of the licensing act to pay a sum not to exceed the reasonable costs of the investigation and enforcement of the case, with failure of the licensee to comply subjecting the license to not being renewed or reinstated. If a case settles, recovery of investigation and enforcement costs may be included in a stipulated settlement.

DEFINITIONS

- 9. Lorazepam (Ativan) is used for anxiety and sedation in the management of anxiety disorder for short-term relief from the symptoms of anxiety or anxiety associated with depressive symptoms. Lorazepam is not recommended for use in patients with primary depressive disorders.
- 10. Norco is a trade name for hydrocodone bitartrate with acetaminophen, which is a semi-synthetic opioid analgesic. It is a Schedule II controlled substance as defined by Section 11055, subdivision (b) of the Health and Safety Code and by section 1308.13 (e) of Title 21 of the Code of Federal Regulations, and is a dangerous drug as defined in Code section 4022.
- 11. Percocet is a trade name for the combination of oxycodone hydrochloride and acetaminophen. It is a semisynthetic opioid analgesic with multiple actions qualitatively similar

to those of morphine. It is a Schedule II controlled substance as defined by section 11055, subdivision (b)(1)(N), of the Health and Safety Code, and by Section 1308.12 (b)(1) of Title 21 of the Code of Federal Regulations, and is a dangerous drug as defined in Code section 4022.

12. Temazepam (Restoril) is a medication of the benzodiazepine class which is generally used to treat severe or debilitating insomnia. It is a dangerous drug as defined in Code section 4022 and a Schedule IV controlled substance as defined by section 11057 of the Health and Safety Code.

FACTUAL ALLEGATIONS

- 13. On or about October 8, 2020, an online complaint was made to the Medical Board of California from an Adult Protective Services social worker reporting sexual misconduct by Respondent against Patient 1¹ in 2016. During the investigation into this complaint, it was discovered that Respondent had been treating Patient 1 for many years, beginning in 2006.²
- 14. In 2016, Patient 1 was 96-years-old. On August 11, 2016, Respondent treated Patient 1 in her home. Throughout 2016, until November 2016, Respondent was regularly prescribing Patient 1 multiple controlled substances, including Temazepam, Percocet and Lorazepam. Patient 1's medical records do not reflect a legitimate need for Patient 1 to be prescribed these controlled substances, which can be life-threatening when taken together. Respondent failed to document a physical history or examination and assessment that would justify the use of narcotics for Patient 1. In addition, Respondent failed to obtain a narcotics contract, conduct any urine drug screens or create a plan of care for Patient 1's chronic narcotic use.
- 15. In his interview with the Medical Board, Respondent stated that he felt Patient 1's judgment was "impaired," yet he failed to document this fact in Patient 1's medical records. If Patient 1 was, in fact, impaired, then by Respondent's own admission, he continued to prescribe

The patient is referred to by number to protect privacy. Respondent is aware of the identity of the patient.

For the purposes of this Accusation, the relevant time period is Respondent's treatment of Patient 1 in 2016.

serious controlled substances that have dangerous interactions when combined to a 96-year-old woman, despite her visible "impairment."

16. In addition, Respondent's medical records for Patient 1 contain many illegible handwritten notes. Many of these handwritten notes are incomplete and difficult to decipher, with excessive use of unknown abbreviations. In fact, during his interview with the Medical Board, Respondent could not read some of his own handwritten medical records for Patient 1. In another instance, Respondent wrote the wrong controlled substance in Patient 1's medical record, documenting that he prescribed her Norco when he actually prescribed her Percocet.

FIRST CAUSE FOR DISCIPLINE

(Unprofessional Conduct: Repeated Negligent Acts)

- 17. Respondent Lorenzo Marianella, M.D. is subject to disciplinary action under section2234 of the Code in that he committed repeated negligent acts in his care and treatment of Patient1. The facts as set forth in paragraphs 9 through 16 are incorporated as if fully set forth herein.
- 18. The standard of care for prescribing long-term use of opioids includes, at a minimum, a clear documentation of medical history and physical examination, as well as an assessment for risk of addictive disorders. The standard of care requires physicians to establish a narcotics contract, conduct periodic urine drug screens and to create a plan of care for the patient's chronic narcotic use.
- 19. Respondent's failure to meet the standard of care as detailed above constitutes repeated negligent acts and unprofessional conduct pursuant to Code section 2234 (c).

SECOND CAUSE FOR DISCIPLINE

(Unprofessional Conduct: Prescribing Without an Adequate Exam/Medical Basis)

20. Respondent Lorenzo Marianella, M.D. is subject to disciplinary action under section 2242 of the Code in that he prescribed dangerous drugs as defined in Code section 4022 without an appropriate prior examination and a medical indication, and his actions constitute

unprofessional conduct. The facts as set forth in paragraphs 9 through 19 are incorporated as if fully set forth herein.

- 21. The standard of care for prescribing the controlled substances Respondent prescribed to Patient 1 on a long-term basis require an appropriate prior examination, a medical history, and a medical indication. Respondent failed to conduct and document an appropriate prior examination, failed to gather and document a proper medical history and failed to provide a legitimate medical indication for his prescriptions for controlled substances to Patient 1.
- 22. Respondent's failure to meet the standard of care as detailed above constitutes unprofessional conduct pursuant to Code section 2242.

THIRD CAUSE FOR DISCIPLINE

(Unprofessional Conduct: Failure to Maintain Adequate and Accurate Records)

- 23. Respondent is subject to disciplinary action under section 2234 and/or 2266 of the Code in that Respondent failed to maintain medical records for Patient 1. The facts as set forth in paragraphs 9 through 22 are incorporated as if fully set forth herein.
- 24. The standard of care requires physicians to keep timely, accurate and legible medical records. Proper documentation includes appropriate history, physical examination and assessment. When abbreviations are used, they should be legible and medically accepted.
- 25. As set forth above, Respondent's medical records for Patient 1 contain many illegible handwritten notes. Many of the notes are brief and hard to decipher, with excessive use of unknown abbreviations. Respondent himself could not read some of his notes. In addition, Respondent's records failed to reflect aspects of treatment required to meet the standard of care, including medical history, physical examination and proper assessment. Respondent's actions constitute unprofessional conduct pursuant to Code section 2234 and/or failure to maintain adequate medical records pursuant to Code section 2266.
