3. This Accusation is brought before the Board, under the authority of the following laws. All section references are to the Business and Professions Code (Code) unless otherwise indicated.

4. Section 2227 of the Code states:

(a) A licensee whose matter has been heard by an administrative law judge of the Medical Quality Hearing Panel as designated in Section 11371 of the Government Code, or whose default has been entered, and who is found guilty, or who has entered into a stipulation for disciplinary action with the board, may, in accordance with the provisions of this chapter:

(1) Have his or her license revoked upon order of the board.

(2) Have his or her right to practice suspended for a period not to exceed one year upon order of the board.

(3) Be placed on probation and be required to pay the costs of probation monitoring upon order of the board.

(4) Be publicly reprimanded by the board. The public reprimand may include a requirement that the licensee complete relevant educational courses approved by the board.

(5) Have any other action taken in relation to discipline as part of an order of probation, as the board or an administrative law judge may deem proper.

(b) Any matter heard pursuant to subdivision (a), except for warning letters, medical review or advisory conferences, professional competency examinations, continuing education activities, and cost reimbursement associated therewith that are agreed to with the board and successfully completed by the licensee, or other matters made confidential or privileged by existing law, is deemed public, and shall be made available to the public by the board pursuant to Section 803.1.

5. Section 2234 of the Code states, in pertinent part:

The board shall take action against any licensee who is charged with unprofessional conduct. In addition to other provisions of this article, unprofessional conduct includes, but is not limited to, the following:

...

(c) Repeated negligent acts. To be repeated, there must be two or more negligent acts or omissions. An initial negligent act or omission followed by a separate and distinct departure from the applicable standard of care shall constitute repeated negligent acts.

(1) An initial negligent diagnosis followed by an act or omission medically appropriate for that negligent diagnosis of the patient shall constitute a single negligent act.

1 (2) When the standard of care requires a change in the diagnosis, act, or  
2 omission that constitutes the negligent act described in paragraph (1), including, but  
3 not limited to, a reevaluation of the diagnosis or a change in treatment, and the  
4 licensee's conduct departs from the applicable standard of care, each departure  
5 constitutes a separate and distinct breach of the standard of care.

6  
7  
8  
9  
10  
11  
12 **COST RECOVERY**

6 Section 125.3 of the Code provides, in pertinent part, that the Board may request the  
7 administrative law judge to direct a licensee found to have committed a violation or violations of  
8 the licensing act to pay a sum not to exceed the reasonable costs of the investigation and  
9 enforcement of the case, with failure of the licensee to comply subjecting the license to not being  
10 renewed or reinstated. If a case settles, recovery of investigation and enforcement costs may be  
11 included in a stipulated settlement.

12 **FACTUAL ALLEGATIONS**

13 7. From in or around 2016<sup>1</sup> through in or around 2022, Respondent provided care and  
14 treatment to Patient A<sup>2</sup> for a variety of medical reasons including, but not limited to,  
15 hypertension, chronic renal insufficiency, gout, and urinary tract infections. According to  
16 records, since in or around 2017, Respondent regularly issued prescriptions to Patient A for,  
17 among other things, lisinopril<sup>3</sup> and triamterene.<sup>4</sup>

18  
19  
20 <sup>1</sup> Conduct occurring more than seven (7) years prior to the filing of the Accusation is  
described for informational purposes only and not as a basis for disciplinary action.

21 <sup>2</sup> For patient privacy purposes, the patient's true name is not used in this instant  
22 Accusation to maintain patient confidentiality. The patient's identity is known to Respondent or  
23 will be disclosed to Respondent upon receipt of a duly issued request for discovery in accordance  
with Government Code section 11507.6.

24 <sup>3</sup> Lisinopril is a dangerous drug as defined by Code section 4022 and is commonly used to  
25 treat high blood pressure and can slow down kidney disease. Lisinopril is classified as an  
angiotensin-converting enzyme (ACE) inhibitor, blocking the formation of angiotensin II to keep  
blood vessels from constricting. A known side effect of lisinopril is hyperkalemia.

26 <sup>4</sup> Triamterene is a dangerous drug as defined by Code section 4022 and is commonly used  
27 to treat edema (fluid retention). Triamterene is classified as a diuretic (often referred to as a water  
28 pill) which causes kidneys to eliminate unnecessary water and sodium from the body, but reduces  
the loss of potassium. A known side effect of triamterene is hyperkalemia.

1           8. On or about July 17, 2021, according to records, Respondent issued a prescription to  
2 Patient A, a then 87-year-old male, for a 1-year supply of triamterene (37.5 mg tablets, once a  
3 day, quantity 90, authorizing 3 refills).

4           9. On or about October 25, 2021, according to records, Respondent issued a prescription  
5 to Patient A for a 1-year supply of lisinopril (10 mg tablets, once a day, quantity 90, authorizing 3  
6 refills).

7           10. On or about November 5, 2021, Patient A presented for an annual physical exam visit  
8 with Respondent. According to records, during this visit Respondent performed an evaluation of  
9 Patient A and ordered Patient A's annual lab studies.

10           11. On or about November 6, 2021, Patient A's lab results reported, among other things,  
11 high level of creatinine (2.11 mg/dL), high level of potassium (6.3 mmol/L),<sup>5</sup> high level of LDL  
12 cholesterol (139 mg/dL), and high hemoglobin A1c level (6.3%).<sup>6</sup>

13           12. During a subject interview conducted on April 11, 2023, by an investigator with the  
14 Health Quality Investigation Unit on behalf of the Medical Board of California, Respondent  
15 indicated that based upon his custom and practice, an office staff member at Respondent's place  
16 of practice would have attempted to contact Patient A on November 6, 2021, to schedule an  
17 appointment to review his lab results. However, this attempt to contact Patient A is not  
18 documented in the records.

19           13. On or about November 22, 2021, according to records, an office staff member at  
20 Respondent's place of practice left a voice message for Patient A.

21           14. On or about December 6, 2021, a family member of Patient A contacted  
22 Respondent's office and a follow-up appointment was scheduled for January 5, 2022.

23 ///

24

25           <sup>5</sup> Hyperkalemia is a condition when one's potassium level is higher than normal. The  
26 normal reference range for blood potassium is 3.5-5.0 mmol/L, hyperkalemia in the range of 5.0-  
5.5 mmol/L is mild, 5.5-6.5 mmol/L is moderate, and above 6.5 mmol/L is severe.

27           <sup>6</sup> Patient A's previous annual lab reports also revealed elevated potassium levels,  
28 hyperkalemia. In October 2017, Patient A's potassium level was 4.8 mmol/L, and in January  
2019, Patient A's potassium level was 5.2 mmol/L.

1           15. On or about January 5, 2022, a family member of Patient A contacted Respondent's  
2 office to cancel Patient A's appointment, reporting Patient A had contracted COVID-19 and was  
3 feeling generalized malaise with poor appetite and ankle swelling.

4           16. On or about January 6, 2022, Respondent contacted Patient A's family to discuss  
5 Patient A's lab results and recommended taking Patient A to the local emergency department for  
6 evaluation.

7           17. On or about January 6, 2022, Patient A was admitted to a local hospital where he  
8 tested positive for COVID-19 and was diagnosed with acute kidney failure, acute respiratory  
9 failure, and acute heart failure.

10                                   **FIRST AND ONLY CAUSE FOR DISCIPLINE**

11   **(Repeated Negligent Acts)**

12           18. Respondent has subjected his Physician's and Surgeon's Certificate No. G 72631 to  
13 disciplinary action under sections 2227 and 2234, as defined by section 2234, subdivision (c), of  
14 the Code, in that Respondent committed repeated negligent acts in his care and treatment of  
15 Patient A as more particularly alleged hereinafter:

- 16           A. Paragraphs 7 through 17, above, are hereby incorporated by reference and realleged  
17 as if fully set forth herein;
- 18           B. Respondent failed to provide timely and/or appropriate care and treatment of Patient  
19 A's hyperkalemia upon receiving Patient A's abnormal lab results;
- 20           C. Respondent failed to reduce and/or stop Patient A's prescription for lisinopril upon  
21 receiving Patient A's abnormal lab results; and
- 22           D. Respondent failed to reduce and/or stop Patient A's prescription for triamterene upon  
23 receiving Patient A's abnormal lab results.
