BEFORE THE
MEDICAL BOARD OF CALIFORNIA
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA

In the Matter of the Application of:	)	Case No. 800-2025-122052
	)	
JESSICA DOMINGUEZ DE LA ROSA	)	
	)	STIPULATION FOR A
	)	PROBATIONARY LICENSE
For a Physician's and Surgeon's License	)	
	)	

1) Jessica Dominguez De La Rosa, applicant for a Transition from Postgraduate Training License to Physician's and Surgeon's License (hereinafter "applicant"), and Douglas Hock, Chief of Licensing of the Medical Board of California (Board), hereby stipulate as follows:

2) Applicant is eligible for medical licensure in California upon meeting all licensure requirements.

3) On June 20, 2023, the Board received an application for a Transition from Postgraduate Training License to a Physician's and Surgeon's License. Applicant does not qualify for a full and unrestricted Physician's and Surgeon's License due to the applicant's October 31, 2022, conviction for Vehicle Code 23103 per 23103.5, wet reckless.

4) Section 2221(a) of the Business and Professions Code states the Board may deny a license to an applicant guilty of unprofessional conduct or of any cause that would subject a licensee to revocation or suspension of their license. Section 2234 of the Business and Professions Code states that the Board may take action for unprofessional conduct. Section 2236 of the Business and Professions Code states that the conviction of any offense related to the qualifications, functions, or duties of a physician and surgeon constitutes unprofessional conduct. Section 2239(a) of the Business and Professions Code states the Board may take action for the use of any dangerous drugs or alcoholic beverages to the extent, or in such a manner as to be dangerous or injurious to the licensee, or any other person or to the public, which constitutes unprofessional conduct.

The above supports a conclusion that grounds exist for denial pursuant to sections 2221(a), 2234, 2236, and 2239(a) of the Business and Professions Code.

5) Pursuant to Section 2221 of the Business and Professions Code, the Board may deny a license to an applicant because of unprofessional conduct. Alternatively, the Board has the discretionary authority to issue a probationary license with terms and conditions.

6) Applicant acknowledges that the applicant has a right to request a Statement of Issues and a hearing upon denial of license for cause. Applicant waives notice of hearing and judicial review in favor of this Stipulation for a Probationary License, which is subject to approval by the Board. If not approved, this Stipulation is null and void and may not be used for any purpose.

7) Applicant understands and agrees that counsel for the staff of the Board may communicate directly with the Board regarding this proposed Stipulation, without notice to or participation by applicant or their counsel. By signing the Stipulation, applicant understands and agrees that they may not withdraw this agreement or seek to rescind the Stipulation prior to the time the Board considers and acts upon it. If the Board fails to adopt this Stipulation, the offer of a Stipulation for a Probationary License shall be of no force or effect; except for this paragraph, it shall be inadmissible in any legal action between the parties, and the Board shall not be disqualified from further action by having considered this matter.

ORDER

IT IS ORDERED THAT JESSICA DOMINGUEZ DE LA ROSA, applicant, be issued a Physician's and Surgeon's License on a probation basis for a period of three (3) years, subject to the following terms and conditions. Probation shall begin on the date the applicant is issued a probationary license.

1) Biological Fluid Testing

Applicant shall immediately submit to biological fluid testing, at applicant's expense, upon request of the Board or its designee. "Biological fluid testing" may include, but is not limited to, urine, blood, breathalyzer, hair follicle testing, or similar drug screening approved by the Board or its designee. Applicant shall make daily contact with the Board or its designee to determine whether biological fluid testing is required. Applicant shall be tested on the date of the notification as directed by the Board or its designee. The Board may order an applicant to undergo a biological fluid test on any day, at any time, including weekends and holidays. Except when testing on a specific date as ordered by the Board or its designee, the scheduling of biological fluid testing shall be done on a random basis. The cost of biological fluid testing shall be borne by the applicant.

During the first year of probation, applicant shall be subject to 52 to 104 random tests. During the second year of probation and for the duration of the probationary term, up to five (5) years, applicant shall be subject to 36 to 104 random tests per year. Only if there has been no positive biological fluid tests in the previous five (5) consecutive years of probation, may testing be reduced to one (1) time per month. Nothing precludes the Board from increasing the number of random tests to the first-year level of frequency for any reason.

Prior to practicing medicine, applicant shall contract with a laboratory or service, approved in advance by the Board or its designee, that will conduct random, unannounced, observed, biological fluid testing and meets all the following standards:

- (a) Its specimen collectors are either certified by the Drug and Alcohol Testing Industry Association or have completed the training required to serve as a collector for the United States Department of Transportation.
- (b) Its specimen collectors conform to the current United States Department of

Transportation Specimen Collection Guidelines.

- (c) Its testing locations comply with the Urine Specimen Collection Guidelines published by the United States Department of Transportation without regard to the type of test administered.
- (d) Its specimen collectors observe the collection of testing specimens.
- (e) Its laboratories are certified and accredited by the United States Department of Health and Human Services.
- (f) Its testing locations shall submit a specimen to a laboratory within one (1) business day of receipt and all specimens collected shall be handled pursuant to chain of custody procedures. The laboratory shall process and analyze the specimens and provide legally defensible test results to the Board within seven (7) business days of receipt of the specimen. The Board will be notified of non-negative results within one (1) business day and will be notified of negative test results within seven (7) business days.
- (g) Its testing locations possess all the materials, equipment, and technical expertise necessary in order to test applicant on any day of the week.
- (h) Its testing locations are able to scientifically test for urine, blood, and hair specimens for the detection of alcohol and illegal and controlled substances.
- (i) It maintains testing sites located throughout California.
- (j) It maintains an automated 24-hour toll-free telephone system and/or a secure on-line computer database that allows the applicant to check in daily for testing.
- (k) It maintains a secure, HIPAA-compliant website or computer system that allows staff access to drug test results and compliance reporting information that is available 24 hours a day.
- (l) It employs or contracts with toxicologists that are licensed physicians and have knowledge of substance abuse disorders and the appropriate medical training to interpret and evaluate laboratory biological fluid test results, medical histories, and any other information relevant to biomedical information.
- (m) It will not consider a toxicology screen to be negative if a positive result is obtained while practicing, even if the applicant holds a valid prescription for the substance.

Prior to changing testing locations for any reason, including during vacation or other travel, alternative testing locations must be approved by the Board and meet the requirements above.

The contract shall require that the laboratory directly notify the Board or its designee of non-negative results within one (1) business day and negative test results within seven (7)

business days of the results becoming available. Applicant shall maintain this laboratory or service contract during the period of probation.

A certified copy of any laboratory test result may be received in evidence in any proceedings between the Board and applicant.

If a biological fluid test result indicates applicant has used, consumed, ingested, or administered to applicant's self a prohibited substance, the Board shall order applicant to cease practice and instruct applicant to leave any place of work where applicant is practicing medicine or providing medical services. The Board shall immediately notify all of applicant's employers, supervisors and work monitors, if any, that applicant may not practice medicine or provide medical services while the cease-practice order is in effect.

A biological fluid test will not be considered negative if a positive result is obtained while practicing, even if the practitioner holds a valid prescription for the substance. If no prohibited substance use exists, the Board shall lift the cease-practice order within one (1) business day.

After the issuance of a cease-practice order, the Board shall determine whether the positive biological fluid test is in fact evidence of prohibited substance use by consulting with the specimen collector and the laboratory, communicating with the licensee, their treating physician(s), other health care provider, or group facilitator, as applicable.

For purposes of this condition, the terms "biological fluid testing" and "testing" mean the acquisition and chemical analysis of an applicant's urine, blood, breath, or hair.

For purposes of this condition, the term "prohibited substance" means an illegal drug, a lawful drug not prescribed or ordered by an appropriately licensed health care provider for use by applicant and approved by the Board, alcohol, or any other substance the applicant has been instructed by the Board not to use, consume, ingest, or administer to applicant's self.

If the Board confirms that a positive biological fluid test is evidence of use of a prohibited substance, applicant has committed a major violation, as defined in section 1361.52(a), and the Board shall impose any or all of the consequences set forth in section 1361.52(b), in addition to any other terms or conditions the Board determines are necessary for public protection or to enhance applicant's rehabilitation.

2) Controlled Substances – Abstain From Use

Applicant shall abstain completely from the personal use or possession of controlled substances as defined in the California Uniform Controlled Substances Act, dangerous drugs as defined by Business and Professions Code section 4022, and any drugs requiring a prescription. This prohibition does not apply to medications lawfully prescribed to applicant by another practitioner for a bona fide illness or condition. Within fifteen (15) calendar days of receiving any lawfully prescribed medications, applicant shall notify the Board or its designee of the: issuing practitioner's name, address, and telephone number; medication name, strength, and quantity; and issuing pharmacy name, address, and

telephone number.

If applicant has a confirmed positive biological fluid test for any substance (whether or not legally prescribed) and has not reported the use to the Board or its designee, applicant shall receive a notification from the Board or its designee to immediately cease the practice of medicine. The applicant shall not resume the practice of medicine until the final decision on an accusation and/or a petition to revoke probation is effective. An accusation and/or petition to revoke probation shall be filed by the Board within thirty (30) days of the notification to cease practice. If the applicant requests a hearing on the accusation and/or petition to revoke probation, the Board shall provide the applicant with a hearing within thirty (30) days of the request, unless the applicant stipulates to a later hearing. If the case is heard by an Administrative Law Judge alone, applicant shall forward a Proposed Decision to the Board within fifteen (15) days of submission of the matter. Within fifteen (15) days of receipt by the Board of the Administrative Law Judge's proposed decision, the Board shall issue its Decision, unless good cause can be shown for the delay. If the case is heard by the Board, the Board shall issue its decision within fifteen (15) days of submission of the case, unless good cause can be shown for the delay. Good cause includes, but is not limited to, non-adoption of the proposed decision, request for reconsideration, remands and other interlocutory orders issued by the Board. The cessation of practice shall not apply to the reduction of the probationary time period.

If the Board does not file an accusation or petition to revoke probation within thirty (30) days of the issuance of the notification to cease practice or does not provide applicant with a hearing within thirty (30) days of such a request, the notification of cease practice shall be dissolved.

3) Alcohol-Abstain From Use

Applicant shall abstain completely from the use of products or beverages containing alcohol.

If applicant has a confirmed positive biological fluid test for alcohol, applicant shall receive a notification from the Board or its designee to immediately cease the practice of medicine. The applicant shall not resume the practice of medicine until the final decision on an accusation and/or a petition to revoke probation is effective. An accusation and/or petition to revoke probation shall be filed by the Board within thirty (30) days of the notification to cease practice. If the applicant requests a hearing on the accusation and/or petition to revoke probation, the Board shall provide the applicant with a hearing within thirty (30) days of the request, unless the applicant stipulates to a later hearing. If the case is heard by an Administrative Law Judge alone, applicant shall forward a Proposed Decision to the Board within fifteen (15) days of submission of the matter. Within fifteen (15) days of receipt by the Board of the Administrative Law Judge's proposed decision, the Board shall issue its Decision, unless good cause can be shown for the delay. If the case is heard by the Board, the Board shall issue its decision within fifteen (15) days of submission of the case, unless good cause can be shown for the delay. Good cause includes, but is not limited to, non-adoption of the proposed decision, request for reconsideration, remands and other interlocutory orders issued by the Board. The cessation of practice shall not apply to the reduction of the probationary time period.

If the Board does not file an accusation or petition to revoke probation within thirty (30) days of the issuance of the notification to cease practice or does not provide applicant with a hearing within thirty (30) days of such a request, the notification of cease practice shall be dissolved.

4) Notification

Within seven (7) days of the effective date of this Decision, the applicant shall provide a true copy of this Decision to the Chief of Staff or the Chief Executive Officer at every hospital where privileges or membership are extended to applicant, at any other facility where applicant engages in the practice of medicine, including all physician and locum tenens registries or other similar agencies, and to the Chief Executive Officer at every insurance carrier which extends malpractice insurance coverage to applicant. Under no circumstances shall a post office box serve as an address of record, except as allowed by Business and Professions Code section 2021(b).

c) Place of Practice

If applicant resides in California and is considered to be in non-practice, applicant shall comply with all terms and conditions of probation. All time spent in an intensive training program which has been approved by the Board or its designee shall not be considered non-practice and does not relieve applicant from complying with all the terms and conditions of probation. Practicing medicine in another state of the United States or Federal jurisdiction while on probation with the medical licensing authority of that state or jurisdiction shall not be considered non-practice. A Board-ordered suspension of practice shall not be considered as a period of non-practice.

Applicant will no longer be subject to the terms and conditions of probation. If applicant re-applies for a medical license, the application shall be treated as a petition for reinstatement of a revoked certificate.
