27 Board, after giving Respondent notice and the opportunity to be heard, may revoke probation and
28 carry out the disciplinary order that was stayed. If an Accusation, or Petition to Revoke Probation,

1 or an Interim Suspension Order is filed against Respondent during probation, the Board shall have
2 continuing jurisdiction until the matter is final, and the period of probation shall be extended until
3 the matter is final.

4 15. LICENSE SURRENDER. Following the effective date of this Decision, if
5 Respondent ceases practicing due to retirement or health reasons or is otherwise unable to satisfy
6 the terms and conditions of probation, Respondent may request to surrender his or her license.
7 The Board reserves the right to evaluate Respondent's request and to exercise its discretion in
8 determining whether or not to grant the request, or to take any other action deemed appropriate
9 and reasonable under the circumstances. Upon formal acceptance of the surrender, Respondent
10 shall within 15 calendar days deliver Respondent's wallet and wall certificate to the Board or its
11 designee and Respondent shall no longer practice medicine. Respondent will no longer be subject
12 to the terms and conditions of probation. If Respondent re-applies for a medical license, the
13 application shall be treated as a petition for reinstatement of a revoked certificate.

14 16. PROBATION MONITORING COSTS. Respondent shall pay the costs associated
15 with probation monitoring each and every year of probation, as designated by the Board, which
16 may be adjusted on an annual basis. Such costs shall be payable to the Medical Board of

24 A) Lana R. was ostensibly a patient of Respondent's wife, Lisa Tseng, D.O.³; however,
25 Respondent saw Lana R. numerous times as a patient. Respondent saw Lana R. beginning as

28 ³ Dr. Tseng was an osteopathic physician, and was assigned Osteopathic Physician and
Surgeon License No. 0A7116 on August 15, 1997; she surrendered her license, which was

(continued...)

1 early as January, 2007. Over the succeeding years, he prescribed Effexor, Motrin, Norco,
2 Compazine, and alprazolam to her.

3 B) Although Lana R. told Respondent that she had been addicted her “whole life”, he
4 still made no effort to have her seen by an addiction specialist or develop a treatment plan himself
5 to address the patient’s possible addiction. Lana R. saw Respondent repeatedly, and he
6 prescribed drugs for her on at least six occasions between September 7, 2010 and September 10,
7 2011.

8 C) The notes of Respondent which do exist show that Lana R. repeatedly complained of
9 pain in her lower back, abdominal pain, dizziness, generalized weakness, “malaise”, and Vitamin
10 B 12 deficiency – in total, over 20 separate complaints. Respondent’s records also reflect that he
11 ran liver tests on Lana R., which came back slightly elevated. However, Respondent never
12 referred Lana R. to any other physicians to investigate these complaints, nor did he undertake to
13 determine the cause of her complaints himself. Specifically, there was no referral to a psychiatrist
14 or psychologist, a neurologist, or orthopedist.

15 D) Nonetheless, Respondent continued to prescribe drugs to Lana R. By 2008, Lana R.
16 was taking so many pills that she checked herself into a detoxification facility operated by Philip
17 Z., M.D.⁴ Dr. Z. professed shock at the sheer magnitude of drugs Lana R. was consuming.

18 E) Nonetheless, after Respondent’s wife lost her DEA certificate and could therefore no
19 longer prescribe to Lana R. in August, 2011, Respondent continued to prescribe drugs to Lana R.

20 9. By reason of the foregoing facts, Respondent’s actions constitute repeated negligent
21 acts within the meaning of Business and Professions Code section 2234(c). Specifically,
22 Respondent failed:

- 23 1) to document the basis for frequent refills of opioids;
- 24 2) to perform tests and/or examinations which would justify such extensive and repeated
25 prescription of opioids;

26 accepted by Osteopathic Board order made February 29, 2012 and effective March 14, 2012. She
27 is currently in custody and charged with second degree murder due to patient deaths from drugs
she prescribed.

28 ⁴ Dr. Z.’s name is also abbreviated to protect his privacy.

**SECOND CAUSE FOR DISCIPLINE
(Failure to Maintain Adequate and Accurate Records – Patient Lana R.)**

10. Respondent is subject to discipline for failure to maintain adequate and accurate records relating to the provision of professional services under Business and Professions Code sections 2266. The records of his treatment of Lana R. were inadequate and inaccurate, in that they did not contain a regular recording of Lana R.’s subjective complaints, Respondent’s objective observations, his assessment, and treatment plan.

**THIRD CAUSE FOR DISCIPLINE
(Gross Negligence – Patient Joseph R.)**

11. Respondent is subject to discipline pursuant to Business and Professions Code sections 2234(b) [gross negligence] and 2241.5(c) [improper administration of controlled substances to a person experiencing pain]. The facts and circumstances are that Joseph R. (the former husband of Lana R.) never saw Respondent as a patient. However, records maintained by the California Controlled Substance Utilization Review and Evaluation System (CURES) reflect that Respondent wrote prescriptions to Joseph R. for hundreds of pills over the course of his treatment of the patient.

12. The prescribing of drugs to an individual Respondent had not seen constitutes gross negligence.

**FOURTH CAUSE FOR DISCIPLINE
(Incompetence – Patient Joseph R.)**

13. By reason of the facts set forth above in the foregoing Cause for Discipline, Respondent is subject to discipline for incompetence pursuant to Business and Professions Code sections 2234(d).

**FIFTH CAUSE FOR DISCIPLINE
(Repeated Negligent Acts – Patient Joseph R.)**

14. By reason of the facts set forth above in the First Cause for Discipline, Respondent is subject to discipline for repeated negligent acts in regard to Patient Joseph R. pursuant to Business and Professions Code sections 2234(c). Further, the failure to establish and implement a treatment plan for Joseph R. and to maintain adequate and accurate records of his treatment also constitute repeated negligent acts.

**SIXTH CAUSE FOR DISCIPLINE
(Failure to Maintain Adequate and Accurate Records – Patient Joseph R.)**

15. Respondent is subject to discipline for failure to maintain adequate and accurate records relating to the provision of professional services to Joseph R. under Business and Professions Code sections 2266. The records of his treatment of Joseph R. were inadequate and inaccurate, in that they did not contain a regular recording of Joseph R.’s subjective complaints, Respondent’s objective observations, his assessment, and treatment plan.

**SEVENTH CAUSE FOR DISCIPLINE
(Repeated Negligent Acts – Patient Jon H.)**

16. Respondent is subject to discipline pursuant to Business and Professions Code sections 2234(c) [repeated negligent acts] and 2241.5(c) [improper administration of controlled substances to a person experiencing pain]. The facts and circumstances are as follows.

A) Jon H. was ostensibly a patient of Respondent’s wife; however, Respondent saw Jon H. numerous times as a patient. Jon H. was a 38-year-old male first seen at the practice on or about May 6, 2008. He had experienced upper back pain for eighteen months. He was receiving Norco, and had shoulder and chronic back pain. He had decreased range of motion in his neck and his lower back. Although an MRI⁵ and x-ray of his shoulder was recommended, as well as an

⁵MRI means magnetic resonance imaging, a scan (in this case) to determine the condition of the patient’s shoulder.

1 x-ray of his lumbosacral region, no referral was made to another physician and these tests were
2 never done.

3 B) Nonetheless, Respondent continued to prescribe opioids to Jon H., despite his
4 complaints of chest discomfort and palpitations. In many follow-up visits, Respondent prescribed
5 Norco, one pill every 4 to 6 hours. This was continued for approximately three years Jon H.
6 treated with Respondent. During this time, Jon H. had many follow-up visits and Respondent
7 simply prescribed more Norco, one pill every four to six hours. Opioids were often prescribed
8 with no explanation in the notes as to basis therefor.

9 C) CURES reports show that Jon H. had taken Respondent's prescriptions to three
10 different pharmacies to get them filled, a clear sign that he was an addict and was obtaining drugs
11 outside what would be appropriate for this patient.

12 17. By reason of the foregoing facts, Respondent's actions constitute repeated negligent
13 acts within the meaning of Business and Professions Code section 2234(c). Specifically,
14 Respondent failed:

- 15 1) to document the basis for frequent refills of opioids;
- 16 2) to perform tests and/or examinations which would justify such extensive and repeated
17 prescription of opioids;
- 18 3) to perform urine screens;
- 19 4) to create opioid risk or depression scales;
- 20 5) to provide the patient with a pain management agreement; and
- 21 6) to refer the patient to outside physicians who could address his medical issues.

22 **EIGHTH CAUSE FOR DISCIPLINE**
23 **(Failure to Maintain Adequate and Accurate Records – Patient Jon H.)**

24 18. Respondent is subject to discipline for failure to maintain adequate and accurate
25 records relating to the provision of professional services to Jon H. under Business and Professions
26 Code sections 2266. The records he kept of his treatment of Jon H. were inadequate and
27 inaccurate, in that they did not contain a regular recording of Jon H.'s subjective complaints,
28 Respondent's objective observations, his assessment, and treatment plan.

**NINTH CAUSE FOR DISCIPLINE
(Repeated Negligent Acts – Patient Ken N.)**

19. Respondent is subject to discipline pursuant to Business and Professions Code sections 2234(c) [repeated negligent acts] and 2241.5(c) [improper administration of controlled substances to a person experiencing pain]. The facts and circumstances are as follows.

A) Ken N. was ostensibly a patient of Respondent's wife; however, Respondent saw Ken N. numerous times as a patient, including solely after Dr. Tseng's DEA certificate was surrendered in August, 2011. Ken N. was a 48-year-old man with a diagnosis of arm pain, elbow tendonitis, chronic fatigue, insomnia and also a history of moderate tachycardia. He was on Vicodin (later changed to Dilaudid), Diovan, Oxycontin, diazepam and Norco. .

B) Respondent continued to prescribe opioids to Ken N. over the course of his treatment, despite the fact that Respondent indicated on June 15, 2006 that he needed a refill because his wife took away his medication. There was no discussion of the reason for this in the notes. The notes were repetitive and formulaic and did not set forth any reason why the drugs continued to be prescribed. Lower back pain, dermatitis and cellulitis (a common condition for addicts who inject) was noted, but no investigation of this or a treatment plan was established. Similarly, there were entries made in his medical records during several appointments that Ken N. suffered from ongoing anxiety, but no referral was made for psychiatric or psychological treatment. In each appointment, repetitive notes were made; there appeared to be little effort to actually investigate and document the patient's condition or complaints; merely a perfunctory effort by Respondent to comply, at least minimally, with his legal obligations. Ken N. had many follow-up visits and Respondent simply prescribed more drugs, particularly after Dr. Tseng's DEA certificate was surrendered in August, 2011. Opioids were often prescribed with no explanation in the notes as to basis therefor.

C) CURES reports for the period the patient treated with Respondent show that Ken N. had taken Respondent's prescriptions to five different pharmacies to get them filled; this is a clear indication that the patient may be addicted, or at the very least, that Respondent's prescriptions were far more than appropriate for the patient. In fact, Respondent requested a change of drug

1 from Vicodin to Dilaudid because the pharmacies would not fill his prescriptions. This, again, is
2 a common sign that overprescribing is occurring.

3 20. By reason of the foregoing facts, Respondent's actions constitute repeated negligent
4 acts within the meaning of Business and Professions Code section 2234(b). Specifically,
5 Respondent failed:

- 6 1) to document the basis for frequent refills of opioids;
- 7 2) to perform tests and/or examinations which would justify such extensive and repeated
8 prescription of opioids;
- 9 3) to perform urine screens;
- 10 4) to create opioid risk or depression scales;
- 11 5) to provide the patient with a pain management agreement;
- 12 6) to refer the patient to outside physicians who could address her medical issues;

13 **TENTH CAUSE FOR DISCIPLINE**
14 **(Failure to Maintain Adequate and Accurate Records – Patient Ken N.)**

15 21. Respondent is subject to discipline for failure to maintain adequate and accurate
16 records relating to the provision of professional services to Ken N. under Business and
17 Professions Code sections 2266. The records of his treatment of Ken N. were inadequate and
18 inaccurate, in that they did not contain a regular recording of Ken N.'s subjective complaints,
19 Respondent's objective observations, his assessment, and treatment plan.

20 **ELEVENTH CAUSE FOR DISCIPLINE**
21 **(Repeated Negligent Acts – Patient John H.)**

22 22. Respondent is subject to discipline pursuant to Business and Professions Code
23 sections 2234(c) [repeated negligent Acts] and 2241.5(c) [improper administration of controlled
24 substances to a person experiencing pain]. The facts and circumstances are as follows.

25 A) John H. was ostensibly a patient of Respondent's wife; however, Respondent saw
26 John H. numerous times as a patient, particularly after Dr. Tseng's DEA certificate was
27 surrendered in August, 2011. John H. was a 51 year-old-man with a diagnosis of lumbar spine
28 spasm, loss of range of motion, and tenderness. He had undergone a significant multilevel

1 lumbar disk replacement. The orthopedist felt that the patient had a permanent disorder. The
2 patient had an MRI and abnormal nerve conduction studies confirming the diagnosis. He also
3 complained of sleep problems, although no sleep studies were performed.

4 B) The patient was on Norco and oxycodone, as well as Vicodin and Neurontin
5 intermittently. Although the notes indicate that the patient was allergic to Norco and oxycodone
6 (notwithstanding Respondent's prescriptions), Vicodin is similar in chemical structure to these
7 two drugs. Over time, he was prescribed Oxycontin, ultimately receiving 80 mg. per day.

8 23. By reason of the foregoing facts, Respondent's actions constitute repeated negligent
9 acts within the meaning of Business and Professions Code section 2234(b). Specifically,
10 Respondent failed:

- 11 1) to document the basis for frequent refills of opioids;
- 12 2) to perform tests and/or examinations which would justify such extensive and repeated
13 prescription of opioids;
- 14 3) to perform urine screens;
- 15 4) to create opioid risk or depression scales;
- 16 5) to provide the patient with a pain management agreement; and
- 17 6) to refer the patient to outside physicians who could address her medical issues.

18 24. Further, the failure to establish and implement a treatment plan for John H., to
19 maintain adequate and accurate records of his treatment, and to obtain his previous medical
20 records also constitute repeated negligent acts.

21 **TWELFTH CAUSE FOR DISCIPLINE**
22 **(Failure to Maintain Adequate and Accurate Records – Patient John H.)**

23 25. Respondent is subject to discipline for failure to maintain adequate and accurate
24 records relating to the provision of professional services to John H. under Business and
25 Professions Code sections 2266. The records he kept of his treatment of John H. were inadequate
26 and inaccurate, in that they did not contain a regular recording of John H.'s subjective complaints,
27 Respondent's objective observations, his assessment, and treatment plan.

**THIRTEENTH CAUSE FOR DISCIPLINE
(Gross Negligence – Patient Laurie D.)**

1
2 26. Respondent is subject to discipline pursuant to Business and Professions Code
3 sections 2234(b) [gross negligence] and 2241.5(c) [improper administration of controlled
4 substances to a person experiencing pain]. The facts and circumstances are as follows.

5 A) Laurie D. was ostensibly a patient of Respondent's wife; however, Respondent saw
6 Laurie D. numerous times as a patient, particularly after Dr. Tseng's DEA certificate was
7 surrendered in August, 2011. Laurie D. was a 44 year old woman with a diagnosis of chronic
8 back pain radiating into her buttocks and thighs. She had decreased range of motion in her neck.
9 When she first began to see Respondent and his wife in 2006, she was taking no medication.
10 Although her neurological scan was normal, over the period he saw her, Respondent prescribed
11 Soma, Norco and ultimately Vicodin, all drugs with an addiction potential.

12 B) Over the ensuing years, Respondent continued to prescribe opioids, but added
13 depression, cellulitis, and vitamin B 12 deficiency to his diagnosis. Respondent's notes are not
14 detailed and are repetitive. When the patient complained of work-related stress, benzodiazepines
15 were added to her medication. There was no referral to outside consultants for the patient's
16 issues, but Respondent continued to prescribe opioids to Laurie D.

17 C) CURES reports show that Laurie D. had taken Respondent's prescriptions to five
18 different pharmacies to get them filled, a clear sign that she was an addict and was obtaining
19 drugs outside what would be appropriate for this patient.

20 27. By reason of the foregoing facts, Respondent's actions in regard to Laurie D.
21 constitute gross negligence within the meaning of Business and Professions Code section
22 2234(b). Specifically, Respondent failed:

- 23 1) to document the basis for frequent refills of opioids;
 - 24 2) to perform tests and/or examinations which would justify such extensive and repeated
25 prescription of opioids;
 - 26 3) to perform urine screens;
 - 27 4) to create opioid risk or depression scales;

**SEVENTEENTH CAUSE FOR DISCIPLINE
(Repeated Negligent Acts – Patient Clinton C.)**

31. Respondent is subject to discipline pursuant to Business and Professions Code sections 2234(c) [repeated negligent acts] and 2241.5(c) [improper administration of controlled substances to a person experiencing pain]. The facts and circumstances are as follows.

A) Clinton C. was ostensibly a patient of Respondent's wife; however, Respondent saw Clinton C. numerous times as a patient, particularly after Dr. Tseng surrendered her DEA certificate in August, 2011. Clinton C. was a 25-year-old man with lower and upper back pain. Beginning in 2008, Respondent prescribed Vicodin and Xanax to Clinton C.

B) Each time he saw the patient, Respondent's notes were repetitive; there was no referral to appropriate consultants, although the patient complained of anxiety and fatigue.

32. By reason of the foregoing facts, Respondent's actions in regard to Clinton C. constitute Repeated Negligent Acts within the meaning of Business and Professions Code section 2234(c). Specifically, Respondent failed:

- 1) to document the basis for frequent refills of opioids;
- 2) to perform tests and/or examinations which would justify such extensive and repeated prescription of opioids;
- 3) to perform urine screens;
- 4) to create opioid risk or depression scales;

(Failure to Maintain Adequate and Accurate Records – Patient Clinton C.)**

33. The records of his treatment of Clinton C. were inadequate and inaccurate, in that they did not contain a regular recording of Clinton C.'s subjective complaints, Respondent's objective observations, his assessment, and treatment plan.
