26 8. Respondent voluntarily, knowingly, and intelligently waives and gives up each and
27 every right set forth above.

28 ///

1 CULPABILITY

2 9. Respondent does not contest that, at an administrative hearing, Complainant could
3 establish a *prima facie* case with respect to the charges and allegations contained in Accusation
4 No. 800-2017-035816, a copy of which is attached hereto as Exhibit A, and that he has thereby
5 subjected his Physician's and Surgeon's Certificate No. G 62330 to disciplinary action.

6 10. Respondent agrees that if an accusation is ever filed against him before the Medical

17 and settlement, without notice to or participation by Respondent or his counsel. By signing the
18 stipulation, Respondent understands and agrees that he may not withdraw his agreement or seek
19 to rescind the stipulation prior to the time the Board considers and acts upon it. If the Board fails

22 action between the parties, and the Board shall not be disqualified from further action by having
23 considered this matter.

24 13. The parties agree that this Stipulated Settlement and Disciplinary Order shall be null
25 and void and not binding upon the parties unless approved and adopted by the Board, except for
26 this paragraph, which shall remain in full force and effect. Respondent fully understands and
27 agrees that in deciding whether or not to approve and adopt this Stipulated Settlement and
28 Disciplinary Order, the Board may receive oral and written communications from its staff and/or

1 the Attorney General's Office. Communications pursuant to this paragraph shall not disqualify
2 the Board, any member thereof, and/or any other person from future participation in this or any

16 including copies of the signatures of the parties, may be used in lieu of original documents and

(e), and a dangerous drug pursuant to Business and Professions Code section 4022. On August 22, 2014, the DEA published a final rule rescheduling hydrocodone combination products (HCP's) to schedule II of the Controlled Substances Act, which became effective October 6, 2014. Schedule II controlled substances are substances that have a currently accepted medical use in the United States, but also have a high potential for abuse, and the abuse of which may lead to severe psychological or physical dependence. When properly prescribed and indicated, HCP's are used for the treatment of moderate to severe pain. In addition to the potential for psychological and physical dependence there is also the risk of acute liver failure which has resulted in a black box warning being issued by the Federal Drug Administration (FDA). The FDA black box warning provides that "[a]cetaminophen has been associated with cases of acute liver failure, at times resulting in liver transplant and death. Most of the cases of liver injury are associated with use of the acetaminophen at doses that exceed 4000 milligrams per day, and often involve more than one acetaminophen containing product."

⁷ Morphine Sulfate extended release (MS Contin®) is a strong prescription pain medication and a Schedule II controlled substance pursuant to Health and Safety Code section 11055, subdivision (b)(1)(L) and a dangerous drug pursuant to Business and Professions Code section 4022.
