ACCUSATION

16 Physician's and Surgeon's Certificate
17 No. A 98794,

18 Respondent.

19
20 Complainant alleges:

21 PARTIES

22 1. Kimberly Kirchmeyer (Complainant) brings this Accusation solely in her official
23 capacity as the Executive Director of the Medical Board of California, Department of Consumer
24 Affairs (Board).

25 2. On or about January 31, 2007, the Medical Board issued Physician's and Surgeon's
26 Certificate Number A 98794 to William Lee Phillips, M.D. (Respondent). The Physician's and
27 Surgeon's Certificate was in full force and effect at all times relevant to the charges brought
28 herein and will expire on December 31, 2020, unless renewed.

JURISDICTION

1
2 3. This Accusation is brought before the Board, under the authority of the following
3 laws. All section references are to the Business and Professions Code unless otherwise indicated.

4 4. Section 2227 of the Code provides that a licensee who is found guilty under the
5 Medical Practice Act may have his or her license revoked, suspended for a period not to exceed
6 one year, placed on probation and required to pay the costs of probation monitoring, or such other
7 action taken in relation to discipline as the Board deems proper.

8 5. Section 2234 of the Code, states:

9 “The board shall take action against any licensee who is charged with unprofessional
10 conduct. In addition to other provisions of this article, unprofessional conduct includes, but is not
11 limited to, the following:

12 “(a) Violating or attempting to violate, directly or indirectly, assisting in or abetting the
13 violation of, or conspiring to violate any provision of this chapter.

14 “(b) Gross negligence.

15 “(c) Repeated negligent acts. To be repeated, there must be two or more negligent acts or
16 omissions. An initial negligent act or omission followed by a separate and distinct departure from
17 the applicable standard of care shall constitute repeated negligent acts.

18 “(1) An initial negligent diagnosis followed by an act or omission medically appropriate for
19 that negligent diagnosis of the patient shall constitute a single negligent act.

20 “(2) When the standard of care requires a change in the diagnosis, act, or omission that
21 constitutes the negligent act described in paragraph (1), including, but not limited to, a
22 reevaluation of the diagnosis or a change in treatment, and the licensee’s conduct departs from the
23 applicable standard of care, each departure constitutes a separate and distinct breach of the
24 standard of care.

25 “(d) Incompetence.

26 “(e) The commission of any act involving dishonesty or corruption which is substantially
27 related to the qualifications, functions, or duties of a physician and surgeon.

28 “(f) Any action or conduct which would have warranted the denial of a certificate.

1 “(g) The practice of medicine from this state into another state or country without meeting
2 the legal requirements of that state or country for the practice of medicine. Section 2314 shall not
3 apply to this subdivision. This subdivision shall become operative upon the implementation of the
4 proposed registration program described in Section 2052.5.

5 “(h) The repeated failure by a certificate holder, in the absence of good cause, to attend and
6 participate in an interview by the board. This subdivision shall only apply to a certificate holder
7 who is the subject of an investigation by the board.”

8 6. Section 2220 of the Code states:

9 “Except as otherwise provided by law, the board may take action against all persons guilty
10 of violating this chapter. The board shall enforce and administer this article as to physician and
11 surgeon certificate holders, including those who hold certificates that do not permit them to
12 practice medicine, such as, but not limited to, retired, inactive, or disabled status certificate
13 holders, and the board shall have all the powers granted in this chapter for these purposes
14 including, but not limited to:

15 “(a) Investigating complaints from the public, from other licensees, from health care
16 facilities, or from the board that a physician and surgeon may be guilty of unprofessional conduct.
17 The board shall investigate the circumstances underlying a report received pursuant to Section
18 805 or 805.01 within 30 days to determine if an interim suspension order or temporary restraining
19 order should be issued. The board shall otherwise provide timely disposition of the reports
20 received pursuant to Section 805 and Section 805.01.

21 “(b) Investigating the circumstances of practice of any physician and surgeon where there
22 have been any judgments, settlements, or arbitration awards requiring the physician and surgeon
23 or his or her professional liability insurer to pay an amount in damages in excess of a cumulative
24 total of thirty thousand dollars (\$30,000) with respect to any claim that injury or damage was
25 proximately caused by the physician’s and surgeon’s error, negligence, or omission.

26 “(c) Investigating the nature and causes of injuries from cases which shall be reported of a
27 high number of judgments, settlements, or arbitration awards against a physician and surgeon.”

28 ///

1 7. Section 2266 of the Code states: "The failure of a physician and surgeon to maintain
2 adequate and accurate records relating to the provision of services to their patients constitutes
3 unprofessional conduct."

4 **FIRST CAUSE FOR DISCIPLINE**

5 **(Gross Negligence)**

6 8. Respondent is subject to disciplinary action under section 2234, subdivision (b), of
7 the Code in that he was grossly negligent in his care and treatment of a confidential patient (C.P.).
8 The circumstances are as follows:

9 9. On or about March 6, 2015, C.P., a 58-year-old man, presented to the Emergency
10 Room at Kaiser Morse hospital with a complaint of chest pain. In the Emergency Room C.P. was
11 diagnosed with a myocardial infarction and was transferred to Kaiser's cardiac catheterization
12 laboratory for evaluation and potential treatment. In the cardiac catheterization laboratory, C.P.
13 had a diagnostic angiogram, which showed high-grade, diffuse multi-vessel coronary artery
14 disease. This included high grade stenosis in the distal left main artery, diffuse high-grade left
15 anterior descending artery disease, high-grade ramus intermedius disease, and a chronically
16 occluded right coronary artery. The left ventricular ejection fraction was severely depressed at
17 10-15%, with a markedly elevated left ventricular end diastolic pressure of 39.

18 10. C.P. required cardiac bypass surgery due to the severity of his cardiac disease. But
19 Kaiser Permanente at Morse Avenue in Sacramento did not have the facilities to conduct cardiac
20 bypass surgery. Therefore, C.P. would have to be transferred to Mercy General Hospital for the
21 bypass surgery. C.P.'s caregivers contacted Mercy General Hospital's cardiothoracic surgery
22 department to explain C.P.'s condition and need for surgery. The cardiothoracic surgery
23 department at Mercy Hospital noted that C.P. had received medications that would increase his
24 risk of bleeding post-surgery. Therefore, Mercy Hospital stated it would take C.P. for the bypass
25 surgery in two or three days after the medication had a chance to dissipate.

26 11. Respondent was a Board-certified cardiologist at Kaiser Permanente during the events
27 alleged in this Accusation. He took over as the on-call cardiologist for C.P. later that Friday
28 evening, March 6, 2015, and received a summary of C.P.'s status and condition when the

1 previous cardiologist signed out to him. Upon taking over C.P.'s care, Respondent did not
2 contact Mercy Hospital's cardiothoracic surgical department to discuss the potential for an earlier
3 surgery in light of C.P.'s critical condition. Respondent did not evaluate the need for placing an
4 intra-aortic balloon pump with an urgent transfer to Mercy Medical Center where mechanical
5 revascularization would have been available in the event that C.P. decompensated.

6 12. The following day, Saturday, March 7, 2015, Respondent did not round on patient
7 C.P. Instead, Respondent relied on the information provided by an internal medicine physician
8 who did see C.P. The internal medicine physician noted C.P. had low urine output, and C.P. was
9 started on diuretics.

10 13. On Sunday, March 8, 2015, C.P.'s condition deteriorated both by clinical standards
11 and by laboratory test results. He became more obtunded and lethargic and had episodes of
12 hypotension. He developed respiratory acidosis. At 8:21 a.m., C.P. had a markedly abnormal
13 arterial blood gas with a pH of 7.21, a partial pressure of carbon dioxide of 62, and a partial
14 pressure of oxygen of 66. The internal medicine physician contacted Respondent to inform him
15 of these concerning developments. C.P. was, by this time, receiving BiPap treatment for
16 progressive respiratory insufficiency. Respondent attributed the acidosis and carbon dioxide
17 retention C.P. exhibited to be due to underlying obstructive sleep apnea.

18 14. Respondent physically saw C.P. for the first time on Sunday, March 8, 2015 at
19 approximately 2:00 p.m. Respondent observed C.P. to be asleep and did not attempt to wake him.
20 Respondent did not document this visit. Respondent did not believe that C.P. required a higher
21 level of care, an intra-aortic balloon pump, or revascularization at this time. The internal
22 medicine physician contacted Respondent later Sunday evening to inquire whether he felt higher
23 levels of care or the intra-aortic balloon pump was required, but Respondent indicated that this
24 was not necessary.

25 15. Respondent did not round on C.P. the following morning, Monday, March 9, 2015.
26 He was in a separate area of the hospital when he was notified that C.P. was in cardiogenic shock
27 with laboratory evidence of florid congestive heart failure. C.P. had a markedly elevated BNP,
28 acute renal failure with an elevation in creatinine from 1.4 at baseline to 3.2, shock liver with

1 markedly elevated liver enzymes, metabolic acidosis with an increasing anion gap and a drop in
2 bicarbonate levels. The plan was to perform an intra-aortic balloon pump, but C.P. died before
3 the procedure could be completed.

4 16. Respondent was grossly negligent in his care and treatment of C.P. for his acts
5 including, but not limited to, the following:

6 a. Failing to respond to C.P.'s clinical deterioration and abnormal laboratory tests on the
7 morning of March 8, 2015 with evaluation for an urgent intervention and transfer;

8 b. Failing to respond to the additional information about C.P.'s condition and the
9 internal medicine physician's request for evaluation of possible intra-aortic balloon placement
10 and transfer to a higher level of care on the evening of March 8, 2015; and

11 c. Missing multiple opportunities to recognize and act on the impending cardiogenic
12 shock.

13 SECOND CAUSE FOR DISCIPLINE

14 (Repeated Negligence)

15 17. Respondent is subject to disciplinary action under section 2234, subdivision (c), of
16 the Code, in that he was repeatedly negligent in the care and treatment C.P. The circumstances
17 are as follows:

18 18. Paragraphs 8 through 16, above, are incorporated by reference and repeated as if fully
19 set forth.

20 19. Respondent was repeatedly negligent in his care and treatment of C.P. for his acts
21 including, but not limited to, the following:

22 a. Failing to respond to C.P.'s clinical deterioration and abnormal laboratory tests on the
23 morning of March 8, 2015 with evaluation for an urgent intervention and transfer;

24 b. Failing to respond to the additional information about C.P.'s condition and the
25 internal medicine physician's request for evaluation of possible intra-aortic balloon placement
26 and transfer to a higher level of care on the evening of March 8, 2015;

27 c. Missing multiple opportunities to recognize and act on the impending cardiogenic
28 shock;

1 d. Failing to contact Mercy Medical Center to discuss and evaluate earlier surgery or
2 transfer on the evening of Friday March 6, 2015;

3 e. Failing to round on C.P. on Saturday, March 7, 2015 despite his dire clinical
4 condition; and

5 f. Failing to round on C.P. on Monday morning, March 9, 2015.

6 **THIRD CAUSE FOR DISCIPLINE**

7 **(Inadequate Records)**

8 20. Respondent is subject to disciplinary action under section 2266 of the Code by failing
9 maintain adequate and accurate records relating to the provision of medical care to C.P.

10 21. Paragraphs 8 through 19, above are incorporated by reference and repeated as if fully
11 set forth.

12 **PRAYER**

13 WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged,
14 and that following the hearing, the Medical Board of California issue a decision:

15 1. Revoking or suspending Physician's and Surgeon's Certificate Number A 98794,
16 issued to William Lee Phillips, M.D.;

17 2. Revoking, suspending or denying approval of William Lee Phillips, M.D.'s authority
18 to supervise physician assistants and advanced practice nurses;

19 3. Ordering William Lee Phillips, M.D., if placed on probation, to pay the Board the
20 costs of probation monitoring; and

21
22 4. Taking such other and further action as deemed necessary and proper.
