1 **FACTUAL ALLEGATIONS**

2 15. On or about October 11, 2019, the Board received an online complaint regarding  
3 Respondent falling asleep during patient encounters. The complainant, L.F.<sup>1</sup>, served as a  
4 language interpreter for a patient regularly seen by Respondent. L.F. would accompany the  
5 patient to her medical appointments at Respondent's clinic, where she alleged that Respondent  
6 would completely fall asleep in mid-sentence when talking to the patient during the clinical visits.  
7 L.F. further alleged that, after dozing off, Respondent would then regain consciousness and  
8 resume talking as if nothing had happened. This pattern would repeat itself during the same  
9 clinical visit and had occurred at multiple clinical visits, according to L.F.

10 16. On February 11, 2020, the case was referred to the Health Quality Investigation Unit  
11 (HQIU) for further investigation.

12 17. On or about February 19, 2020, HQIU Investigator L.C. made an unannounced visit  
13 at Respondent's office and spoke with him. Investigator L.C. told Respondent that an allegation  
14 had been made of his falling asleep while treating patients. Respondent admitted to "dozing off"  
15 during patient appointments so he quit his position at an emergency medicine clinic where he had  
16 been working for some time. Respondent stated that he did not have narcolepsy and that he had  
17 taken Ativan nightly for approximately fifteen (15) years, but Respondent did not believe that it  
18 had any effect on his ability to practice medicine safely. Respondent declined to voluntarily  
19 provide a urine sample per Investigator L.C.'s request

20 18. On or about April 24, 2020, Respondent, with his attorney present, was interviewed  
21 by Investigator L.C. on behalf of the Board. During this interview, Respondent listed the names  
22 of the prescription medications that were currently prescribed to him, but Ativan was not one of  
23 them. Respondent denied any history of illicit or recreational drug use. He stated that since  
24 2018, he had been working in worker's compensation medicine, and currently worked five days a  
25 week. Respondent stated that he had worked "full-time" in emergency medicine between 1997  
26 until 2012. He denied ever having any lapses of consciousness. Respondent admitted that he had

27 \_\_\_\_\_  
28 <sup>1</sup> To protect the privacy of the complainant involved in this matter, the complainant's name has not been included in this pleading. Respondent is aware of the identity of L.F.

1 used Ativan in the past to deal with “bad insomnia,” but that he had only taken Ativan “on two  
2 different occasions.” Respondent then admitted that he had fallen asleep while seeing patients,  
3 that it had happened approximately three different times, and that it was because he had been  
4 “real tired.” At the conclusion of the interview, Respondent agreed to provide a voluntary urine  
5 sample, and he also signed voluntary agreements for a Business and Professions Code section 820  
6 mental evaluation and a Business and Professions Code section physical evaluation.

7 19. On or about April 28, 2020, Respondent presented at the Tustin HQIU field office  
8 and voluntarily provided a urine sample.

9 20. On or about May 12, 2020, Investigator L.C. obtained the results of Respondent’s  
10 urine sample which revealed a positive result for amphetamine and methamphetamine.

11 21. On or about June 4, 2020, Investigator L.C. obtained Controlled Substance Utilization  
12 Review and Evaluation System (CURES) patient activity reports for Respondent that covered the  
13 date range of February 20, 2013, through June 4, 2020. According to these CURES reports,  
14 Respondent did not fill any prescriptions for Ativan, or any other controlled substance  
15 prescriptions, during this timeframe.

16 22. On or about July 2, 2020, Respondent voluntarily submitted to a face-to-face mental  
17 evaluation by Board appointed psychiatrist, M.N., M.D.<sup>2</sup> After conducting an extensive review  
18 of materials, psychiatric testing, and a face-to-face evaluation with Respondent, Dr. M.N. opined  
19 that although Respondent did not have a psychiatric disorder, to be considered fully safe to  
20 practice medicine, Respondent should undergo random drug testing. Dr. M.N. found that  
21 Respondent’s unexplained positive drug test result for amphetamine and methamphetamine  
22 necessitated random drug testing, in order to find Respondent fully safe to practice medicine.  
23 Dr. M.N. also found troubling that Respondent had misused a controlled substance, which had  
24 occurred when he took Ativan given to him by a friend. Dr. M.N. noted that psychiatric testing

27 <sup>2</sup> Dr. M.N. is board certified in Psychiatry, Addiction Medicine, Pain Medicine,  
28 Psychopharmacology, Forensic Psychiatry, and Child Psychiatry.

1 had demonstrated that Respondent may be under-reporting, and potentially raised additional  
2 concerns surrounding how he was addressing his self-reported medical issue of insomnia.<sup>3</sup>

3 23. On or about July 14, 2020, Respondent voluntarily submitted to a face-to-face  
4 physical evaluation by Board appointed family medicine physician, F.H., M.D.<sup>4</sup> After conducting  
5 an extensive review of materials and a face-to-face physical evaluation of Respondent, Dr. F.H.  
6 opined that although Respondent did not present with any signs of physical ailments precluding  
7 work as a physician, in order for Respondent to continue to practice medicine safely, the  
8 condition of routine monitoring and random urine drug testing was necessary. Dr. F.H. found that  
9 Respondent's unexplained positive urine screen for amphetamines and methamphetamines is  
10 incompatible with the full certification of Respondent's ability to practice medicine safely.

11 24. On or about August 7, 2020, Investigator L.C. obtained the results of a D/L Isomer  
12 test of Respondent's urine sample, which confirmed a positive result for methamphetamine.

13 **FIRST CAUSE FOR ACTION**

14 **(Use of a Controlled Substance)**

15 25. Respondent has subjected his Physician's and Surgeon's Certificate No. G 48974 to

7 **(Violation of a Provision or Provisions of the Medical Practice Act)**

8 27. Respondent has further subjected his Physician's and Surgeon's Certificate No.
