Respondent.

19  
20  
21 IT IS HEREBY STIPULATED AND AGREED by and between the parties to the above-  
22 entitled proceedings that the following matters are true:

23 **PARTIES**

24 1. William Prasifka (Complainant) is the Executive Director of the Medical Board of  
25 California (Board). He brought this action solely in his official capacity and is represented in this  
26 matter by Rob Bonta, Attorney General of the State of California, by Megan R. O'Carroll, Deputy  
27 Attorney General.

28 ///

1 CULPABILITY

2 8. Respondent understands that the charges and allegations in Accusation No. 800-2019-  
3 053476, if proven at a hearing, constitute cause for imposing discipline upon his Physician's and  
4 Surgeon's Certificate.

5 9. For the purpose of resolving the Accusation without the expense and uncertainty of  
6 further proceedings, Respondent agrees that, at a hearing, Complainant could establish a factual  
7 basis for the charges in the Accusation and that those charges constitute cause for discipline.  
8 Respondent hereby gives up his right to contest that cause for discipline exists based on those  
9 charges. Respondent understands and agrees that if he should ever apply or reapply for a new  
10 license or certification, or petition for reinstatement of a license, by any health care licensing  
11 agency in the State of California, all of the charges and allegations contained in Accusation, No.  
12 800-2019-053476 shall be deemed to be true, correct, and admitted by Respondent for the  
13 purpose of any Statement of Issues or any other proceeding seeking to deny or restrict licensure.

14 10. Respondent understands that by signing this stipulation he enables the Board to issue  
15 an order accepting the surrender of his Physician's and Surgeon's Certificate without further  
16 process.

17 RESERVATION

18 11. The admissions made by Respondent herein are only for the purposes of this  
19 proceeding, or any other proceedings in which the Medical Board of California or other  
20 professional licensing agency is involved, and shall not be admissible in any other criminal or  
21 civil proceeding.

22 CONTINGENCY

23 12. Business and Professions Code section 2224, subdivision (b), provides, in pertinent  
24 part, that the Medical Board "shall delegate to its executive director the authority to adopt a ...  
25 stipulation for surrender of a license."

26 13. Respondent understands that, by signing this stipulation, he enables the Executive  
27 Director of the Board to issue an order, on behalf of the Board, accepting the surrender of his  
28

1 Physician's and Surgeon's Certificate No. A 79498 without further notice to, or opportunity to be  
2 heard by, Respondent.

3 14. This Stipulated Surrender of License and Disciplinary Order shall be subject to the  
4 approval of the Executive Director on behalf of the Board. The parties agree that this Stipulated  
5 Surrender of License and Disciplinary Order shall be submitted to the Executive Director for his  
6 consideration in the above-entitled matter and, further, that the Executive Director shall have a  
7 reasonable period of time in which to consider and act on this Stipulated Surrender of License and  
8 Disciplinary Order after receiving it. By signing this stipulation, Respondent fully understands  
9 and agrees that he may not withdraw his agreement or seek to rescind this stipulation prior to the  
10 time the Executive Director, on behalf of the Medical Board, considers and acts upon it.

11 15. The parties agree that this Stipulated Surrender of License and Disciplinary Order  
12 shall be null and void and not binding upon the parties unless approved and adopted by the  
13 Executive Director on behalf of the Board, except for this paragraph, which shall remain in full  
14 force and effect. Respondent fully understands and agrees that in deciding whether or not to  
15 approve and adopt this Stipulated Surrender of License and Disciplinary Order, the Executive  
16 Director and/or the Board may receive oral and written communications from its staff and/or the  
17 Attorney General's Office. Communications pursuant to this paragraph shall not disqualify the  
18 Executive Director, the Board, any member thereof, and/or any other person from future  
19 participation in this or any other matter affecting or involving respondent. In the event that the  
20 Executive Director on behalf of the Board does not, in his discretion, approve and adopt this  
21 Stipulated Surrender of License and Disciplinary Order, with the exception of this paragraph, it  
22 shall not become effective, shall be of no evidentiary value whatsoever, and shall not be relied  
23 upon or introduced in any disciplinary action by either party hereto. Respondent further agrees  
24 that should this Stipulated Surrender of License and Disciplinary Order be rejected for any reason  
25 by the Executive Director on behalf of the Board, Respondent will assert no claim that the  
26 Executive Director, the Board, or any member thereof, was prejudiced by its/his/her review,  
27 discussion and/or consideration of this Stipulated Surrender of License and Disciplinary Order or  
28 of any matter or matters related hereto.

1 16. The parties understand and agree that Portable Document Format (PDF) and facsimile  
2 copies of this Stipulated Surrender of License and Order, including PDF and facsimile signatures  
3 thereto, shall have the same force and effect as the originals.

4 17. In consideration of the foregoing admissions and stipulations, the parties agree that  
5 the Executive Director on behalf of the Board may, without further notice or formal proceeding,  
6 issue and enter the following Order:

7 **ORDER**

8 IT IS HEREBY ORDERED that Physician's and Surgeon's Certificate No. A 79498, issued  
9 to Respondent Ranganath Pathak, M.D., is surrendered and accepted by the Board.

10 1. The surrender of Respondent's Physician's and Surgeon's Certificate and the  
11 acceptance of the surrendered license by the Board shall constitute the imposition of discipline  
12 against Respondent. This stipulation constitutes a record of the discipline and shall become a part  
13 of Respondent's license history with the Board.

14 2. Respondent shall lose all rights and privileges as a Physician and Surgeon in  
15 California as of the effective date of the Board's Decision and Order.

16 3. Respondent shall cause to be delivered to the Board his pocket license and, if one was  
17 issued, his wall certificate on or before the effective date of the Decision and Order.

18 4. If Respondent ever files an application for licensure or a petition for reinstatement in  
19 the State of California, the Board shall treat it as a petition for reinstatement. Respondent must  
20 comply with all the laws, regulations and procedures for reinstatement of a revoked or  
21 surrendered license in effect at the time the petition is filed, and all of the charges and allegations  
22 contained in Accusation No. 800-2019-053476 shall be deemed to be true, correct and admitted  
23 by Respondent when the Board determines whether to grant or deny the petition.

24 5. If Respondent should ever apply or reapply for a new license or certification, or  
25 petition for reinstatement of a license, by any other health care licensing agency in the State of  
26 California, all of the charges and allegations contained in Accusation, No. 800-2019-053476 shall  
27 be deemed to be true, correct, and admitted by Respondent for the purpose of any Statement of  
28 Issues or any other proceeding seeking to deny or restrict licensure.

**ACCEPTANCE**

I have carefully read the above Stipulated Surrender of License and Order and have fully discussed it with my attorney Ian A. Scharg. I understand the stipulation and the effect it will have on my Physician's and Surgeon's Certificate. I enter into this Stipulated Surrender of License and Order voluntarily, knowingly, and intelligently, and agree to be bound by the Decision and Order of the Medical Board of California.

DATED: 1/12/2022   
RANGANATH PATHAK, M.D.  
*Respondent*

I have read and fully discussed with Respondent Ranganath Pathak, M.D. the terms and conditions and other matters contained in this Stipulated Surrender of License and Order. I approve its form and content.

DATED: 1/22/2022   
IAN A. SCHARG  
*Attorney for Respondent*

**ENDORSEMENT**

The foregoing Stipulated Surrender of License and Order is hereby respectfully submitted for consideration by the Medical Board of California of the Department of Consumer Affairs.

DATED: 2/4/2022 Respectfully submitted,  
ROB BONTA  
Attorney General of California

**ACCUSATION**

17 **Physician's and Surgeon's Certificate**  
18 **No. A 79498,**

Respondent.

19  
20  
21 **PARTIES**

22 1. William Prasifka (Complainant) brings this Accusation solely in his official capacity  
23 as the Executive Director of the Medical Board of California, Department of Consumer Affairs  
24 (Board).

25 2. On or about June 14, 2002, the Medical Board issued Physician's and Surgeon's  
26 Certificate No. A 79498 to Ranganath Pathak, M.D. (Respondent). The Physician's and  
27 Surgeon's Certificate was in full force and effect at all times relevant to the charges brought  
28 herein and will expire on September 30, 2021, unless renewed.

**JURISDICTION**

1  
2       3.    This Accusation is brought before the Board, under the authority of the following  
3 laws. All section references are to the Business and Professions Code (Code) unless otherwise  
4 indicated.

5       4.    Section 2227 of the Code provides that a licensee who is found guilty under the  
6 Medical Practice Act may have his or her license revoked, suspended for a period not to exceed  
7 one year, placed on probation and required to pay the costs of probation monitoring, or such other  
8 action taken in relation to discipline as the Board deems proper.

9       5.    Section 2234 of the Code states, in pertinent part:

10           The board shall take action against any licensee who is charged with  
11 unprofessional conduct. In addition to other provisions of this article, unprofessional  
conduct includes, but is not limited to, the following:

12           (a) Violating or attempting to violate, directly or indirectly, assisting in or  
13 abetting the violation of, or conspiring to violate any provision of this chapter.

14           (b) Gross negligence.

15           (c) Repeated negligent acts. To be repeated, there must be two or more  
16 negligent acts or omissions. An initial negligent act or omission followed by a  
separate and distinct departure from the applicable standard of care shall constitute  
repeated negligent acts.

17           (1) An initial negligent diagnosis followed by an act or omission medically  
18 appropriate for that negligent diagnosis of the patient shall constitute a single  
negligent act.

19           (2) When the standard of care requires a change in the diagnosis, act, or  
20 omission that constitutes the negligent act described in paragraph (1), including, but  
not limited to, a reevaluation of the diagnosis or a change in treatment, and the  
21 licensee's conduct departs from the applicable standard of care, each departure  
constitutes a separate and distinct breach of the standard of care.

22           ...

23           (e) The commission of any act involving dishonesty or corruption that is  
24 substantially related to the qualifications, functions, or duties of a physician and  
surgeon.

25           (f) Any action or conduct that would have warranted the denial of a certificate.

26           ...

27    ///

28    ///

1 6. Section 2228.1 of the Code states, in pertinent part:

2 (a) On and after July 1, 2019, except as otherwise provided in subdivision (c),  
3 the board shall require a licensee to provide a separate disclosure that includes the  
4 licensee's probation status, the length of the probation, the probation end date, all  
5 practice restrictions placed on the licensee by the board, the board's telephone  
6 number, and an explanation of how the patient can find further information on the  
7 licensee's probation on the licensee's profile page on the board's online license  
8 information Internet Web site, to a patient or the patient's guardian or health care  
9 surrogate before the patient's first visit following the probationary order while the  
10 licensee is on probation pursuant to a probationary order made on and after July 1,  
11 2019, in any of the following circumstances:

12 (1) A final adjudication by the board following an administrative hearing or  
13 admitted findings or prima facie showing in a stipulated settlement establishing any  
14 of the following:

15 (A) The commission of any act of sexual abuse, misconduct, or relations with a  
16 patient or client as defined in Section 726 or 729.

17 (B) Drug or alcohol abuse directly resulting in harm to patients or the extent  
18 that such use impairs the ability of the licensee to practice safely.

19 (C) Criminal conviction directly involving harm to patient health.

20 (D) Inappropriate prescribing resulting in harm to patients and a probationary  
21 period of five years or more.

22 (2) An accusation or statement of issues alleged that the licensee committed any  
23 of the acts described in subparagraphs (A) to (D), inclusive, of paragraph (1), and a  
24 stipulated settlement based upon a nolo contendere or other similar compromise that  
25 does not include any prima facie showing or admission of guilt or fact but does  
26 include an express acknowledgment that the disclosure requirements of this section  
27 would serve to protect the public interest.

28 (b) A licensee required to provide a disclosure pursuant to subdivision (a) shall  
obtain from the patient, or the patient's guardian or health care surrogate, a separate,  
signed copy of that disclosure.

(c) A licensee shall not be required to provide a disclosure pursuant to  
subdivision (a) if any of the following applies:

(1) The patient is unconscious or otherwise unable to comprehend the  
disclosure and sign the copy of the disclosure pursuant to subdivision (b) and a  
guardian or health care surrogate is unavailable to comprehend the disclosure and  
sign the copy.

(2) The visit occurs in an emergency room or an urgent care facility or the visit  
is unscheduled, including consultations in inpatient facilities.

(3) The licensee who will be treating the patient during the visit is not known to  
the patient until immediately prior to the start of the visit.

(4) The licensee does not have a direct treatment relationship with the patient.

1 (d) On and after July 1, 2019, the board shall provide the following  
2 information, with respect to licensees on probation and licensees practicing under  
3 probationary licenses, in plain view on the licensee's profile page on the board's  
4 online license information Internet Web site.

5 (1) For probation imposed pursuant to a stipulated settlement, the causes  
6 alleged in the operative accusation along with a designation identifying those causes  
7 by which the licensee has expressly admitted guilt and a statement that acceptance of  
8 the settlement is not an admission of guilt.

9 (2) For probation imposed by an adjudicated decision of the board, the causes  
10 for probation stated in the final probationary order.

11 (3) For a licensee granted a probationary license, the causes by which the  
12 probationary license was imposed.

13 (4) The length of the probation and end date.

14 (5) All practice restrictions placed on the license by the board.

15 (e) Section 2314 shall not apply to this section.

16 7. Section 726 of the Code states, in pertinent part:

17 (a) The commission of any act of sexual abuse, misconduct, or relations with a  
18 patient, client, or customer constitutes unprofessional conduct and grounds for  
19 disciplinary action for any person licensed under this or under any initiative act  
20 referred to in this division.

21 (b) This section shall not apply to consensual sexual contact between a licensee  
22 and his or her spouse or person in an equivalent domestic relationship when that  
23 licensee provides medical treatment, to his or her spouse or person in an equivalent  
24 domestic relationship.

25 8. Section 2266 of the Code states, in pertinent part:

26 The failure of a physician and surgeon to maintain adequate and accurate records  
27 relating to the provision of services to their patient constitutes unprofessional conduct.

28 **FACTUAL ALLEGATIONS**

9. Respondent is a board-certified general surgeon and colo-rectal surgeon. He is part of  
a medical group where he solely practices colo-rectal examinations and procedures.

///

///

///

///

///

1 **Patient A:**<sup>1</sup>

2 10. On or about June 7, 2016, Patient A underwent a colonoscopy during which her  
3 doctor found a concerning rectal mass. Patient A was then referred to Respondent for further  
4 evaluation.

5 11. On or about June 16, 2016, Patient A met with Respondent for the first time.  
6 Respondent performed a rectal examination and, consistent with the findings from the  
7 colonoscopy, located a rectal mass. Respondent ordered a carcinoembryonic antigen (CEA) test<sup>2</sup>  
8 as well as an MRI.

9 12. On or about June 23, 2016, Respondent saw Patient A for a follow-up visit to discuss  
10 the results of a pelvic MRI she had the day prior. Patient A was ultimately diagnosed with rectal  
11 cancer. Respondent ordered a PET-CT scan to figure out Patient A's stage of cancer. Respondent  
12 also recommended Patient A start chemoradiation therapy.

13 13. On or about July 1, 2016, Respondent discussed the PET-CT scan findings with  
14 Patient A. Respondent recommended Patient A start with chemoradiation followed by a robotic  
15 assisted low anterior resection and diverting ileostomy.<sup>3</sup>

16 14. On or about October 17, 2016, Patient A underwent a robotic-assisted low anterior  
17 resection with coloanal anastomosis and diverting ileostomy. Subsequent to this surgery, Patient  
18 A had no evidence of a residual tumor.

19 15. From on or about November 22, 2016 through September 19, 2019, Patient A  
20 continued to visit with Respondent for follow-up care. Through on or about December 2017, the  
21 visits would take place every 1-2 months. After that, the visits became less frequent with Patient  
22 A visiting Respondent every six months. This pattern continued until her last visit on September  
23 12, 2019.

24  
25  
26 <sup>1</sup> The Patient's names have been redacted to protect confidentiality. The names will be  
fully identified in discovery.

27 <sup>2</sup> CEA is an antigen that is found on the surface of many types of cancer cells. An  
abnormal level of CEA could be indicative of cancer.

28 <sup>3</sup> An ileostomy is a surgical operation in which a piece of the last part of the small  
intestine (ileum) is diverted to an artificial opening in the abdominal wall.

1           16. Prior to September 12, 2019, Respondent typically had a chaperone in the room while  
2 examining Patient A. Respondent's custom and practice was to have Patient A pull her pants  
3 down to her ankles and have the patient lie flat on her back so that he could examine her  
4 abdomen. Respondent would then have Patient A lie on her stomach. The exam table had a hump  
5 such that Patient A's rear was raised during the examination. Respondent would put a paper drape  
6 over Patient A so that she was partially covered. Respondent would then examine Patient A's  
7 rectum. Respondent never conducted vaginal examinations on Patient A.

8           17. Patient A's last visit with Respondent was on or about September 12, 2019. For  
9 approximately one or two visits prior to the last one, Patient A noticed there was no chaperone  
10 during her examinations. While this made Patient A uncomfortable, she did not mention it to  
11 Respondent. Patient A also noticed Respondent became friendlier towards her, hugging her when  
12 she left his office. After the examinations were over, Patient A and Respondent would discuss  
13 quality of life issues associated with her surgery. Patients with these surgeries often go through a  
14 syndrome called low anterior resection syndrome (LARS).<sup>4</sup> Respondent had knowledge of how  
15 LARS affected Patient A's body and marriage. Patient A trusted and felt comforted by  
16 Respondent.

17           18. On or about September 12, 2019, Patient A went to see Respondent for a routine  
18 follow-up appointment. Prior to the appointment, Patient A had been having difficulty with her  
19 LARS symptoms. At the appointment, Respondent asked Patient A whether she was experiencing  
20 any issues during sexual intercourse. Patient A described an incident that was causing her stress.  
21 Respondent followed up by asking her whether her concerns were due to emotional or physical  
22 issues. Patient A was adamant she did not have any physical issues. Respondent then advised  
23 Patient A to purchase an adult sex toy and practice having orgasms. He even recommended a  
24 specific sex toy. Respondent told Patient A to report back to him how many orgasms she  
25 achieved. Patient A was uncomfortable and nervous but she tried making light of the situation by  
26

27           <sup>4</sup> LARS is a collection of symptoms or issues patients have after undergoing a resection or  
28 removal of part of or the entire rectum. The symptoms can include fecal incontinency or urgency,  
frequent or fragmented bowel movements, emptying difficulties, and increased intestinal gas.

1 joking with Respondent. After that uncomfortable conversation, Respondent then told her he was  
2 going to perform an exam on her.

3 Respondent did not call for a chaperone during any point of the examination. Per their  
4 routine, Patient A pulled her pants down and Respondent examined her rectum. The Respondent  
5 said, "Now I'm gonna do a vaginal exam, is that okay"? Even though Patient A was not okay  
6 with the examination, she remained silent. Respondent did not have Patient A lie on her back,  
7 rather, he conducted a vaginal examination while Patient A was still lying on her stomach.  
8 Respondent then inserted two fingers into her vagina and "probed" for about 5-10 seconds.  
9 Patient A had never had a vaginal examination in that position before and reported that it felt  
10 "really different." After Respondent finished, he said something to the effect of "[e]verything  
11 looks fine."

12 Patient A was so nervous and uncomfortable with the examination she just wanted to  
13 leave the room. As she began to walk out the door, Respondent reached over to hug her. As  
14 Patient A was trying to get to the door, Respondent moved quickly toward her right side.  
15 Respondent put one arm around Patient A's back and the other arm across her front. Respondent  
16 then placed his left hand on her breast and did not move it. Patient A looked at Respondent and  
17 noticed he was looking down at her breasts. Patient A pulled away and immediately realized that  
18 her treatment was not "legitimate."

19 19. On or about August 7, 2020, Stacie Barrera, an investigator with the Division of  
20 Investigation (DOI), interviewed Respondent about his treatment of Patient A. Respondent stated  
21 his practice's policy is to have a chaperone present when examining a female patient. Respondent  
22 admitted that during the period in question, it was not his custom to document the name of the  
23 chaperone present with him. However, Respondent insisted there was a chaperone present while  
24 he examined Patient A on September 12, 2019. On that date, Respondent described conducting an  
25 abdominal exam and a proctoscopy on Patient A. Respondent denied performing a vaginal  
26 examination on her but admitted he introduced lubrication into Patient A's anal canal to conduct a  
27 proctoscopy.

28 ///

1 Respondent could not specifically remember having a conversation with Patient A  
2 about a brand of adult sex toy nor did he remember discussing orgasms with her. However, he  
3 admitted that if Patient A had discussed incontinence during sexual intercourse, he would have  
4 given advice about using a sex toy for her issues. Lastly, although Respondent admitted to  
5 occasionally hugging his patients, Respondent denied hugging Patient A. Respondent believed he  
6 may have put his hand on her shoulder to lead her out of the room.

7 20. On or about September 18, 2020, DOI investigator Barrera spoke with one of  
8 Respondent's medical assistants, L.T. L.T. was familiar with Patient A and knew that she was a  
9 patient at the clinic. L.T. could not recall being in the room during Patient A's final appointment  
10 because she could not remember the specific date of that appointment. Later, on or about  
11 September 24, 2020, DOI investigator Barrera confirmed that L.T. worked on the date of Patient  
12 A's appointment.

13 **Patient B:**

14 21. In or around 2019, Patient B sought advice from her primary care physician for issues  
15 she was having with her bowels. The primary care physician referred her to Respondent for a  
16 consultation. Patient B scheduled an appointment with Respondent on January 3, 2020 after she  
17 could not schedule an appointment with her own doctor.

18 22. On or about January 3, 2020, Patient B went to her scheduled appointment with  
19 Respondent. Patient B was taken into an examination room where her vitals were taken prior to  
20 getting escorted into Respondent's office. Once Respondent came into the office, Respondent and  
21 Patient B discussed her medical history. They then went into an exam room where Patient B was  
22 told to pull her pants down to her ankles and put her knees on a bed with her buttocks facing  
23 upwards. Patient B was not asked to put a robe on but Respondent walked out while she lowered  
24 her pants and got into position. The medical assistant stayed in the room both before and during  
25 the exam.

26 23. During the examination, Respondent did not explain what he was doing. Patient B  
27 believed Respondent used an instrument inside her anus but she could not be sure. Patient B heard  
28 a snap, felt some pain, and then Respondent announced he had completed the examination.

1           24. After the examination, Patient B got dressed and then went to Respondent's office  
2 where it was just the two of them. Respondent explained that the exam went well and suggested  
3 Patient B schedule a colonoscopy per her normal schedule. Respondent and Patient B discussed  
4 her diet after Patient B explained she had lost 42 pounds through intermittent fasting. Patient B  
5 thought her appointment was over.

6           25. Respondent continued the appointment by questioning Patient B about her history  
7 with breast lumps. Patient B explained she had breast examinations every six months and  
8 everything had been normal. Respondent then said, "Let me see." Respondent got out of his chair,  
9 went over to where Patient B was standing, stood in front of her, and asked, "Where?" Patient B  
10 pointed to the breast that previously had lumps. Respondent touched that same breast over Patient  
11 B's clothes. Respondent told Patient B he could not feel anything. Respondent then pulled Patient  
12 B's dress open at the neck and stuck his hand down into her bra. Patient B heard her collar rip as  
13 Respondent's hand went down on her breast. Respondent apologized and then asked Patient B to  
14 lift her dress and bra. Patient B lifted her dress and bra up above her breasts exposing both her  
15 breasts. Respondent then put both his hands on her breasts and touched her nipples. Respondent  
16 then went underneath Patient B's breasts and kept squeezing, cupping, touching her nipples and  
17 pushing her breasts together repeatedly. Patient B noted there was no specific pattern to what  
18 Respondent was doing. Respondent then said, "Oh yeah, they're really heavy, huh?" Patient B  
19 explained she intended on having a breast reduction. Respondent then bounced Patient B's breasts  
20 and asked her about their size. When Patient B responded, he then said, "Yeah, you could stand to  
21 lose some." Patient B estimated she was standing in front of Respondent for at least three minutes  
22 while Respondent was feeling her breasts.

23           26. On or about August 7, 2020, Respondent was interviewed by Stacie Barrera  
24 regarding his treatment of Patient B. Respondent admitted that during the time in question, he did  
25 not routinely document the chaperone in a patient's chart, including Patient B. Respondent noted  
26 he has since changed his practice. When Respondent was questioned as to whether he performed  
27 a breast examination on Patient B, he denied performing such an examination and further denied  
28 having any conversation with her about her breast size.

1 **Patient C**

2 27. Patient C was referred to Respondent to be evaluated and possibly treated for issues  
3 with obstructed defecation. On or about August 27, 2018, Respondent performed a detailed  
4 history and physical on Patient C, which included an anorectal examination. The results of that  
5 examination demonstrated that Patient C had a moderate sized anterior rectocele. Respondent  
6 described his findings and made suggestions for further testing.

7 28. On or about September 18, 2018, Respondent described his further findings with  
8 Patient C. Respondent confirmed a finding of a small anterior rectocele<sup>5</sup> as well as internal rectal  
9 mucosal prolapse resulting in an intussusception.<sup>6</sup> He then scheduled a future appointment for  
10 Patient C where he would conduct a rubber band ligation (RBL) procedure of the intussuscepting  
11 rectal mucosa.

12 29. On or about January 10, 2019, Respondent performed the RBL procedure on Patient  
13 C. Patient C described the procedure as painful. Respondent did not explain the nature of the  
14 procedure he would be conducting on Patient C. Thus, Patient C was confused and believed she  
15 was going to have a procedure to treat her rectocele. Due to that confusion, on two occasions  
16 during the procedure, Patient C asked Respondent to explain his actions. Patient C stated that  
17 immediately after the procedure she did not feel well, hyperventilated, and was in a cold sweat.  
18 Patient C waited for half an hour until she felt better to drive home. Patient C felt discomfort the  
19 following day as well as intermittently for the several weeks following the procedure.

20 30. On or about August 7, 2020, Respondent was by Stacie Barrera regarding his  
21 treatment of Patient C. Respondent stated he explained the RBL procedure to Patient C prior to  
22 her appointment on January 10, 2019. He stated he told Patient C that the procedure would be  
23 simple, not painful, and result in some discomfort. He advised Patient C to get the procedure at  
24 the end of the week to allow her the weekend to recover. In response to whether he obtained  
25 consent from Patient C, Respondent said, “[S]o when they come back for follow-up, for the

26 \_\_\_\_\_  
27 <sup>5</sup> An anterior rectocele is the name given to a pocket or bulge in the part of the bowel  
lying under the back wall of the vagina. It is a type of prolapse.

28 <sup>6</sup> Internal rectal intussusception is a medical condition defined as a funnel shaped  
infolding of the rectal wall that can occur during defecation.

1 procedure itself, they are informed that they are coming back voluntarily for the procedure.”  
2 Overall, Respondent stated after he placed the rubber band, the procedure went well. He stated he  
3 injected Patient C with some lidocaine to numb the area and make it more comfortable.  
4 Respondent admits he likely did not make this notation in the patient’s medical chart.

5 31. Patient C’s medical chart did not indicate Respondent obtained a written or oral  
6 informed consent from Patient C for the procedure performed on her. Further, the notes did not  
7 mention a discussion about the risks and benefits of the RBL procedure; the possible outcomes;  
8 and the usual postoperative course related to a RBL procedure. Respondent’s note was fairly brief  
9 and included the diagnosis being treated, a quick description of the procedure itself, a mention of  
10 Patient C’s postoperative “vasovagal reaction” and the appropriate postoperative instructions.

11 **FIRST CAUSE FOR DISCIPLINE**

12 **(Sexual Misconduct)**

13 32. Respondent is subject to disciplinary action under section 726 of the Code in that he  
14 committed sexual misconduct against two patients. The circumstances are as follows:

- 15 a. Paragraphs 10 through 26, above, are incorporated herein as if fully set forth.  
16 b. Respondent’s conduct, as set forth above, constitutes sexual misconduct with a  
17 patient in violation of section 726 of the Code, thus subjecting Respondent’s license to discipline.

18 **SECOND CAUSE FOR DISCIPLINE**

19 **(Gross Negligence)**

20 33. Respondent’s license is subject to disciplinary action under section 2234, subdivision  
21 (b), of the Code, in that he committed gross negligence during the care and treatment of Patients  
22 A and B, as more particularly alleged in paragraphs 10 through 26, above, which is hereby  
23 incorporated by reference and realleged as if fully set forth herein.

24 34. Respondent’s license is subject to disciplinary action because he committed gross  
25 negligence during the care and treatment of Patients A and B in the following distinct and  
26 separate ways:

- 27 a. Performing a vaginal examination on Patient A without a written or verbal  
28 consent;

1 **FOURTH CAUSE FOR DISCIPLINE**

2 **(Inadequate and Inaccurate Record Keeping)**

3 37. Respondent's license is subject to disciplinary action under section 2266 of the Code,  
4 in that he kept inadequate and inaccurate medical records during the treatments of Patients A, B,  
5 and C, as more particularly alleged in paragraphs 10 through 31, above, which is hereby  
6 incorporated by reference and realleged as if fully set forth herein.

7 **FIFTH CAUSE FOR DISCIPLINE**

8 **(Unprofessional Conduct)**

9 Respondent is subject to disciplinary action under section 2234 in that he has engaged in  
10 conduct which breaches the rules or ethical code of the medical profession, or conduct which is  
11 unbecoming to a member in good standing of the medical profession, and which demonstrates an  
12 unfitness to practice medicine, as alleged in paragraphs 10 through 37 above, which are  
13 incorporated by reference and realleged as if fully set forth here.

PRAYER

WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged, and that following the hearing, the Medical Board of California issue a decision:

1. Revoking or suspending Physician's and Surgeon's Certificate No. A 79498, issued to Ranganath Pathak, M.D.;
2. Revoking, suspending or denying approval of Ranganath Pathak, M.D.'s authority to supervise physician assistants and advanced practice nurses;
3. Ordering Ranganath Pathak, M.D., if placed on probation, to pay the Board the costs of probation monitoring;
4. Ordering Ranganath Pathak, M.D., if placed on probation to disclose the disciplinary order to patients pursuant to section 2228.1 of the Code; and
5. Taking such other and further action as deemed necessary and proper.

DATED: MAY 04 2021

  
WILLIAM PRASIFKA  
Executive Director  
Medical Board of California  
Department of Consumer Affairs  
State of California  
*Complainant*
