LICENSE AND ORDER**

17 IT IS HEREBY STIPULATED AND AGREED by and between the parties to the above-
18 entitled proceedings that the following matters are true:

19 **PARTIES**

20 1. William Prasifka (Complainant) is the Executive Director of the Medical Board of
21 California (Board). He brought this action solely in his official capacity and is represented in this
22 matter by Rob Bonta, Attorney General of the State of California, by Rebecca L. Smith, Deputy
23 Attorney General.

24 2. Narendra Kantilal Raval, M.D. (Respondent) is represented in this proceeding by
25 attorney Dennis Thelan, whose address is 5001 East Commercenter Drive, Suite 300, Bakersfield,
26 California 93309-1687.

27 3. On or about October 19, 1981, the Board issued Physician's and Surgeon's Certificate
28 No. A 37591 to Respondent. That license expired on October 31, 2019, and has not been

1 renewed.

2 **JURISDICTION**

3 4. On May 6, 2022, Accusation No. 800-2019-056631 was filed before the Board, and is
4 currently pending against Respondent. The Accusation and all other statutorily required
5 documents were properly served on Respondent. A copy of Accusation No. 800-2019-056631 is
6 attached as Exhibit A and incorporated by reference.

7 **ADVISEMENT AND WAIVERS**

8 5. Respondent has carefully read, fully discussed with counsel, and understands the
9 charges and allegations in Accusation No. 800-2019-056631. Respondent also has carefully read,
10 fully discussed with counsel, and understands the effects of this Stipulated Surrender of License
11 and Order.

14 the witnesses against him; the right to present evidence and to testify on his own behalf; the right
15 to the issuance of subpoenas to compel the attendance of witnesses and the production of
16 documents; the right to reconsideration and court review of an adverse decision; and all other
17 rights accorded by the California Administrative Procedure Act and other applicable laws.

18 7. Respondent voluntarily, knowingly, and intelligently waives and gives up each and
19 every right set forth above.

20 **CULPABILITY**

21 8. Respondent understands that the charges and allegations in Accusation No. 800-2019-
22 056631, if proven at a hearing, constitute cause for imposing discipline upon his Physician's and
23 Surgeon's Certificate.

24 9. For the purpose of resolving the Accusation without the expense and uncertainty of
25 further proceedings, Respondent agrees that, at a hearing, Complainant could establish a factual
26 basis for the charges in the Accusation and that those charges constitute cause for discipline.
27 Respondent hereby gives up his right to contest that cause for discipline exists based on those
28 charges.

1 10. Respondent understands that by signing this stipulation he enables the Board to issue
2 an order accepting the surrender of his Physician's and Surgeon's Certificate without further
3 process.

4 CONTINGENCY

5 11. This stipulation shall be subject to approval by the Board. Respondent understands
6 and agrees that counsel for Complainant and the staff of the Board may communicate directly
7 with the Board regarding this stipulation and surrender, without notice to or participation by
8 Respondent or his counsel. By signing the stipulation, Respondent understands and agrees that he
9 may not withdraw his agreement or seek to rescind the stipulation prior to the time the Board
10 considers and acts upon it. If the Board fails to adopt this stipulation as its Decision and Order,
11 the Stipulated Surrender and Disciplinary Order shall be of no force or effect, except for this
12 paragraph, it shall be inadmissible in any legal action between the parties, and the Board shall not
13 be disqualified from further action by having considered this matter.

14 12. This Stipulated Surrender of License and Order is intended by the parties herein to be
15 an integrated writing representing the complete, final and exclusive embodiment of the agreement
16 of the parties in this above entitled matter.

17 13. The parties understand and agree that Portable Document Format (PDF) and facsimile
18 copies of this Stipulated Surrender of License and Order, including PDF and facsimile signatures
19 thereto, shall have the same force and effect as the originals.

20 14. In consideration of the foregoing admissions and stipulations, the parties agree that
21 the Board may, without further notice or formal proceeding, issue and enter the following Order:

22 ORDER

23 IT IS HEREBY ORDERED that Physician's and Surgeon's Certificate No. A 37591, issued
24 to Respondent Narendra Kantilal Raval, M.D., is surrendered and accepted by the Board.

25 1. The surrender of Respondent's Physician's and Surgeon's Certificate and the
26 acceptance of the surrendered license by the Board shall constitute the imposition of discipline
27 against Respondent. This stipulation constitutes a record of the discipline and shall become a part
28 of Respondent's license history with the Board.

1 2. Respondent shall lose all rights and privileges as an anesthesiologist in California as
2 of the effective date of the Board's Decision and Order.

3 3. Respondent shall cause to be delivered to the Board his pocket license and, if one was

5 4. If Respondent ever files an application for licensure or a petition for reinstatement in
6 the State of California, the Board shall treat it as a petition for reinstatement. Respondent must
7 comply with all the laws, regulations and procedures for reinstatement of a revoked or
8 surrendered license in effect at the time the petition is filed, and all of the charges and allegations
9 contained in Accusation No. 800-2019-056631 shall be deemed to be true, correct and admitted
10 by Respondent when the Board determines whether to grant or deny the petition.

11 5. Respondent shall pay the agency its costs of investigation and enforcement in the
12 amount of \$13,822.25 (thirteen thousand eight hundred twenty-two dollars and twenty-five cents)
13 prior to issuance of a new or reinstated license.

14 6. If Respondent should ever apply or reapply for a new license or certification, or
15 petition for reinstatement of a license, by any other health care licensing agency in the State of
16 California, all of the charges and allegations contained in Accusation, No. 800-2019-056631 shall
17 be deemed to be true, correct, and admitted by Respondent for the purpose of any Statement of
18 Issues or any other proceeding seeking to deny or restrict licensure.

1 the costs of investigation and enforcement of a case in any stipulated settlement.

2 (j) This section does not apply to any board if a specific statutory provision in
3 that board's licensing act provides for recovery of costs in an administrative
4 disciplinary proceeding.

5 **FIRST CAUSE FOR DISCIPLINE**

6 **(Gross Negligence)**

7 9. Respondent is subject to disciplinary action under section 2234, subdivision (b), of
8 the Code, in that he engaged in gross negligence in the care and treatment of Patient 1.¹ The
9 circumstances are as follows:

10 10. On or about June 6, 2019, the Board received a Code section 805 Health Facility/Peer
11 Review Report from Mercy Hospital (Hospital) that stated that in August of 2018, the Hospital
12 opened an investigation regarding a possible medication error made by Respondent. Respondent
13 was made aware of the investigation, and while the investigation was pending, Respondent
14 resigned his medical staff membership and clinical privileges.

15 11. On or about August 16, 2018, Patient 1, a 34-year-old female, was admitted to Mercy
16 Hospital at 39 weeks gestation for a scheduled elective repeat Cesarean section. Her past medical
17 history was negative and she was in excellent health.

18 12. The delivery was performed by obstetrician, Dr. M.T., and assisted by obstetrician,
19 Dr. J.T. Respondent was the anesthesiologist for Patient 1's delivery.

20 13. Medications in the operating room are kept in an Omnicell (a secure medication
21 dispensing cabinet with various drawers). The planned anesthetic was a spinal injection of
22 Marcaine 0.75%². The Marcaine 0.75% ampules were stored in the back left of drawer number 4
23 of the Omnicell, which was the anesthesia medication drawer.

24 14. In the operating room, Patient 1 was placed in a sitting position. Respondent
25 administered a spinal anesthetic which he believed was spinal Marcaine plus Duramorph³, and
26 then the patient was turned supine. After the spinal injection, the patient did not become numb as

27 ¹ The patient herein is referred to as Patient 1 in order to protect her privacy.

28 ² Marcaine 0.75% is the brand name of bupivacaine hydrochloride and epinephrine. It is used as
local anesthesia, caudal block, epidural block, nerve blocks, and spinal anesthesia.

³ Duramorph is a systemic narcotic analgesic administered epidurally or intrathecally.

1 expected. Respondent alleged that he stated that the medication being used had already
 2 "expired." Only Respondent examined the expiration date and the ampule. Respondent then
 3 injected another dose of the spinal anesthetic medication into the patient - Patient 1 was once
 4 again placed in the sitting position, and a repeat spinal anesthetic injection was administered.
 5 Within minutes, the patient became numb. The Cesarean section was performed without
 6 complication. The infant was presented to the mother in the operating room, and then taken to the
 7 neonatal unit for observation. The records for the procedure indicated that the duration of the
 8 anesthesia on the case was from 7:26 a.m. to 8:55 a.m., and that the duration of the surgery was
 9 from 8:11 a.m. to 8:49 a.m.

10 15. Following the closure of the Cesarean section incisions, Patient 1 was taken back to
 11 her labor and delivery room. At 10:08 a.m., approximately one hour and thirteen minutes after
 12 the conclusion of the anesthetic time for the Cesarean section, the patient became unresponsive
 13 with dilated pupils. Her oxygen saturation rate was at 99-100%, her heart rate was 130 beats per
 14 minute, her systolic blood pressure was 130 to 140 and her respiratory rate was 8 to 10 breaths
 15 per minute.

16 16. Respondent was paged to the patient's bedside. He arrived at 10:26 a.m. The Acute
 17 Care Team had already administered Narcan intravenously twice with no change in the patient's
 18 condition. Respondent confirmed that the patient was unresponsive with dilated pupils. He
 19 attempted to place an oral airway but the patient spit it out. He then placed an endotracheal tube
 20 for airway protection and management without giving any additional medications. The patient
 21 underwent a head CT scan to rule out a possible amniotic fluid embolism and it was interpreted as
 22 a normal examination of the head. The patient then had multiple grand mal seizures and was
 23 admitted to the intensive care unit (ICU) where she was managed by the hospital's intensivist.
 24 The patient was treated with Keppra for the seizures and with propofol and fentanyl for sedation.
 25 She had complete paraplegia. Laboratory studies drawn that day revealed evidence of digoxin⁴ in
 26 the patient's blood. An MRI of the brain showed symmetric edema in the medial aspects of the
 27 bilateral temporal lobes, bilateral insular cortices, bilateral frontal lobes, and bilateral basal

28 ⁴ Digoxin is used to treat heart failure and abnormal heart rhythms.

1 ganglia.

2 17. On or about August 18, 2018, Patient 1 was transferred to the neurology ICU at
3 Memorial Hospital for a higher level of care. She remained obtunded and in the ICU until
4 extubation on or about August 29, 2018. She was discharged home on or about September 11,
5 2018. Her discharge diagnoses included complete paraplegia, altered mental state, spinal cord
6 inflammation, and brain edema. She was enrolled in a day treatment program at the Center for
7 Neuro Skills, 5-days a week, 6-hours a day, for speech, physical therapy, occupational therapy
8 and counseling. She used a wheelchair for the next year and thereafter began walking with the
9 assistance of a walker.

10 18. On or about August 16, 2018, the hospital initiated an investigation regarding the
11 digoxin level found in the patient's system. In the sharps container⁵ in the operating room, there
12 was no expired Marcaine ampules; however, there was an empty digoxin ampule. The Omnicell
13 record indicated that there were three ampules of digoxin in the machine, but only two ampules
14 were still physically present inside the machine. The digoxin had been stocked in that Omnicell
15 in or around October 2017, and no one had used any digoxin from that Omnicell since that time.
16 The digoxin ampules were stored in the back left of drawer number 7 of the Omnicell (the cardiac
17 drawer) and the spinal Marcaine 0.75% ampules were stored in a similar location in the back left
18 of the anesthesia drawer. The Omnicell record dated August 16, 2018 reflects that drawer
19 number 7, the cardiac drawer which contained the digoxin, was accessed at 6:47 a.m. It was
20 determined that Respondent administered digoxin instead of bupivacaine for spinal anesthesia
21 during the patient's cesarean section which likely caused the patient's severe inflammatory
22 response post administration. Respondent denied erroneously administering digoxin.

23 19. The standard of care for an anesthesia provider requires the selection of the correct
24 medication, and to check that it is the correct medication prior to drawing it into a syringe and
25 injecting it into a patient.

26 20. On or about August 16, 2016, at the time of Patient 1's cesarean section delivery,

27 _____
28 ⁵ Sharps containers are puncture-resistant containers used to safely dispose of hypodermic needles
and other sharp medical instruments.

1 both the spinal Marcaine and the digoxin ampules were located in similar compartments in
2 different drawers in the Labor and Delivery operating room Omnicell, and Respondent retrieved
3 the wrong medication, digoxin, instead of spinal Marcaine. He failed to read the ampule labelling
4 and did not adequately check the medication. He drew it up into a syringe and injected it into the
5 patient's spinal fluid in error. This is an extreme departure from the standard of care.

6 21. When there is any question of whether a medication is expired, the standard of care
7 requires that the anesthesia provider save the ampule as evidence that the expired medication was
8 stocked in the anesthesia drawer. Although Respondent alleged that he did not save the alleged
9 "expired" ampule of medication, no such expired ampule was ever discovered or documented.
10 Respondent committed an extreme departure from the standard of care when he failed to save the
11 expired ampule.

12 22. When the first spinal injection did not result in patient numbness, Respondent should
13 have assessed why it did not work. Respondent failed to double-check the identity of the ampule
14 he had drawn up and administered into the spinal fluid. This is an extreme departure from the
15 standard of care.

16 **SECOND CAUSE FOR DISCIPLINE**

17 **(Repeated Negligent Acts)**

18 23. Respondent is subject to disciplinary action under section 2234, subdivision (c), of
19 the Code, in that he engaged in repeated acts of negligence in the care and treatment of Patient
20 The circumstances are as follows:

21 24. The allegations of the First Cause for Discipline are incorporated herein by reference
22 as if fully set forth.

23 25. Each of the alleged acts of gross negligence set forth above in the First Cause for
24 Discipline is also a negligent act.
