4     043757 and will expire on January 31, 2023, unless renewed.

#### 5   **JURISDICTION**

6           4.     First Amended Accusation No. 800-2018-043757 was filed before the Board, and is  
7     currently pending against Respondent. The First Amended Accusation and all other statutorily  
8     required documents were properly served on Respondent on June 10, 2022. A copy of First  
9     Amended Accusation No. 800-2018-043757 is attached as Exhibit A and incorporated by  
10    reference.

#### 11    **ADVISEMENT AND WAIVERS**

12          5.     Respondent has carefully read, fully discussed with counsel, and understands the  
13    charges and allegations in First Amended Accusation No. 800-2018-043757. Respondent also

15    Surrender of License and Order.

16          6.     Respondent is fully aware of his legal rights in this matter, including the right to a  
17    hearing on the charges and allegations in the First Amended Accusation; the right to confront and  
18    cross-examine the witnesses against him; the right to present evidence and to testify on his own  
19    behalf; the right to the issuance of subpoenas to compel the attendance of witnesses and the  
20    production of documents; the right to reconsideration and court review of an adverse decision;

#### 25   **CULPABILITY**

26          8.     Respondent admits the truth of the charges and allegations contained in the Sixth  
27    Cause for Discipline in First Amended Accusation No. 800-2018-043757, provided that  
28    Respondent admits that the stroke occurred in August 2021 (not August 2011), and agrees that

1 cause exists for discipline based on those charges and allegations, and hereby surrenders his  
2 Physician's and Surgeon's Certificate No. A 54211 for the Board's formal acceptance.

9 establish a *prima facie* case with respect to the charges and allegations contained in the First  
10 through Fifth Causes for Discipline in First Amended Accusation No. 800-2018-043757 and that  
11 his license is also subject to disciplinary action based on those charges and allegations.

12 11. Respondent understands that by signing this stipulation he enables the Board to issue  
13 an order accepting the surrender of his Physician's and Surgeon's Certificate without further  
14 process.

### 15 CONTINGENCY

16 12. This stipulation shall be subject to approval by the Board. Respondent understands

22 the Stipulated Surrender and Disciplinary Order shall be of no force or effect, except for this  
23 paragraph, it shall be inadmissible in any legal action between the parties, and the Board shall not  
24 be disqualified from further action by having considered this matter.

25 13. The parties understand and agree that Portable Document Format (PDF) and facsimile  
26 copies of this Stipulated Surrender of License and Order, including PDF and facsimile signatures  
27 thereto, shall have the same force and effect as the originals.

1 an integrated writing representing the complete, final and exclusive embodiment of the agreement  
2 of the parties in this above entitled matter.

3 15. In consideration of the foregoing admissions and stipulations, the parties agree that  
4 the Board may, without further notice or formal proceeding, issue and enter the following Order:

20 contained in First Amended Accusation No. 800-2018-043757 shall be deemed to be true, correct  
21 and admitted by Respondent when the Board determines whether to grant or deny the petition.

2 regimen through at least July 2018.

3 15. Respondent's chart for Patient 1 consisted of three different modalities of medical  
4 record documentation. Two modalities spanned the period of approximately 2014 through 2017,  
5 and the third modality spanned the period of 2017 through 2019.

6 16. Respondent did not record a list of medications prescribed to Patient 1 for nearly  
7 three years of medical care. The Review of Systems on most, if not all, notes had a "normal"  
8 template. Respondent's treatment of Patient 1 with high doses of fentanyl, oxycodone, and  
9 carisoprodol required detailed documentation to justify such doses. However, in the  
10 "musculoskeletal" section of the chart, many of the entries followed the "normal" template stating  
11 there were "no muscle aches, no muscle weakness nor arthralgia/joint pain, no back pain . . ."

12 17. Respondent did not provide medical justifications or specified diagnoses with  
13 sufficient significance to substantiate the high doses of prescribed medications. Respondent  
14 frequently diagnosed "low back pain" or "osteoarthritis;" however, these diagnoses are generic  
15 and non-specific, such that they did not provide the specific diagnoses required for chronic,  
16 underlying conditions warranting the degree of opioid analgesia and antispasmodic medication  
17 prescribed to Patient 1. There was little to no documentation explaining why these medications  
18 were needed, what treatments and/or medications had been tried and failed, and why such high  
19 doses of these medications were warranted.

20 18. In or about 2017, Respondent added "chronic low back pain," "chronic pain  
21 syndrome," and "cervical radiculopathy and lumbar radiculopathy" to Patient 1's diagnoses, but  
22 he did not correlate these diagnoses with physical findings or explain the type of pain caused and  
23 why only high doses of these medications were needed to provide pain relief. There was no  
24 documentation of a history of prior substance use, prior pain treatments, or diagnostic imaging  
25 studies to provide the basis by which a diagnosis of chronic pain or chronic pain syndrome could  
26 be justified. There was no documentation of improvement in the activities of daily living that  
27 occurred in the life of Patient 1 upon receiving these medications. There was no pain contract or  
28 performance of any urinalysis.

1           19. Although Respondent continued the same dosage and frequency of opioid analgesia  
2 prescribed by Patient 1's prior physician, there was no attempt by Respondent to initiate gradual  
3 dose reduction of opioid analgesia or documentation of a failure to wean. There was also no  
4 documentation of the justification for adding a benzodiazepine to the overall treatment regimen of  
5 Patient 1.

6           **Patient 2**

7           20. Respondent treated Patient 2, a 63-year-old female, from July 27, 2007, until March  
8 20, 2016. From July 2007 to May 2013, Respondent prescribed an increasingly expanding list of  
9 medications with duplicative medications of the same class, including opioids, stimulants,  
10 anxiolytics, hypnotics, anti-depressants, and muscle relaxants. New medications were added with  
11 no evidence of a medication reconciliation or patient counseling on safety. Medications from  
12 previous appointments remained as part of Patient 2's treatment regimen while new medications  
13 of the same class were often added. There was no documentation in the medical records providing  
14 the explanation, reasoning, or justification for prescribing the new or current medications. As of  
15 May 29, 2013, Respondent was prescribing Dilaudid 2 mg, Percocet 10mg-325mg, Norco 10  
16 mg/325 mg, Adderall 20 mg, Venlafaxine 150 mg (an antidepressant), Ambien 12.5 mg,  
17 Klonopin 0.5 mg, Xanax 2 mg, Flexeril 10 mg (a muscle relaxer), and Soma 350 mg.

18           21. Throughout Respondent's treatment of Patient 2, there were multiple instances where  
19 Patient 2 obtained controlled substances in the same class as those prescribed by Respondent,  
20 concurrently from another physician. On some occasions, Patient 2 filled such prescriptions on  
21 the same date.

22           22. From July 17, 2013, through March 30, 2016, Respondent's medical records did not  
23 contain any medication lists for Patient 2. During this same period, according to the Controlled  
24 Substances Utilization Review and Evaluation (CURES)<sup>2</sup> report, Patient 2 filled 165 prescriptions  
25 for controlled substances written by Respondent. Specifically, Respondent treated Patient 2 with  
26 44 prescriptions for hypnotic/anxiolytic class medications (alprazolam, clonazepam, zolpidem,  
27

28           <sup>2</sup> CURES is a platform, maintained by the Department of Justice, that tracks all Schedule  
II – IV controlled substances dispensed to patients in California.

1 and lorazepam), 56 prescriptions for opioids (hydromorphone, oxycodone-acetaminophen,  
2 hydrocodone bitartrate-acetaminophen), 31 prescriptions for antispasmodics (Soma with an  
3 unknown number of Flexeril<sup>3</sup>), 11 stimulants (methylphenidate, Adderall XR, and mixed  
4 amphetamine salts), and an unknown number of anti-depressants, as these are not documented in  
5 CURES reports.

6 23. Respondent did not document an assessment of Patient 2's pain in adequate detail or  
7 provide the appropriate diagnoses required to justify his medical decision-making for prescribing  
8 numerous controlled substances. Respondent's medical records did not include documentation of  
9 a functional status, substance abuse history, history of prior pain treatment, treatment objectives  
10 and how the medication treatment regimen impacted the chronic pain of Patient 2. There was no  
11 documentation of improvement of activities of daily living or ability to carry on routine functions  
12 of daily life, which could have provided justification for the use of some of these medications.  
13 There was no documentation of an informed consent discussing the risks and benefits of using  
14 these controlled substances. There was no pain contract or performance of any urinalyses. There  
15 was no evidence of an attempt at a gradual dose reduction or any statement about a failure to  
16 wean.

17 **Patient 3**

18 24. From May 14, 2017, until February 4, 2020, Respondent treated Patient 3, a 62-year-  
19 old female, for chronic pain and generalized anxiety. Respondent treated Patient 3 in the past but  
20 subsequently referred her to a pain management specialist. She returned to Respondent's care in  
21 May 2017. During the course of his treatment, Respondent prescribed Ambien 10 mg, MS  
22 Contin 100 mg Extended Release, Percocet 10 mg-325 mg, Soma 350 mg, and Valium 5 mg.

23 25. When Patient 3's medications changed, Respondent did not document his reasoning  
24 for the change. There was no evidence Respondent performed medication reconciliations during  
25 his care of Patient 3. Respondent repeatedly used "normal" templates for his medical record  
26 documentation when, instead, significant Review of Systems or Physical Examination findings  
27 should have been documented to justify the medication regimen.

28 <sup>3</sup> Flexeril is not a controlled substance and, therefore, not documented in CURES reports.

1 26. Respondent's medical records did not document functional status, substance abuse  
2 history, history of prior pain treatment, treatment objectives or how the medication treatment  
3 regimen impacted the chronic pain. There was no documentation of improvement of activities of  
4 daily living or ability to carry on routine functions of everyday life, which could have justified the  
5 use of some of the controlled substances. There was no documentation of an informed consent  
6 discussing the risks and benefits of using the controlled substances: There was no pain contract  
7 or performance of any urinalysis.

8 **FIRST CAUSE FOR DISCIPLINE**

9 (Gross Negligence – Patients 1 and 2)

10 27. Respondent's license is subject to disciplinary action under section 2234, subdivision  
11 (b), of the Code in that he committed gross negligence in his care and treatment of Patients 1 and  
12 2. The circumstances are as follows:

13 28. Complainant refers to and, by this reference, incorporates paragraphs 11 through 23,  
14 above, as though set forth fully herein.

15 29. Respondent's treatment of Patients 1 and 2, as discussed above, include the following  
16 acts and/or omissions, which constitute extreme departures from the standard of care:

17 A. Respondent's failure to record a list of medications prescribed to Patient 1 for  
18 nearly three years of medical care.

19 B. Respondent's failure to document justification for prescribing high doses of  
20 opioid analgesia in combination with other controlled substances to Patient 1. There was an  
21 overall absence of justification in the medical records supporting the medication treatment  
22 regimen.

23 C. Respondent's prescribing of controlled substances to Patient 1 without  
24 obtaining an appropriate medical history, performing a physical examination, adequately  
25 assessing the patient's pain, pain relief, or improvement in activities of daily living, and obtaining  
26 informed consent.

27 D. Respondent's failure to document justification for the volume and combination  
28 of duplicative controlled substances prescribed and to record a list of medications prescribed to

1 Patient 2 for nearly three years of medical care.

2 E. Respondent's prescribing of controlled substances to Patient 2 without  
3 obtaining an appropriate medical history, performing a physical examination, adequately  
4 assessing the patient's pain, pain relief, or improvement in activities of daily living, and obtaining  
5 informed consent.

6 **SECOND CAUSE FOR DISCIPLINE**

7 (Repeated Negligent Acts – Patients 1, 2, and 3)

16 as if fully set forth herein.

17 B. With respect to his care and treatment of Patient 3, Respondent's failure to  
18 document his reasoning for changing medications, the failure to perform medication  
19 reconciliations, and repeated use of "normal" templates in his charting.

20 C. Respondent's failure to substantiate ongoing prescribing of duplicative  
21 controlled substances to Patient 3.

22 **THIRD CAUSE FOR DISCIPLINE**

23 (Prescribing Without Exam/Indication – Patients 1 and 2)

24 33. Respondent's license is subject to disciplinary action under section 2242 of the Code  
25 in that he prescribed controlled substances and/or dangerous drugs to Patients 1 and 2 without an  
26 appropriate prior examination or medical indication. The circumstances are as follows:

27 34. Complainant refers to and, by this reference, incorporates paragraphs 11 through 23,  
28 above, as though set forth fully herein.
