DISCIPLINARY ORDER

IT IS HEREBY ORDERED that the Board will issue a Physician's and Surgeon's Certificate to Applicant PARMIS RAD ("Applicant") and that said license certificate will then be immediately revoked. The revocation will then be stayed and the Applicant's license certificate will be placed on three (3) years probation subject to the following terms and conditions. Probation shall begin immediately upon issuance of the Physician's and Surgeon's Certificate.

1. <u>CONTROLLED SUBSTANCES - ABSTAIN FROM USE</u>. Applicant shall abstain completely from the personal use or possession of controlled substances as defined in the California Uniform Controlled Substances Act, dangerous drugs as defined by Business and Professions Code section 4022, and any drugs requiring a prescription. This prohibition does not

apply to medications lawfully prescribed to Applicant by another practitioner for a bona fide illness or condition.

Within 15 calendar days of receiving any lawfully prescribed medications, Applicant shall notify the Board or its designee of the: issuing practitioner's name, address, and telephone number; medication name, strength, and quantity; and issuing pharmacy name, address, and telephone number.

- 2. <u>ALCOHOL ABSTAIN FROM USE</u>. Applicant shall abstain completely from the use of products or beverages containing alcohol.
- 3. NOTICE OF EMPLOYER OR SUPERVISOR INFORMATION. Within seven (7) days of the effective date of this Decision, Applicant shall provide to the Board the names, physical addresses, mailing addresses, and telephone numbers of any and all employers and supervisors. Applicant shall also provide specific, written consent for the Board, Applicant's worksite monitor, and Applicant's employers and supervisors to communicate regarding Applicant's work status, performance, and monitoring.

For purposes of this section, "supervisors" shall include the Chief of Staff and Health or Well Being Committee Chair, or equivalent, if applicable, when the Applicant has medical staff privileges.

4. <u>BIOLOGICAL FLUID TESTING.</u> Applicant shall immediately submit to biological fluid testing, at Applicant's expense, upon request of the Board or its designee. "Biological fluid testing" may include, but is not limited to, urine, blood, breathalyzer, hair follicle testing, or similar drug screening approved by the Board or its designee. Applicant shall make daily contact with the Board or its designee to determine whether biological fluid testing is required. Applicant shall be tested on the date of the notification as directed by the Board or its designee. The Board may order Applicant to undergo a biological fluid test on any day, at any time, including weekends and holidays. Except when testing on a specific date as ordered by the Board or its designee, the scheduling of biological fluid testing shall be done on a random basis. The cost of biological fluid testing shall be borne by the Applicant.

During the first year of probation, Applicant shall be subject to 52 to 104 random tests.

During the second year of probation and for the duration of the probationary term, Applicant shall be subject to 36 to 104 random tests per year. Only if there has been no positive biological fluid tests in the previous five (5) consecutive years of probation, may testing be reduced to one (1) time per month. Nothing precludes the Board from increasing the number of random tests to the first-year level of frequency for any reason.

Prior to practicing medicine, Applicant shall contract with a laboratory or service, approved in advance by the Board or its designee, that will conduct random, unannounced, observed, biological fluid testing and meets all of the following standards:

- (a) Its specimen collectors are either certified by the Drug and Alcohol Testing Industry Association or have completed the training required to serve as a collector for the United States Department of Transportation.
- (b) Its specimen collectors conform to the current United States Department of Transportation Specimen Collection Guidelines.
- (c) Its testing locations comply with the Urine Specimen Collection Guidelines published by the United States Department of Transportation without regard to the type of test administered.
- (d) Its specimen collectors observe the collection of testing specimens.
- (e) Its laboratories are certified and accredited by the United States Department of Health and Human Services.
- (f) Its testing locations shall submit a specimen to a laboratory within one (1) business day of receipt and all specimens collected shall be handled pursuant to chain of custody procedures. The laboratory shall process and analyze the specimens and provide legally defensible test results to the Board within seven (7) business days of receipt of the specimen. The Board will be notified of non-negative results within one (1) business day and will be notified of negative test results within seven (7) business days.
- (g) Its testing locations possess all the materials, equipment, and technical expertise necessary in order to test Applicant on any day of the week.

- (h) Its testing locations are able to scientifically test for urine, blood, and hair specimens for the detection of alcohol and illegal and controlled substances.
- (i) It maintains testing sites located throughout California.
- (j) It maintains an automated 24-hour toll-free telephone system and/or a secure on-line computer database that allows the Applicant to check in daily for testing.
- (k) It maintains a secure, HIPAA-compliant website or computer system that allows staff access to drug test results and compliance reporting information that is available 24 hours a day.
- (l) It employs or contracts with toxicologists that are licensed physicians and have knowledge of substance abuse disorders and the appropriate medical training to interpret and evaluate laboratory biological fluid test results, medical histories, and any other information relevant to biomedical information.
- (m) It will not consider a toxicology screen to be negative if a positive result is obtained while practicing, even if the Applicant holds a valid prescription for the substance.

Prior to changing testing locations for any reason, including during vacation or other travel, alternative testing locations must be approved by the Board and meet the requirements above.

The contract shall require that the laboratory directly notify the Board or its designee of non-negative results within one (1) business day and negative test results within seven (7) business days of the results becoming available. Applicant shall maintain this laboratory or service contract during the period of probation.

A certified copy of any laboratory test result may be received in evidence in any proceedings between the Board and Applicant.

If a biological fluid test result indicates Applicant has used, consumed, ingested, or administered to herself a prohibited substance, the Board shall order Applicant to cease practice and instruct Applicant to leave any place of work where Applicant is practicing medicine or providing medical services. The Board shall immediately notify all of Applicant's employers, supervisors and work monitors, if any, that Applicant may not practice medicine or provide medical services while the cease-practice order is in effect.

A biological fluid test will not be considered negative if a positive result is obtained while practicing, even if the practitioner holds a valid prescription for the substance. If no prohibited substance use exists, the Board shall lift the cease-practice order within one (1) business day.

After the issuance of a cease-practice order, the Board shall determine whether the positive biological fluid test is in fact evidence of prohibited substance use by consulting with the specimen collector and the laboratory, communicating with the licensee, her treating physician(s), other health care provider, or group facilitator, as applicable.

For purposes of this condition, the terms "biological fluid testing" and "testing" mean the acquisition and chemical analysis of a Applicant's urine, blood, breath, or hair.

For purposes of this condition, the term "prohibited substance" means an illegal drug, a lawful drug not prescribed or ordered by an appropriately licensed health care provider for use by Applicant and approved by the Board, alcohol, or any other substance the Applicant has been instructed by the Board not to use, consume, ingest, or administer to himself or herself.

If the Board confirms that a positive biological fluid test is evidence of use of a prohibited substance, Applicant has committed a major violation, as defined in section 1361.52(a), and the Board shall impose any or all of the consequences set forth in section 1361.52(b), in addition to any other terms or conditions the Board determines are necessary for public protection or to enhance Applicant's rehabilitation.

5. PRESCRIBING PRACTICES COURSE. Within 60 calendar days of the effective date of this Decision, Applicant shall enroll in a course in prescribing practices approved in advance by the Board or its designee. Applicant shall provide the approved course provider with any information and documents that the approved course provider may deem pertinent. Applicant shall participate in and successfully complete the classroom component of the course not later than six (6) months after Applicant's initial enrollment. Applicant shall successfully complete any other component of the course within one (1) year of enrollment. The prescribing practices course shall be at Applicant's expense and shall be in addition to the Continuing Medical Education (CME) requirements for renewal of licensure.

A prescribing practices course taken after the acts that gave rise to the charges in the Statement of Issues, but prior to the effective date of the Decision may, in the sole discretion of the Board or its designee, be accepted towards the fulfillment of this condition if the course would have been approved by the Board or its designee had the course been taken after the effective date of this Decision.

Applicant shall submit a certification of successful completion to the Board or its designee not later than 15 calendar days after successfully completing the course, or not later than 15 calendar days after the effective date of the Decision, whichever is later.

6. WORKSITE MONITOR FOR SUBSTANCE-ABUSING LICENSEE. Within thirty (30) calendar days of the effective date of this Decision, Applicant shall submit to the Board or its designee for prior approval as a worksite monitor, the name and qualifications of one or more licensed physician and surgeon, other licensed health care professional if no physician and surgeon is available, or, as approved by the Board or its designee, a person in a position of authority who is capable of monitoring the Applicant at work.

The worksite monitor shall not have a current or former financial, personal, or familial relationship with Applicant, or any other relationship that could reasonably be expected to compromise the ability of the monitor to render impartial and unbiased reports to the Board or its designee. If it is impractical for anyone but Applicant's employer to serve as the worksite monitor, this requirement may be waived by the Board or its designee, however, under no circumstances shall Applicant's worksite monitor be an employee or supervisee of the licensee.

The worksite monitor shall have an active unrestricted license with no disciplinary action within the last five (5) years, and shall sign an affirmation that she has reviewed the terms and conditions of Applicant's disciplinary order and agrees to monitor Applicant as set forth by the Board or its designee.

Applicant shall pay all worksite monitoring costs.

The worksite monitor shall have face-to-face contact with Applicant in the work environment on as frequent a basis as determined by the Board or its designee, but not less than ///

once per week; interview other staff in the office regarding Applicant's behavior, if requested by the Board or its designee; and review Applicant's work attendance.

The worksite monitor shall verbally report any suspected substance abuse to the Board and Applicant's employer or supervisor within one (1) business day of occurrence. If the suspected substance abuse does not occur during the Board's normal business hours, the verbal report shall be made to the Board or its designee within one (1) hour of the next business day. A written report that includes the date, time, and location of the suspected abuse; Applicant's actions; and any other information deemed important by the worksite monitor shall be submitted to the Board or its designee within 48 hours of the occurrence.

The worksite monitor shall complete and submit a written report monthly, or as directed by the Board or its designee, which shall include the following: (1) Applicant's name and Physician's and Surgeon's Certificate number; (2) the worksite monitor's name and signature; (3) the worksite monitor's license number, if applicable; (4) the location or location(s) of the worksite; (5) the dates Applicant had face-to-face contact with the worksite monitor; (6) the names of worksite staff interviewed, if applicable; (7) a report of Applicant's work attendance; (8) any change in Applicant's behavior and/or personal habits; and (9) any indicators that can lead to suspected substance abuse by Applicant. Applicant shall complete any required consent forms and execute agreements with the approved worksite monitor and the Board, or its designee, authorizing the Board, or its designee, and worksite monitor to exchange information.

If the worksite monitor resigns or is no longer available, Applicant shall, within five (5) calendar days of such resignation or unavailability, submit to the Board or its designee, for prior approval, the name and qualifications of a replacement monitor who will be assuming that responsibility within fifteen (15) calendar days. If Applicant fails to obtain approval of a replacement monitor within sixty (60) calendar days of the resignation or unavailability of the monitor, Applicant shall receive a notification from the Board or its designee to cease the practice of medicine within three (3) calendar days after being so notified. Applicant shall cease the practice of medicine until a replacement monitor is approved and assumes monitoring responsibility.

7. MONITORING - PRACTICE. Within 30 calendar days of the effective date of this Decision, Applicant shall submit to the Board or its designee for prior approval as a practice monitor(s), the name and qualifications of one or more licensed physicians and surgeons whose licenses are valid and in good standing, and who are preferably American Board of Medical Specialties (ABMS) certified. A monitor shall have no prior or current business or personal relationship with Applicant, or other relationship that could reasonably be expected to compromise the ability of the monitor to render fair and unbiased reports to the Board, including but not limited to any form of bartering, shall be in Applicant's field of practice, and must agree to serve as Applicant's monitor. Applicant shall pay all monitoring costs.

The Board or its designee shall provide the approved monitor with copies of the Decision and Statement of Issues and a proposed monitoring plan. Within 15 calendar days of receipt of the Decision, Statement of Issues, and proposed monitoring plan, the monitor shall submit a signed statement that the monitor has read the Decision and Statement of Issues, fully understands the role of a monitor, and agrees or disagrees with the proposed monitoring plan. If the monitor disagrees with the proposed monitoring plan, the monitor shall submit a revised monitoring plan with the signed statement for approval by the Board or its designee.

Within 60 calendar days of the effective date of this Decision, and continuing throughout probation, Applicant's practice shall be monitored by the approved monitor. Applicant shall make all records available for immediate inspection and copying on the premises by the monitor at all times during business hours and shall retain the records for the entire term of probation.

If Applicant fails to obtain approval of a monitor within 60 calendar days of the effective date of this Decision, Applicant shall receive a notification from the Board or its designee to cease the practice of medicine within three (3) calendar days after being so notified. Applicant shall cease the practice of medicine until a monitor is approved to provide monitoring responsibility.

The monitor(s) shall submit a quarterly written report to the Board or its designee which includes an evaluation of Applicant's performance, indicating whether Applicant's practices are within the standards of practice of medicine and whether Applicant is practicing medicine safely.

It shall be the sole responsibility of Applicant to ensure that the monitor submits the quarterly written reports to the Board or its designee within 10 calendar days after the end of the preceding quarter.

If the monitor resigns or is no longer available, Applicant shall, within 5 calendar days of such resignation or unavailability, submit to the Board or its designee, for prior approval, the name and qualifications of a replacement monitor who will be assuming that responsibility within 15 calendar days. If Applicant fails to obtain approval of a replacement monitor within 60 calendar days of the resignation or unavailability of the monitor, Applicant shall receive a notification from the Board or its designee to cease the practice of medicine within three (3) calendar days after being so notified. Applicant shall cease the practice of medicine until a replacement monitor is approved and assumes monitoring responsibility.

In lieu of a monitor, Applicant may participate in a professional enhancement program approved in advance by the Board or its designee that includes, at minimum, quarterly chart review, semi-annual practice assessment, and semi-annual review of professional growth and education. Applicant shall participate in the professional enhancement program at Applicant's expense during the term of probation.

8. <u>SOLO PRACTICE PROHIBITION</u>. Applicant is prohibited from engaging in the solo practice of medicine. Prohibited solo practice includes, but is not limited to, a practice where: 1) Applicant merely shares office space with another physician but is not affiliated for purposes of providing patient care, or 2) Applicant is the sole physician practitioner at that location.

If Applicant fails to establish a practice with another physician or secure employment in an appropriate practice setting within 60 calendar days of the effective date of this Decision, Applicant shall receive a notification from the Board or its designee to cease the practice of medicine within three (3) calendar days after being so notified. The Applicant shall not resume practice until an appropriate practice setting is established.

If, during the course of the probation, the Applicant's practice setting changes and the Applicant is no longer practicing in a setting in compliance with this Decision, the Applicant shall

notify the Board or its designee within five (5) calendar days of the practice setting change. If Applicant fails to establish a practice with another physician or secure employment in an appropriate practice setting within 60 calendar days of the practice setting change, Applicant shall receive a notification from the Board or its designee to cease the practice of medicine within three (3) calendar days after being so notified. The Applicant shall not resume practice until an appropriate practice setting is established.

- 9. <u>VIOLATION OF PROBATION CONDITION FOR SUBSTANCE-ABUSING</u>
 <u>LICENSEES</u>. Failure to fully comply with any term or condition of probation is a violation of probation.
- A. If Applicant commits a major violation of probation as defined by section 1361.52, subdivision (a), of Title 16 of the California Code of Regulations, the Board shall take one or more of the following actions:
- (1) Issue an immediate cease-practice order and order Applicant to undergo a clinical diagnostic evaluation to be conducted in accordance with section 1361.5, subdivision (c)(1), of Title 16 of the California Code of Regulations, at Applicant's expense. The cease-practice order issued by the Board or its designee shall state that Applicant must test negative for at least a month of continuous biological fluid testing before being allowed to resume practice. For purposes of determining the length of time a Applicant must test negative while undergoing continuous biological fluid testing following issuance of a cease-practice order, a month is defined as thirty calendar (30) days. Applicant may not resume the practice of medicine until notified in writing by the Board or its designee that she may do so.
 - (2) Increase the frequency of biological fluid testing.
- (3) Refer Applicant for further disciplinary action, such as suspension, revocation, or other action as determined by the Board or its designee.
- B. If Applicant commits a minor violation of probation as defined by section 1361.52, subdivision (c), of Title 16 of the California Code of Regulations, the Board shall take one or more of the following actions:

- (2) Order practice limitations;
- (3) Order or increase supervision of Applicant;

 - (7) Take any other action as determined by the Board or its designee.
- C. Nothing in this Decision shall be considered a limitation on the Board's authority to revoke Applicant's probation if she has violated any term or condition of probation. If Applicant violates probation in any respect, the Board, after giving Applicant notice and the opportunity to be heard, may revoke probation and carry out the disciplinary order that was stayed. If an Accusation, or Petition to Revoke Probation, or an Interim Suspension Order is filed against Applicant during probation, the Board shall have continuing jurisdiction until the matter is final, and the period of probation shall be extended until the matter is final.
- 10. NOTIFICATION. Within seven (7) days of the effective date of this Decision, the Applicant shall provide a true copy of this Decision and Statement of Issues to the Chief of Staff or the Chief Executive Officer at every hospital where privileges or membership are extended to Applicant, at any other facility where Applicant engages in the practice of medicine, including all physician and locum tenens registries or other similar agencies, and to the Chief Executive Officer at every insurance carrier which extends malpractice insurance coverage to Applicant. Applicant shall submit proof of compliance to the Board or its designee within 15 calendar days.

This condition shall apply to any change(s) in hospitals, other facilities or insurance carrier.

- 13. <u>QUARTERLY DECLARATIONS</u>. Applicant shall submit quarterly declarations under penalty of perjury on forms provided by the Board, stating whether there has been compliance with all the conditions of probation.

Applicant shall submit quarterly declarations not later than 10 calendar days after the end of the preceding quarter.

14. GENERAL PROBATION REQUIREMENTS.

Compliance with Probation Unit

Address Changes

Applicant shall, at all times, keep the Board informed of Applicant's business and residence addresses, email address (if available), and telephone number. Changes of such addresses shall be immediately communicated in writing to the Board or its designee. Under no circumstances shall a post office box serve as an address of record, except as allowed by Business and Professions Code section 2021(b).

Place of Practice

Applicant shall not engage in the practice of medicine in Applicant's or patient's place of residence, unless the patient resides in a skilled nursing facility or other similar licensed facility.

License Renewal

Applicant shall maintain a current and renewed California physician's and surgeon's license.

Travel or Residence Outside California

Applicant shall immediately inform the Board or its designee, in writing, of travel to any areas outside the jurisdiction of California which lasts, or is contemplated to last, more than thirty (30) calendar days.

|| ///

In the event Applicant should leave the State of California to reside or to practice,

Applicant shall notify the Board or its designee in writing 30 calendar days prior to the dates of

- 15. <u>INTERVIEW WITH THE BOARD OR ITS DESIGNEE</u>. Applicant shall be available in person upon request for interviews either at Applicant's place of business or at the probation unit office, with or without prior notice throughout the term of probation.
- 16. NON-PRACTICE WHILE ON PROBATION. Applicant shall notify the Board or its designee in writing within 15 calendar days of any periods of non-practice lasting more than 30 calendar days and within 15 calendar days of Applicant's return to practice. Non-practice is defined as any period of time Applicant is not practicing medicine as defined in Business and Professions Code sections 2051 and 2052 for at least 40 hours in a calendar month in direct patient care, clinical activity or teaching, or other activity as approved by the Board. If Applicant resides in California and is considered to be in non-practice, Applicant shall comply with all terms and conditions of probation. All time spent in an intensive training program which has been approved by the Board or its designee shall not be considered non-practice and does not relieve Applicant from complying with all the terms and conditions of probation. Practicing medicine in another state of the United States or Federal jurisdiction while on probation with the medical licensing authority of that state or jurisdiction shall not be considered non-practice. A Board-ordered suspension of practice shall not be considered as a period of non-practice.

In the event Applicant's period of non-practice while on probation exceeds 18 calendar months, Applicant shall successfully complete the Federation of State Medical Boards' Special Purpose Examination, or, at the Board's discretion, a clinical competence assessment program that meets the criteria of Condition 18 of the current version of the Board's "Manual of Model Disciplinary Orders and Disciplinary Guidelines" prior to resuming the practice of medicine.

Applicant's period of non-practice while on probation shall not exceed two (2) years.

Periods of non-practice will not apply to the reduction of the probationary term.

Periods of non-practice for a Applicant residing outside of California will relieve Applicant of the responsibility to comply with the probationary terms and conditions with the exception of

this condition and the following terms and conditions of probation: Obey All Laws; General Probation Requirements; Quarterly Declarations; Abstain from the Use of Alcohol and/or Controlled Substances; and Biological Fluid Testing..

- 17. <u>COMPLETION OF PROBATION</u>. Applicant shall comply with all financial obligations (e.g., restitution, probation costs) not later than 120 calendar days prior to the completion of probation. Upon successful completion of probation, Applicant's certificate shall be fully restored.
- 18. <u>VIOLATION OF PROBATION</u>. Failure to fully comply with any term or condition of probation is a violation of probation. If Applicant violates probation in any respect, the Board, after giving Applicant notice and the opportunity to be heard, may revoke probation and carry out the disciplinary order that was stayed. If an Accusation, or Petition to Revoke Probation, or an Interim Suspension Order is filed against Applicant during probation, the Board shall have continuing jurisdiction until the matter is final, and the period of probation shall be extended until the matter is final.
- 19. <u>LICENSE SURRENDER</u>. Following the effective date of this Decision, if Applicant ceases practicing due to retirement or health reasons or is otherwise unable to satisfy the terms and conditions of probation, Applicant may request to surrender his or her license. The Board reserves the right to evaluate Applicant's request and to exercise its discretion in determining whether or not to grant the request, or to take any other action deemed appropriate and reasonable under the circumstances. Upon formal acceptance of the surrender, Applicant shall within 15 calendar days deliver Applicant's wallet and wall certificate to the Board or its designee and Applicant shall no longer practice medicine. Applicant will no longer be subject to the terms and conditions of probation. If Applicant re-applies for a medical license, the application shall be treated as a petition for reinstatement of a revoked certificate.
- 20. PROBATION MONITORING COSTS. Applicant shall pay the costs associated with probation monitoring each and every year of probation, as designated by the Board, which may be adjusted on an annual basis. Such costs shall be payable to the Medical Board of

1	California and delivered to the Board or its designee no later than January 31 of each calendar

STATEMENT OF FACTS

- 15. Applicant is a licensed physician in Arizona. She has a history of addiction and substance-abuse problems with controlled substances, including opioids and hypnotics. These addiction and substance abuse issues resulted in her being dangerous to herself and others.
- 16. Applicant wrote prescriptions for controlled substances to her husband, but used the medication herself. She used prescription pads improperly taken from a previous employment where Applicant had not worked for several months. Applicant further failed to maintain appropriate medical records of prescriptions written to her husband.
- 17. In 2011, while practicing during a postgraduate fellowship program at a facility where she also received treatment as a patient, Applicant accessed her own medical records and fraudulently tampered with prescriptions for controlled substances by forging her physician's signature and self-prescribing. As a result, the program terminated her fellowship and reported Applicant to the Arizona Medical Board (Arizona Board), warning that Applicant may be impaired and unable to engage safely in the practice of medicine. Applicant told the Arizona Board that she pulled up her own chart to learn to navigate the new electronic medical record system and unintentionally printed her prescriptions.
- 18. On August 12, 2011, Applicant was convicted of contributing to delinquency and dependency of a minor. This stemmed from an incident where Applicant was impaired by controlled substances and left her child in the car while she went into a department store. She was placed on twelve months probation, ordered to take a parenting class, and fined.

- 19. While at a residential treatment facility, Applicant hid controlled substances (zolpidem, a hypnotic) in her room and failed a polygraph test. She was discharged at her own request with a poor prognosis. She attended another treatment facility in 2012.
- 20. The Arizona Board initiated a disciplinary action against Applicant, and on October 4, 2012, issued a final order disciplining Applicant (Arizona Order). A copy of the Arizona Order is attached as Exhibit A. Among other findings, the Arizona Board found that:
 - Applicant's former fellowship employer reported that Applicant had accessed her own medical record and fraudulently created prescriptions for clonazepam¹ and Ambien² on multiple occasions;
 - Applicant improperly wrote prescriptions for her husband on prescription pads taken
 from a previous employer for whom Applicant had not worked for several months,
 did not keep progress notes of her medication prescribing for her husband, and
 engaged in unprofessional conduct by prescribing controlled substances to a
 member of her immediate family;
 - The Arizona Board's Physician Health Program (PHP) recommended that Applicant immediately submit to an evaluation, after which the evaluator recommended Applicant complete residential inpatient treatment;
 - After presenting for residential treatment, Applicant failed a polygraph test and left treatment prior to staff approval and against medical advice.

This Order was issued after Respondent entered into an Interim Consent Agreement for Practice Restriction with the Arizona Board on October 20, 2011.

21. The Arizona Order concluded that, among other items, Applicant engaged in unprofessional conduct including habitual substance abuse, using controlled substances not prescribed by another physician for use during a prescribed course of treatment, prescribing controlled substances to immediate family, knowingly making a false statement in connection with the practice of medicine, violating Arizona rules on prescribing drugs, and failing to

maintain adequate records on a patient. Applicant received a five-year probation and letter of reprimand. Applicant had to enroll and participate in the Arizona Board's PHP administered by a monitor, attend the monitor's relapse prevention group therapy sessions, not consume alcohol or any non-prescribed medication, and submit to biological fluid testing. On January 6, 2017, the Arizona Board terminated Applicant's probationary term.

- 22. Applicant applied for a California license, and on November 15, 2017, Applicant certified under penalty of perjury to the truthfulness of all information in the Application. The Board denied the application for a full and unrestricted medical license.
- 23. When Applicant applied for California licensure with the Board, she had been out of clinical practice for approximately eight years. Applicant underwent a clinical assessment, with testing dates in February 2019. On March 11, 2019, the clinical assessment program recommended she return to patient care with a three-month transition period where she would be supervised at the clinic where she currently works. The program also recommended focused review on five medical topics and keeping her opioid use disorder safeguards and supports in place.

(Use of Controlled Substances to an Extent or in a Manner Dangerous or Injurious to Herself or Others/Unprofessional Conduct)

- 24. Applicant's Application is subject to denial under section 480, subdivision (a)(3)(A), section 2234, subdivision (a), and section 2239, on the grounds that she used controlled substances (including opiates and hypnotics) to an extent or in a manner dangerous or injurious to herself or others, in a manner impairing the ability of Applicant to practice safely, and accordingly engaged in unprofessional conduct. The circumstances are as follows:
- 25. Paragraphs 15 through 23, above, are hereby incorporated by reference and re-alleged as if fully set forth herein.

26

27

28

SECOND CAUSE FOR DENIAL OF APPLICATION

(Act Involving Dishonesty, Fraud, or Deceit with the Intent to Substantially Benefit Herself/Unprofessional Conduct)

- Applicant's Application is subject to denial under section 480, subdivisions (a)(2) and (a)(3)(A), section 2261, section 2262, and section 2234, subdivisions (a) and (e), on the grounds that she fraudulently tampered with prescriptions for controlled substances, fraudulently used an old prescription pad from an old employer she no longer worked for, and fraudulently prescribed controlled substances to her husband, but diverted the medication to herself. This fraudulent activity constituted unprofessional conduct. The circumstances are as follows:
- Paragraphs 15 through 23, above, are hereby incorporated by reference and re-alleged

THIRD CAUSE FOR DENIAL OF APPLICATION

(Conviction of Crime Substantially Related to the Qualifications, Functions, or Duties of a Physician/ Unprofessional Conduct)

- Applicant's Application is subject to denial under section 480, subdivisions (a)(1) and (a)(3) (A), section 2234, subdivision (a), and section 2236, subdivision (a), on the grounds that she incurred a conviction for Contributing to Delinquency and Dependency of a Minor. This conviction constitutes unprofessional conduct. The circumstances are as follows:
- Paragraph 18, above, is hereby incorporated by reference and re-alleged as if fully set

FOURTH CAUSE FOR DENIAL OF APPLICATION

(Discipline, Restriction, or Limitation Imposed by Another State)

30. On October 4, 2012, the Arizona Board issued an Order for Letter of Reprimand and Probation and Consent to Same (Arizona Order) that disciplined Applicant. Applicant's medical license was placed on five-years probation for unprofessional conduct including habitual substance abuse, using controlled substances not prescribed by another physician for use during a prescribed course of treatment, prescribing controlled substances to immediate family, knowingly making a false statement in connection with the practice of medicine, violating Arizona rules on prescribing drugs, and failing to maintain adequate records on a patient. A copy of the Arizona Order is attached to this Statement of Issues as Exhibit A.

BEFORE THE ARIZONA MEDICAL BOARD

In the Matter of

PARMIS RAD, M.D.

Holder of License No. 42399 For the Practice of Allopathic Medicine In the State of Arizona. Case No. MD-11-0913A

ORDER FOR LETTER OF REPRIMAND AND PROBATION AND CONSENT TO THE SAME

Parmis Rad, M.D. ("Respondent") elects to permanently waive any right to a hearing and appeal with respect to this Order for Letter of Reprimand and Probation; admits the jurisdiction of the Arizona Medical Board ("Board"); and consents to the entry of this Order by the Board.

FINDINGS OF FACT

- 1. The Board initiated case number MD-11-0913A after receiving information from a pharmacist alleging that Respondent prescribed controlled substances to her husband, and was using prescription pads that did not contain her current contact information.
- 2. Copies of prescriptions dated February 14, April 28, and June 17 of 2011 were written on prescription pads that contained the address of her previous employer. The Board's database shows that Respondent had not worked there since before June of 2010. The pharmacist determined that the prescriptions were written for RL, who showed the same address as Respondent. It was later determined that Respondent wrote a prescription to her husband.
 - 3. A Medical Consultant (MC) observed that a query of RL to the Controlled

Roxicet, Zolpidem, and Oxycodone/Acetaminophen for RL. Respondent denied using any of RL's medication to treat her own pain. She stated that she was very careful to monitor him and make sure the medications were used correctly. Respondent told Board staff that she did not keep records of her scheduled medication prescribing for RL. Respondent stated that she did maintain progress notes regarding RL's exams and that she kept his record in her home.

- 4. The MC determined that Respondent failed to document progress notes on RL identifying the patient and the date of the evaluations, and that she falled to document the scheduled medication prescriptions that were provided to RL. The MC also found that Respondent engaged in unprofessional conduct by prescribing controlled substances to a member of her immediate family.
- On September 9, 2011, Banner Good Samaritan (BGS) reported that 5. Respondent may be impaired and unable to engage safely in the practice of medicine and she was placed on a leave of absence. BGS reported that Respondent had accessed her electronic medical record (EMR) and printed prescriptions for Clonazepam and Ambien on multiple occasions. Respondent told Board staff that she pulled up her own chart to learn to navigate the new EMR system and unintentionally printed her records, including prescriptions written to her.
- 6. On October 4, 2011, Respondent reported that she voluntarily sought 5-day inpatient psychiatric care. The Board's Physician Health Program (PHP) contractors recommended that she submit to an evaluation at a Board approved facility immediately. Respondent presented to Promises Treatment Centers on October 9, 2011 and completed the evaluation on October 12, 2011. Promises recommended that Respondent complete 30-90 days residential inpatient treatment.

8. BGS's report of a prescription printed from Respondent's EMR that had the quantity, dose, and refills taped over. Additionally, Respondent accessed her EMR and printed a prescription for herself for Clonazepam, a controlled substance. Respondent's attorney subsequently responded to the Board's findings reporting that Respondent successfully completed residential inpatient treatment at Promises Treatment Centers on May 31, 2012. On June 25, 2012, after having been reassessed by the Board's PHP contractor and found to be safe to practice medicine, Respondent entered into an Interim Consent Agreement for PHP participation. The Interim Practice Restriction was vacated in July 2012.
