3 Accusation No. 800-2016-024953, if proven at a hearing, constitute cause for imposing discipline  
4 upon his Physician's and Surgeon's Certificate.

5 8. For the purpose of resolving the First Amended Accusation without the expense and  
6 uncertainty of further proceedings, Respondent agrees that, at a hearing, complainant could  
7 establish a *prima facie* case with respect to the charges and allegations contained in First  
8 Amended Accusation No. 800-2016-024953 and that those charges constitute cause for discipline.  
9 Respondent hereby gives up his right to contest that cause for discipline exists based on those

19 Travel or Residence Outside California

20 Respondent shall immediately inform the Board or its designee, in writing, of travel to any  
21 areas outside the jurisdiction of California which lasts, or is contemplated to last, more than thirty  
22 (30) calendar days.

23 In the event Respondent should leave the State of California to reside or to practice,  
24 Respondent shall notify the Board or its designee in writing 30 calendar days prior to the dates of  
25 departure and return.

26 17. INTERVIEW WITH THE BOARD OR ITS DESIGNEE. Respondent shall be  
27 available in person upon request for interviews either at Respondent's place of business or at the  
28 probation unit office, with or without prior notice throughout the term of probation.

1           18. NON-PRACTICE WHILE ON PROBATION. Respondent shall notify the Board or  
2 its designee in writing within 15 calendar days of any periods of non-practice lasting more than  
3 30 calendar days and within 15 calendar days of Respondent's return to practice. Non-practice is  
4 defined as any period of time Respondent is not practicing medicine as defined in Business and  
5 Professions Code sections 2051 and 2052 for at least 40 hours in a calendar month in direct  
6 patient care, clinical activity or teaching, or other activity as approved by the Board. If  
7 Respondent resides in California and is considered to be in non-practice, Respondent shall  
8 comply with all terms and conditions of probation. All time spent in an intensive training  
9 program which has been approved by the Board or its designee shall not be considered non-  
10 practice and does not relieve Respondent from complying with all the terms and conditions of  
11 probation. Practicing medicine in another state of the United States or Federal jurisdiction while  
12 on probation with the medical licensing authority of that state or jurisdiction shall not be  
13 considered non-practice. A Board-ordered suspension of practice shall not be considered as a  
14 period of non-practice.

15           In the event Respondent's period of non-practice while on probation exceeds 18 calendar  
16 months, Respondent shall successfully complete the Federation of State Medical Board's Special  
17 Purpose Examination, or, at the Board's discretion, a clinical competence assessment program  
18 that meets the criteria of Condition 18 of the current version of the Board's "Manual of Model  
19 Disciplinary Orders and Disciplinary Guidelines" prior to resuming the practice of medicine.

20           Respondent's period of non-practice while on probation shall not exceed two (2) years.

21           Periods of non-practice will not apply to the reduction of the probationary term. Periods of  
22 non-practice for a Respondent residing outside of California will relieve Respondent of the  
23 responsibility to comply with the probationary terms and conditions with the exception of this  
24 condition and the following terms and conditions of probation: Obey All Laws; General Probation  
25 Requirements; Quarterly Declarations; Abstain from the Use of Alcohol and/or Controlled  
26 Substances; and Biological Fluid Testing.

27    ///

28    ///

1           19. COMPLETION OF PROBATION. Respondent shall comply with all financial  
2 obligations (e.g., restitution, probation costs) not later than 120 calendar days prior to the  
3 completion of probation. Upon successful completion of probation, Respondent's certificate shall  
4 be fully restored.

5           20. VIOLATION OF PROBATION. Failure to fully comply with any term or condition  
6 of probation is a violation of probation. If Respondent violates probation in any respect, the  
7 Board, after giving Respondent notice and the opportunity to be heard, may revoke probation and  
8 carry out the disciplinary order that was stayed. If an Accusation, or Petition to Revoke  
9 Probation, or an Accusation is filed against Respondent during probation, the Board shall have  
10 continuing jurisdiction until the matter is final, and the period of probation shall be extended until  
11 the matter is final.

12           21. LICENSE SURRENDER. Following the effective date of this Decision, if  
13 Respondent ceases practicing due to retirement or health reasons or is otherwise unable to satisfy  
14 the terms and conditions of probation, Respondent may request to surrender his or her license.  
15 The Board reserves the right to evaluate Respondent's request and to exercise its discretion in  
16 determining whether or not to grant the request; or to take any other action deemed appropriate  
17 and reasonable under the circumstances. Upon formal acceptance of the surrender, Respondent  
18 shall within fifteen (15) calendar days deliver Respondent's wallet and wall certificate to the  
19 Board or its designee and Respondent shall no longer practice medicine. Respondent will no  
20 longer be subject to the terms and conditions of probation. If Respondent re-applies for a medical  
21 license, the application shall be treated as a petition for reinstatement of a revoked certificate.

22           22. PROBATION MONITORING COSTS. Respondent shall pay the costs associated  
23 with probation monitoring each and every year of probation, as designated by the Board, which  
24 may be adjusted on an annual basis. Such costs shall be payable to the Medical Board of  
25 California and delivered to the Board or its designee no later than January 31st of each calendar  
26 year.

27       ///

28       ///

23. FUTURE ADMISSIONS CLAUSE. If Respondent should ever apply or reapply for a new license or certification, or petition for reinstatement of a license, by any other health care licensing action agency in the State of California, all of the charges and allegations contained in First Amended Accusation No. 800-2016-024953 shall be deemed to be true, correct, and admitted by Respondent for the purpose of any Statement of Issues or any other proceeding seeking to deny or restrict license.

11                                   **FIRST CAUSE FOR DISCIPLINE**

12                                   **(Gross Negligence)**

13       22.       Respondent Thomas Jerome Lancaster, M.D. is subject to disciplinary action under  
14 section 2234, subdivision (b), of the Code in that Respondent committed act(s) and/or omission(s)  
15 amounting to gross negligence. The circumstances are as follows:

16       **Patient A**

17       23.       Beginning on or about March 5, 2014, Respondent was working as a contract  
18 physician at Butte County Behavioral Health (BCBH), in Oroville, California, where his duties  
19 consisted of providing psychiatric care to minor patients.

20       24.       On or about March 5, 2014, Respondent began treating Patient A, the grandfather  
21 of a BCBH patient. Patient A was not himself a BCBH patient, and Respondent did not have  
22 authorization from BCBH to use its facilities and/or property to treat Patient A. Patient A was a  
23 personal friend of Respondent, who had been a BCBH employee for several years, but no longer  
24 worked there.

25       25.       During Respondent's care and treatment of Patient A, Respondent agreed to treat  
26 him without recording his medical information on a BCBH chart. Instead, Respondent kept  
27 separate, handwritten records of their meetings in his desk at BCBH. These records existed  
28

outside of the BCBH records system, and were unknown and inaccessible to anyone other than Respondent.

26. The Board obtained certified pharmacy profiles pertaining to Patient A from the dates of March 5, 2014, to September 13, 2016. During that time period, Respondent prescribed large amounts of a variety of controlled substances to Patient A. For example, between March 5, 2014, and September 13, 2016, Respondent prescribed or refilled the following controlled substances to Patient A:

27. During the aforementioned time period, Patient A was also being prescribed large amounts of oxycodone HCL, hydromorphone HCL, and morphine sulfate by other medical practitioners.

28. Although Respondent had prescribed Patient A high doses of benzodiazepines, stimulants, sleep medicine, and opioids during the aforementioned time period—which required intensive monitoring—Respondent only saw Patient A during his visits with the patient's grandchild, who was a BCBH patient. Those visits with the BCBH patient, which lasted approximately thirty (30) minutes, required Respondent to address the BCBH patient's medical problems, which were extensive. Each of the prescriptions issued to Patient A by Respondent were from BCBH prescription pads. Additionally, during Respondent's care and treatment of Patient A, Respondent solely used the BCBH facility and BCBH's property. Respondent failed to coordinate the care and treatment of Patient A with his other medical providers. This failure deprived Patient A from ancillary services that could have helped address his underlying issues.

29. On or about April 14, 2016, Patient A's wife called BCBH staff on the telephone. During the telephone call, she was irate and yelled at staff members for not having completed a PAR/TAR<sup>1</sup> for Patient A. The staff member responded that BCBH was unable to do anything without first speaking with Respondent.

30. On or about May 10, 2016, Patient A arrived at the BCBH waiting room. He was upset, and loudly banged on the lobby door and yelled as he attempted to gain entry through the

1 locked door. He then telephoned Respondent, who arrived shortly after, walked with Patient A to  
2 the facility's parking lot, and gave Patient A an envelope. Patient A then left the facility.

3 31. On May 31, 2016, Respondent authored a progress note regarding Patient A,  
4 which stated, "[Patient A] called and asked for a 3 mos supply of meds-wrote them out but  
5 informed, no more, after today, thus encouraging them to get care elsewhere, ASAP."  
6 Nonetheless, Respondent continued to prescribe controlled substances to Patient A, without any  
7 clinical documentation or charting, until September 13, 2016.<sup>2</sup>

8 32. Following notice that he was the subject of an investigation by the Department of  
9 Consumer Affairs (DCA) Division of Investigation (DOI), on or about February 20, 2019,  
10 Respondent drafted retroactive records related to his care and treatment of Patient A, and  
11 provided the records to the assigned investigator. The records, which pertained to five (5) patient  
12 visits, which began in "Spring 2015" and ended on February 9, 2016, were inaccurate and did not  
13 cover the complete timeframe during which Patient A was seen. They additionally do not cover  
14 critical events, such as when Patient A acted disruptively at BCBH, or why Patient A's  
15 benzodiazepine dose was quadrupled shortly into his treatment. The notes additionally failed to  
16 list all of the medications prescribed to Patient A.

17 **Patient B**

18 33. On or about May 24, 2016, Respondent treated Patient B, a then eight (8) year old  
19 foster child. During the visit, Patient B's foster mother stated that she had repeatedly attempted  
20 to obtain the drug, Abilify, for Patient B, however, Medi-Cal repeatedly denied the requests.  
21 Respondent asked Patient B's mother if she had private insurance, to which she replied that she  
22 did. Respondent replied that he would write a prescription for Abilify in her name, so that she  
23 could fill it and administer the Abilify for the use of Patient B.

24 34. Although he was aware of its illegality, before ending the visit, Respondent wrote,  
25 on a BCBH prescription pad, a prescription for three (3) refills of thirty (30) Abilify tablets, in  
26 twenty (20) milligram doses, in Patient B's foster mother's name.

27  
28 <sup>2</sup> Respondent's contract with BCBH was terminated on June 10, 2016.

1           35.       Following the visit with Patient B and Patient B's foster mother, Respondent  
2 entered a treatment note, which stated the following:

3           "Subjective: [redacted] never got the Risperdal since it wasn't covered but have been  
4 relying on samples of Abilify with excellent results. No PTSD symptoms, no cycling,  
5 no suicidal/homicidal thoughts and no side effects. Sleep, interest, energy, concert,  
6 appetite are fine.

7           "O: relax, verbal, broad affect.

8           "A: PTSD, rule out mood disorder NOS.

9           "Plan: stop the Risperdal and go back to Abilify, continue clonidine and return to  
10 clinic in three months."

11       Respondent additionally entered in Patient B's treatment notes that he had prescribed Abilify to  
12 Patient B's mother.

13           36.       Despite the fact that Respondent's notes pertaining to the May 24, 2016, visit with  
14 Patient B contain the basic elements of the SOAP<sup>3</sup> format, the notes failed to adequately convey  
15 many necessary aspects of the examination, such as compliance or objective findings—  
16 specifically, speech, attention, and/or thought process. More importantly, Respondent's notes  
17 failed to convey why Patient B was in need of extreme medications that are not authorized by  
18 Medi-Cal. Nor do the notes mention the guidelines Respondent was following in treating Patient  
19 B. Respondent's notes fail to address whether laboratory monitoring is being done and whether  
20 benefits of treatment outweigh the risks for Patient B.

21           37.       Following notice that he was the subject of an investigation by DOI, on or about  
22 April 29, 2019, Respondent provided a retroactive chart regarding his care and treatment of  
23 Patient B. In the chart, Respondent admitted to prescribing Abilify to Patient B's foster mother,  
24 which was intended for Patient B, and that Patient B's foster mother was never his patient.

25           38.       On or about June 12, 2019, Respondent participated in an interview with DOI.  
26 During the interview, Respondent stated that he prescribed the Abilify, which was intended for  
27 Patient B, to Patient B's foster mother, because he was "worried about her hurting herself or  
28 others or having to require hospitalization." When asked if the agreement to prescribe to Patient

<sup>3</sup> The SOAP note is a method of documentation employed by health care providers to transcribe notes in a patient's chart. The standard SOAP note format consists of the subjective component, objective component, assessment, and plan.

1 B's foster mother was documented, Respondent replied that it all occurred verbally. After being  
2 shown the prescription, Respondent acknowledged that there did not appear to have been an  
3 emergency. He additionally acknowledged that the amount prescribed should have lasted Patient  
4 B over a year, which appeared inconsistent with an emergency scenario. Further, he  
5 acknowledged that he was aware that it was inappropriate to prescribe for one person with the  
6 intent of the prescription being used by another person.

7 **Patient C**

8 39. On or about May 31, 2016, Respondent began treating Patient C at BCBH. Patient  
9 C was a minor teenager, who was taking prescribed Zoloft, Abilify, Lamictal, and Ativan, from a  
10 previous medical provider. Prior to concluding the visit, Respondent wrote two (2) Zoloft  
11 prescriptions to Patient C, which resulted in Patient C receiving 400 milligrams of Zoloft daily.<sup>4</sup>  
12 Due to the high amount of Zoloft prescribed by Respondent, Patient C's daily Zoloft dose  
13 exceeded the recommended limit. This resulted in Patient C's insurance refusing to cover the full  
14 amount of the Zoloft prescription. In response, Respondent wrote one prescription for thirty (30)  
15 200-milligram tablets of Zoloft, to be processed through Patient C's mother's insurance company.  
16 Respondent also wrote a second prescription for sixty (60) 100-milligram tablets of Zoloft, to be  
17 paid for in cash.

18 40. When transcribing the two Zoloft prescriptions, Respondent failed to adequately or  
19 accurately document important information. Specifically, when writing the sixty (60) tablet  
20 prescription for Zoloft, Respondent should have documented it as a once-a-day dosage.  
21 Additionally, since two (2) different pill strengths of the same medication were intended to be  
22 taken concurrently, Respondent should have stated in both prescriptions that they were being used  
23 in conjunction.

24 41. Following the visit, Respondent entered the following progress notes regarding his  
25 care and treatment of Patient C:

26 "Subjective: [redacted] is doing very good with the current meds combination but still  
27 has some OCD [obsessive compulsive disorder] symptoms of skin picking and is

28 <sup>4</sup> Respondent stated in his June 16, 2019, interview with DOI that he had an understanding  
with Patient C's mother that Patient C was to only take 300 milligrams of Zoloft daily.

1 enuretic [bedwetting] at night but mom does not want to change any of the meds. No  
2 depression, no significant mood swings, is happy overall and sleep, interest, energy,  
3 concentration, and appetite are fine. No suicidal or homicidal thoughts and no side  
4 effects. [sic]

5 "O: chunky, lesions on arms from skin picking, blunted affect.

6 "A: mood disorder NOS, OCD, Asperger's.

7 "Plan: continue Zoloft, Lamictal, Rexulti and Ativan and return to clinic in three  
8 months."

9 42. Respondent failed to document accurate and adequate treatment notes for Patient  
10 C. Despite the fact that Respondent's notes contain the basic elements of the SOAP format, the  
11 notes failed to adequately convey many necessary aspects of the examination, such as compliance  
12 or objective findings—specifically, speech, attention, and/or thought process. More importantly,  
13 Respondent's notes failed to convey why Patient C, a minor patient, was in need of extreme  
14 medications and high doses. Although Respondent stated in his interview that he believed that he  
15 might have discussed decreasing the Zoloft doses to Patient C's mother, Respondent's notes lack  
16 any documentation of the discussion. Respondent additionally failed to clearly document in the  
17 notes that he was issuing two prescriptions for the same medication, with the intention for the  
18 medications to be filled concurrently. Moreover, Respondent failed to properly document his  
19 reasons for prescribing such an unusual dosage of Zoloft to Patient C.

20 43. Respondent committed the following acts of gross negligence regarding Patient A:

- 21 a.) Respondent provided unauthorized psychiatric care for a personal friend at  
22 BCBH;  
23 b.) Respondent engaged in substandard record keeping and documentation; and  
24 c.) Respondent overprescribed controlled substances.

25 44. Respondent committed gross negligence regarding Patient B, in that Respondent  
26 wrote a prescription for Patient B's mother, which was intended for Patient B.

27 45. Respondent committed gross negligence regarding Patient C, in that Respondent  
28 engaged in substandard record keeping and documentation.

4 as defined by section 2234 of the Code, in that he has engaged in conduct which breaches the  
5 rules or ethical code of the medical profession, or conduct which is unbecoming of a member in

8 realleged and incorporated by reference as if fully set forth herein. Respondent additionally  
9 engaged in the following unprofessional conduct:

10 **Patient D**

11 47. On or about March 28, 2018, Respondent and his daughter were visiting a personal  
12 friend, who is a licensed veterinarian. During the visit, Respondent's friend's dog escaped its  
13 kennel and bit Respondent's minor daughter on the head. Following the dog bite, Respondent  
14 supervised and aided his friend in the unlicensed practice of medicine on humans, while his friend  
15 sutured the child's wounds. After the placement of sutures was completed, Respondent obtained a  
16 ten (10) day supply of cephalexin (antibiotics), from his friend, to administer to the child.

17 **THIRD CAUSE FOR DISCIPLINE**

18 **(Repeated Negligent Acts)**

19 48. Respondent's license is subject to disciplinary action under section 2234,  
20 subdivision (c) of the Code in that he committed repeated negligent acts. The circumstances are  
21 set forth in paragraphs 23 through 47, above, which are incorporated here by reference as if fully

23 **DISCIPLINARY CONSIDERATIONS**

24 54. To determine the degree of discipline, if any, to be imposed on Respondent,

27 of California, in Case Number 02-2003-149423, Respondent's license was placed on probation for  
28 five (5) years—which included several terms and conditions—for gross negligence, repeated

1 negligent acts, incompetence, and prescribing without a good faith examination, in the care and  
2 treatment of multiple patients. That decision is now final and is incorporated by reference as if
