26 Respondent's period of non-practice while on probation shall not exceed two (2) years.

27 Periods of non-practice will not apply to the reduction of the probationary term.

28 Periods of non-practice for a Respondent residing outside of California will relieve

Respondent of the responsibility to comply with the probationary terms and conditions with the exception of this condition and the following terms and conditions of probation: Obey All Laws; General Probation Requirements; Quarterly Declarations.

14. COMPLETION OF PROBATION. Respondent shall comply with all financial obligations (e.g., restitution, probation costs) not later than 120 calendar days prior to the completion of probation. Upon successful completion of probation, Respondent's certificate shall be fully restored.

15. VIOLATION OF PROBATION. Failure to fully comply with any term or condition of probation is a violation of probation. If Respondent violates probation in any respect, the Board, after giving Respondent notice and the opportunity to be heard, may revoke probation and carry out the disciplinary order that was stayed. If an Accusation, or Petition to Revoke Probation, or an Interim Suspension Order is filed against Respondent during probation, the Board shall have continuing jurisdiction until the matter is final, and the period of probation shall be extended until the matter is final.

16. LICENSE SURRENDER. Following the effective date of this Decision, if Respondent ceases practicing due to retirement or health reasons or is otherwise unable to satisfy the terms and conditions of probation, Respondent may request to surrender his or her license. The Board reserves the right to evaluate Respondent's request and to exercise its discretion in determining whether or not to grant the request, or to take any other action deemed appropriate and reasonable under the circumstances. Upon formal acceptance of the surrender, Respondent shall within 15 calendar days deliver Respondent's wallet and wall certificate to the Board or its designee and Respondent shall no longer practice medicine. Respondent will no longer be subject to the terms and conditions of probation. If Respondent re-applies for a medical license, the application shall be treated as a petition for reinstatement of a revoked certificate.

17. PROBATION MONITORING COSTS. Respondent shall pay the costs associated with probation monitoring each and every year of probation, as designated by the Board, which may be adjusted on an annual basis. Costs shall be payable to the Medical Board of California and delivered to the Board or its designee no later than January 31 of each calendar year.

8. On or about September 8, 2016, Patient A, a then 65-year-old female with a complicated history of chronic morbid obesity, hypertension, high cholesterol, asthma, diabetes mellitus, lymphedema, fatigue, depression, pain, and psoriasis, established primary care with Respondent. Prior to this visit, Patient A had undergone extensive preoperative evaluation for bariatric weight loss surgery. At this initial visit, the patient complained of, among other things, obesity, her inability to lose weight despite diet, and depression. 4 10. On or about October 28, 2016, Patient B was seen by Respondent for a follow-up
5 visit. The patient reported that she had lost twenty pounds and was feeling better. At the
6 conclusion of this visit, Respondent ordered lab work that later revealed normal thyroid
7 hormones.

8 11. On or about November 7, 2016, Patient A was seen by Respondent for a follow-up.
9 The patient reported that she was doing well with her weight loss, her swelling was down, and her
10 appetite decreased. At the conclusion of this visit, Respondent increased the patient's DHEA to
11 12.5 mg and her Nature-Throid to 48.75 mg.

12 12. On or about November 25, 2016, Patient A was seen by Respondent to discuss a
13 medication clarification as a result of the pharmacy mistakenly providing her with a higher dose
14 of Nature-Throid. At the conclusion of this visit, Respondent increased the patient's Nature-
15 Throid dose to 130 mg.

16 13. Between in or around November 2016 and in or around July 2017, Respondent

24 with complaints of increased anxiety and depression. At the conclusion of this visit, Respondent
25 maintained the patient on her medications, increased the dose of her antidepressant medication,
26 and prescribed hydrocortisone 20 mg for adrenal insufficiency.

27 16. On or about November 22, 2017, Patient A was seen by Respondent for a follow-up
28 visit with complaints of thinning hair. At this visit, Respondent did not document a detailed

2 noted erythema and some posterior scalp with thinning hair. At the conclusion of the visit,
3 Respondent maintained the patient on her medications and ordered comprehensive labs.

4 17. In or around November 2017, and in or around December 2017, Patient A underwent
5 repeat labs that later revealed low normal cortisol levels.

6 18. On or about January 3, 2018, Patient A was seen by Respondent for a follow-up visit
7 with complaints of weight gain and feeling poorly. At the conclusion of the visit, Respondent
8 diagnosed the patient with, among other things, cortisol deficiency. Respondent maintained

17 20. On or about July 12, 2018, Patient A learned from her pharmacist that hair loss was a
18 side-effect of the hormone medications she had been prescribed, and discontinued her care with
19 Respondent.

20 21. Respondent committed repeated negligent acts in his care and treatment of Patient A,
21 which included but was not limited to, the following:

- 22 A. Prescribing hormone replacement therapy in an elderly woman for weight loss
23 without first performing a thorough breast exam.

13 23. In or around late October 2017, Patient B traveled to Hawaii for vacation. While in
14 Hawaii, the patient fainted and was taken to a local emergency department (ED). The ED
15 evaluated and treated the patient for dehydration. Due to his history of pulmonary emboli, the ED
16 ordered chest CT imaging of Patient B that detected some anomalies in his lungs. The ED
17 discharged Patient B with a CD containing his chest images and encouraged him to discuss the
18 findings with his primary care physician.

19 24. On or about November 1, 2017, Patient B emailed Respondent informing him of his
20 treatment in Hawaii. Patient B further informed Respondent that the ED found some anomalies
21 in his lungs and that he was going bring the CD containing his chest images to the clinic for
22 Respondent to review. Sometime thereafter, Patient B dropped the CD off at the clinic.

11 Respondent informed the patient that he was unable to interpret the images on the CD and needed
12 to request additional records from the ED. During this visit, Patient B complained of continuing
13 erectile dysfunction and informed Respondent that the Cialis had not helped. Lab work ordered
14 by Respondent on that day later revealed the patient had low normal testosterone and free
15 testosterone.

17 visit. At that visit, Respondent reviewed the lab results with the patient and diagnosed him with
